

# Water Infrastructure Improvements for the Nation (WIIN) Amendments to SDWA 1414 (c)(5) Development of the Strategic Plan for Targeted Outreach to Populations Affected by Lead

## **SECOND WEBINAR**

MAY 3, 2017, 3:00PM - 4:00PM ET

### **What is the purpose of this webinar?**

As per the amendments established by the Water Infrastructure Improvements for the Nation (WIIN) Act to the Safe Drinking Water Act (SDWA), EPA must develop a strategic plan within 180 days that describes how the Administrator, states and the public water systems will work together to provide public education to populations affected by lead.

This is the second webinar EPA is hosting to work in collaboration with water systems, states, and water stakeholders to develop this plan. The first webinar provided an overview of the WIIN requirements related to the strategic plan and discussed the first draft. Find that presentation available on the EPA WIIN Strategic Plan web page (link below).

This webinar will address questions received during comment period, address comments in the draft final, and discuss next steps the Agency will take to finalize the strategic plan.

**Registration Link:** <https://attendee.gotowebinar.com/register/7685862637420540930>

### **Who should attend?**

This webinar is open to primacy agencies, states, public water systems, and anyone interested in learning about how EPA will develop and implement the plan.

### **Where can I find more information?**
