OFFICE OF
ENVIRONMENTAL INFORMATION

Judith Nordgren, Managing Director
Chlorine Chemistry Division
American Chemistry Council
700 Second Street, NE
Washington DC 20002

Dear Ms. Nordgren:

I would like to provide an update on the status of your Information Quality Guidelines Request for Correction (RFC #16002) regarding the Chemical Risk Assessment for Ethylene Dichloride as presented in the Toxic Substances Control Act Work Plan, received at the Environmental Protection Agency on December 15, 2015. EPA managers and staff are continuing to conduct a thorough review of your information quality concerns. Due to the complexities raised in your petition, the quality process to validate published information is taking longer than anticipated. We will send you a final response or a status update within 30 business days (April 26, 2017).

Sincerely,

A handwritten signature in cursive script, reading "Vincia Holloman", is written over a horizontal line.

Vincia Holloman,
Acting Director
Enterprise Quality Management Division
Office of Enterprise Information Programs
