Subject: Los Mestenos Quick Question and Update
Date: Wednesday, April 26, 2017 6:28:00 PM

Hi Mitch,

Would you please provide a copy of the compliance test and results for Unit 1, the Solar Saturn 1200 Turbine? The I-COMP form in the application for this unit states that the tests were completed and results submitted. I apologize because I am sure it was submitted but I can't find a copy. I need this to complete the air permit records for the Los Mestenos facility. Also, would you confirm that the turbine is maintain per manufacturer specification and records are kept on site.

Brief update on status: The Los Mestenos draft permit and SOB has been through ORC review and I am addressing some comments received. My goal is to get documents to Jeff for his review by the end of week depending on when I get your response back and ORC turnaround. Hopefully I can get the documents to you and company for review next week.

If you have any questions, please do not hesitate to call or email.

Thank you, Erica
