

**NOTICE OF PUBLIC COMMENT FOR THE PROPOSED DISPOSAL OF
PCB REMEDIATION WASTE AT THE FORMER ALCOA BUILDING 12
SITE IN EDGEWATER, NEW JERSEY**

Notice is hereby given that the United States Environmental Protection Agency (EPA) has received an application from North River Mews Associates, LLC for a risk-based disposal of polychlorinated biphenyl (PCB) remediation waste at the Former Alcoa Building 12 Site located in Edgewater, New Jersey. EPA is accepting comments on the proposed action. The public file consists of the complete application that the EPA considered as well as the Agency's proposed approval.

Please send comments to James Haklar, Senior PCB Disposal Specialist, at haklar.james@epa.gov. **Comments must be received by EPA on or before August 7, 2017.**
