During a conference call with Mr. Mike Holloway on the EPA grant we applied for, we felt it was important for us to request a copy of the comments so we can improve on our proposal for future grant applications. We made such a request and Mr. Holloway responded with the following information: &quot;During your recent RFA grant proposal debriefing, you requested a hard copy of the full reviewers' consensus score/evaluation sheets of your University of California Berkeley grant proposal. As indicated, I've contacted the EPA Office of Grants and Debarment (OGD) to obtain clarification on the policy about giving hard copies of the reviewers' consensus scoresheets to applicants. The EPA OGD typically does not release the hard copies of the scoresheets to applicants. OGD has confirmed that the applicants would need to submit a Freedom of Information Act (FOIA) request to the EPA for the consensus evaluation scoresheets. The scoresheets will not be released without the submission of a FOIA request from the applicant.&quot; Here is the detailed grant application information. We are grateful if you could share a copy of the evaluation scoresheet on the grant we applied for. EPA-R5-2017-008095	Shannon E. Lisa	Edison Wetlands Association	06/06/2017 01:06:00 PM	Assignment Determination	This application under the FOIA requests information on three Superfund sites in Johnson County, Indiana. The 501&copy;(3) non-profit, Edison Wetlands Association, Inc. (EWA) requests a file review of the complete administrative records at any EPA repositories on: Webb Wellfield, C.R. 200 N and N. 400 E, Franklin, IN Amphenol Products Company Plant at 980 Hurricane Road, Franklin, IN Atterbury Reserve Forces Training Area, Hospital Road, Edinburg, IN This includes files held by the EPA and any other agency, including but not limited to: the ATSDR, DOH, DOD and any and all state and federal agencies. This request covers all media including electronic, paper, messages, notes, e-mails, video and audio regarding the referenced sites. The EWA has been dedicated to protecting human health and the environment via education, action, and public awareness since 1989, and has provided technical assistance to communities throughout the US. The EWA is partnered with stakeholders in the Johnson County, IN region, including those affiliated with Trevor's Law (S.50). The EWA is working to acquire, review, and disseminate information about the aforementioned sites in simple-to-understand language to stakeholders through fact sheets, newsletters, presentations, and other media. This will improve meaningful public participation in federal and state-led Superfund processes in Johnson County. The requested information will also give local wealth-challenged families the tools needed to improve communication with the EPA, the Indiana Dept. of Environmental Management (IDEM), and other agencies. The reason for review of the complete administrative record from both the removal and remedial branch is that it will provide understanding and certainty of the contents of the administrative record. This request will significantly contribute to public understanding of the Superfund process, and EPA and other government agencies' roles in the monitoring and remediation of the sites.

					This request under the Freedom of Information Act concerns the Ringwood Mines Superfund Site in Ringwood, New Jersey. The 501&copy;(3) charity, Edison Wetlands Association (EWA), requests a file review of the entire administrative record for the Ringwood Mines Superfund Site at any EPA repository. The EWA has been the facilitator of the Ringwood Community Advisory Group (CAG) for over a decade, and has recently assisted the community with reformation of the CAG. A review of the entire administrative record will give EWA the tools it needs to create fact sheets, newsletters, presentations, and other media, in simple-to-understand language, so that the community members, including those new to the CAG or the site as a whole, can have meaningful participation in the upcoming CAG meetings. The reason for the review of the entire administrative record is many members of the community have raised concerns that there is a significant amount of the administrative record that is not in designated repositories, either in the Ringwood Town Hall or Ringwood Library, as required under the Community Involvement Plan. EWA is providing technical assistance to the CAG at no cost; documents contained within the administrative record will also be reviewed by technical advisor(s) for dissemination to the CAG. This request will significantly contribute to public understanding of the Superfund process, the United States Environmental Protection Agency, and other government agencies' roles in the remediation of the site. This time-sensitive file review request is especially critical as EWA chairs and serves as the neutral facilitator for the Ringwood Mines CAG.

EPA-R9-2017-007912	Lindsay Garner	Herndon Solutions Group	06/01/2017 03:06:14 PM	Assignment Determination	Herndon Solutions Group, LLC (HSG) is under contract with the Bureau of Land Management (BLM) to conduct a Phase I Environmental Site Assessment (ESA) of land located at the former Wendover Air Force Auxiliary Field (AFAF) near West Wendover, Nevada. This land, which is identified in the attached diagram as the "Immediate Transfer Area" (Attachment A), consists of a northern portion located within Township 33 North, Range 70 East, and a southern portion located in Township 32 North, Range 69 and Range 70 East. This land is currently proposed to be relinquished by the United States Air Force (Air Force) to the BLM, and will subsequently be transferred to the City of West Wendover. These two areas together comprise the Subject Property which is the focus of this ESA. HSG would like to obtain copies of documents pertaining to the Wendover AFAF site (also referred to as the Utah Test and Training Range South, Nevada (UTTR South, Nevada) site or FUDS No.: J08UT1001). A waste water treatment plant is located onsite at 101 South Alt. Highway 93 A, West Wendover, NV 89883. Additionally, it was noted that Jerry Cross was the U.S. EPA Project Manager for the Wendover Air Force Auxiliary Field (Formerly Used Defense Site) in 2004. If you need additional information to help locate files, please do not hesitate to contact us. Many thanks,

					To the Environmental Protection Agency FOIA Office, I hope all is well. I'd like to make a request under the Freedom of Information Act. I am writing to seek documents showing communications with the U.S. EPA administrator Scott Pruitt regarding coal in the first week of his tenure at the position. I'd like a copy of any documents, meeting notes and meeting schedules, recorded meetings or phone calls and any other communications that may have occurred to or from the administrator of the U.S. EPA Scott Pruitt that mention the word "coal" between February 17, 2017 and February 24, 2017. I would prefer to receive these documents in electronic form, if possible. I'm a financial coal reporter for S&P Global Market Intelligence, formerly known as SNL Financial, an online trade publication covering energy and this request is made as part of news gathering and not for a commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. The knowledge of the relationships between the head of the U.S. EPA and the coal industry is exceedingly important to the public. I intend to disseminate this information through SNL Energy's news page, as well as via free link on our Twitter accounts, which are widely viewed by the public. I look forward to your timely response with a determination letter within the allowed 20 business days, which is by June 29, 2017, by my calculation. Thank you for your consideration.
