

33.1(455B) Purpose.

This chapter implements the major New Source Review (NSR) program contained in Part C of Title I of the federal Clean Air Act as amended on November 15, 1990, and as promulgated under 40 CFR 51.166 and 52.21 as amended through July 20, 2011. This is a preconstruction review and permitting program applicable to new or modified major stationary sources of air pollutants regulated under Part C of the Clean Air Act as amended on November 15, 1990. In areas that do not meet the national ambient air quality standards (NAAQS), the nonattainment major program applies. The requirements for the nonattainment major NSR program are set forth in 567-22.5(455B), 567-22.6(455B), 567-31.20(455), and 567-31.3(455B). In areas that meet the NAAQS, the PSD program applies. Collectively, the nonattainment major and PSD programs are referred to as the major NSR program. An owner or operator required to apply for a construction permit under 567-Chapter 33 shall submit fees as required in 567-Chapter 30.

Rule 567-33.2(455B) is reserved.

Rule 567-33.3(455B) sets forth the definitions, standards and permitting requirements that are specific to the PSD program.

Rules 567-33.4(455B) through 567-33.8(455B) are reserved.

Rule 567-33.9(455B) includes the conditions under which a source subject to PSD may obtain a plantwide applicability limitation (PAL) on emissions.

In addition to the requirements in this chapter, stationary sources may also be subject to the permitting requirements in 567-Chapter 22, including requirements for Title V operating permits.

567-33.1
