

- (3) In accordance with Sections 6.3(e) and 6.3(j) of the Pennsylvania Air Pollution Control Act (as amended) a two hundred fifty dollar (\$250.00) annual operating permit administrative fee is required each year. This administrative fee is to be submitted thirty (30) days prior to the anniversary date of this operating permit; and is to be submitted with the attached transmittal form.
- (4) This Operating Permit is valid for a limited time and may be renewed before its expiration. Requests for an Operating Permit Renewal must be in writing and must be accompanied by a permit fee in the amount of five hundred dollars (\$500.00) payable to the "Commonwealth of Pennsylvania - Clean Air Fund" (\$250.00 application processing fee and \$250.00 annual administrative fee). The request should be made on an Interim Application for Renewal of a Permit to Operate form and must be received by the Department along with a completed Compliance History form no later than the first of the month in which the permit expires.
- (5) This Operating Permit is issued for Raw Mills No. 1 and No. 2 and Two (2) York Shipley 125 HP Boilers.
- (6) This Operating Permit supersedes and consolidates existing Operating Permits No. 39-302-146 and 39-309-044.
- (7) NOx RACT for the Two (2) Raw Mills and two (2) York Shipley Boilers shall be the installation, maintenance and operation of the sources according to manufactures specifications in accordance with presumptive RACT emission limitations as found in 25 Pa. Code Chapter 129.93(c)(1).
- ~~(8) The sulfur content of the No. 5 oil fired in the Raw Mills shall not, at any time, exceed 2.75% (by weight). Additionally, the oil shall contain no reclaiming or waste oil or other waste materials.~~
- ~~(9) Compliance with the sulfur limit listed in Condition (8) shall be by the signed contracts with the oil suppliers which stipulate the maximum sulfur content indicated in condition (8). Contracts with all oil suppliers shall be submitted to the Bethlehem District Office.~~
- (10) The company shall record the amount of oil fired in each Raw Mill and the raw mix feed rate for each Raw Mill on an hourly and yearly basis. This information shall be submitted to the Bethlehem District Office by March 31 of the following year.

- (11) Only one (1) boiler can be operated at any time.
- (12) Each boiler cannot exceed the following firing rates:
  - (a) 37.5 gallons/hour of No. 2 oil.
  - (b) 35.5 gallons/hour of No. 5 oil.
- ~~(13) The sulfur content of the No. 2 oil fired in the boilers shall not, at any time, exceed 0.3% (by weight). Additionally, the oil shall contain no reclaiming or waste oil or other waste materials.~~
- ~~(14) The sulfur content of the No. 5 oil fired in the boilers shall not, at any time, exceed 1.0% (by weight). Additionally, the oil shall contain no reclaiming or waste oil or other waste materials.~~
- ~~(15) Compliance with the sulfur limit listed in Conditions (13) and (14) shall be by the signed contracts with the oil suppliers which stipulate the maximum sulfur content indicated in Conditions (13) & (14). Contacts with all oil suppliers shall be submitted to the Bethlehem District Office.~~
- (16) The company shall record the amount of oil fired in each boiler on an hourly and yearly basis. This information shall be submitted to the Bethlehem District Office by March 31 of the following year.
- (17) The company shall maintain records in accordance with the record keeping requirements of 25 Pa. Code Chapter 129.95.
- (18) The expiration date shown on this RACT Operating Permit is for State purposes. For Federal Enforcement purposes the Operating Permit shall remain in effect as part of the State Implementation Plan (SIP) until replaced pursuant to 40 CFR 51 and approved by the US Environmental Protection Agency (EPA). The Operating Permit shall become enforceable by the US EPA upon its approval of the above as a revision to the SIP.
