|            | Division President    |              | Erie Co.    |

In accordance with provisions of the Air Pollution Control Act, the Act of January 8, 1960, P. L. 2119, as amended, and with Chapter 127 of the Rules and Regulations of the Department of Environmental Resources, the Department on **May 29, 1997** approved plans for achieving compliance by the above indicated air contamination source(s) with the requirements of 25 Pa Code Section 129.91 through 129.95.

The operating permit is subject to the following conditions:

1. The facility is to be operated in accordance with the plan submitted with the application as approved herein.
2. The source and any associated air cleaning devices are to be:
  - a) operated in such a manner as not to cause air pollution;
  - b) operated and maintained in a manner consistent with good operating and maintenance practices.
3. See attached.

  
Larry W. Wonders  
Regional Air Quality Manager

**PERMIT CONDITIONS**  
**PERMIT NO: OP 25-920**  
**COMPANY: Lakeview Landfill**

3. This RACT approval applies to the emissions of VOC pollutants only.
4. The facility shall comply with the record-keeping requirements of 25 PA Code Section 129.95. Records of fuel quantity and consumption shall be maintained by the facility and forwarded to the Department upon request.
5. The enclosed flare shall be installed, maintained, and operated in accordance with the manufacturers specifications and with good air pollution control practices.
6. The enclosed flare shall comply with the destruction/removal efficiency (DRE) of at least 98% (by weight) for non-methane organic compounds (NMOC).
7. An inspection and cleaning of the enclosed flare shall be conducted annually. The inspection shall include the fuel nozzles or the flame pattern or characteristics. Adjustments in the combustion process shall be conducted if necessary to minimize the formation of NOx and to the extent possible, CO.
8. A log shall be kept to record the annual inspection, cleaning (if necessary) and adjustments performed. This log shall contain at a minimum: the date of the maintenance procedure, the name of the technician(s) performing the service, and the operating rate after the procedure has been completed.
