Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Approval of Source-Specific VOC and NO_x RACT Determinations, and 1990 Baseyear Emissions For One Source

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania for the purpose of establishing VOC and NO_x RACT for three facilities. In the Final Rules section of this Federal Register, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule and the accompanying Technical Support Document. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. If adverse comments are received that do not pertain to all documents subject to this rulemaking action, those documents not affected by the adverse comments will be finalized in the manner described here. Only those documents that receive adverse comments will be withdrawn in the manner described here.

DATES: Comments must be received in writing by January 21, 1997.

Multipoint Distribution Services

AGENCY: Federal Communications Commission.

ACTION: Proposed Rule.

SUMMARY: This Further Notice of Proposed Rule Making ("FNPRM") seeks additional comment in our ongoing proceeding to review our broadcast attribution rules, the rules by which we define what constitutes a "cognizable interest" in applying the multiple ownership rules. We seek comment as to how the relaxation of our ownership rules resulting from the passage of the Telecommunications Act of 1996 ("1996 Act") should affect our review of the attribution rules. We also seek comment on new proposals, including a provision to attribute the otherwise nonattributable interests of holders of equity and/or debt in a licensee or media entity subject to the broadcast cross-ownership rules where the interest holder is a program supplier to a licensee or a same-market media entity subject to the broadcast cross-ownership rules and where the equity and/or debt holding exceeds a specified threshold. Additionally, we seek renewed comment on a proposal to

attribute Local Marketing Agreements ("LMAs"). We also invite comment on whether we should revise our approach to joint sales agreements ("JSAs") in specified circumstances. We also seek comment on a study conducted by Commission staff, appended to this FNPRM, on attributable interests in television broadcast licensees and on the implications of this study for our attribution rules, particularly on the voting stock benchmarks. Finally, we invite comment as to whether we should amend the cable/Multipoint Distribution Service ("MDS") cross-ownership attribution rule. The proposed rules are necessary to promote our goals of maximizing the precision of the attribution rules, avoiding disruption in the flow of capital to broadcasting, affording clarity and certainty to regulatees, and facilitating application processing, and the proposed rules are intended to effect those results.
