

NPDES authorization to discharge to waters of the United States, Permit No. NM0029041

The applicant's mailing address is:

Village of Pecos
P.O. Drawer 337
54 South Main Street
Pecos, NM 87552

As described in the application, the publicly owned treatment works (POTW) is located at 42 Lagoon Lane in San Miguel County, NM. It has a design capacity of 0.15 MGD and serves about 1,500 people. Under the SIC Code 4952, the effluent is discharged into the Pecos River at Latitude 35° 34' 0.17" North, Longitude 105° 40' 20.6" West.

This is a renewal of a permit issued on July 20, 2012 with an effective date of September 1, 2012 and an expiration date of August 31, 2017. The following are the changes from the previous permit:

- A. Added Net-DMR as required by the NPDES electronic reporting rule.
- B. Included sufficiently sensitive EPA-approved analytical methods requirement (under 40 CFR part 136 or required under 40 CFR chapter I, subchapters N or O).

A fact sheet is available for review.

State Certification:

This notice also serves as Public Notice of the intent of the New Mexico Environment Department, Surface Water Quality Bureau to consider issuing Clean Water Act (CWA) Section 401 Certification. The purpose of such certification is to reasonably ensure that the permitted activities will be conducted in a manner that will comply with applicable New Mexico water quality standards, including the anti-degradation policy, and the statewide water quality management plan. The NPDES permit will not be issued until the certification requirements of Section 401 have been met.

If you want to comment on State Certification submit written comments within the 30-day period to:
