

HIA Screening Worksheet

Screening Questions	Response and Supporting Facts
Project and Timing <i>Has a project, plan or policy been proposed?</i> <i>Is there sufficient time to conduct an analysis before the final decision is made?</i>	
Health Impacts <i>Does the decision have the potential to affect environmental or social determinants that impact health outcomes? If so, which determinants and which health outcomes?</i> <i>Would health inequities be impacted? In what ways?</i> <i>Are the proposal's impacts to health likely to be significant in terms of the number of people impacted, the magnitude, breadth and/or immediacy of impacts?</i> <i>Do evidence, expertise, and/or research methods exist to analyze health impacts of the decision?</i>	
Potential Impact of HIA Findings <i>Is health already being considered in the proposal or as part of the decision-making process?</i> <i>Are the links between the proposal and health or health determinants clear?</i> <i>Is the decision-making process open to the HIA and/or recommendations for changes to design, mitigations and/or alternatives?</i> <i>If applied, would HIA findings and recommendations potentially improve the impact that the proposal has on health?</i>	
Potential Impact of the HIA Process <i>What are the potential impacts of the HIA process? (e.g., building relationships, empowering community members, demonstrating how health can be used in decision making)</i>	
Stakeholder Interest and Capacity <i>Have public concerns about the health impacts of the decision been voiced or documented?</i> <i>Who are the stakeholders and interest groups involved in the decision-making process?</i> <i>Do stakeholders have the interest to participate in the HIA?</i> <i>Do stakeholders have the capacity (resources, skills, etc.) to participate in the HIA?</i> <i>Would stakeholders use the HIA to inform or influence the decision-making process? How?</i>
