04.13.10 AM Cleveland Section 301(g) Permit Modification Request.pdf

Hi Sreedevi! The permit modification is attached. I was hoping to send a copy with a transmittal letter, but I'm having some temporary issues with getting the letter through sign-off.

Eric and Erm

Attached is the signed final NPDES permit modification application. A hardcopy and check for \$200 is being mailed to Erm Gomes at OEPA-NEDO. Your efforts to review the draft application information presented over the last several weeks related to our request to modify the existing 301 (g) ammonia limitations at Outfall 604 are appreciated. Please contact me if you have any questions.
