

Wrap-Up

MOVES Review Work Group
September 13, 2017

- Wrap-up & Discussion
- Tentative Topics for December 6, 2017 Meeting:
 - Updated Engine Categories, Emission Rates, and Speciation Profiles for Tier 4 Nonroad Diesel Engines
 - Updated Heavy-Duty Starts and Idle Activity Using Telematics Data
 - Tool to Model Ramps in Project Scale
 - Proposed Updates to MY 2010+ Heavy-Duty Vehicles – Fixed Mass Factor and Diesel Particulate Matter Rates
 - Proposed Updates to MOVES Heavy-Duty Source Masses using VTRIS Data
 - Long-Term Plans for Work Group
- Reminder
 - Please send additional comments on today’s presentations to Sarah Roberts (Roberts.Sarah@epa.gov) by October 11, 2017

- The Work Group's short- and long-term recommendations were presented to the Mobile Sources Technical Review Subcommittee in May. This presentation can be viewed here: <https://www.epa.gov/sites/production/files/2017-06/documents/053120217-barth.pdf>
- We want to continue these Work Group meetings and invite outside presentations that would help shape long-term MOVES development process, in addition to the EPA presentations
 - Meeting Format:
 - Continue quarterly meetings?
 - Duration: ½ day vs. ¾ day?
 - TRB meeting?
 - Process:
 - Submit one-page requests for presentations. Requests should include a title, abstract, results, and significance to MOVES
 - Submit to Sarah Roberts (Roberts.Sarah@epa.gov)
 - Requests will be prioritized by MOVES Workgroup Co-Chairs
