Dear FOIA Officer:

I am writing to submit a FOIA request. If publically available, please provide the following information regarding the business entities listed below:

- Any records of violations these entities incurred for all available years;
- Any records pertaining to complaints, investigations, or correspondence involving these business entities or the individual, Mr. Khatchik "Katcho" H. Achadjian (d.o.b. 6/2/1951) for all available years;

The entities and individual are as follows:

(1) ATGOP LLC
222 E. Grand Avenue

This is a request under the Freedom of Information Act.

I request an electronic copy (e.g. pdfs on a CD-ROM or via email) of U.S. Environmental Protection Agency data pertaining to Local Emergency Planning Committees (LEPCs).

According to an EPA final report entitled "2008 Nationwide Survey of Local Emergency Planning Committees (LEPCs)," the agency maintains a national LEPC database. I request access to this database; specifically, I request the name, location, and website (if applicable) for each LEPC. I also request the telephone number, mailing address, and email address for the point-of-contact at each LEPC.

In addition, I request a copy of the survey results for the LEPCs that responded to the 2008 LEPC survey conducted by the EPA's Office of Emergency Management. This survey provided the basis for the aforementioned final report, which can be found here: http://www2.epa.gov/sites/production/files/2013-08/documents/2008_lepcsurv.pdf

In order to help to determine my status to assess fees, you should know that the Center for Effective Government is a non-profit educational institution, and this request is made for educational purposes and not for a commercial use.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest.

Sincerely,

NYD980202014 - Former Superfund Site in Red Hook, NY 12571:

I would like to know specifically what hazardous wastes were found, and where on the property they were found. I would like to be comfortable that the bordering property is not affected. I am trying to decide whether I should have the well water on the bordering property tested for particular substances before I purchase it. If there is any info that you can offer, it would be appreciated.

Additionally, I want to know the current status of this site, and some detail about what would be required of the owner of the site in order for them to develop it. My understanding is that the site has only been designated "remediated" for use as a vacant parcel, and to develop the site for residential purposes, an applicant would have to undertake further remediation to make the property safe for residential use, which would also likely require DEC approval. Could you give me more detail?

Sincerely,

I would like to request the emails and written communication of the EPA officials involved in the webpage changes related to wireless technology found here <http://www3.epa.gov/radtown/subpage.html#?scene=The+Burbs&polaroid=House&sheet=5>
My understanding is that this page became live on the EPA site around August 2014. Previous to this webpage in August 2014, there was a webpage that looked very different and had very different sentences on it especially in terms of wireless technology and potential health risks.

				Good morning,
				I am performing a Phase II ESA on a property located at 205 Philmont Ave, Feasterville, PA, 19053. This property is owned by my father, Vince Campellone, who lives at 5511 Sanderling Drive, Doylestown, PA. I believe a Phase I ESA was completed in the 1990s on the property. Is there any chance you have that document for this investigation and for documentation?

This is a request for information on TSCA-permitted PCB DISPOSAL facilities. We are looking for operational histories and documentation for chemical waste landfills or incinerators were permitted to dispose of TSCA controlled PCB wastes before 1990. More specifically, we are seeking to obtain a record or other documentation of the initial (original) TSCA permit approval date, as well as operational histories including what types of waste were accepted at each facility. In this region, we have already identified a few facilities, but understand that there may have been more that are no longer in operation.

Here are some of the facilities we have some information on:

- The CECOS Niagara falls facility (5600 Niagara Falls Boulevard, Niagara Falls NY). This landfill opened up sometime in the late 1980s, but we couldn't narrow it down any farther

- We are NOT interested in the Chemical Waste Management Model City Hazardous Waste Facility (1550 Balmer Road, Model City, NY 14107), as TSCA approval was granted in late 1990

Sometime between September 17, 2013 and September 30, 2013, EPA Region 6 Congressional Liaison LaWanda Thomas provided responses to U.S. Congressman Steve Womack's Projects Director Kyle Weaver's inquiry (please see attached) which included the following statement:

"Arkwood can return to productive use at any time, provided that the remedy is not compromised. The remedy that cannot be compromised consists of addressing the soil and groundwater to numerical cleanup goals as specified in the 1990 Record of Decision (and to be updated with the dioxin re-evaluation) and institutional controls."

Good day,

I'm interested in acquiring the Underground Storage Tanks (USTs) on Indian Lands database. This file will consist of a detailed listing of all USTs that reside on Indian Lands in Regions 3, 6, 7, 8, 9 and 10.

Please note, my request is NOT site specific but instead I am interested in ALL sites so the entire and complete full database of USTs on Indian lands in Regions 3, 6, 7, 8, 9 and 10. Please provide this file in either Excel, Access, or csv format.

Furthermore, I'm interested in acquiring the Leaking Underground Storage Tanks (LUSTs) on Indian Lands database. This file will consist of a detailed listing of all LUSTs that reside on Indian Lands in Regions 3, 6, 7, 8, 9 and 10. Please provide this database in Excel, Access or csv format as well.

Avocet Environmental, Inc. (Avocet) is conducting a Phase I environmental site assessment for an approximately 153 acre property on the southeast corner of Cushing Parkway and Bunche Drive in Fremont, California. Pursuant to the provisions of the California Public Records Act, Avocet respectfully requests access to environmental records on file in your office for this property.

The property is currently undeveloped but was used for agriculture in the past. In addition, a drag racing strip and an unpaved runway for light aircraft encroached into the property, although the associated Baylands Raceway and Sky Sailing Airport infrastructure was located "offsite" to the south. It also appears the site is within the boundary of Heath Field, a former U.S. Navy "auxiliary airfield" used for pilot training during World War II. For the purpose of this request, environmental records would include underground storage tank, aboveground storage tank, "tiered" and/or other environmental permits; enforcement orders; and reports and correspondence related to site investigation/assessment, soil sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or

I am requesting a nonconfidential copy of the TSCA Section 5(e) order concerning Acetic acid, [(5-chloro-8-quinolinyl)oxy-], 1-methyl hexyl ester.

There is a Significant New Use Rule for this substance, at 40 CFR § 721.304. The Federal Register Notice announcing this SNUR is 68 Fed.Reg. 70155 (Dec 17, 2003). I have attached a copy. On the first page of this Federal Register notice it says that all of the substances covered in that notice were subject to TSCA 5(e) consent orders.

Additional information about this substance from the Federal Register says it is acetic acid, [(5-chloro-8-quinolinyl)oxy-], 1-methylhexyl ester (PMN P-01-170; CAS No. 99607-70-2).

I'd like the same info as I requested last year (file was sent to me on 8/19/14):

Steph Flaharty sent me two data files (Excel is fine)--one for the public water systems (PWS) and one for wastewater systems (NPDES) (in the USA only). She pulled permits with the primary SIC code of 4952, which indicates sewerage systems (which is the same as wastewater plants). Thanks for sending me both files again this year; the most recent data available would be great.

Thanks much!

Companies or persons wishing to export used, intact cathode ray tubes for reuse are required to send a one-time notification of their export activities to their regional EPA office. On behalf of The Associated Press, I'm seeking data on each such notification submitted in your region between Jan. 1, 2012, and Dec. 31, 2014.

I would prefer to receive a copy of each notification. However, if substantially all of the information included in these notifications is collected and aggregated into a single document or report, I would consider the production of that record a fulfillment of my request.

This is a follow up FOIA request.

On 02/03/15 I submitted a FOIA request which was assigned EPA-R3-2015-003837. On April 21, 2015 I received a letter (attached) from the EPA stating they there were no responsive documents to my FOIA request . However since that time I have received from the Maryland Department of the Environment ("MDE"), a 03/31/15 letter (attached) from MDE to EPA seeking enforcement review of this site/permit due to "ongoing violations of the permit" that have placed the facility "in significant noncompliance."

This makes me think that maybe there are now documents responsive to this request. As such I would like to re-submit my request to obtain documents relating to Clean Water Act/NPDES permit violations at the National Archives II site at 8601 Adelphi Rd. College Park MD, NPDES Permit # MD0065871:

- Orders
- consent decrees
- documents relating to penalties against the facility for CWA /NPDES permit violations
- documents relating to enforcement actions against the facility for CWA /NPDES permit violations
- agency and/or independent analysis of the monitoring data collected from facility in connection with NPDES monitoring
- any and all correspondence between the agency and the facility regarding NPDES permit levels, permit violations and enforcement actions

Requesting and information regarding storage of toxic or hazardous materials, inspections, violations, sampling performed on the property, permit, environmental report, etc.

Dear Sir/Madam:

Avocet Environmental, Inc. (Avocet) is conducting a Phase I environmental site assessment for the approximately 4.5 acre property at 15100 South San Pedro Street in Gardena, California. Pursuant to the provisions of the California Public Records Act, Avocet respectfully requests access to environmental records on file in your office for this property.

The site is currently owned by Mobile Storage Group, Inc. but was occupied in the past by Alameda Pipe & Supply, Inc. For the purpose of this request, environmental records would include underground storage tank, aboveground storage tank, "tiered" and/or other environmental permits; enforcement orders; and reports and correspondence related to site investigation/assessment, soil sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Hello, I am requesting records regarding the property located at 1101 C Avenue West in Seymour, Indiana. Specifically, I am looking for records regarding the storage and/or release of hazardous substances or petroleum products, including any incidents involving water or land contamination, and any permits, registrations, inspection reports, and/or notices of violation.

Thank you!

Please see attached letter containing my request. A signed affirmation is also attached.

Thank you,

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I request the following information regarding the Blanket Purchasing Agreement (BPA) or contract to provide wireless services and equipment to the Environmental Protection Agency. We are seeking the related documents to all four wireless contractors. We would like the documentation of the revenue to each of the contractors by year, the number of lines (voice and data) each contractor provides, if available.

If your department does not maintain these public records, please inform me of the proper custodian's name and contact information. If there are any fees to be incurred as a result of this request, please contact me immediately.

As provided in the open records law, I will expect your response within 20 days. If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. Also, please provide all segregable portions of otherwise exempt material. If any of this material is exempt from the FOIA, please provide the section under which the information was denied. We would also be happy to accept piecemeal responses as they become available.

Please contact me at zfarr@cwa-union.org or 202-434-1127 with any questions.

Thank you very much for your time and prompt response.

Sincerely,

Hello, I am looking for more specific details regarding the following violations that I found on the EPA website. The company in question is Patriot Recycling, located in Oceanside, New York.

A review of the U.S. Environmental Protection Agency (EPA) Enforcement and Compliance History Online (ECHO) records identified Patriot Recycling's noncompliance violations of the Clean Water Act (CWA) in the last 13 quarters. Rieco Properties, located at 3631 Hampton Road, Oceanside, New York 11572, is identified as the registered facility. In a review of the EPA Facility Detail Report for Rieco Properties, both Patriot Recycling and Liberty Recycling LLC were listed as alternative names. Framitz Inc. / Rieco Properties Inc. was listed as the owner of the facility. Donna Galligan, the managing member of Patriot Recycling, was listed as the "Water Fee Billing Contact."

While I see that there are violations of the CWA, I did not find the specific details regarding these violations. I am attaching information I found on the EPA website as supporting materials to my request.

Under the Freedom of Information Act, I am requesting correspondence and communication between the U.S. EPA Region 10 office, EPA headquarters, and any representatives, agents of or contractors for the responsible parties of the Lower Duwamish Waterway Superfund Site as well as any public presentations or communications by USEPA regarding the same between Nov. 1, 2014 and the most recently-available date at the time this request is processed. I am also requesting the minutes or other records of any meetings between those parties for the same period.

The scope of this request includes correspondence between EPA officials in the Region 10 office and any representatives, agents of or contractors for either the Lower Duwamish Waterway Group (City of Seattle, King County, Port of Seattle, and the Boeing Company) or the parties identified by the EPA in the general notice letters sent by the agency in December 2013 or any other entity names among the parties potentially responsible for the remediation of the site.

That scope should be understood to include e-mails, letters, text messages, presentations, and any other correspondence between the above named parties or with public stakeholders.

“Representatives, agents of or contractors” should be understood to mean any public relations representatives, attorneys, lobbyists, technical advisers or other persons employed by, speaking on behalf of or in the interest of any of the potentially responsible parties.

The subject of this request includes any questions, comments and conversations regarding the EPA's selected remedy memorialized in the Record of Decision, the status and timing of the implementation of the selected remedy, and the allocation of liability (or release of liability) to either the General Notice Letter recipient parties, the Lower Duwamish Waterway Group parties, or any other potentially responsible parties.

-Records concerning property addressed as 3633 West Lake Street; Glenview, IL 60026

-Records related to Underground Storage Tanks or Leaking Underground Storage Tanks (LUST)

-Records related to any Preliminary Site Investigations under CERCLA

I would like to request information regarding the relationship between the intentional community/commune Black Bear Ranch and institutional conservation efforts in Siskyou County between 1968 and the present. I am currently a PhD Candidate in Cultural Studies and English, working on a dissertation that explores the relationship between landscape, development, and sustainability at Claremont Graduate Univ. in LA County. The requested information will form a crucial part of the dissertation's exploration of conservation, back to the land movements, and discourse about developing for a sustainable future. As a part of this request, I am particularly interested in any available information about interactions between Black Bear Ranch and parks services, conservation initiatives, and forestry in Siskyou County, CA. Black Bear Ranch is located in the Trinity Alps, roughly 25 miles from Forks of Salmon Road. If it is possible, I would also like to review relevant information about conservation efforts in Siskyou County over this period of time as well (1968-present). Thank you for your help with this.

Re: FOIA Request

I am requesting, under the Freedom of Information Act (FOIA), records for the following property:

1182 Route 69
Tyler, TX 75706

Please provide the following information for the above property:

Any records pertaining to past or present: environmental matters; alleged or confirmed compliance issues; hazardous materials use or storage at this property; alleged or confirmed releases on this property; environmental complaints, investigations, or violations; environmental liens, use or activity restrictions.

In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am affiliated with a private corporation and am seeking information for use in the company's business.

I am willing to pay fees associated with this request, but request to be advised of estimated costs prior to any such costs being incurred.

If you deny any part of this request, please cite each specific reason that you think justifies your refusal to release the information. Please notify me of appeal procedures available under the law.

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, this office requests access to and the ability to make copies (or request copies) of all non-privileged files, documents, letters, reports (including drafts), maps, photographs, data, permits, applications, notices, petitions, orders, forms, or other records relating to or regarding the U.S. Environmental Protection Agency (EPA) Underground Injection Control (UIC) Program for Class II wells in and around the City of Poplar, Montana, and the Northwest and East Poplar Oil Fields near Poplar, Montana. We are asking for records between the years 1940 and the present.

This request includes copies or records reflecting any permits issued, corresponding permit applications, permit conditions, and recordkeeping records set forth in 40 C.F.R. §§ 144.31–.55. This request also includes copies of other records, information, or requirements maintained pursuant to 40 C.F.R. Chapter I, Subchapter D, Part 144, including §§ 144.17, 144.26–.28. This office further requests all EPA Form 7520s submitted to the EPA from a well owner/operator, the State of Montana, or the Bureau of Indian Affairs, Fort Peck Agency, or any EPA Form 7520s submitted by the EPA to a well owner/operator, the State of Montana or the Bureau of Indian Affairs, Fort Peck Agency concerning the locations and time period set forth above.

If this request is denied in whole or in part, please justify all deletions by reference to specific exemptions of the Act or applicable statute. If there are any deletions, please release all segregable portions of otherwise exempt material. This office, of course, reserves the right to appeal your decision to withhold any information or to deny any waiver of fees. In terms of fees, please let me know whether this request will exceed \$500.00.

Dear Madam or Sir:

This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. We seek copies of any and all documents – except for the actual study reports - related to certain data submissions by the The Dow Chemical Company's ("Dow") for Glutaraldehyde (Chemical Code: 43901). These data submissions are identified in the table set forth below by Master Record Identification Numbers (MRIDs) and the information Dow requests includes, but is not limited to, correspondence, internal memoranda, reports, Data Evaluation Reports (DERs), notes, or other records.

7/9/2015 19:07 I would like to obtain data on the amount of Renewable Identification Numbers (RINs) issued to GRC Fuels Inc. from 2009 to 2014. I believe GRC Fuels has the ID# 3588. It is my understanding that the EPA's Office of Transportation and Air Quality with the Transportation and Regional Program Division in Washington, D.C. would have the information.

Through the Freedom of Information Act, I am requesting the following:

Permit Compliance System and ICIS/NPDES Enforcement and Violation Data for all 10 EPA Regions.

The dates of coverage I would like are 1-1-2000 through 6-30-2015

I would like the data on CDROM in Excel or Access format.

Please include any documentation we may need to read the disks.

Fields I would like are:

NPDES Permit Number
Facility Name
Facility location address
Facility location city
facility location state
facility location zip
county
EPA region
Major/Minor Indicator
Facility Type Description
Enforcement Action Description
Enforcement Action Date
Enforcement Status Description
Amount of Penalty Assessed

Dear Ms. Davis and EPA Office of Ground Water and Drinking Water,
I am a PhD student at the Ross School of Business, University of Michigan and I am co-authoring a paper with my adviser, Professor Thomas Lyon, on Safe Drinking Water Act (SDWA) violations by water systems. We have obtained access to the data from 2010 through 2014, but need a longer panel of data to complete our study.
On behalf of Professor Lyon and myself, I would like to express my sincere gratitude for your prompt response to our previous FOIA request (EPA-HQ-2015-007895). The information you kindly provided us covers what we requested comprehensively. However, there are several unexpected and major differences in structure between the data released under the FOIA request and that available on the EPA website, which prevent us from conducting the type of analysis we aim to perform. In particular, we still need detailed system-level information about all systems, including, for example, their PWSID and ownership status. We believe that access to the archived versions of a closely related data set on the EPA web page, which is listed right below the data for which we filed the previous FOIA request, would solve the problem. Specifically, this is the "zipped detailed inventory MS Excel PivotTables" in the section named "Detailed inventory data, by water system type, which includes data on individual water systems" on the "SDWISFED Drinking Water Data" web page (File downloading link: <http://water.epa.gov/scitech/datait/databases/drink/sdwisfed/upload/sdwisfy2013Inventory.zip> Web page: <http://water.epa.gov/scitech/datait/databases/drink/sdwisfed/pivottables.cfm>). The currently available version of this data set only covers fiscal year 2013. So we would truly appreciate it if we could be granted access to the archived versions of the data set, going back to 1994 or as far as possible historically if later than 1994.
Again, we really appreciate your help on this.
Yours sincerely,

EPA-HQ-2015-008808 Dan Zhao

				I am requesting a search for records for a 301 (a) complaint filed on 3/8/85 against Marine Power & Equipment Company, Inc. This complaint is related to pollution in the Duwamish River and Lake Union in Seattle, WA. The complaint led to the filing of a legal action titled "United States of America and State of Washington, Department of Ecology, v. Marine Power and Equipment Company Inc., and WFI Industries, Inc." We are trying to determine what records exist for the complaint and/or any cleanup. In particular, we are interested in any information on the insurance coverage of Marine Power which may have been used to cover the costs of the cleanup. Pertinent records could include any checks from an insurance carrier, correspondence, interrogatories, requests for information by the EPA, or other records. Dear FOIA officer:

Pursuant to United States of America's The Freedom of Information Act (552), I hereby request the following records:

Emails and other electronic communications from EPA employees that discuss either of two proposed World Bank Group projects: International Bank for Reconstruction and Development (IBRD) support for the financing of the Medupi coal-fired power plan in South Africa (also known as Eskom); and International Finance Corp. (IFC) investment in Mira Power Limited for the Gulpur Hydro Project in Pakistan.

Under the The Freedom of Information Act the government is allowed to charge only the cost of copying materials. I am requesting that you waive all applicable fees associated with this request as I believe this request is in the public interest. Release of this information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If you deny this request for a fee waiver, please advise me in advance of the estimated charges if they are to exceed \$25. Please send me a detailed and itemized explanation of those charges.

In the interest of expediency, and to minimize the research and/or duplication burden on your staff, please send records electronically if possible. If this is not possible, please notify me before sending to the address listed below. Since time is a factor, please communicate with me by telephone or this email address

7/15/2015 13:07 REGARDING THIS ENFORCEMENT ACTION

I have recently contacted EPA Region 10 (along with all 50 states and EPA Headquarters) on behalf of Promika, LLC regarding the company, TruRx, LLC and illegal misbranding & FIFRA violations. TruRx, LLC had illegally added a "Contains Statement" sticker on their 3 brand names: PetAction™ Plus, PetLock™ Plus and PetWorks™ Plus. The Contains Statement was not only NOT found on the EPA Stamped Master label, TruRx, LLC added the sticker and did not list the correct EPA Establishment Number on the packaging. The deliberately misled state regulatory officials to achieve state registrations, giving them an illegal and unfair competitive advantage that purposefully misled customers.

I would like to submit this FOIA request in order to see the exact ruling, direction and communication that EPA Region 10 gave to TruRx, LLC. It was communicated that EPA Region 10 gave TruRx, LLC the option to update their EPA master label, re-sticker existing inventory to correct the Contains Statement and EPA Establishment Number, however TruRx, LLC is still using this Contains Statement, with the different font sizes and colors, in their promotional material.

Could we please see the correspondence between EPA Region 10 and TruRx, LLC on the exact decision that was made by EPA Region 10.

U.S. Customs Entry no. W69-33818172
Importer of Record: Ridgerock Tools Inc.

Cargo of 100 pieces of generators were on hold at U.S. Customs examination site for Exam. According to the attached email from CPB Officer Rene Arreygue on July 13th, 2015, sample of the inspected equipment 's muffler/ exhaust assembly was sent to EPA for inspection and revealed that there is a material difference from the certified design of catalyst.

EPA offers an option of seizure, or export the detained merchandise of 100 generators.

According to importer of record and shipping agent, a copy of analysis report from EPA laboratory for the detained cargo is required at oversea, it's essential supporting document for the rejected shipment exporting from United States.

Pursuant to the Freedom of Information Act, we request U.S. Environmental Protection Agency make available to us, or the Importer of Record, a copy analysis report of Physical and chemical examination from laboratory (in electronic form) for the detained generators, as described above.

If you have any question, please feel free to contact at 909-839-7479. Continental Agency Inc agrees to pay any and all fees for search and duplication of the requested records.

Sincerely,
Ivan Chung

I am trying to assess when in the lifecycle of older, pre-Subtitle D MSW landfills that used clay liners first experienced groundwater contamination events and assess the severity of such events. I am seeking as comprehensive a report / study covering as many landfills in the U.S. as possible. I am seeking a study that assesses empirical test results at actual landfills (and not theoretical laboratory test results). Any related studies that were performed in relation to the implementation of Subtitle D regulations in 1993 are of interest. I am requesting all documents in the possession of the United States Environmental Protection Agency ("EPA") regarding two products: Hot Shot Bedbug & Flea Fogger and Evercide Total Release Aerosol 2614.

The EPA registration number for Hot Shot Bedbug & Flea Fogger is 1021-1674-8845. McLaughlin Gormley King Company ("MGK") is the registrant of the registered basic product, which is called Evercide Total Release Aerosol 2614 (EPA Registration No. 1021-1674). United Industries Corporation ("UIC") is the supplemental distributor with respect to Hot Shot Bedbug & Flea Fogger.

This request includes the following categories of documents:

- all documents regarding the efficacy and/or safety of these products;
- all documents submitted to EPA regarding these products; and
- all documents sent to UIC or MGK regarding these products.

As used in this request, please interpret the word "document" to include any tangible thing upon which any expression, communication or representation has been recorded, or graphic matters, however produced or reproduced. This definition includes, but is not limited to, records, reports, raw data, spreadsheets, notes, summaries, schedules, contracts or agreements, memoranda, letters, photographs, pictures or films, or written materials of any nature.

If possible, please produce the above documents in electronic form (e.g., on a DVD or CD-ROM, or some other digital format). If this is not possible, please produce the documents in paper form.

If there are responsive documents that you have but that you will not be producing, I request that you privilege a privilege log that generally describes each document you are not producing and the reasons for the withholding.

I understand the current Lorenz Regional Park used to be the County Line Landfill which according to this website (<http://www.homefacts.com/environmentalhazards/Colorado/Arapahoe-County/Littleton/Superfund-County-Line-Landfill-Cod980960678.html>) is an Archived EPA Superfund site. The location of this landfill/park is near County Line Road and Colorado Boulevard just north of C-470.

I visited the EPA website for region 8 and I could not find any information about what the environmental toxins were found at this location, nor was I able to find what type of mitigation was done to address the situation. I was extremely disappointed to learn that I was unable to access this information, especially considering it is now a park with children and pets that frequent the area.

I would like to know what the problems found were, as well as what was done to address them. Additionally, what is required for a superfund site to be considered "Archived".

I am looking at purchasing real-estate in the area and have a rather short turn around time for researching this information. It would be preferred if the information could be emailed to me.

Dear Sir or Madam:

Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. § 552), and EPA's freedom of information regulations, I am writing to request a non-confidential copy of premanufacture notice (PMN) P-09-241 for the chemical substance, 1,2-ethanediol, reaction products with epichlorohydrin. Notice of EPA's receipt of this PMN was published in the Federal Register on April 13, 2009, and notice of EPA's receipt of the notice of commencement for this substance was published in the Federal Register on March 10, 2010. According to the first Federal Register notice, this PMN was filed by Nagase America Corporation.

We agree to pay reasonable search and reproduction costs for this information up to \$100. A quick response would be greatly appreciated.

EPA-HQ-2015-009331 Gregory A. Clark Keller and Heckman LLP 7/27/2015 13:07 clarkg@khlaw.com. Thank you in advance for your assistance.

Please contact me for additional authorization of fees beyond \$100.

EPA-R10-2015-009330 Sean P. Hughey Hart Wagner, LLP 7/27/2015 13:07 I am requesting all records related to an aerial application of pesticides in Curry County, Oregon on October 16, 2013. Please see attachment for additional details.

This is a FOIA request that EPA Region 8 provide representatives of this office with (a) access and opportunity for review/photocopying and/or (b) copies of files/documents/maps in the possession, custody, or control of EPA relating to the Gilt Edge Mine Superfund Site, aka Brohm Mining Corp. Superfund Site, located near Lead, S.D. More specifically, requested are those records which are: (1) Summaries of the companies, operators and drilling they did by year and other summaries of what the records look like, and naming conventions for all those drill hole records, in the filing cabinets; (2) Drill files Brohm created while in control of the mine (these may remain on site); and (3) Drill files related to other operators & explorations prior to Brohm, seized by EPA and DOJ as part of the search for additional responsible parties. To assist in identifying the records requested, two one-page lists, in the form of XL worksheets, are attached. The first, Attachment 1, is entitled "Historic Gilt Edge Drill Hole File Information." The second, Attachment 2, is entitled "TABLE OF DRILLERS, OPERATORS, YEARS and DRILLING TYPES." PLEASE SEE THE ATTACHED SUPPORTING DOCUMENTS. This office does not anticipate any records requested above will be subject to any FOIA exemptions from disclosure. If however, EPA asserts certain parts of the requested records are subject to a FOIA exemption, this office requests EPA provide it with access to and photocopying or copies of those portions of the records not subject to exemption, and provide an index and specific ground(s) under FOIA for withholding such records or parts of records.

For context, this is related to 40 CFR § 51.370 Compliance with recall notices. The statement below indicates this information is provided by the EPA:

(a) General requirements.

(1) The State shall have an electronic means to identify recalled vehicles based on lists of VINs with unresolved recalls made available by EPA, the vehicle manufacturers, or a third party supplier approved by the Administrator. The State shall update its list of unresolved recalls on a quarterly basis at a minimum.

Dear Sir or Madam:

This is a request under the Freedom of Information Act, 5 U.S.C § 552. On or around April 2013, the People of the State of Illinois filed an amended complaint against DeGroate Petroleum Service Inc., First Midwest Bank, John R. DeGroate, and Violet I. DeGroate at the request of the Illinois Environmental Protection Agency (“Illinois EPA”) under Case No. 11 CH 2381 in the Circuit Court of Will County, Illinois (the “DeGroate Lawsuit”). On or around January 16, 2015, the Illinois EPA, the People of the State of Illinois, and Defendants filed a Consent Order in the DeGroate Lawsuit (See enclosed Consent Order for your convenience).

We request copies of any and all documents related to and/or concerning the DeGroate Lawsuit and/or the Consent Order, including, without limitation, any discovery documents produced in the DeGroate Lawsuit and any documents, correspondence, reports, or inspections in the custody of the Illinois EPA related to the DeGroate Lawsuit and/or the Consent Order.

We will accept either physical copies of the documents or documents in electronic format. In order to determine my status for the applicability of fees, you should know that we are a commercial-use requester. We agree to pay the fee, but please consult the undersigned if the fee will be over \$500.

In 2011 & 2012, EPA supported work by ENVIRON (ENVIRON International Corporation; 773 San Marin Drive, Suite 2115; Novato, California, 94998) in at least 2 separate efforts which resulted in separate publications:

- Documentation of the Evaluation of CALPUFF and Other Long Range Transport Models using Tracer Field Experiment Data. Environ. 280pp. EPA Contract No. EP-D-07-102; Work Assignment No. 4-06
- Evaluation of Chemical Dispersion Models using Atmospheric Plume Measurements from Field Experiments. Environ. 127pp. EPA Contract No. EP-D-07-102; Work Assignment Nos. 4-06 & 5-08

It appears that Contract No. EP-D-07-102 was an umbrella for both of these efforts, with WA 4-06 shared between them. I would like to know how much OAQPS paid on this contractual effort:

EPA Contract No. EP-D-07-102; Work Assignment No. 4-06

If there were other funding mechanisms supporting ENVIRON associated with the first report listed above, I would like to know the nature of those efforts and what funding levels were involved. To be clear, to the extent possible, I'd like to know how much was spent on the 1st (of the two) report listed above.

I stumbled onto the attached file [Contract (EK Report).xls] that comprehensively lists many contracts across all of EPA going back to at least the mid-90s, but I do not see this contract among them.

I prefer a response via e-mail:

FOIA Request for 104(e) Information for:

Former TRW/Monadnock Facility
18301 Arenth Avenue
City of Industry, CA 91748

A previous FOIA request for this property (EPA-R9-2015-007555) resulted in a "no records" letter (attached) dated July 1, 2015. Despite this letter, I understand EPA may have 104(e) information for this property that I would like to obtain.

FYI, this property has been investigated by the Los Angeles Regional Water Quality Control Board (File No. 105.0181) and was the subject of Cleanup and Abatement Order No. 88 057. As a result of its past operations at the property, TRW is or was a "potentially responsible party" in the Puente Valley Operable Unit. The property is identified in the GeoTracker database as SL0603701526.

Thank you in advance.

National Freedom of Information Officer
United States Environmental Protection Agency
1200 Pennsylvania Avenue (1105A)
Washington, D.C. 20460

Dear Mr. Gottesman:

I am writing to request all contracting information pertaining to Coastal Environmental Services, which was a vendor involved in the BP oil spill. Unfortunately, the EPA's website no longer maintains such information. Please include correspondence as well as copies of contracts and related vendor records.

I am willing to pay up to \$25.00 for this request, which I am making for personal, research purposes. Please let me know me if you expect this request to cost more than \$25.00. If possible, please send the responsive records to me electronically at markbrunner92@gmail.com.

Thank you for your time and consideration.

Sincerely,

EPA-HQ-2015-009708 Mark Brunner

Under the Freedom of Information Act (FOIA), we are requesting a copy of the 2014 annual and final reports submitted for our project: My colleague and I are the Principal Investigators on EPA STAR Project: EPA-STAR: Fish Selenium Health Benefit Values in Mercury Risk Management. Grant number RD834792-01.

We understand the University of North Dakota EERC submitted an annual and final report for our project. As co-PI's of this project, we believe we should be allowed to review the document before final approval since the project and reports were completed without our involvement after the EERC eliminated our program area (effective December 3, 2014). Rather than allow us to complete the work as we had offered, they had an unqualified individual complete the final task of the project and write the annual and final reports, even though the EPA had specifically denied the EERC's request to be allowed to do so.

The EERC no longer employs anyone with biomedical expertise and therefore lacked the competence to complete this work or describe the accomplishments of the project. They are also unaware of the full scope of our presentations and publications in the past year. It is important to note that the elimination of Environmental Health Research at EERC and the aforementioned requests to EPA were done by the EERC without the knowledge and approval of the University of North Dakota Office of Research nor the UND Grants and Contracts Administration.

Overall, we are concerned about the EERC misrepresenting our work and putting our professional reputations at risk by providing inaccurate or fraudulent information. Furthermore, because of the importance of this project, it is crucial that EPA receives accurate information regarding this topic so that it will be appropriately disseminated to legislators, regulatory leaders, other researchers, and the American public.

City of Richardson (TX) staff recently reported to the Richardson City Council that it was awaiting the results of an EPA inspection of its wastewater system and that staff "has already begun taking steps to address concerns the EPA informally shared during its debrief."

As Richardson homeowners who have, I believe, the only wastewater lift station on private, residential property, we are tremendously concerned about what appears to be significant and ongoing inflow and infiltration problems on our property resulting in what appears to be underground soil erosion/movement, damage to our driveways, damage to the street and alleys, ever present odor issues and more.

We request a copy of all notes, reports and other documentation related to the City of Richardson wastewater inspection and a copy of the final inspection results/report that will be sent to the City of Richardson and NTMWD.

Thank you in advance for your assistance. There is also a double 78" storm sewer pipe in our street and we believe the material in the trenches is moving downstream into the City of Dallas in the White Rock Lake watershed. There are voids under the street, the street and inlets are sinking and we cannot keep soil in the parkways behind the street curbs. We cannot seem to get the attention of the City.

I would like a list of companies, including address and addressee, with operations in Region 3 that received a request for information under Section 114 of the Clean Air Act between August 1, 2014 and July 31, 2015. Based on the list, I suspect I will want a copy of the entire 114 request for certain companies, but in the interest of time and conservation of resources, I would like to start with just a list of who received 114 requests in the past year. Please contact me if you have any questions.

Good morning!
I am doing an Environmental Site Assessment on an apartment complex in the City of Chesapeake, and found a CERCLIS site listing plotted about a quarter-mile away. The listing is the "Chesapeake Junkyard Fire," located at 319 Saint Luke's Church Road, US EPA ID VAD988228227. However, where it is plotted there is a church, and no sign of a junkyard currently or in historical photographs. So I was wondering if it is possible to get a site location map of where this CERCLIS NFRAP site is to see how close it is to the property I am assessing.

Under the California Public Records Act § 6250 et seq., I am requesting an opportunity to inspect or obtain copies of public records that relate to USTs (past and/or present); hazardous materials storage, release, spill and/or violations; applicable waste management files including storage and use of hazardous materials or petroleum products; generation of hazardous or petroleum products; any spills, releases or incidents involving hazardous materials or petroleum products and contamination as they relate to the property located approximately six miles southwest of the City of El Centro and five-and-a-half miles directly west of Calexico, California. I have attached an image of the applicable parcels for your reference.

If there are any fees for searching or copying these records, please inform me of the cost prior to proceeding.

The California Public Records Act requires a response within ten business days. If access to the records I am requesting will take longer, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

RE: Sheffield Square Apartments at 14814 Perthshire #289 Houston Texas 77079

I am performing a Phase I Environmental Site Assessment at this apartment complex and its address showed up in the Integrated Compliance Information System (ICIS). The ICIS database was provided by Environmental Data Resources of Shelton, CT. This database shows the property name as Dalcour Property Management Company. Other items that may help: Enforcement Action ID 06-2002-0720 and Facility Registry ID FRS110013707337. Enforcement Action Type - "TSCA 16 Action For Penalty". See attached.

Do you have any records that show why this apartment is on the ICIS database and why the enforcement action.

If no such information is available, can one of your professionals please give me their best opinion of why this apartment is on the ICIS database?

Dear Records Access Officer:

P.W. Grosser Consulting, Inc. (PWGC) has been retained to prepare a Phase I Environmental Site Assessment for the Angler's Club & Pump Station at 51 Garvie's Point Rd, Glen Cove, NY, 11542.

We are requesting available copies of environmental files, records, and memoranda concerning the facility. This information should include: 1) past and present underground storage tank registration(s); 2) reported spills or releases of hazardous substances; 3) generation, storage, treatment, or disposal of hazardous substances; 4) past or present groundwater, surface water, and soil investigations; 5) environmental permits/violations.

We will gladly pay copying costs.

Please advise if this request can be accommodated in an expedient manner. We would like to schedule an appointment to copy the file/records if this is not possible.

Feel free to call with any questions or if additional information is needed to respond to this request.

Very truly yours,
PWGC

I am seeking documents cited as source material for the preparation of the report: PCBs in the United States -- Industrial Use and Environmental Distribution dated February 25, 1976, EPA 560/6-76-005, prepared for EPA Office of Toxic Substances. Section VII of that report (relevant excerpt attached) concerns production and use of PCBs. The principal source cited for the information in this section is Monsanto Industrial Chemical Co. The bibliography (p. 219) cites two Monsanto documents: Leisy, A.E. and Smull, W. (Monsanto Industrial Chemical Co.), Personal Communication, October 8, 1975; and Papageorge, W.P. (Monsanto Industrial Chemical Co.), Personal Communication, August 22, 1975. These documents must contain the production and sales data set forth in Section VII. Please provide me with copies of these documents. Thank you.

I was a residence of 38 Merrill St, 3rd floor, Hartford, CT 06106 and my apartment, building was tested for lead. The Landlord up till this day hasn't shared that information with any of the tenants and we have no information of the inspection, which is our right to know as the tenants., I took it upon myself to research and contact the EPA in Boston, Mass and a woman from the Boston Office came out to inspect the place, with the Hartford Health Department. The owner of the building had workers working in my apartment an on the porch making numerous violations without being certified through the EPA. Dale Humes, the daughter of the landlord Phyllis Gaitor was there and caught red handed with her helpers. The other two tenant families on the second and first floor had infant babies and was never told about the positive lead testing in and on the property. I found out that the second floor infant did eventually test positive for lead, but still no one has the inspection report.

I recently moved from the apartment July 2015 as I informed the EPA inspector from Boston, Mass and still am denied the inspection report, which is important to me and my children. My fear is that this landlord while still in the process of abatement is going to still misinform others about the positive lead testing on the property that still exists. When I called the EPA in Boston they came out either summer of 2013 or 2014 and caught the owner Dale Humes and her helpers working on the outside porch on the third floor. They also were in my kitchen sanding, bathroom painting, back porch sanding and painting and many other tasks. Christin Schena, might have been the person I spoke to and came to my apartment with the Hartford Health Department in the summer of 2013 or 2014. If so, I remember her advising the owner Dale Humes what her workers shouldn't have been doing and advised her to take EPA classes with her helpers to become EPA certified.

ES3-2090853-7. It is my understanding that Customs-Port of Long Beach is relying on these EPA inspections and test reports as the basis for the current detentions and recommended seizures of these and other similar items. I am specifically interested in records and test results quantifying the amount of precious metals in the catalysts on those vehicles. Pacific Rim will pay for all related copying costs with these records. Copies of the requested inspection and test reports are likely in the possession of Matt Salazar in EPA Region 9, as well as potentially Evan Belser and Mario Jorquera in the EPA Headquarters mobile source enforcement office. Langan Engineering 8/19/2015 16:08 Very truly yours,

Dear EPA DC Office and Regions 6, 8 and 9 FOIA Officers,

On August 5, 2015, workers employed by the Environmental Protection Agency (EPA) triggered a breach at the Gold King Mine outside Silverton in San Juan County.

Pursuant to the Federal Freedom of Information Act, 5 U.S.C. § 552 (the "Act"), Cable News Network, Inc. ("CNN") requests access to and copies of all records relating to communications from the EPA ground team (the EPA employees and/or contractors who triggered a breach at Gold King Mine outside Silverton in San Juan County) to regional EPA offices and EPA headquarters in the hours and 10 days following the spill on August 5, 2015, specifically including, but not limited to email, internal communications, text messages, etc.

CNN agrees to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$300. Please notify me prior to your incurring any expenses in excess of that amount.

If CNN's request is denied in whole or part, we ask that you justify all deletions by reference to the specific exemptions of the Act. CNN will also expect you to release all segregable portions of otherwise exempt material. CNN reserves the right to appeal your decision to withhold any information.

If you have questions regarding this request, please contact me as soon as possible by email NatDeskFOIA@CNN.com and phone 404-827-1511.

As I have made this request in the capacity as a journalist and this information is of timely value, I would appreciate your expediting the consideration of this request in every way possible. In any event, I look forward to your reply within 20 business days, as the Act requires.

Thank you for your assistance.

Orange County submitted an application for the Environmental Protection Agency FY15 Brownfield Assessments Grant for the Diamond Candle Factory Property located in the Town of New Windsor. The County submitted its application on 12/19/14 and a copy of the proposal is accompanying this request. The County was not awarded a grant. During a debriefing with John Struble, Project Officer, USEPA, Brownfields Section, located at 290 Broadway, New York, NY 10007. Phone: 212-637-4291, he suggested that the County submit a FOIA Request to obtain copies of some winning applications. In particular, if a consultant was used to write a winning application, it would be helpful to the County to know the consultants' contact information.

TO: USEPA Total Coliform Rule, Regions 1, 2, and 3

SUBJECT: FOIA Request, USEPA TCR data

REQUESTED BY: Dr. Katherine Alfredo, Earth Institute Postdoctoral Fellow, Columbia University

DATE RANGE: 1990-Present (2014/2015)

DESCRIPTION: I would like to request TCR data at the utility level (by PWSID) for all utilities in Regions 1, 2, and 3 for all years from 1990-the present. I would like to request this data to not be aggregated as it is the time series information I am interested in with respect to TCR sampling and data information.

DATA FORMAT PREFERENCE: I would prefer these files as electronic databases

PURPOSE/USE OF THE DATA: The requested data will be used to analyze extreme climate impacts on water quality for the Northeastern United States. It is part of a research project at the Columbia Water Center and is for academic research purposes.

Property Address: 333 W. Wacker Drive, Chicago, IL 60606

I am requesting any information in your files that would indicate any land (USTs, ASTs, spills, releases, violations, etc.) or air environmental concerns associated with the above-mentioned property address. Thank you.

Throughout the next week, I urged officials to provide the work order as I considered it a document I should review in the course of my reporting. I still haven't received it. Please provide the work order, the action memo and the contingency plan for the Gold King Mine. Please do not hesitate to contact me today if you need more information from me. I would like to receive the information in paper. I would appreciate your communicating with me by email or telephone, rather than by mail.

Dear Government Representative,

Pursuant to the Freedom of Information Act, I request access to and copies of any and all invoices, contracts, correspondence and Xactimate reports from companies or individuals who have performed pest eradication, mold abatement, water loss (sewage) cleanup, or interior drying of US Navy facilities. I would like documents from the last 5 fiscal years, starting with the most recent documents.

An example company, that should be included in the search, is Servpro, which has a website of www.servpro.com . Local franchises may be found at <http://www.servpro.com/search/locator> .

Please let me know if fees will exceed \$100.00. Digital versions of documents are preferred.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act.

Thank you for your assistance.

Sincerely,

TO: USEPA Total Coliform Rule, Regions 1, 2, and 3

SUBJECT: FOIA Request, USEPA TCR data

REQUESTED BY: Dr. Katherine Alfredo, Earth Institute Postdoctoral Fellow, Columbia University

DATE RANGE: 1990-Present (2014/2015)

DESCRIPTION: I would like to request TCR data at the utility level (by PWSID) for all utilities in Regions 1, 2, and 3 for all years from 1990-the present. I would like to request this data to not be aggregated as it is the time series information I am interested in with respect to TCR sampling and data information.

DATA FORMAT PREFERENCE: I would prefer these files as electronic databases

PURPOSE/USE OF THE DATA: The requested data will be used to analyze extreme climate impacts on water quality for the Northeastern United States. It is part of a research project at the Columbia Water Center and is for academic research purposes.

Hi

I was online at your website and I was looking under the "CERCLIS Reports and Data Files". I noticed that this data has not been updated since October 25, 2013. I wanted to request an update of this data. I was last told last time that the data was being migrated to a new system. I was hoping that the migration had been accomplished and that new data files would be available. Thank you for your help.

				I am looking for the most recent groundwater monitoring report for the Anodyne Superfund Site, FLD981014368, in Miami, Florida. We will be excavating trenches and performing horizontal directional drilling activities near this facility, along the Palmetto Expressway (SR 826), approximately 850 feet north of the Anodyne site and we are evaluating the need for treatment of extracted groundwater during the dewatering activities. Information from the FDEP (attached) indicates that there is a large plume in the area that the pipeline will cross. I have attached a map for your information. As on-site treatment costs can be very expensive, we would appreciate any recent information regarding groundwater quality and the depth of the plume.

Greetings,

We, Terracon Consultants Inc. (geotechnical / environmental engineers), are currently conducting a Phase I Environmental Site Assessment (ESA) of the vacant parcel south of Langley Drive in Hebron, Boone County, KY (Parcel ID: 048.00-00-016.05 shown on attachment). Part of the Phase I requires us to contact local governmental agencies to check for any available knowledge or records relative to potential environmental-related concerns or complaints related to hazardous substances or petroleum products on or near the site. Would your office happen to have any knowledge of response/spill records, etc. that may provide an indication of environmental concern on or near that property? Specifically the following nearby facilities:

- Quality Casings Co. located at 2431 Wright Boulevard Hebron, KY
- McLane Food Services located 3755 Langley Drive Hebron, KY
- Evi Strauss & Co. located at 3750 North Bend Road Hebron, KY
- Susan Escue Residence located at 3155 Bullock Lane Hebron, KY

Thanks

Gina

Under the Freedom of Information Act (FOIA) (5 U.S.C. §552), we request information submitted to the U.S. Environmental Protection Agency (U.S. EPA) Office of Chemical Safety and Pollution Prevention (OCSPP) to support Stepan Company's (EPA Co. No. 1839) supplemental distributors. Specifically, we are requesting copies of all Stepan Company supplemental distributor notices (EPA Form 8570-5) submitted to EPA between August 1, 2010 and December 31, 2010. We are also requesting all correspondence submitted to the Agency for the activation, cancellation, and re-activation of supplemental distributor products. In the interest of time, we ask EPA to provide copies of 8570-5s on a rolling basis, as they are obtained.

I am writing to request digital copies of any and all records pertaining to the presence, emission, demolition, and/or abatement of asbestos-containing materials at the ASARCO facility (formerly Kennecott, formerly Ray Mines) located in Hayden, Arizona... at any time in history.

Although I am interested in everything you may have on file for all structures and facilities related to the mining operations, I am particularly interested in any such records you may have specific to the no-longer-existing smelting facility in Hayden that was operated by Kennecott and Ray Mines. From my communications with ASARCO, it is my understanding that, during and prior to the early 1980s, there were two smelting facilities located in Hayden: one operated by Kennecott/Ray Mines, and one operated by ASARCO. Around 1982, the Kennecott/Ray Mines smelting facility was demolished. ASARCO subsequently took control of most if not all mining operations around 1986. So, in short, I am more interested in the smelting facility that was demolished in 1982, and less interested in the smelting facility that is still standing today.

I understand this may be a substantial request, so I would be willing to reimburse you for any reasonable costs associated with this search. However, if you feel costs will exceed \$100.00, please contact me before proceeding beyond that.

Please feel free to contact me with any questions or concerns, or if we need to discuss narrowing the scope. You can reach me directly either via email or phone (310) 689-7087.

Thank you,

Any documents and/or communications related to the "Legacy of Poquoson" development in Poquoson, VA.

Any documents and/or communications related to grocer development across from the planned "Legacy of Poquoson" development, in Poquoson VA.

The developments are being planned in Poquoson VA 23662 for the property know as the Big Woods. One development is called the "legacy of poquoson" which city council has approved. This development has no address but it is near Poquoson library/city hall (500 city hall avenue, poquoson va 23662. It's a planned 238 acre mixed-use development that will be cutting down that many acres of dense woodlands that provide protection in our flood town. Right across from the planned "legacy" development the city is planning a wal-mart marketplace, which will be destroying more of the Big Woods. Victory blvd is poquoson residents evacuation route and the Big Woods is believed to be a habitat for Bald Eagles, as Poquoson has a high population of them. What I am looking for is environmental studies on the big woods before the development and any environmental impact studies (if there are any) that the development may cause. I also would like to have the flood impact studies. I would like any communications and documents regarding the environmental and flood impact that these two developments will cause. I'm sorry I do not have an address to the development sites but as of now they are still woods. These developments have been written about in the Daily Press, that may help pinpoint a location. If you look at 500 City Hall Ave. Poquoson Va 23662 you will see the surrounding woods that are being cut down, as well as the woods across from that address, across Victory Blvd.

I am requesting a complete copy of Earth-Kind's pesticide registration files (including all Confidential Business Information) for the following pesticide registrations: Canadian Wilderness Oil EPA Reg. No. 82016-1 Fresh Cab EPA Reg. No. 82016-2. In order to help to determine my status to assess fees, you should know that I am President of Earth-Kind (company number 82016) and need these files so Earth-Kind can create new internal regulatory files. To do so, we need copies of the entirety of EPA files (including CBI) for each of Earth-Kind's pesticide registrations. I am willing to pay fees for this request up to a maximum of \$500. If you estimate that the fees will exceed this limit, please inform me first. Thank you for your consideration of this request. Sincerely, Kari Warburg Block regulatory@earth-kind.com 701-751-4456</p>

EPA-HQ-2015-010552	Jamison Scholer		9/8/2015 16:09	I am a state pesticide regulator with the Minnesota Department of Agriculture acting in my official capacity as a representative of Minnesota's pesticide programs and a FIFRA co-regulator in the capacity of a State Lead Agency. I am seeking a copy of several Data Evaluation Records (DERs), if available, for the pesticide active ingredient Thiamethoxam (PC Code:060109, CAS Registry Number:153719-23-4). We have had trouble locating the associated MRIDs, but the list below provides the MRID and study descriptor. 1. MRID: 44718702 "3-Month Subchronic Dietary Study in Beagle Dogs"; 2. MRID: 44718703 "3-Month Oral Toxicity Study in Rats (Administration in Food)"; 3. MRID: 44718707 "Rat dietary two-generation reproduction study"; 4. MRID: 44718708 "24-Month carcinogenicity and chronic toxicity study in rats"; 5. MRID: 46402904 "Thiamethoxam: Two generation reproduction study in rats"; The need for this information is time-sensitive. I have not been able to locate active links to access/download these studies or their DERs in EPA Dockets or in the list of Cleared Science Reviews for EPTC.
EPA-R3-2015-010584	Annie Voqui	ERM	9/9/2015 13:09	I am an environmental consultant interested in accessing any publicly available permits, certifications, licenses, and registrations associated with water (stormwater, pollutant discharge, etc.), air quality, exposure certification, storage tanks, and hazardous waste at the warehouse located at the Baker Hughes Oil Field Operations Inc. address: 88 Heckmans Gap Road, Mill Hall, PA 17751. The only permits that I have found that are associated with the facility are PAS314903 and 18-33537, although I have not been able to access any copies. Any assistance in retrieving these documents is appreciated. Thank you for your time. To whom it may concern: I am in search of a national listing of all registered "SECTION 7" facilities. The section 7 tracking system requires Each establishment to report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed. I am in need of complete information regarding all sites registered in the Section 7 Tracking systems

The site I'm doing the assessment on, 24 Wilson Way in Westwood, came up as a RCRA non-generator under Shipley Co Inc. I thought I'd see if you had any info on this company at this location. The local fire lieutenant remembered the company as one that handled, but didn't generate, hazardous waste. I'm trying to find out anything I can about the nature of that business and the types of hazardous waste they handled and any inspections or violations relating to their handling and disposal of hazardous waste. I am also looking for information related to Algonquin Gas Transmission Co or any other listing at 8 Wilson Way. This company is responsible for the gas line that runs through Westwood and is listed as a RCRA-LQG. If you have any information about what type of hazardous waste they generate, how they handle it, and any inspections or violations, that would be extremely helpful. Thank you.</p> <p>We are performing a phase I env site assessment for the property located at: 116 South Street, Middlesex, NJ 08846. For the timeframe, please go back to 1979 to the present.

- We are not seeking single site-specific documents.
 - We are seeking relevant emails.
 - If documents responsive to our requests are publicly available on the Internet, please share the url/hyperlink to the document (there is no need to produce an electronic or hard copy of documents publicly available on the Internet).
 - The timeframe for our second request (concerning SIPs) can be limited to 1988 to the Present.
- o You requested that we narrow the scope of our request concerning SIPs. Can you please provide some examples of categories of documents that you propose we carve out of this request? We are not opposed to narrowing the scope of this request, but want to be clear on what information can be excluded and avoid excluding documents that may be important to us.
- Please advise us if you are aware of any document(s) responsive to this request that have been destroyed or lost.
 - Please send materials to us on a rolling basis.

EPA-HQ-2015-010854	David Schultz	Bloomberg BNA	9/17/2015 18:09	<p>Dear FOIA Officer: Pursuant to the federal Freedom of Information Act (FOIA), 5 U.S.C. &sect; 552, I am requesting an electronic copy of the Environmental Protection Agency's Pesticide Incident Data System (IDS) database (EPA Records Schedule 0352). My request encompasses the entire IDS database, minus any information that is subject to the provisions laid out in the FOIA at 5 U.S.C. &sect; 552(b)(1-9). Please do not hesitate to contact me if you require clarifying information about precisely what information I am seeking or about what types of electronic formats would be acceptable to fulfill of my request. I agree to pay reasonable fees for the processing of this request in an amount not to exceed \$45. However, please notify me prior to your incurring any expenses in excess of that amount. If my request is denied in whole or part, I ask that you justify all deletions by reference to the previously referenced provisions of the FOIA, 5 U.S.C. &sect; 552(b)(1-9). I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information or to impose fees in excess of \$45. I would appreciate your communicating with me by email or by telephone rather than by mail. I look forward to seeing your response to my request within 20 working days, as the EPA's regulations require (40 C.F.R. &sect;2.104). Thank you for your assistance. Sincerely, David Schultz</p>

The Town of Princeton's grant was written by my competitor and they also wrote the work plan on behalf of the Town of Princeton. I would like to have the same level of information so that my response to the competitive RFQ will be judged fairly. The responses to the RFQ are due in 12 days. Seeing the approved or submitted work plan will enable me to compete for Princeton's business on a fair, level field. Attached to my request is a copy of the RFQ released this week.

Address: 1012 E 1st St, Cle Elum, WA 98922 Phone: (509) 674-1176 A spokesperson for the Environmental Protection Agency said an inspector headquartered in Seattle conducted a routine inspection of the gas station in August 2013 resulting in a field citation with a penalty of \$1,050 for failing release detection requirements on underground tanks and piping, and inadequately maintaining the system that prevents the underground tanks from rusting. We need to know who the owner who received the citation and if defects discovered were corrected. The current owner claims he never got a citation. He said he took the business over in 2012, a year or so before the citation was issued. Incidental to this (and NOT for the story) we would like to understand why, specifically, the EPA assisted Ecology with this inspection. In general, we understand the EPA occasionally assists Ecology inspectors to lighten workloads or workarround bottlenecks in scheduling. We wondered if this was the case at the Shell Station. Why are we asking? The engineer at the site excavating the old tanks and replacing them with new ones insists EPA could not have done the inspection because it is Ecology's domain to do so. We don;t question whether EPA did the inspection or why - but we feel it's important to educate the site engineer. His current relationships with gas station owners and his future relationships ... could create misunderstandings we could avoid by giving him and the current owner a document that states why EPA occasionally assists Ecology with inspections. At this writing ... the Shell station owner is replacing the five old tanks with five new ones, so there is ample opportunity to do a story illustrating he has taken care of the issues discovered in the August 2013 inspection.

I am filing this Freedom of Information Act request on behalf of USA TODAY. I am seeking complete copies of the following documents from Jan. 1, 2014 through Sept. 24, 2015: --Any correspondence to or from the EPA and members of the House or Senate regarding Volkswagen's emissions software. Where possible, please provide any copies in an electronic format pursuant to 5 U.S.C. §§ 552(a)(3)(B)-(C). In the event that this request yields a large volume of responsive material, I further ask that you provide the records on a rolling basis as they are located, rather than waiting to make one release. I certify that the foregoing is true and correct to the best of my knowledge and belief. As you know, the FOIA, in 5 U.S.C. § 552(a)(6), grants an agency no more than twenty working days in which to respond to this request. See *Oglesby v. U.S. Dep't of Army*, 920 F.2d 57, 65 (D.C. Cir. 1990). I therefore look forward to your prompt reply.

This request is submitted on behalf of Holland & Knight LLP pursuant to the Freedom of Information Act (5 U.S.C. Sec. 552). We are interested in obtaining funding agreements relating to a certain project known as "Ponce Sanitary Trunk Sewer Rehabilitation Using Trenchless Technology - Phase 2, Ponce, Puerto Rico; EPA Number: C-72-093-21; CIP Number: 4-58-5083, Bid Number: 13-SP-043; Contract No. 2014-000. The attached agreement (between Puerto Rico Aqueduct and Sewer Authority and Longo De Puerto Rico, LLC) for this Project indicates that the Project is funded in part by State Revolving Funds from the Environmental Protection Agency, administered by the Puerto Rico Environmental Quality Board. We would like to obtain a copy of any and all funding agreements between the EPA and the Puerto Rico Environmental Quality Board or any other entity relating to this Contract, and, if any, any funding agreement between the Puerto Rico Environmental Quality Board and the Puerto Rico Aqueduct and Sewer Authority. Finally, if there are recurring records such as payment applications or monthly funding applications between the above referenced parties or any other entity administering funds for this Contract, we also request a copy of those documents. Thank you and we look forward to hearing from you. This is a commercial use request and we are willing to pay for this request up to a maximum of \$250. If you estimate that the fee will exceed this limit, please inform the undersigned first. Deborah C. Roth Holland & Knight LLP 212-513-3509 deb.roth@hkllaw.com

My original request came in today but I learned that the EPA Reg. 2 has not gotten any PCMP reports from the Buffalo Sewer Authority because the EPA has not BSA's PCMP under the amended AO. Therefore, I make the following request: Can I get the amended AO between EPA and Buffalo Sewer Authority. In addition can I get correspondence between the two entities that will help explain the circumstances up to this point, Sept. 23, 2015. Also, correspondence that might explain if work has stopped on BSA's CSO control projects because of this. Thank you

On September 14, 2015, Mr. James Giattina, Director, Water Protection Division, EPA Region, announced (EMAIL ATTACHED) the hiring of six new employees, re-hire of one employee, and transfer of six employees (four from other EPA regions). I am requesting all supporting information documenting each position in accordance with the AFGE MCBA Article 28, Merit Systems. The Agency is required to maintain promotion and selection information for two (2) years or after an OPM evaluation, whichever comes first, in accordance with governing laws, rules and regulations. Each record shall contain sufficient information to allow reconstruction of the promotion action, including documentation on how employee candidates were rated and ranked. It is understood that some information may be precluded from release subject to applicable regulation and/or law. Articles 28, 29 and 30 have hiring and transfer requirements. Please provide information supporting how each position complies with Articles 28-30 and also the principals outlined in the Merit Systems Principals.

			<p>Dear FOIA Officers, this is a request for records made under applicable provisions of the Freedom Of Information Act (5 U.S. Code &sect; 552). On September 3, 2015, officials from the Environmental Protection Agency, California Air Resources Board and Volkswagen met to discuss diesel vehicle emissions. I seek copies of all records produced for and collected from that meeting. These may include, but are not limited to, invitations, agendas, list of attendees, minutes, memos, power-point presentations, photographs and videos. This information is solely being sought for dissemination to the general public in press publications, and I kindly request that fees be waived, as I believe the information from this request will greatly further the general public's understanding of the government's handling of the Volkswagen case. If fees are imposed, please limit them to reasonable standard charges for document duplication, as these records are not sought for commercial use. Please notify me if fees are expected to exceed \$200. If you withhold any parts of these records from disclosure, please specify in a written response which documents you have excluded. If you have any questions about this request, or if doubts arise as to the exact specifics of it, please let me know as soon as possible. I can be reached via phone at my Berlin office +49-30-22882500 or via email at johngoetzberlin@gmail.com. I look forward to a response from you under the applicable timeline required by law, and greatly appreciate your efforts in this matter. With best regards from Berlin, John Goetz</p>

EPA-HQ-2015-011152	Sebastian Blanco	AutoblogGreen	9/25/2015 17:09 Pursuant to the Freedom of Information Act (5 U.S.C.§ 552), I am seeking documents of correspondence between the EPA and the automaker Volkswagen AG discussing the Clean Air Act violations that were made public on September 18, 2015. I have heard that the EPA contacted VW in early September about these violations, so I am asking for all records pertaining to communication between the EPA and VW in August and September 2015. I am requesting these files as a member of the news media. If any expenses in excess of \$50 are incurred in connection with this request, please obtain my approval before any such charges are incurred. I will expect a response within 20 working days as provided by law. If my request is denied in whole or in part, I expect a detailed justification for withholding the records. I also request any segregable portions that are not exempt to be disclosed. Thank you for your prompt attention to this matter.

Dear California FOIA Officers, This is a request for records made under applicable provisions of the California Freedom Of Information Act. On September 3, 2015, officials from the Environmental Protection Agency, California Air Resources Board (CARB) and Volkswagen met to discuss diesel vehicle emissions. I seek copies of all records produced for and collected from that meeting. These may include, but are not limited to ,invitations, agendas, list of attendees, minutes, memos, power-point presentations, photographs and videos. In addition, I seek all records concerning CARB and VW having to do with the so-called “defeat device” and emissions testing at the VW Test Center in Westlake Village and Oxnard, CA in the period between 2008 and 2013. These may include, but are not limited to,invitations, agendas, list of attendees, minutes, memos, power-point presentations, photographs and videos. This information is solely being sought for dissemination to the general public in press publications, and I kindly request that fees be waived, as I believe the information from this request will greatly further the general public's understanding of the government's handling of the Volkswagen case. Please provide me with information (details below) pertaining to Ecolab, Inc.'s EPA registered pesticides that are for use on raw agricultural product and/or that are registered as antimicrobial fruit and vegetable treatment products. This would include Ecolab's antimicrobial product with EPA registration number 1677-234 but please include any others that are used for food rinse treatments. I am specifically looking for the test protocol used by Ecolab to get its EPA registration(s) AND the results submitted using that test protocol. More specifically, the method should be detailed enough to enable me to identify: 1. all challenge organisms used (species and strains - including ATCC numbers), 2. the name of the lab performing the study including available information about the lab's certifications, 3. the challenge concentrations (CFU/mL or PFU/ml, etc.) for each organism type, 4. the log reduction of each organism type by contact time(s), 5. the matrix used in the testing (e.g. municipal water, buffered saline solution, water with x% juice, etc.), if juice was added, what type of juice or food material was introduced, and 6. how Ecolab ensured / documented that the disinfection process was "stopped" at the claimed contact times (e.g. if claims were made at 2 minutes contact time but the samples were not processed for 8 hours, how was it documented that it was a 2 minute contact time test and not an 8 hour contact time test) If multiple test protocols and experimental designs were submitted, I am requesting that data request above be provided for all such tests. Please also include the formulation listed by Ecolab that was used in securing its EPA registration. Please contact me by email or phone at any time with questions. Thank you. This region was decimated by superstorm Sandy and is still recovering, federal regulations required that houses that were destroyed be raised to prevent such devastation in the future however the streets close to the shore flood on a consistent basis, in some areas like south wellwood it floods with every high tide.

I request a copy of each email that contains the word VOLKSWAGEN in the computer email system of Justin Greuel, Manager, Diesel Engine Compliance Center, Compliance Division, Office of Transportation and Air Quality. You may limit this to emails dated between September 1, 2015 and September 26, 2015. I also request a copy of each EPA memo discussing Volkswagen diesel cars in the possession of Justin Greul. You may limit this to memos or reports created between January 1, 2015 and September 26, 2015. Please interpret the scope of this request broadly. EPA is instructed to interpret the scope of this request in the most liberal manner possible short of an interpretation that would lead to a conclusion that the request does not reasonably describe the records sought. I call your attention to President Obama's 21 January 2009 Memorandum concerning the Freedom of Information Act, in which he states: All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA [...] The presumption of disclosure should be applied to all decisions involving FOIA.

EPA-HQ-2015-011189	Shermin Haider	ERIS	9/28/2015 16:09	<p>I'm looking to obtain a detailed listing of ALL Federal Institutional Controls (ICs) and Engineering Controls (ECs) that are in place in the USA. To further explain, ICs are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. For instance, zoning restrictions prevent site land uses, like residential uses, that are not consistent with the level of cleanup. ECs encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. Please note that my request is not site specific but rather I am interested in ALL Federal ICs and ECs data. Attached is an example of what was previously sent for this request. In efforts to maintain consistency please include the same fields as the file attached. Lastly, please send the file in either text, Excel or Access format it would be highly appreciated. Thank you.</p>
