Possibly purchasing acreage located at 909 Burnt Gin Rd. Gaffney, SC 29340. I understand a small portion of the land was used as an illegal dumping site, and since has been cleaned up by EPA. I was told a portion of the land now has EPA restrictions in place. I would like to know the nature of the illegal dumping, what toxin was there? When was it dumped? When was it cleaned up? What toxin remains if any? What are results of water samples from the EPA wells that are in place? What is the nature of the restrictions on the property? What is EPA's future role regarding this property?

HZW Environmental Consultants, LLC (HzW) is currently conducting a Phase I Property Assessment (PIPA) of the Shore Center Shopping Plaza located at 22600 through 22700 Shore Center Drive in Euclid, Cuyahoga County, Ohio (the Property). I don't believe that the US EPA would have any records associated with the Property as to the best of my research thus far, as the only suspect tenant has been Topp's Cleaners located at 22634 Shore Center Drive. Topp's Cleaners has been a conditionally exempt small quantity generator of hazardous waste (OH0000139931).

HZW is performing this assessment pursuant to the Ohio Environmental Protection Agency's (EPA's) Voluntary Action Program (VAP) in accordance with the requirements of the Ohio Administrative Code (OAC) 3745-300-06. To complete this investigation, HZW respectfully requests to review public records on file within all divisions of the US EPA that may pertain to the Property.

Should US EPA records exist, please inform HzW of the necessary procedures to be followed to review the public records. Should records not exist for any of the addresses listed above, please provide written documentation indicating the same. This documentation will be included in the VAP PIPA report being prepared by HzW.

If you have any questions or need additional information, please do not hesitate to contact us. Your cooperation is greatly appreciated.

Thanks and have a great day,

To whom it may concern:

I am writing to make a request under the Freedom of Information Act of copies of any and all documents produced by the Environmental Protection Agency ("EPA") as a result of the closing down of the building know in Puerto Rico as the North Tower of the Minillas Complex ("NTM"), located in the heart of the island's capital San Juan.

During the month of May 2012, it became a matter of public knowledge to the citizens of Puerto Rico that the EPA intervened with the NTM as a result of a sever asbestos leak caused by construction work taking place on the 9th floor of the aforementioned site. It has come to our attention that EPA produced at least two, but likely many more, detailed reports of the events that transpired during that month and their subsequent aftermath.

The request is procured on behalf of my clients, Zulma Ramos and Juan Banuchi, two business owners who suffered great economic loss and endured emotional hardship as their convenience store located in the basement of NTM came to be permanently closed to the public due to the events that transpired.

In particular, I am interested in obtaining copy of any documents regarding: the EPA's ("Agency") decision to conduct Emergency Removal Action and Asbestos Removal Action; the Agency's determination of Potential Responsible Parties; any Administrative Settlement Agreements executed by the Agency in relation to these events; the Order on Consent to conduct cleanup at the building; and any reports on the Representative Sampling Criteria used at the site.

However, my request is not limited to these documents or any specific documents, but rather seeks to gather a copy of all the records detailing the EPA's comprehensive intervention at the TNM in the timeframe commencing on the month of May 2012 to the present. Please contact me if you have any question regarding this request (787) 300-1593, or send me an email: javier.villar.rosa@gmail.com.

Up until this time there were many streets, roadways and alleys that every week were sprayed with black thick oil on the rocks that were what many of these streets and alleys were at that time. The oil sprayed was to keep the dust down. Once development began to paved the streets and alleys, many which then became vacated alley's and many were closed off and became past of the easement to the parcels of homes affected but were once were gravel and roads made up of rocks. These fast forward are now part of where our sanitary sewer lines run. Can anyone find records as to when these areas received paved road, was any governmental agency involved in first removing the contaminated portions that had been for years and years sprayed in the heavy thick black oil? has any testing be done since then to determine if any of the ground water has been tested? Also, back in the the late 60's ot was a normal process that inpestides were used to spray for mosquitoes. Has any testing for done since then to check for any after effects and whether any birth defects caused from this environmental hazard?

Dear Agency Open Records Officer ("AORO"):

(1) Please email the following records if possible:

We are requesting any records pertaining to 30 Main Street in Orange, NJ 07050, Block: 3104, Lots: 1, 8, and 9 involving health related environmental incidents that may be on file with the United States Environmental Protection Agency. Tetra Tech, Inc. (Tetra Tech) is conducting a Phase I Environmental Site Assessment (ESA) at the above-mentioned property. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (REC) that may have an adverse environmental impact upon the subject property. These could include spills of hazardous chemicals, complaints of asbestos, or reports of chemical odors or fumes, for example.

(2) Please advise me of the appropriate time during normal business hours for inspecting the following records prior to obtaining copies, if the records cannot be made available electronically.

(3) If all the requested records cannot be emailed to me, please inform me by email of the portions that can be emailed and advise me of the cost for reproducing the remainder of the records requested (\$0.25 per page or actual cost of reproduction).

(4) If the requested records cannot be emailed to me due to the volume of records identified in response to my request, please advise me of the actual cost of copying all the records onto a CD, floppy disk, or flash drive.

(5) If my request is too broad or does not reasonably describe the records, please contact me via email so that I may clarify my request, and when appropriate inform me of the manner in which records are filed, retrieved or generated.

If it is necessary to modify my request, and an email response is not preferred, please contact Loren Casale at the telephone number: 973.630.8304

If for any reason any portion of my request is denied, please inform me of the reasons for the denial in writing and provide the

We would like water test data that includes metals and element measurement. Specifically we are looking for all test data by location, including measurements taken for lead, lithium, and all other major metals that are usually tested for.

We would like this data for as far back as possible.

The areas we are looking for is Miami-Dade County, FL and Harris County, TX and New York City (including the 5 boroughs).

If possible, we would also like the entire state of Alabama and New Mexico.

If the file is too big, we are set up to accept ftp client.

URS Corporation is interested in records related to environmental investigation and remediation conducted by Columbia Gas in Ohio as required by EPA Docket No. III-94-35-DC and a 1994 Administrative Order on Consent for Removal Actions. We have submitted a separate request to EPA Region 5, but it appears that Region 3 was the primary EPA Region involved in activities conducted under the Order.

Pursuant to the Freedom of Information Act, I request that you provide me with a copy of any and all documents, including electronic documents, regarding permit applications received by your agency, permits issued by your agency and submarine power cables in the Cape Wind offshore wind farm project currently under development by Energy Management Inc. ("EMI"). The Cape Wind project will consist of 130 offshore wind turbines with a capacity of 468 megawatts, and will be located in federal waters off the coast of Cape Cod, MA on Horseshoe Shoal in Nantucket Sound. The Cape Wind Project filed its initial permit applications in 2001, and received approval from the U.S. Department of Interior in 2011. The scope of this request is limited to (1) any permit applications received by your agency concerning the Cape Wind Project; (2) any permits issued by your agency concerning the Cape Wind Project; and (3) documents regarding any submarine power cables related to the project.

The project is described in greater detail at <http://www.capewind.org/what/overview> (Attachment A). I hope that this background will help your agency to locate related records.

I am willing to incur search and copying expenses for this request up to and including \$500.00. Should search and copying expenses exceed this amount, please provide an estimate of those expenses. EPA-R8-2015-000304	Greg Schwartz	The Coleman Law Firm, LLC	10/8/2014 15:10	RE: Wilson Village RV Resort Documents relating to preparations for or participation in the Bonn Climate Change Conference, which took place from June 3-14, 2013. The Bonn conference comprised the 38th sessions of the Subsidiary Body for Implementation (SBI) and Subsidiary Body for Scientific and Technological Advice (SBSTA), as well as the resumed second session of the Ad Hoc Working Group on the Durban Platform for Enhanced Action (ADP 2). SBI 38 was marked by disagreement over a proposal by the Russian Federation, Belarus and Ukraine to introduce a new item on legal and procedural issues related to decision-making under the Conference of the Parties (COP) and Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP). This proposal was motivated by dissatisfaction with the decision-making process at the UN Climate Change Conference in Doha in 2012. Other parties opposed considering it as a new SBI agenda item, and instead proposed placing the issue on the SBI agenda item regarding arrangements for intergovernmental meetings. No resolution of the issue was made at this meeting. SBSTA 38 made progress on reducing emissions from deforestation and forest degradation in developing countries and the role of conservation and enhancement of forest carbon stocks (REDD+). The resumed ADP 2 was structured around workshops and roundtables on Workstream 1 (2015 agreement) and Workstream 2 (pre-2020 ambition). The scope of the search for relevant documents would include, but not be limited to, documents prepared for the EPA Administrator Lisa P. Jackson and/or any other EPA officials who were either involved in preparations for the meeting or were part of the U.S. delegation to the meeting.

Report Title: Analysis of Recycling of Asphalt Shingles in Pavement Mixes from a Life Cycle Perspective
 Contract No. EPW07020 Delivery Order No. TO-34
 Prepared by: Booz, Allen, Hamilton

The specific data sources being requested are as follows: (For convenience, we have referenced page and paragraph in the report)

1. Page 9, section 3, para 2: The different types of information that requested from suppliers. Note, we *do not want* the actual data that was provided by the suppliers, only the meta-data outlining what data items were requested.
2. Page 9, section 3, para 2: The different kinds of energy considered in the study and the upstream combustion and emissions profiles used for each.
3. Page 9, section 3, para 3: "Unit process data for petroleum refining, fuel extraction and combustion, limestone, lime, and truck transportation were obtained from the National Renewable Energy Laboratory's U.S. Life Cycle Inventory Database (U.S. LCI)" - please identify exact line items/categories of data that were used from the NREL database.
4. Page 9, section 3, para 3: "Electricity was assumed to be a mix of generation representative of the U.S. mix. Uncertainty is introduced when selecting a more regionally specific generation profile." - Please identify the electricity generation mix that was assumed. How is uncertainty introduced? Please identify any distributions used, and the relevant variables characterized.
5. Page 9, section 3, para 5: "Sand and aggregate profiles were taken from the Building for Environmental and Economic Sustainability (BEES) database": Please identify the exact energy profiles used, both diesel and electricity, for coarse and fine aggregates.
6. Page 10, last paragraph: "A spreadsheet was developed which examines each stage of production and then sums the values for the overall emissions of the mix design." We are not requesting the proprietary mix design data, we are requesting "the spreadsheet" with each stage of production.

10/10/2014 19:10 Thank you for your assistance.

This is a request for records under the Freedom of Information Act, 5 U.S.C. § 552 (FOIA), from the United States Environmental Protection Agency (EPA). We respectfully request that the EPA provide every document, irrespective of its date, that is related to the presence of asbestos, remediation of asbestos, asbestos emissions, or that refers or alludes in any way to asbestos or the potential for asbestos at Roper Hospital. Roper Hospital has a street address of 316 Calhoun Street, Charleston, South Carolina 29401.

We respectfully request that you provide all documents relating to asbestos-containing products, asbestos testing, abatement, or remediation, any asbestos management plan proposed or initiated (whether or not conforming to EPA guidelines), National Emissions Standards for Hazardous Air Pollutants (or state equivalent) records, Asbestos Hazard Emergency Response Act (or state equivalent) records, and/or anything else related to asbestos at any of the above locations.

Please note that the term "document," as used herein, refers to any kind of written, typewritten, or printed material and shall include, without limitation, notes, internal or external memoranda, letters, electronic mail, permits, log entries, reports, telegrams, spreadsheets, databases, calendar entries, records, drafts, working papers, publications, or hard discs and printouts within EPA's possession, custody, or control. This request includes all responsive documents in their entirety, including each attachment, enclosure, and exhibit.

The requester is a commercial user for fee purposes. In addition to inspection, we would like to discuss the possibility of a complete production of certified documents responsive to this FOIA request. Please provide a fee estimate for this FOIA request.

Should you have any questions, please do not hesitate to contact me at (312) 705-7474. Thank you for your attention in this matter.

I am filing this request for all records (if any exist) on file and all information available, including current action files (pending orders), maintained for the property:

18 Kings Highway North, Westport, CT 06880

My request covers all records maintained by the EPA on RCRA (including but not limited to Corrective Action requests, RCRA Facility Assessments, Solid Waste Management Units, Part B Permit Cells if any), TCSA inspections, Hazardous Waste Corrective Action Requests, permitting, CERCLA, Federal and/or State Superfund, Air Quality, Water Pollution Control, SARA Right to Know (Title III), Emergency Response Notifications (ERNS) Facility Index System Database, and any relevant information for the property from 1970 to the present, including any information on investigations currently in progress. In case any documents pertaining to the above property are withheld from public record, I am requesting that these documents be identified as to the subject, date, author and reason for the claim of privilege.

The purpose of this request is to allow Loureiro Engineering Associates (LEA) to obtain all necessary information to complete an environmental audit of the above property. LEA is a professional corporation conducting studies, reports, and design work in the area of environmental engineering.

Sincerely,

Loureiro Engineering Associates, Inc.

EPA-HQ-2015-000388 Michael S. Gelinne Bayer CropScience 10/10/2014 13:10 Requesting the data evaluation reports (DERs) for the attached studies which were submitted to the Agency.

I am a reporter filing this FOIA request on behalf of the West Plains Daily Quill in West Plains, Mo., for a news story about EPA's recent inspections of and notices of violation issued to Coastal Energy of Willow Springs, Mo., a company that stores 2.8 million gallons of chemicals near the Eleven Point River, a federally protected scenic river.

I am requesting email and paper mail correspondence on this topic that was sent 1) between EPA Region 7 authorities and Coastal Energy officials 2) between EPA Region 7 authorities and authorities with the Missouri Department of Natural Resources and 3) internally between EPA staff members. Please limit correspondence to items sent from January 1, 2014 to the present, with priority for items after July 1, 2014.

Please do not send the following documents because I already have them:
Coastal FRP
Coastal SPPC Plan
Coastal Energy Corporation SW Inspection and Attachments (Part 1, Part 2-part 1, and Part 2-part 2)
I also have the MO. DNR Operating Permit and a number of DNR documents.

My goal in making this request is to learn specifics of the current status of the six notices of violations sent to Coastal Energy following a July 2014 joint inspection conducted by EPA, plus any follow-up. I understand that Mo. DNR is involved in the enforcement action, so correspondence with that agency is particularly important.

Paul Doherty conducted the February 2014 inspection. The July 2014 inspection was conducted by Najji Ahmad, EPA Environmental Engineer and Arthur Goodin, Water Pollution Control, DNR Southeast Regional Office. Please include

EPA-R7-2015-000399 Denise H. Vaughn 10/10/2014 18:10 correspondence involving these individuals and their immediate co-workers.

All notices of arrival (EPA form 3540-1) covering the period from January 1, 2014 through current for azoxystrobin, CAS NO. 131860-33-8.

I am requesting copies of all comments submitted to EPA and received of Oct. 20, 2014, on EPA's May 8, 2014 proposed Gas Star Gold program framework. The agency has sought comment from industry and others on the program.

Emails between myself and the agency show that I first requested the comments on Oct. 9 via an EPA spokesperson, on the understanding that the comment deadline was Sept. 30, which EPA officials indicated earlier this year.

On Oct. 17, that spokesperson indicated that EPA would not provide the comments and that the agency made the decision to extend the comment period. The agency's website indicates the comment period is now "ongoing."

This FOIA request is appropriate in order to obtain the comments while they still hold news value, given EPA's decision to move to a rolling comment period. Even though EPA continues to take comment on the program, I am seeking all comments filed up to Oct. 20 (the date of this FOIA request) to use in a news article on the comments filed so far.

EPA-HQ-2015-000635 Bridget DiCosmo Inside EPA 10/20/2014 14:10

EPA's refusal to provide the comments to me means that FOIA is my only option to obtain these documents, which are in the public interest given the boom in the natural gas sector and EPA's work on gas issues.
To whom it may concern,

GEVO Incorporated submitted a petition requesting authorization to generate D-code 5 RINs for fuel produced through the GEVO butanol pathway in April of 2011. I would like to request a copy of the RFS2 petition submitted to the EPA.

I would get the copy as soon as possible and would, therefore, prefer an electronic copy to eliminate the time taken for mailing. Please contact me with any questions regarding this request.

Pursuant to the Freedom of Information Act ("FOIA"), I hereby request the records below relating to the Energy Answers waste-to-energy incinerator at 1701 East Patapsco Avenue in Baltimore, Maryland, 21226 ("Energy Answers Incinerator").

(1) Any and all records from January 1, 2013 to the present relating to the Energy Answers Incinerator, including but not limited to communications relating to whether the Energy Answers Incinerator will burn "solid waste" as that term is defined under the Section 129 of the Clean Air Act.

Whenever possible, we request electronic documents (i.e. excel spreadsheets, modeling files, e-mail) in their electronic format.

I ask that you disclose this information as it becomes available to you without waiting until all of the communications and records have been assembled for the time period requested. For purposes of this request, the term "records" means information of any kind, including, but not limited to, documents (handwritten, typed, electronic or otherwise produced, reproduced, or stored), letters, e-mails, facsimiles, memoranda, correspondence, notes, databases, drawings, graphs, charts, photographs, minutes of meetings, electronic and magnetic recordings of meetings, and any other compilation of data from which information can be obtained.

Claims of Exemption from Disclosure

If you regard any documents as exempt from required disclosure under the FOIA, please exercise your discretion to disclose them nevertheless. In the alternative, for records containing both exempt and non-exempt information, please provide all non-exempt portions of records and communications, as required by FOIA.

Should you elect to invoke an exemption to FOIA, please provide the required full or partial denial letter and sufficient information regarding the basis for the withholding so that we will be able to determine whether or not there may be grounds to appeal the agency's decision.

Our company is completing a PRP search for the USDA Forest Service. We are seeking information related to the transport and application of hazardous materials to a strip mine in Williamson County, Illinois. The mine area in question is called Palzo Mine, part of the Will Scarlet mine. The land is owned by the US Forest Service currently and had several remediation projects completed for the land. Cement kiln dust and scrubber sludge was added to the land surface as part of a remediation project. We are seeking any and all information in relation to the hazardous materials, the project site, or remediation activities.

Atlantic Environmental Solutions, Inc. (AESI) has been retained to perform an environmental assessment. The purpose of this request is to obtain any information which may be in your files in connection with the subject property. Please review your files for any of the following:

- Environmental violations, incidents, complaints, etc.
- Community Right to Know (RTK) Information
- Underground Storage Tank (UST) registrations, installation or removal permits
- Hazardous substance (including petroleum) discharges, leaks, spills, etc.
- Monitoring well, potable well, or other well installation records
- Groundwater contamination reports, including Classification Exception Areas (CEAs)
- Declaration of Environmental Restrictions (DERs)
- Hazardous Substance Inventories
- Air emission permits, records
- Solid waste or sanitary waste permits, records
- Discharge case numbers

To whom it may concern:

I am a student at the University of Pittsburgh at Bradford, and I'm writing an analysis of thiamethoxam and its relation to federal agencies. On page 31910 of Volume 65, Number 98 of the Federal Register (available online at <http://www.gpo.gov/fdsys/pkg/FR-2000-05-19/pdf/FR-2000-05-19.pdf>), a notice entitled "Thiamethoxam; Receipt of Application for Emergency Exemption, Solicitation of Public Comment" describes an exemption requested by the Mississippi Department of Agriculture and Commerce (MDAC) to allow use of thiamethoxam against the cotton aphid. From other Federal Register documents (namely http://pmep.cce.cornell.edu/profiles/insect-mite/propetamphos-zetacyperm/thiamethoxam/thiameth_exm_1200.html), I indirectly gather that the EPA approved the request. I would therefore like to solicit the document whereby the EPA formally approved the MDAC's exemption to the Federal Insecticide, Fungicide, and Rodenticide Act, or any documents pertaining to the approval.

EPA-R9-2015-000482 Frank Trinidad Odic Environmental 10/15/2014 13:10 Thank you,

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to the records concerning citizen petitions filed with the EPA from CY 2000 – 2013. Specifically, for each petition, I am requesting data on:

- Date petition was filed;
- Petitioner's name;
- Petitioner's affiliation (e.g., firm);
- Petitioner's address (if available);
- Brief description of the petition;
- Office within EPA handling the petition;
- Statute that the petition pertains to (if relevant);
- EPA's response (granted in part, denied in part, granted, denied, pending, etc.)
- Date of EPA's response
- Whether EPA issued any interim response

I would like to receive the information in electronic format. As I am making this request as a scholar and this information is of timely value, I would appreciate your communicating with me by telephone (323.630.0304) or email (rapotter@virginia.edu), rather than by mail, if you have questions regarding this request.

In order to help to determine my status to assess fees, you should know that I am affiliated with an educational institution and this request is made for a scholarly purpose and not for commercial use. If there are any fees for copying the records, please let me know before you fill my request. Or, please supply the records without informing me of the cost if the fees do not exceed \$200, which I agree to pay.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. I look forward to your reply within 20 business days, as the Please provide CERCLA, RCRA, SPILL, and Brownfield (if applicable) documentation for the AT&T/Lucent facility formerly located at 6200 E. Broad Street in Franklin County, Columbus, Ohio.

On behalf of Front Range Equine Rescue ("FRER"), I request all records regarding horse slaughter, including but not limited to records regarding the environmental effects or potential environmental effects associated with horse slaughter and communications with the United States Department of Agriculture regarding horse slaughter.

If you believe any responsive records would be kept by other federal agencies, please forward this request to the appropriate personnel in those agencies.

FRER requests that these records be made available on an expedited basis because of the immediate national attention on this topic, in accordance with 5 U.S.C. § 552(a)(6)(E) and 7 C.F.R. § 1.9. In order to carry out its organizational goals, FRER relies on disseminating information to the general public through, among other means, its website, media outlets, litigation, and public outreach and education. FRER has been actively involved in educating the public about the FSIS's enforcement of the laws regarding horse slaughter. As a result, if necessary, we request that you treat us as members of the news media and expeditiously process this request.

Pursuant to 7 C.F.R. § 1.9(c), I certify that FRER's request for processing is true and correct, to the best of my knowledge. Records responsive to this request can be faxed to my attention at 312-258-5600 or emailed to me at adiederich@schiffhardin.com.

I have previously received (via FOIA) a copy of NPDES permit number ID-000119-8 governing certain discharges from the P4 (Monsanto) facility at Soda Springs, Idaho.

NPDES permit number ID-000119-8 expired in 1987. I have been told that this permit was administratively extended.

Through this FOIA request, I would like to receive a copy of P4's application for re-issuance of an NPDES permit and EPA documents that demonstrate that this application was timely and determined to be complete prior to the granting of the administrative extension. In addition, I would like a copy of any and all applications that P4 has made to EPA regarding this NPDES permit that are more recent than its 1987 application.

Also via a previous FOIA I received a copy of a 2/5/14 letter from EPA to P4 regarding a EPA September 17, 2013 NPDES compliance inspection. I would also like copies of any correspondence between EPA and P4 that follow up on the issues presented in the 2/5/14 letter or any correspondence that discusses P4 needing to apply for a new NPDES permit.

This is a request under the Freedom of Information Act, 5 U.S.C. §552, made by the Sisseton Wahpeton Oyate of the Lake Traverse Reservation ("SWO"). I request that the following information be provided to me:

All documents, agency records, and communications related to the Clean Water Act, permitting, exemptions, or regulatory actions for projects involving an individual named Merlyn Drake, including any organization organized or controlled by Merlyn Drake, for his activities on Enemy Swim Lake in South Dakota. Such information shall include but not be limited to: any agency records pertaining to any associated waterways, inlets, and wetlands around Enemy Swim Lake. We seek agency records from 1995 to the present time.

In order to help determine my status for the purpose of assessing fees, my firm serves as general legal counsel for the SWO, a federally-recognized Indian Tribe and this request is made for governmental purposes. I am willing to pay fees for this request up to a maximum of \$200.00. If you estimate that the fees will exceed this limit, please inform me first.

I respectfully request that this FOIA request be expedited. A water quality test conducted by a South Dakota State University professor determined that there is a dead zone in Enemy Swim Lake due to Mr. Drake's activities. The Tribe and its members own a significant amount of land bordering Enemy Swim Lake. Failure to obtain the requested records on an expedited basis could reasonably be expected to pose an imminent threat to the physical safety of Tribal members and others at Enemy Swim Lake.

I am requesting all files pertaining to the well and drinking water quality assessments for the property located at 3280 Santa Rosa Avenue, in Santa Rosa, Ca. The property is identified by El Crystal Mobile Home Park (APN 044-101-012-01).

The water system ID is CA5900788 and there is a reported violation concerning Fecal Coliform concentrations in the drinking water dated 10-1-2009. I am requesting all information regarding violations, returns to compliance and the most current compliance sampling results for drinking water from the onsite drinking water source.

If records would exceed \$25 to obtain, please call me. Depending on the quantity or nature of records, we may be willing to pay significantly more to obtain that information.

EPA-R9-2015-000850	William T. Martinez	ENERCON	10/27/2014 13:10	Thank you very much.
				We would like to request any information your office has regarding any environmental documents, underground storage tanks (USTs) or hazardous materials for the property listed below. Dear Records Access Officer:

(1) Please email the following records if possible:

Tetra Tech Inc. (Tetra Tech) is conducting a Phase I Environmental Site Assessment (ESA) at City of Saratoga Springs Landfill (Weibel Ave Landfill), 166 Weibel Ave., Saratoga Springs, NY. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (REC) that may have an adverse environmental impact upon the subject property. Tetra Tech is requesting any records you may have concerning the property of interest. Any assistance from your office would be greatly appreciated.

(2) If all the requested records cannot be emailed to me, please inform me by email of the portions that can be emailed and advise me of the cost for reproducing the remainder of the records requested (\$0.25 per page or actual cost of reproduction).

(3) If the requested records cannot be emailed to me due to the volume of records identified in response to my request, please advise me of the actual cost of copying all records onto a CD or floppy disk.

(4) If my request is too broad or does not reasonably describe the records, please contact me via email so that I may clarify my request, and when appropriate inform me of the manner in which records are filed, retrieved or generated.

If it is necessary to modify my request, and an email response is not preferred, please contact me at the following telephone number: 585-899-6183.

If for any reason any portion of my request is denied, please inform me of the reasons for the denial in writing and provide the name, address and email address of the person or body to whom an appeal should be directed.

This letter requests disclosure of copies of materials available from EPA under the Freedom of Information Act (FOIA). I request the following documents:

Copies of all submissions, including reports, records, letters, notes or memoranda (hereinafter "documents"), made by the state of Colorado in its request to the Environmental Protection Agency for authority to administer a general permit program under the Clean Water Act. The EPA granted this request on March 3, 1982. Pursuant to 40 C.F.R. § 123.21, that request should contain the following:

- (1) A letter from the Governor of the State requesting program approval;
- (2) A complete program description, as required by § 123.22, describing how the State intends to carry out its responsibilities under this part;
- (3) An Attorney General's statement as required by § 123.23;
- (4) A Memorandum of Agreement with the Regional Administrator as required by § 123.24;
- (5) Copies of all applicable State statutes and regulations, including those governing State administrative procedures

I request that the information requested here be provided in electronic format, unless a response can be more quickly provided in paper format. Please contact me at (415) 516-0701 or timkline@berkeley.edu if it is necessary to discuss any aspect of my request.

If any portion of this request is denied, I request a detailed statement of the reasons for the denial and an index or similar statement of the nature of the documents withheld. To expedite matters, I am willing to discuss specific instances of deletion or other exemption claims in advance of a final decision by EPA.

Please produce records of the following types in EPA's possession, custody or control that pertain to any significant new uses (SNURs, TSCA Section 5) of chemicals already listed on the TSCA 8(b) inventory or Pre-Manufacture Notices (PMN) submitted under TSCA for flame retardants for plastics and textiles, including but not limited to nanoparticle-based flame retardants such as:

- Silica and nanoparticle-based silica
- Layered silicates (clays) including but not limited to montmorillonite, hectorite, and laponite
- Calcium carbonate, calcium sulfate, and calcium borate hydrate
- Nanosilver particles

In order to register a material (as a SNUR or PMN) EPA must consider the projected volume of the material to be manufactured, the extent to which "use changes the type or form of exposure to human beings to a chemical," the extent to which use increases magnitude of exposure, and the manner and methods of manufacturing, processing, distribution in commerce, and disposal. Therefore, EPA must have all this information for each of the flame retardant materials it has reviewed, including nanoparticle based flame retardants. We ask that you provide the following information on each of the flame retardant materials named above:

- The name of the material
- The chemical structure/family of the material
- Physical-chemical information
- The intended use(s) of the material
- The expected volume/mass of manufacture of the material
- The EPA evaluation of the material
- The manner and methods of manufacturing, processing, distribution in commerce, and disposal of the nanoscale material
- Any data relevant to the hazard or risk determination for the chemical

I am requesting the full contents of an email sent on May 19, 2009 by Allyn Brooks-LaSure, then the EPA deputy associate administrator for public affairs, with the subject line "TVA Shipping Coal Ash to Minority Communities?"

I am further requesting the full contents of a forward of the above-mentioned email, sent by Barry Breen, then an EPA acting assistant administrator, to Deputy administrator of EPA Region 4, Stan Meiburg, and possibly also sent to others.

I am further requesting Meiburg's full emailed response to that forwarded email, which contains the statement: "There is a dilemma here... one related to larger questions of siting for municipal waste and other Subtitle D landfill facilities."

I am further requesting the full emailed response to the above email from Shane Hitchcock, of the Superfund Division, which includes the statement: "How can we communicate the positive economic impact on local communities?"

We are working with a potential buyer of a Tyson Foods facility that is one (1) of twenty-three (23) facilities subject to the consent decree settling Civil Action No. 1:13-cv-56.

The site we are interested in is located at 1001 Harness Drive, Montgomery City, MO. We are trying to determine the status of the Montgomery City facility as it relates to the EPA Region VII consent decree requirements. I discussed this earlier today with George Hess and he referred me to you. We would like to obtain copies of all documents submitted to EPA by Tyson under the consent decree that relate to the Montgomery City facility. Specifically:

1. The report of the results of the paper review of Tyson's engineering and design specifications (CD App A, Section 4.1 and 5.1).
2. A copy of the RMP audit report submitted to EPA by the Auditor (CD App A, Section 5.3).
3. A copy of Tyson's actual submittal to EPA in response to the RMP Findings (CD App A, Section 6.1).
4. Tyson's submittal to EPA certifying completion of all the RMP Finding corrective actions. This may be a separate submittal or contained in a quarterly report(s) (CD App A, Section 6.1).
5. A copy of the NDT test report submitted by Tyson to EPA (CD App B, Section 5.2)
6. Tyson's submittal to EPA certifying completion of the NDT corrective actions. This may be a separate submittal or contained in a quarterly report(s) (CD App B, Section 6.2).
7. Quarterly reports related to Montgomery City (CD App A, Section 7.1; CD App B, Section 7.1).

In addition, pursuant to Section VIII of the consent decree, EPA may approve or disapprove each report and submittal made by Tyson in writing (not including Quarterly reports unless they contain certifications that satisfy reporting obligations under Section 6 of Appendix A and Section 5 of Appendix B). If EPA has issued any such approval or disapproval to Tyson regarding

Re: Freedom of Information Act Request

Dear Sir or Madam:

This is a request under the Freedom of Information Act. I request that a copy of the following documents (or documents containing the following information) relating to the United States Steel Corporation, Mon Valley Works - Clairton Plant be provided to me:

- Documents relating to the design, manufacture, construction, inspection, repair, maintenance or oversight thereof, of the plant or any part thereof;
- Documents relating to any inspections thereof;
- Documents relating to any legal or regulatory violations;
- Documents relating to any third party contracts, contractors, suppliers, or consultants for any of the above;
- Any documents relating to the death which occurred at the above industrial plant on January 31, 2014.

In order to help to determine my status to assess fees, you should know that I am a plaintiff's attorney investigating an industrial accident at a coke/steel plant in Pennsylvania. This request is made as part of an investigation to determine what agencies, contractors, or other entities were involved with the design, construction, safety, regulation, inspection, maintenance, List of Wisconsin Pollutant Discharge Elimination System (WPDES) permits for EPA review during Years 2010-2015, including all documents, records, and correspondence related to negotiations, development, and finalization of the list and all communications between the Wisconsin Department of Natural Resources (WDNR) and the Environmental Protection Agency (EPA) concerning draft, proposed, or final list and

This is a request under the Freedom of Information Act, 5 U.S.C §552. I hereby respectfully request copies of any and all documents, communications, white papers, agreements, memorandum, and/or correspondence between the US Environmental Protection Agency Region 2 ("EPA Region 2") and the Puerto Rico Environmental Quality Board ("EQB") on the Puerto Rico Hazardous Waste Program and/or the delegated or shared power from/between the EPA Region 2 to/and EQB in connection therewith.

We understand that as part of this documentation, there is a document signed by EPA Region 2 and EQB in which EQB was delegated certain powers for the management of the Hazardous Waste Program in Puerto Rico. As a result, we request a copy of any and all documents signed by EPA Region 2 and EQB related to the referenced program.

If you need to discuss this request, I can be reached at 787-766-7000 or by email at egonzalez@ferraiuoli.com. Furthermore, please let us know in advance of any charge for the processing of this request so that we can make the appropriate arrangements.

Hello,

I am working on a Phase 1 Environmental Site Assessment for a property in Atlanta, Georgia. I need information that you have for EPA ID# GAD984279521

EPA-R4-2015-001064	Lee W. Irminger	Terracon Consultants, Inc.	10/31/2014 13:10	Thank you!
				URS hereby requests any information regarding environmental permits; surveillance or violations maintained in Federal EPA files for the below-referenced site(s). This information is needed to complete a Phase I Environmental Site Assessment.
EPA-R9-2015-001062	Toni Brandt		10/31/2014 13:10	"Parcel A of Parcel Merger No. 14-01" Formerly, the Site consisted of the following parcel numbers: APNs 294-050-058, -059; 294-650-005, -006, -007, and -008 Riverside, California 92518 I am requesting records related to the property located at 2403 Sycamore Road, Morris, Illinois 60450, currently operated by Munch's Supply. Specifically, I am looking for records regarding the storage and/or release of hazardous substances or petroleum products, including any incidents involving water or land contamination, and any permits, registrations, inspection reports, and/or notices of violation. Thank you!
EPA-R5-2015-001124	Agnes Kalat		11/3/2014 15:11	records related to real property located at 1210 Mercer Street, Tax Map No. 118E-E-006.03, owned by Lupton City LLC. the records, if any, relate to the demolition of a structure on the property. The property owner obtained a land disturbing permit from the City for the demolition of structures, formerly an R.L. Stowe mill. The property is now scattered with debris and garbage from a former industrial/manufacturing facility.

Re: Cornell-Dublier Electronics, Inc.

To Whom It May Concern:

I am submitting this document request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 et seq. This request concerns the United States Environmental Protection Agency's ("EPA") files relating to OU-4 of the Cornell-Dublier Electronics, Inc. Site (the "CDE Site") in South Plainfield, New Jersey. The EPA Site ID number is NJD981557879.

Specifically, I request copies of:

- EPA's Preliminary Ecological Risk Assessment (ERA) (1997)
- Final Report: Ecological Evaluation for the Cornell-Dublier Electronics Site (1999)
- Reassessment (2008/2009)
- Ecological Risk Assessment
- Human Health Risk Assessment
- Final Risk Assessment Report for OU4

I would ask that you contact me at your earliest convenience to discuss arrangements for providing the requested documents. This firm will of course take responsibility for any necessary copying and/or shipping charges. Your prompt attention to this matter is greatly appreciated. Thank you for your anticipated cooperation.

Any documents that pertain to the internal EPA policy, guidance, or protocol regarding the tax deductibility of payments negotiated with corporations in connection with civil and criminal settlement agreements, or any internal policy that outlines how the tax status of settlement payments is determined.

If the above policy exists, we request any documents that pertain to updates, changes, or proposed changes in the policy or guidance between 2005 and 2014.

We request any information regarding whether the EPA Enforcement Division maintains an internal record of which settlement payments and amounts were not tax deductible, or an internal record of settlement payments that were tax deductible.

If such a record does exist, we request a copy of that record.

Environmental Operations, Inc. is conducting Phase I Environmental Assessment on properties located in Missouri. Under the Freedom of Information Act, we request any information, complaints, or environmental concerns (e.g., RCRA, superfund, air emissions, water emissions, industrial activities, etc.) your agency may have regarding these sites and surrounding properties.

In addition, a general zip code search is a sufficient response to this request. We will notify your office if we need additional information.

We are willing to pay up to \$25 for each site, however, if it goes above this amount, please contact us for approval before proceeding.

PLEASE INCLUDE OUR PROJECT NUMBERS WITH YOUR RESPONSE.

I am hereby requesting under the Freedom of Information Act a review of the available files regarding the facility located at 2309 Sunset Lake Road, Newark, Delaware. ENVIRON is collecting environmental documentation regarding the facility in an effort to complete the facility's environmental records. Any information you may be able to provide concerning this site will be appreciated. This information includes, but is not limited to the following: department inspections, complaints, enforcement actions, permits, documentation relating to any potential or known on-site contamination issues, potential responsible party (PRP) notifications, and violations.

ENVIRON understands that the current owner of the facility (DuPont) conducted a RCRA Corrective Action in the mid-1990s, with respect to a then larger manufacturing facility (now referred as to Glasgow Community Business), which included the 2309 Sunset Lake Road site. Based on documents found on publicly accessible websites, it appears that this RCRA Corrective Action included at least soil and ground water investigations; however, it is not clear if the scope of such investigations extended to the facility of interest (2309 Sunset Lake Road). Any clarity on this matter will be appreciated.

Under FOIA, I request the following records on behalf of the Lucas County Prosecuto, regarding the Stickney (or Stickney Tyler) landfill in the Toledo, Ohio area:

- 1) A copy of the settlement agreement(s) with the Potential Responsible Parties (PRP)
- 2) All records relating to the determination of who was a PRP and the wastes or substances that a PRP deposited at the site. This would include, but not be limited to, information requests sent to the PRPs and their answers, interviews and investigations conducted by the US EPA, the Ohio EPA or others.

I previously worked on a related FOIA with Fred Gage and would appreciate if I could work with him again. That request was FOIA-3059-14. I would like to talk with him to determine how to minimize the efforts involved and limit the search to the most relevant records.

Re: Freedom of Information Act Request

Dear Leticia Lane, FOIA Officer

Under the Freedom of Information Act (5 U.S.C. Section 552), I am requesting the documents concerning the EPA Environmental Justice Showcase Project in Port Arthur, Texas, including documents addressing the development of the project, such as when and how this project was decided on, the objectives of the project when it began in Port Arthur, selection criteria that qualified Port Arthur for the project, funding allocations, and status updates on the project in Port Arthur, such as what goals have been met.

In order to help to determine my status to assess fees, you should know that I am affiliated with an educational institution, Texas A&M University, and this request is made for a scholarly or scientific purpose and not for a commercial use.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. Disclosure of the information regarding the EPA Environmental Justice Showcase Project will contribute to the public's understanding of EPA's efforts in attaining environmental justice.

Thank you for your consideration of this request.

Sincerely,
Tianna Bruno

I am in need of all documents and testing from the EPA, anyone it hired or worked with as it pertains to the Brazos River checking for potential damage done by the EPA superfund site known as Sheriden Disposal. I understand I agreed to certain things yesterday during the mandatory conference call between the EPA, other parties working with them and the EPA's attorney's but I apparently became confused thinking the River information was in there. No information about the Brazos is unimportant to me. No test is unwanted. I want copies of everything found from the the first test thru the most current

Ms. Barker:

Environmental Operations, Inc. is conducting Phase I Environmental Assessment on properties located in Missouri. Under the Freedom of Information Act, we request any information, complaints, or environmental concerns (e.g., RCRA, superfund, air emissions, water emissions, industrial activities, etc.) your agency may have regarding these sites and surrounding properties.

In addition, a general zip code search is a sufficient response to this request. We will notify your office if we need additional information.

We are willing to pay up to \$25 for each site, however, if it goes above this amount, please contact us for approval before proceeding.

PLEASE INCLUDE OUR PROJECT NUMBERS WITH YOUR RESPONSE.

Current digital listing of all EPA registered FIFRA Section 7 Domestic pesticide producing establishments, sorted numerically by establishment number, name, site addresses and status code for 2010 to the most current reporting year , preferably in Excel, Access, DBF or Tab Delimited Text Format.

The latest reporting year I have from the U.S. EPA is dated 2009 (HQ-FOI-00269-11), which included two excel spreadsheets:
First Excel file= "Pesticide Search Foreign and Domestic Establishments" with the following fields: Reporting Year, Region, Product Registration #, Product Name, Product Name, Product Market, Product Type, Product Classification, Market Type, RUP Status, Estab. Number, Estab. Name, Estab. Site Address, Estab Site City, Estab Site State, Estab Site Zip Code, Estab Site County
Second Excel file= "Active Establishment Listing- Foreign and Domestic Establishments" with the following fields:
Estab Number, Estab Name, Estab Site Address, Estab Site City, Estab Site State, Estab Site Zip Code, Estab Site County, Estab Mailing Address, Est Contact, Estab Create/Update Date, Co Name, Co HQ Site Address, Co HQ Mailing Address, Co Authorized Agent, Co Contact

In July of this year, I received the data records containing non-CBI info of all EPA-Registered Foreign Pesticide-Producing and Device Producing Establishments (FOIA EPA-HW-2014-006912) for 2010-2012 in Excel Format.

Prior to processing my request, please inform me of format and field options available, along with the associated fees. Thank you for your time and assistance with my request. Have a nice day!

My name is Carleigh Samson, and I'm a Ph.D. student at the University of Colorado Boulder working with Corona Environmental Consulting and the American Water Works Association on a nationwide effort funded by AWWA to collect as much disinfection byproduct and related finished water quality data as possible.

This work is contracted to Corona Environmental Consulting, LLC, and its partners, the University of Colorado and Michael J. McGuire Inc.. AWWA and others will use data collected in this effort to support analyses and assessments related to the Stage 2 Disinfectant / Disinfection Byproduct Rule and related efforts to document and improve the nation's drinking water quality.

We are reaching out to you with this email to enlist your support in providing data for Wyoming. Our minimum data requirements and the ideal range of data you could provide are provided in a table on the attached data request document. If possible, we request that you send a snapshot of the database your state uses to house these data as a comma separated value (csv) file and a data dictionary describing the field contents for the database snapshot. If there is a file format that is more convenient than a csv file, we are happy to receive data in a different format. A document describing how we recommend transferring the data to us accompanies this request. In addition to these water quality data, we also request data on plant operating characteristics – coagulant type, dose, application of oxidation processes, secondary disinfection (chlorine v chloramines) – for plants in your state.

I am looking for any documents regarding a criminal investigation in Crossett, Arkansas. The investigation is in response to several complaints made against Georgia Pacific. The following are the details of the complaints and the individuals involved:

- The criminal investigator on the case currently is Mike Marrow (Region 6 EPA).

- First complaint was made earlier this year (2014) by Dickie Guice (complaint made to Mike Marrow). The complaint was about illegal dumping by Georgia Pacific in Crossett, AK. According to Dickie Guice, the investigator sent Guice a letter stating the case is closed.

- Second complaint made by Ken Atkins, a Crossett resident. His address is 1018 Atkins Rd. Crossett AR 71635 (case #105924). Ken was a contractor who dumped GP chemicals called boiler ash on his land. In a complaint made in 2013 he had ADEQ visit his land. Ken also spoke with the current criminal investigator Marrow this year, and he told Ken there is no need to further investigate.

I am looking for documents on either of these incidents: Marrow's investigation of Dickie Guice's case, Marrow's investigation of Ken Atkin's case (2014).

Please let me know if any further information is required.

Thank you

I would like to respectfully request copies of the following study MRIDs from the Office of Pesticide Programs: MRID Nos. 43721701, 44051301, and 44119301. I am also requesting any EPA-related reviews or data evaluation records (DERs) for those three studies. Should those studies not be available or releasable, I would like copies of any of the EPA-generated reviews for those studies.

I wanted to get the Federal Waste Generator Code for the sites included in the file I enclosed. I have been told that the sites listed are older listings and the reporting process didn't allow you to specify what kind of generator was on the sites. The listed sites currently has a null value but should have either 1,2,3 or NA. The column the data is in is column AQ named "Federal Waste Generator Code". I would like the listing I have enclosed to have that information added in for each site. I appreciate any help you can provide me. Thanks.

DOMESTIC PESTICIDE PRODUCING ESTABLISHMENTS

Note: For the past 12 years we would go to Headquarters for a complete list of all foreign and domestic EPA Establishments. This year we are required to go to each region for this information. We thank you in advance for the extra effort you put into getting us a quick response to our request.

Adams Technology Systems LLC uses the Section 7 data when reviewing labels and documentation to confirm that an EPA Establishment is properly registered and filing their yearly production reports. We also share the information with other consultants and companies so they may do the same. If we find errors, we work with the registrant to make corrections and provide guidance on how to remain in compliance.

Freedom of Information Office

Under the Freedom of Information Act (FOIA) as amended (5 U.S.C.55) we hereby request the following:

EXCEL FILE OF ALL SECTION 7 - Domestic PESTICIDE PRODUCING ESTABLISHMENTS IN AN EPA ESTABLISHMENT NUMBER SORT.

To Whom It May Concern,

I am an independent contractor doing market research for a client. My client has requested that I find as much information as possible regarding turnaround dates for oil refineries in the United States. We are working on a project relating to the abatement of pollution; we require the exact turnaround dates for refineries for at least the last five years, though a larger span would be welcome.

Again, we are looking at refineries in the United States alone. I hope that the EPA can provide this information via the Freedom of Information Act. Thank you so much for your time. Please contact me via email at anader@gmail.com.

				Hi- I am looking for documentation on the Big Branch Surface Mine where EPA initiated a 404(c) action but never proposed a determination. I have the initiation letter but could not find any further information on that action. I don't know what is out there but I would like to know the status of the action and if there has been any further action. If there is someone else I should be contacting please let me know. Thanks! DOMESTIC PESTICIDE PRODUCING ESTABLISHMENTS

Note: For the past 12 years we would go to Headquarters for a complete list of all foreign and domestic EPA Establishments. This year we are required to go to each region for this information. We thank you in advance for the extra effort you put into getting us a quick response to our request.

Adams Technology Systems LLC uses the Section 7 data when reviewing labels and documentation to confirm that an EPA Establishment is properly registered and filing their yearly production reports. We also share the information with other consultants and companies so they may do the same. If we find errors, we work with the registrant to make corrections and provide guidance on how to remain in compliance.

Freedom of Information Office

Under the Freedom of Information Act (FOIA) as amended (5 U.S.C.55) we hereby request the following:

Hello, I am writing to initiate a FOIA request for an excel file that contains grants awarded during FY2014 with the following fields.

Requested Fields: Name of the Principal Investigator, Federal Award ID, Title, Funding Amount, Obligation Date, and the Start and End Dates for FY-2014 grants.

These fields are all available at usaspending.gov except for the Principal Investigators name which is the primary reason for this request. For your reference the same request was made and completed last year for FY2013 grants and was assigned EPA-HQ-2014-002563.

In order to help to determine my status to assess fees, you should know that I am affiliated with a private corporation and seeking information for use in the company's business.

Thank you for your consideration of this request.

Sincerely,

Tara Brogan

Director of Database Production

				I am conducting doctoral research on bureaucratic politics, with a substantive focus on environmental politics, from 1973 to the present. Given the political science literature's emphasis on lawmaking but relative inattention to policymaking processes in the aftermath of delegation, this study is looking at the complexities of policy implementation amid various types of separation of powers conflict, and provides important quantitative and theoretical contributions to our knowledge about the effects of litigation and partisan conflict in shaping the legal and policy outcomes we observe.
				Among other things, I am interested in the volume of litigation and threats of litigation against administrative agencies. I am requesting records of notices of intent to sue from 1973 forward (or as much of that time period as is available) since it is only available online from 2013 forward. If the documents themselves are unavailable going several years back, it would still be helpful to know the number of such notices of intent to sue per year, and with respect to which statute(s) implemented by the agency. I would also like a list of suits filed that were challenging final agency actions, for that same time period or as much of that time period as is available, and what the resolutions of those cases were (court vs. settlement, and ideally the dollar amount of the settlement/case resolution).

I am making a request for an electronic file containing copies of all the DMR results filed by facilities in SIC 26 for each of the Calendar Years 1985, 1987, 1992, 1996 and 2001. These were previously available to the public and are currently in an EPA data bank. Similar information can be retrieved through the PCS Advanced Tool. I am requesting information similar to that I retrieved using the search Criteria shown in the bracketed material below.

(Search criteria:

Level of Detail: Monitoring Period; Monitoring Period: 01/01/2013 to 12/31/2013; 2-digit SIC: 26; Use DMR data only; Non-detects equal to zero; Estimation function: Off; Parameter grouping: Off; Nutrient aggregation: Off; Your search results returned 20,796 records. Select the fields below that you want to be included in your data file and click Search.)

SUBJECT:

File Search – 100 West Tally Ho Road Property
Stem, Granville County, North Carolina
Parcel Number 2413

☒

The Catena Group, Inc. (Catena) is conducting an environmental site assessment of an approximately 0.09 acre property located in Stem, Granville County, North Carolina (aerial and topographic maps attached). The subject property is located at the southwest corner of the intersection of Tally Ho Road and Main Street; parcel number 2413. The property is currently owned by Mary Breedlove. A building and parking area currently occupy the site.

Specifically, we request a written response to any agency involvement with the property regarding environmental concerns or underground/aboveground storage tank permit violations. If there is an extensive report, we would be willing to review it at your office. If there are no environmental concerns with regard to said property, a written response is also requested.

Please enclose a copy of this letter with your response or refer to the inquiry of the property as “100 West Tally Ho Road”. Please call (919) 732-1300 or email (kmontieth@thecatenagroup.com) should you require further detail on our request. Thank you for your assistance with our study.

However, this group was formed by the EPA in February of 2000, and the above page does not include minutes from that date through December of 2003. As you can see, the oldest minutes file on record on the page is dated January 2004. I know this group was formed as stated and was active constantly during this time. Description of Records Sought

1. We understand that EPA has finished the Tier 1 assays (11 assays), issued test orders based on Tier 1 assays, and received results for 67 chemicals have been run through the assays. Please provide DERs for these and any other data received from the Tier 1 testing. Please provide the chemical identities and Data Evaluation Records (DERs) or similar data reports of the results for all the chemicals that have undergone Tier 1 testing under the Endocrine Disruptor Screening Program (EDSP).

2. Please provide the chemical identity, manufacturer, and any accompanying information for any chemicals on the list to be tested in the EDSP program that were withdrawn from the market, either before or after testing. We understand that there are at least 15 pesticides that were withdrawn voluntarily.

3. Please produce a list of those 79 pesticides and any others that EPA has regulated under FIFRA based on their endocrine effects, and an accompanying description of the criteria EPA used to identify and regulate these pesticides as endocrine disrupting chemicals. A 2010 EPA report to Congress on pesticide licensing and endocrine disruptor screening activities, here: http://www.epa.gov/endo/pubs/08-2010_report-to-congress.pdf provides discussion on pages 10-11, identifying 79 pesticides for which endocrine effects were the most sensitive, and were used for regulatory purposes.

I have looked through the EPA's website and the documents I am requesting are not available on the website or are made available to the public.

I am requesting all documents, including test results, communication logs, written correspondence, fines and action taken concerning an investigation by, Jim Mailey at the EPA regarding Lead paint exposure on the property located at 525 and 527 S. Bryan Avenue, Fort Collins, CO 80521. This investigation began with a tip from myself the resident, Jeanette Edwards beginning in August of 2014. I was the tenant during the investigation and my family has been directly affected by the refusal of the property owners to properly abate the lead paint during extensive repairs to the house and repainting. Myself, my husband, 4 year old son and unborn child resided at the property during the renovations. We were not given proper notice. The work done by painter, was not done according to the EPA's standards for Lead paint abatement.

I need these documents to protect myself and my family from the abuse of the property owners in retaliation for providing the EPA with the information to conduct this case.

My request covers all records maintained by the EPA on RCRA (including but not limited to Corrective Action requests, RCRA Facility Assessments, Solid Waste Management Units, Part B Permit Cells if any), TCSA inspections, Hazardous Waste Corrective Action Requests, permitting, CERCLA, Federal and/or State Superfund, Air Quality, Water Pollution Control, SARA Right to Know (Title III), Emergency Response Notifications (ERNS) Facility Index System Database, and any relevant information for the property from 1970 to the present, including any information on investigations currently in progress. In case any documents pertaining to the above property are withheld from public record, I am requesting that these documents be identified as to the subject, date, author and reason for the claim of privilege.

The purpose of this request is to allow Loureiro Engineering Associates (Loureiro) to obtain all necessary information to complete an environmental audit of the above property. Loureiro is a professional corporation conducting studies, reports, and design work in the area of environmental engineering.

Sincerely,

Loureiro Engineering Associates, Inc.

Ms. Barker:

Environmental Operations, Inc. is conducting Phase I Environmental Assessment on properties located in Missouri. Under the Freedom of Information Act, we request any information, complaints, or environmental concerns (e.g., RCRA, superfund, air emissions, water emissions, industrial activities, etc.) your agency may have regarding these sites and surrounding properties.

In addition, a general zip code search is a sufficient response to this request. We will notify your office if we need additional information.

We are willing to pay up to \$25 for each site, however, if it goes above this amount, please contact us for approval before proceeding.

PLEASE INCLUDE OUR PROJECT NUMBERS WITH YOUR RESPONSE.

(1) The USGS Groundwater Review Report of the area under and around the Bridgeton and West Lake Landfills in Missouri. This report is referenced in this EPA update: http://www.epa.gov/region7/cleanup/west_lake_landfill/pdf/west-lake-update-09-18-2014.pdf

In an interview in September 2014, EPA R7 Administrator Karl Brooks said this report would be made available to the public in early November, but it has yet to be released (see last sentence: <http://news.stlpublicradio.org/post/what-epa-has-say-about-west-lake-landfill-and-why-everything-taking-so-long>).

Area residents are concerned about their health and eager to see the report, which includes data on groundwater contamination in residential areas.

A more limited, July 2014, review of groundwater data by the Missouri Department of Natural Resources (MDNR) found evidence of increasing groundwater contamination in the area of the landfills, including unsafe levels of benzene, arsenic, and other chemicals toxic to human health. See: <http://www.dnr.mo.gov/bridgeton/docs/reviewdectnmonassessmentmonplan073014.pdf>

Although the U.S. Geological Survey (USGS) compiled the report I am requesting, I have been told by USGS staff that only EPA has the authority to release it.

(2) Any and all communications about the USGS Groundwater Review Report, including but not limited to emails, texts, notes, memos, letters, summaries of telephone conversations, and meeting minutes, written or sent:

(a) by EPA employees for their own use

(b) between EPA employees

(c) between EPA employees and employees of (i) USGS; (ii) MDNR; the Missouri Attorney General's Office; (iii) the U.S. Army Corps of Engineers; (iv) Republic Services or its subsidiaries; (v) other West Lake PRPs.

To Whom it May Concern:

Environmental Operations, Inc. is conducting Phase I Environmental Assessment on properties located in Kentucky. Under the Freedom of Information Act, we request any information, complaints, or environmental concerns (e.g., RCRA, superfund, air emissions, water emissions, industrial activities, etc.) your agency may have regarding these sites and surrounding properties.

In addition, a general zip code search is a sufficient response to this request. We will notify your office if we need additional information.

We are willing to pay up to \$25 for each site, however, if it goes above this amount, please contact us for approval before proceeding.

PLEASE INCLUDE OUR PROJECT NUMBERS WITH YOUR RESPONSE.

Pursuant to the Freedom of Information Act, 5 U.S.C. §§ 552 et seq., and by way of this letter, I am requesting copies of all in your possession that relate to City of Atlanta's Combined Sewer System Draft NPDES Permit Nos. East Area GA0037168 and West Area GA0036844.

This request specifically includes but is not limited to written or electronic correspondence generated by or sent from Environmental Protection Agency ("EPA") personnel to Georgia Environmental Protection Division ("EPD") personnel or City of Atlanta personnel, as well as any written or electronic correspondence sent to EPA personnel from either EPD personnel or City of Atlanta personnel, related to the creation of the draft permits. The request further encompasses written or electronic correspondence from or to any other entities or individuals, as well as any and all notes, data, studies, reports, memoranda or other documents which relate to the draft permits.

In order to help you determine my status for the purpose of assessing fees, you should know that I represent a 501(c)(3) nonprofit corporation whose mission is to advocate and secure the protection and stewardship of the Chattahoochee River, its tributaries and watershed, in order to restore and preserve their ecological health for the people, fish and wildlife that depend on the River system, and I am seeking information for use in the organization's mission.

I request that you provide me with exact copies of the requested documents or, where no actual official document exists, a complete and accurate account of the information requested. I agree to pay all reasonable search and associated administrative and copying costs; however, if these costs exceed \$25.00, Furthermore, please ensure that the first two (2) hours of administrative search time and the first one-hundred (100) pages of documents produced are provided free of charge, pursuant to the OMB FOIA Schedule and Guidelines at §8(d).

I am seeking the EPA-conducted technical systems audit of Illinois' air quality monitoring program and the EPA-conducted audit of the procedures used by the Cook County Department of Environmental Control to weigh PM2.5 samples collected across the state referred to in the fifth paragraph of this letter: www.epa.gov/pmdesignations/2012standards/eparesp/05_IL_120resp.pdf. These audits were used to come to the decision to consider monitoring data for the state of Illinois invalid in EPA's initial area designations for the 2012 PM2.5 standard.

Please include attachments, enclosures or any other documents that were provided with the audits. I request the documents in electronic form where possible.

I am filing this FOIA request as a “representative of the news media” since I am a reporter for Greenwire — one of Environment & Energy Publishing’s five daily online publications. This request is made as part of news-gathering activity and is not for commercial use (see request for fee waiver below).

FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.

If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.

If you have any questions about the nature or scope of this request, please call me at 202-446-0476 or email me at

I need this data so that I am not fired unfairly. These records will prove my whistleblower complaint is valid.

I need the email records between Mark J Huff, David R Baker, and Lee Hofmann. There was bias there that could lead to me being fired.

On Sept 8, 2009 the OIG did an investigation of OSWER/ORCR and their handling of Coal Ash. I testified honestly during this investigation that OSWER/ORCR ignored data that proved to coal ash was harmful to human health and the environment. This investigation disclosed that data that showed that coal ash was harmful to human health and the environment was ignored by high level OSWER/ORCR managers. A special was done on 60 minutes where they called Lisa Jackson out on this and she had to apologize to the American public. It made several OSWER/ORCR managers look very bad. Staff were reassigned, the OSWER/ORCR C2P2 program was cancelled and many high level managers got in big trouble. PEER later posted my comments that made OSWER/ORCR managers look bad on the internet. Do a google search now with the key words "Mike Clipper EPA coal ash" and you will instantly see why I am filing this complaint.

You will find this:

http://www.peer.org/assets/docs/epa/7_18_11_EPA_sci_suppression.pdf

I was on a detail in 2010 and 2011 as a Team Leader and I received an "Exceeds Expectations" PARS Rating. I returned to work for Lee Hofmann in OSWER/ERAS in late 2011 and she told me that I couldn't write a document or do spreadsheet work in EXCEL things that I had been doing for 20 years. Lee would mislead me behind closed doors and tell me that I was a poorly performing employee. Mark Huff Lee's supervisor would just deny these things were happening and he would defend Lee. Lee and Mark then just attacked me and tried to have me fired. Now I am about to be FIRED in mid-January 2015 because I didn't pass heavily biased performance plan.

12/16/2014 15:12 Use Information.

Pursuant to the Freedom of Information Act, 5 U.S.C. §§ 552 et seq., and by way of this letter, I am requesting copies of any and all documents in EPA's possession that relate to the Georgia Environmental Protection Division's ("EPD's") proposal to remove the flow requirement for Peachtree Creek found at Georgia Rules and Regulations Reg. 391-3-6-.03(14) fn 1, currently being considered as part of EPD's triennial review of water quality standards.

This request includes any and all written or electronic correspondence from EPA personnel to EPD personnel, or conversely from EPD personnel to EPA personnel; correspondence sent to or received by EPA from other entities; written or electronic notes; memoranda; reports; data; studies or other documents in EPA's possession which relate to the above-referenced issue.

In order to help you determine my status for the purpose of assessing fees, you should know that I represent a 501(c)(3) nonprofit corporation whose mission is to advocate and secure the protection and stewardship of the Chattahoochee River, its tributaries and watershed, in order to restore and preserve their ecological health for the people, fish and wildlife that depend on the River system, and I am seeking information for use in the organization's mission.

I request that you provide me with exact copies of the requested documents or, where no actual official document exists, a complete and accurate account of the information requested. I agree to pay all reasonable search and associated administrative and copying costs; however, if these costs exceed \$25.00, I request that you notify me before proceeding. Furthermore, please ensure that the first two (2) hours of administrative search time and the first one-hundred (100) pages of documents produced are provided free of charge, pursuant to the OMB FOIA Schedule and Guidelines at §8(d).

An example of the data set in this request can be found on the webpage:
http://yosemite.epa.gov/oarm/igms_egf.nsf/Reports%5CActive+Grants?OpenView

The requested data should not be limited to all non-construction EPA grants awarded, but to any/all EPA grants awarded dating back to 1970.

Ideally, the data set obtained from this request would be appended to the preexisting .csv file generated by my previous Request Tracking: EPA-HQ-2015-001398.

Please include the following fields:

Accession Number: (if exists/available)

Grant Number: The unique identification number by which EPA refers to the grant.
 (Note: Not required should the .csv file from EPA-HQ-2015-001398 be used.)

Recipient: Name of the organization receiving this grant.
 (Note: Not required should the .csv file from EPA-HQ-2015-001398 be used.)

Award Amt: Total cumulative dollar amount of EPA funds awarded under this grant.

Project End Date: The date when work ended on this grant.

Abstract/Scientific Abstract: Lay abstract/description/summary/scientific abstract or summary.
 (Includes Title along with the text description of the project)

Greetings,

I would like to acquire the full and complete listing of all CERCLIS Liens for all regions.

We obtained a listing from you a few years back however that file is out of date and therefore I need an updated version of the list. I have attached a copy of the list that was sent to us before.

I hope that the list you will send will have the same fields as the file previously delivered to us. Please see attached file as reference.

If you could please send this file in Excel format that would be greatly appreciated.

Thank you for your time and if you have any questions please do not hesitate to contact me.

Best,

Hello EPA,

I am looking for information related to a soil or water test that the EPA conducted in Corning N.Y. (Corning is a small city located within Steuben County N.Y.) The EPA conducted some form of soil or water test in the early 1990's. I believe this test was conducted between 1990 and 1993 however I am not entirely sure of these dates. It is my understanding that at the time, new roads and highways were being constructed in and around the City of Corning and the EPA came and performed some sort of testing on the soil and water. Unfortunately, I am not sure the exact reasons why the EPA performed this test.

Any information or communication would be greatly appreciated. If this request is too broad in scope please contact me and I will see if I can somehow limit the scope of this request. Thank you very much for your time EPA!

Kindest Regards,

12/23/2014 14:12 CARC memorandum for propineb, CAS Number 12071-83-9, dated 2/11/2013

On Feb. 3, 2012, New York State Department of Environmental Conservation Director of Bureau of Air sent an email to EPA officials Richard Ruvo, Raymond Werner and Mazeeda Kahn about Peace Brodge Air monitoring and Tonawanda air monitors. That email included various attachments, which I am requesting through the Freedom of Information Act.

The attachments include:

- "Tonawanda monitor shutdown response.docx" "
- Letter to Council.pdf"
- attachment "20111215115053359.pdf"
- "Buffalo westside air monitoring request response.docx"
- attachment "Center for Asthma Environmental Exposure.pdf"
- attachment "Clarkson University.pdf"
- attachment "Federal Register Notice - NOIRescission.pdf"
- attachment "Health Effects Institute.pdf"

In addition, I am also requesting:

- Any communication that EPA Region 2 Staff has had among agency staff about both the Peace Bridge and Peace Bridge air monitoring for the time period spanning 2012 to the most current date.
- Any communication EPA Region 2 staff has had about the Peace Bridge with the New York Department of Environmental Conservation from June 2013 to the most current date to include but not be limited to any responses and attachments or documents from the NYDEC.
- Any communication EPA Region 2 staff has had with the New York Department of Environmental Conservation about the Tonawanda Air Monitors from 2012 to the most current date to include but not be limited to any responses and attachments or documents from the NYDEC.

Through the Freedom of Information Act, I am requesting the following for all ten EPA Regions.

I would like both major and minor facilities.

An updated copy of the AIR FACILITY SYSTEM (AFS) QUARTERLY EXTRACTS in Excel or Access format.

I guarantee payment of cost up to \$25.00. If the cost will exceed this amount, please let me know. In my last request for this data I was told that the data would no longer be called AFS since the AFS has been decommissioned. The data would now be the Clean Air Act stationary source compliance and enforcement information from the new air module of the Integrated Compliance Information System (ICIS-AIR). I would like to request this new dataset and request that it have the same information that the AFS dataset contained. I greatly appreciate your help.

I'm probably not contacting the right department but I would appreciate if you could forward this to where it will be addressed. I would like a law placed on all water bottle companies. Most people today buy and drink bottled water. So much water and bottles go to waste and pollute our environment. People take a few sips from a bottle and forget which one is theirs and reopen another one. It will save households money and help the environment if what I propose will go in affect. I would like to see each case of water to contain different color caps on them with no color the same. That way people are more likely to remember which bottle belongs to them. It's a proven fact that color helps retain memory. I contacted three water bottle companies about this idea and not a single one replied back to me. They all say that they are environmental friendly on websites but in actuality they are not because the more water a person waste then the more their sales go up. I actually think if at least one company would take on my idea that their sales would boost and other companies would have to follow. Can you please help direct me on who to contact so we can help preserve our planet and inhabitants.

Sincerely,

I am filing this FOIA request as a "representative of the news media" since I am a reporter for Greenwire -- one of Environment & Energy Publishing's five daily online publications. This request is made as part of news-gathering activity and is not for commercial use (see fee waiver request below).

FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.

If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

Ms. Barker:

Environmental Operations, Inc. is conducting Phase I Environmental Assessment on properties located in Missouri. Under the Freedom of Information Act, we request any information, complaints, or environmental concerns (e.g., RCRA, superfund, air emissions, water emissions, industrial activities, etc.) your agency may have regarding these sites and surrounding properties.

In addition, a general zip code search is a sufficient response to this request. We will notify your office if we need additional information.

We are willing to pay up to \$25 for each site, however, if it goes above this amount, please contact us for approval before proceeding.

PLEASE INCLUDE OUR PROJECT NUMBERS WITH YOUR RESPONSE.

I am researching details related to a report prepared for the EPA by SulTRAC (an environmental consultant). I require additional information regarding claims made in the following document ("Report"):

"Final Remedial Investigation Report for Little Scioto River and Baker Wood Creosoting Sites - Marion, Marion County, Ohio"
Contract No. EP-S5-06-02, Work Assignment No. 155-RICO-B5BC
Date: August 2, 2013
Author: Jodi McCarty

(The Report is also attached to this message)

In this Report (page 4-44 or page 103 of the PDF, paragraph 5) a reference is made to background groundwater concentrations for the following classes of chemical constituents: TCL VOCs, TCL SVOCs, and TAL Metals. Background concentrations were calculated based on analytical results obtained from five (5) shallow groundwater monitoring wells. However, data is only reported for one of the wells (MW-2S) in Appendix K of the Report.

I require full analytical reports (detailing concentrations, qualifiers, QA/QC data, and any other data included in the original analytical reports), and all metadata, for all groundwater sampling conducted at the following four (4) temporary monitoring wells:

- BWC-TW25
- BWC-TW28
- BWC-TW54
- BWC-TW55

The analytical reports should contain, at a minimum, data for the following classes of chemical constituents:

				According to information I found this historical landfill is apparently marked as Superfund site. I would like to understand in your records what reports you have on this historical landfill as recently Encana was digging up trash on this site while building a gas pipeline. They have been notified by CDHPE and I think EPA is involved with a complaint as well.
				From old research I found there was in 1960-64' potentially 1500 Drums of I.B.M.solvents as hazardous materials dumped on this landfill which was abandoned in 1969 for 10 years after another landfill company laidlaw took over operations and backfilled trash over this area.

Hello, Sirs and Ma'ams, I am requesting a fee waiver, requested below.

My FOIA request concerns the proposed Keystone XL pipeline, proposed to traverse from Canada, to Nebraska. The financiers of this pipeline, the Koch Brothers, are heavily invested in the campaigns of politically affiliated, judicial and legislative persons, who are promoting the Pipeline's acceptance. President Obama has promised to Veto the pipeline. My concern, and request, involves whether or not, the Canadian Government, has ever refused Koch Industries, the right to build oil refineries in Canada, and any province thereof. If Canada refused to allow the oil sands to be refined there [in Canada], then it would be obvious that the Keystone Pipeline becomes a political issue, requiring Senate and Congressional persons, to approve US pipeline development, absent Canadian approval for refinery rights. Wherever oil and gas exploration occurs, there are poverty stricken communities, toxic chemical spills, dog-guarded salvage and truck yards, complete with barbed wire and snapping dogs, non-native workers, imported to support the industry, and many other social and Environmental concerns. It is my concern that Canada refused to allow oil exploitation, and now the only recourse is a political requiem, within the United States, clearly motivated by money. Do you have any information, that shows Canada would not allow production of oil by Koch

Provide a list of all civil cases, administrative or judicial, in which EPA has attempted, whether successfully or unsuccessfully, to secure mitigation as injunctive relief, as discussed in the November 14, 2012 Memorandum from Susan Shinkman, Director, Office of Civil Enforcement to Regional Counsels, Regional Enforcement Division Directors, Regional Enforcement Coordinators, and Office of Civil Enforcement Division Directors, entitled Securing Mitigation as Injunctive Relief in Certain Civil Enforcement Settlements (2nd edition)(copy attached). This request includes settlements in any form, including but not limited to agreed orders and consent decrees, and judgments, including but not limited to unilateral orders, administrative orders, and court judgments or verdicts. Provide copies of any document, such as orders, consent decrees, or judgments, in which a mitigation remedy has been legally imposed and made enforceable against any entity obligated to perform the mitigation. Provide any record which describes any mitigation remedy sought pursuant to the attached policy, and/or discusses the basis for seeking a mitigation remedy pursuant to the attached policy. Provide any record which discusses adjustments in any civil penalties imposed in these case that are related to an entities' agreement to perform a mitigation remedy. Provide any document which discusses the status of any and all mitigation remedies which have been secured.

I am seeking any documentation which would support a rumor that people in the Witness Relocation Program were offered payment to relocate out of the Albuquerque area so that construction of a supercollider could be built to clean up the contaminated area now known as Old Albuquerque which has been "off grid" since the nuclear assault of 1983.

Pursuant to the Freedom of Information Act, as amended ("FOIA"), 5 U.S.C. § 552 et seq., this letter has been prepared to request copies of all documents and records in the possession of the United States Environmental Protection Agency ("EPA"), and all its offices or subdivisions, related to the College Arms Apartments property in Collegeville, PA, including but not limited to any request made by Tri-Realty Company, the owner of the College Arms Apartments, to the United States Army Corps of Engineers ("Corps") for a jurisdictional determination of the presence or absence of wetlands and any other waters of the United States on the College Arms property. Tri-Realty Company submitted through its consultant to the Corps on 12/23/13 a request for a jurisdictional determination concerning College Arms.

As part of this FOIA request, we seek all documents and records in the possession of the EPA reflecting communications with or by any of the following EPA employees relating to the College Arms Apartment property:

Jeff Lapp, Jessica Martinsen, Todd Lutte, Stephana Shamet, and Jamie Davis

These records should include all drafts, memoranda, and communications, including emails that contain information regarding the College Arms Apartments property as well as all documents and records pertaining to any meetings, teleconferences, or conversations related to the College Arms Apartments property, including but not limited to any meeting, telephone conference or communication between EPA Region 3 and the Corps.

Under the FOIA, we anticipate reviewing the requested records within ten working days of the EPA's receipt of this request. We are prepared to pay the required copying fees for copies of documents selected during our inspection.

Re: FOIA Request

I am requesting, under the Freedom of Information Act (FOIA), records for the following property:

Waste Management of New Jersey
25-647 Front Street
Elizabeth, NJ 07202

Please provide the following information for the above property:

Any records pertaining to past or present: environmental matters; alleged or confirmed compliance issues; hazardous materials use or storage at this property; alleged or confirmed releases on this property; environmental complaints, investigations, or violations; environmental liens, use or activity restrictions.

In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am affiliated with a private corporation and am seeking information for use in the company's business.

I am willing to pay fees associated with this request, but request to be advised of estimated costs prior to any such costs being incurred.

If you deny any part of this request, please cite each specific reason that you think justifies your refusal to release the information. Please notify me of appeal procedures available under the law.

EPA-R2-2015-003099 Doug Ruhlin Resource Management Associates 1/13/2015 16:01 Responses may be emailed or mailed directly to our office. Thank you for your prompt attention to this matter.

Basically I'm looking for reports that provide information on the groundwater conditions in the area of the Lindsay Manufacturing Company (LM LLC), an NPL site near the village of Lindsay, Nebraska. Any information including the influence of LMC's pump and treat activities on groundwater flow would be most helpful. These are the documents I'd like to obtain, if possible:

- Final RI Report (June 25, 1990)
- Annual Report – Enhanced Groundwater Remediation Progress Report for the Period Covering Jan. 1, 2013-Dec 31, 2013 (Note: I have the annual report covering 2012; I am assuming LMC has submitted their 2013 annual report to EPA by now)
- Data Transmittal Addendum Task 6 (Phase V): Pump Test and Assessment of the Effectiveness of the Capture Zone Created by Interceptor Well EXT11-01, Completed at Lindsay Manufacturing Company, Aug 2012.
- Interim Data Transmittal Addendum Task 6 (Phase V) Field Activities: Installation of Additional Monitoring and Interceptor Wells in the Southern Terminus, LM LLC, Jan 2012.
- Revision 1.0, Interim Data Transmittal Addendum Task 6 (Phase II): Pump Test Assessment of the Effectiveness of the Capture Zones Created by Interceptor Wells G127000 and EXT07-02 Completed at LM LLC, Mar 2011
- Interim Data Transmittal Addendum Task 6 (Phase II) Follow-Up Field Activities: Assess the Effectiveness of the Capture Zones Created by Operations of Wells G127000 and EXT07-02, Completed at Lindsay MM LLC, Jul 2010.
- Interim Data Transmittal – Tasks 4 and 6 from 2008 Five-Year Review Work Plan dated August 14, 2009 for LM LLC, Dec 2009.
- Work Plan – Revision 1.0, Actions Responsive to 2008 Five-Year Review, LM LLC, Lindsay Nebr, Aug 2009
- Interim Data Transmittal Task 6: Assess the Effectiveness of the Capture Zones Created by Operation of Wells G127000 and EXT07-02, Dec 2009.

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all documents or records in possession of EPA or its contractors of interviews performed by EPA or its contractors or DOE or its contractors of current or former workers at the The Santa Susana Field Laboratory site conducted as part of or for the EPA radiation survey of The Santa Susana Field Laboratory that was released in late 2012.

I am requesting the unexpurgated and complete records of these interviews. If any portion is subject to being withheld, I ask that any material withheld be identified and the basis of the withholding set forth and for the remaining records to be released. I request a mandatory declassification review if any material is alleged to be classified.

I would like to receive the information in in digital format on a thumb drive or CD if files are available in digital format otherwise photo copies of the requested documents.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

I would appreciate your communicating with me by email or telephone, rather than by mail.

I look forward to your determination regarding my request for expedited processing within 10 calendar days, as the statute requires.

To Whom it May Concern:

Environmental Operations, Inc. is conducting Phase I Environmental Assessment on properties located in North Dakota. Under the Freedom of Information Act, we request any information, complaints, or environmental concerns (e.g., RCRA, superfund, air emissions, water emissions, industrial activities, etc.) your agency may have regarding these sites and surrounding properties.

In addition, a general zip code search is a sufficient response to this request. We will notify your office if we need additional information.

We are willing to pay up to \$25 for each site, however, if it goes above this amount, please contact us for approval before proceeding.

PLEASE INCLUDE OUR PROJECT NUMBERS WITH YOUR RESPONSE.

I am looking for data related to two fish consumption studies that were funded in part by the U.S. EPA.

The two fish studies are listed below, with information about the EPA contract number for the funding.

1) Commission CRITF. A fish consumption survey of the Umatilla, Nez Perce, Yakama, and Warm Springs tribes of the Columbia River Basin. Portland (OR), USA: CRITFC Technical Report. 1994:94-3. Funded through a cooperative agreement between the EPA's Office of Policy, Planning and Evaluation and the Columbia River Inter-tribal fish commission (Cooperative Agreement: CX818196-01.)

2) Toy KA. A fish consumption survey of the Tulalip and Squaxin Island tribes of the Puget Sound region: Tulalip Tribes, Department of Environment; 1996. Funded by the EPA, contract #X000833-0-1.

I attached both of these studies for reference. We are currently requesting the raw data that was associated with both of these studies. These datasets should include: consumption data for fish and shellfish (marine vs freshwater), fish species caught and consumed, tribal demographic information, preparation method, sources of fish consumed (purchased vs harvested), and

We have been contacted to perform a Phase I Environmental Site Assessment (ESA) on a property located at 10698 Cedarville Road in Brandywine, Maryland 20613. As part of our due diligence requirement of Phase I ESA's, we are required to contact local, State and Federal regulatory agencies and request any information on the subject property. Specifically, we are seeking information pertaining to the environmental history of the site (e.g. past uses, site improvement and developments by all previous owners, regulatory compliance history, environmental violations, permits issued and any reports concerning the property and its vicinity). This includes groundwater, air emissions, discharge permits, toxic or hazardous material permits and any other significant environmental site assessment issue. We would appreciate inclusion of any relevant information which pertains to the properties in question and surrounding areas.

Please send me any releasable documents for the following RCRA facility located in Addison, DuPage County, Illinois:

EPA ID# ILR000122804 – IDOT, I290 & I355, Addison, Illinois

Please indicate where possible the types and amounts of hazardous wastes associated with this RCRA listing.

This information will be used to complete a preliminary environmental site assessment for a proposed road improvement project for the Illinois Department of Transportation (IDOT). Thank you and please do not hesitate to call me at (217) 244-2103 if you have any questions about this request.

In accordance with the rules and regulations of conventional Freedom of Information Act (FOIA) provisions, we are requesting any information available from your agency.

Specifically, any information regarding (conducted at the property):

1. Information regarding storage tanks (underground and aboveground).
2. Information regarding hazardous materials spills.
3. Information regarding water supply wells and septic systems.
4. Any information regarding inspections/investigations.

I am interested in receiving an electronic copy of the water quality certifications issued for initial cap placement and subsequent cap amendment at the Pacific Sound Resources (PSR). In particular, I would like to receive electronic copies of water quality monitoring requirements during these capping activities.

EPA's current Remedial Project Manager for PSR, Ravi Sanga (206.553.4092/Sanga.Ravi@epa.gov), should be able to assist in identifying the limited number of relevant documents that exist.

We are requesting any records pertaining to West Coast Terminals and Stevedores, Inc. located along 2311 East 11 Street, Tacoma, Washington involving health related environmental incidents that may be on file with the City of Tacoma . Tetra Tech, Inc. (Tetra Tech) is conducting a Phase I Environmental Site Assessment (ESA) at the above-mentioned property. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (REC) that may have an adverse environmental impact upon the subject property. These could include spills of hazardous chemicals, complaints of asbestos, or reports of chemical odors or fumes, for example.

- Documents evidencing the oversight of oil wells in Kern County between 1964 and 1985
- Documents re asbestos on oil well sights in Kern County between 1964 and 1985
- Documents re use of propane on oil well sights in Kern County between 1964 and 1985
- Documents re diesel on oil well sights in Kern County between 1964 and 1985
- Documents re steam on oil well sights in Kern County between 1964 and 1985

Hello,

I am interested in obtaining raw data for methods of disinfection in industrial and municipal water and waste water as it pertains to chlorination. I am interested in a spreadsheet that will name the user and what they are using; sodium hypochlorite, calcium hypochlorite, gas chlorine, chlorine dioxide, etc. I am not looking for specific locations, just the agency and what they use to disinfect their water. I have found some data on state websites, but I felt this method would allow a more efficient and complete set of data.

On February 3, 2015, I discussed this request with Libby Project Mgr Dania Zinner and EPA counsel Lorraine Ross. In a series of 2014 Libby-related FOIA requests, I was provided an index of documents related to each distinct Operable Unit (OU). After receipt and review of those indexes, I then sought and received per separate FOIA requests some of the actual documents reflected in those OU indexes. In both the individual indexes and subsequent document productions, I respectively received information regarding and copies of only those documents that had been classified as "Releasable/Public."

Pursuant to the above-referenced February 3 telephone conversation, I wish to request now an index of all documents related to Libby Asbestos Superfund Site, OU6, which were not previously disclosed to me in FOIA request Nos. EPA-R8-005164 & EPA-R8-006299. Specifically, I anticipate now receiving an index of those documents that for whatever reason, were not initially classified as "Releasable/Public." I do not wish to receive an index of documents that were previously described or provided to me in the specific above-referenced FOIA requests. Nor do I wish at this time to receive actual copies of the potentially non-releasable or non-public documents. I wish only to review through the index (in digital form of MS Excel spreadsheet) a general, but full description of ALL the documents regarding OU6 that were not previously described or provided to me. Thank you for your assistance.

Please feel free to contact me with any questions or concerns. I expect that Ms. Zinner or Ms. Ross can also assist you with this request if necessary.
