Under the Freedom of Information Act, CMI is respectfully requesting any information regarding known environmental conditions at this property. Specifically, we are requesting information regarding discharges to the property (if any) and/or the presence of any contaminants on the property. If such information exists, we would appreciate the opportunity to review it at your earliest convenience.

Thank you for your attention in this matter. If you should have any questions or comments, please do not hesitate to contact me at (215) 699-4800 x 121.

Sincerely,

Chris Bolton

File Review Request
Former HITCO Carbon Composites Facility
1720 and 1600 West 135th Street
Gardena, California 90249

Dear Sir/Madam:

Avocet Environmental, Inc. (Avocet) is conducting a Phase I environmental site assessment for the approximately 4.6-acre property at 1720 West 135th Street in Gardena, California. Pursuant to the provisions of the California Public Records Act, Avocet respectfully requests access to environmental records on file in your office for this property. The property has been cleared of improvements and is currently vacant but was formerly part of a larger HITCO Carbon Composites facility at 1600 West 135th Street; hence this records request covers both street addresses.

For the purpose of this request, environmental records would include underground storage tank, aboveground storage tank, "tiered" and/or other environmental permits; enforcement orders; and reports and correspondence related to site investigation/assessment, soil sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.

Thank you for your prompt response to this request. If you have any questions or anticipate any problems, please do not hesitate to contact the undersigned at (949) 296-0977 Ext. 102 or at pmiller@avocetenv.com.

Respectfully submitted,

This letter is for the purpose of requesting information pursuant to the Freedom of Information Act, 5 U.S.C. § 552, et seq., including any and all information deemed of public record and not otherwise exempt from disclosure under the above-referenced statute. Specifically, I am requesting to review paper, electronic, and microfiche copies of any and all documents in the possession of the United States Environmental Protection Agency's ("USEPA") Region V office, for the above-referenced site, from March 2013 to the present. I request that any public record which is exempt from disclosure, but which contains material that is not exempt, be produced with the exempt materials only deleted.

Please notify me at the e-mail or number above if the copying charges will exceed \$25.00. Thank you for your assistance in this matter. Should you require any further information regarding this request, please do not hesitate to contact me.

Thanks,

Angela M. Buhl

1. Any and all documents made, received, written or produced by agency staff pertaining to the Incident. These documents shall include observations, interviews, email communications, phone logs, field notes, personal notes and notations, photographs, recordings, complaints, investigations, environmental sampling and reports;

2. Files involving the findings and issuing of citations, violations, fines, fees pertaining to a pesticide exposure Incident on October 16, 2013;

3. Communications, documents and notes with other federal agencies pertaining to the pesticide exposure incident near or in the Gold Beach, Oregon and Cedar Valley, Oregon occurring on October 16, 2013.

I request the registration jacket for Crop Guard (EPA Reg. No. 7655-1). We (SciReg, Inc.) are the authorized agent for EP Minerals, LLC (now EP Naturals, a division of EP Minerals, LLC); therefore, this jacket does not need to go through confidential screening to have the confidential information removed. The authorized agent letter is attached. Hopefully, this will help expedite the processing of this request.

Environmental Operations, Inc. is conducting Phase I Environmental Assessment on properties located in Missouri. Under the Freedom of Information Act, we request any information, complaints, or environmental concerns (e.g., RCRA, superfund, air emissions, water emissions, industrial activities, etc.) your agency may have regarding these sites and surrounding properties.

In addition, a general zip code search is a sufficient response to this request. We will notify your office if we need additional information.

We are willing to pay up to \$25 for each site, however, if it goes above this amount, please contact us for approval before proceeding.

PLEASE INCLUDE OUR PROJECT NUMBERS WITH YOUR RESPONSE.

I'm looking to acquire the: Endangered Species Protection Program Database.

This database use to be available here <http://www.epa.gov/espp/database.htm> however this link is no longer active.

Can you please advise at your earliest convenience on where this database has been moved to on the EPA website?

If it is no longer available online and this database requires a FOIA, then please accept this submission as my formal FOIA request.

Note, that the database was available in GIS files (ie. shapefiles). If you could please send the data in that same format it would be greatly appreciated.
Please see attached PDF document for details.

Also, please send data via email when ready.

I would like to request a department wide search for a Phase 1 report for a pad site located at the following address; 4092 Main Street, Caernarvon Township, Berks County, Pennsylvania. Parcel ID/APN # 35-5320-04-64-9964. Files of importance include but are not limited to self-reporting, violations, NJDEP correspondence, USTs, ASTs, Hazardous materials (use, storage, spills), wetlands, historic property ownership and development, zoning, health issues, septic fields, fires and on-site potable wells.

I am requesting an amendment to my FOIA submission of February 19, 2015, tracking number EPA-HQ-2015-004365. Below is the request:

- Tracking Number: EPA-HQ-2015-004365
- Requester Name: Penelope Socks
- Date Submitted: 02/19/2015
- Request Status: Submitted
- Description: I am seeking Task Orders and other contractual related information for the contractual years, 2011, 2012, 2013 and 2014 for Contract Number EPW 11027, which expires 3/15/16. I am also seeking the statement of work associated with this contract and the Response For Proposal response document submitted by AGI Mission Support Services with the pricing volume submission documents redacted.

EPA-HQ-2015-004380 Penelope Socks Wire2NetLLC

This is a request for records under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 and the Privacy Act, 5 U.S.C. § 552a. This request should be considered under both statutes to maximize the release of records.

I am seeking any and all ethics waivers the Environmental Protection Agency granted during 2013 and 2014.

INSTRUCTIONS REGARDING SCOPE AND BREADTH OF REQUESTS

Please interpret the scope of this request broadly. EPA is instructed to interpret the scope of this request in the most liberal manner possible short of an interpretation that would lead to a conclusion that the request does not reasonably describe the records sought.

EXEMPTIONS AND SEGREGABILITY

I call your attention to President Obama's 21 January 2009 Memorandum concerning the Freedom of Information Act, in which he states:

All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA [...] The presumption of disclosure should be applied to all decisions involving FOIA.

In the same Memorandum, President Obama added that government information should not be kept confidential "merely because public officials might be embarrassed by disclosure, because errors and failures might be revealed, or because of speculative or abstract fears."

Finally, President Obama ordered that "The Freedom of Information Act should be administered with a clear presumption: In the case of doubt, openness prevails."

Nonetheless, if any responsive record or portion thereof is claimed to be exempt from production, FOIA/PA statutes provide that even if some of the requested material is properly exempt from mandatory disclosure, all segregable portions must be released. If documents are denied in part or in whole, please specify which exemption(s) is (are) claimed for each passage or whole document denied. Please provide a complete itemized inventory and a detailed factual justification of total or partial

I have been able to confirm that the EPA collected and tested soil and water samples at the Bautsch-Gray Mine Superfund site in the spring and summer of 2014 and that the results of these tests constitute public information. I would like to review these test results on behalf of my clients, as well as the results of any testing that has been conducted on this site by the EPA after August 10, 2010. Specifically, I am interested in any testing that has occurred on the property located at 746 S. Blackjack Rd., Galena, IL, PIN #1400002600.

Although I understand that any EPA test results for this site would be sent directly to the designated information repository for this site—Galena Public Library, 601 S. Bench St.—Ms. Allen suggested that I contact you because you may be able to send me an electronic version of these test results that are not otherwise available on the EPA website.

At your earliest convenience, please advise as to whether an electronic version of these test results are available for my review and/or what, if any, test results are available for public inspection at the record repository located at the Galena Public Library.

Re: FOIA Request

I am requesting, under the Freedom of Information Act (FOIA), records for the following property:

Waste Management Site

1520 Lower Road

Inden, NJ 07036

Please provide the following information for the above property:

Any records pertaining to past or present: environmental matters; alleged or confirmed compliance issues; hazardous materials use or storage at this property; alleged or confirmed releases on this property; environmental complaints, investigations, or violations; environmental liens, use or activity restrictions.

In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am affiliated with a private corporation and am seeking information for use in the company's business.

I am willing to pay fees associated with this request, but request to be advised of estimated costs prior to any such costs being incurred.

If you deny any part of this request, please cite each specific reason that you think justifies your refusal to release the information. Please notify me of appeal procedures available under the law.

Responses may be emailed (to amy@RMAgreen.com) or mailed directly to our office. Thank you for your prompt attention to this matter.

Re: Privacy Act Request for Access
Documents Attached: Signed Penalty of Perjury Statement

Dear FOIA Officer:

This is a request under the Privacy Act of 1974.

I, September Unique Williams formerly known as Chellisa Monique Drain request a copy of any records about me maintained at your agency. Particularly, any records of medical, psychological, or environmental experimentation and studies are being conducted. I am also requesting any records that pertain to these studies if records are found in my name (s). Additionally, I am requesting any records that you have in my name and former name.

Date range of request: Please provide information for the last 28 years, since 1987.

Description of Request: I am requesting any criminal investigations; any threat assessment investigations, any records at all that you may hold on me. Any environmental, medical, or psychological studies, experimentation or investigations that you may hold in my name or former name.

Please search the Environmental Protection Agency indices to the Central Records System for the information responsive to this request related to: September Unique Williams, formerly known as Chellisa Monique Drain.

I would also like a cross check reference with Okina Tennelle Alford – Dallas, TX, Deshawndra Renee Kenyon – Detroit, MI, and Kenyetta Bell – Detroit, MI using both names provided.

To help you to locate my records, I have had the following contacts with your agency:

That I know of, I have not had any contact with your agency. I am providing previous addresses that I have knowledge of at this time: 2412 W. 52nd St. Los Angeles, CA 90043, 8162 Richmond Ave. Houston, TX 77063, 10615 Meadow glen Lane, Houston, TX

I was a US Marine from 1970-76, and am seeking information on asbestos and abatement in several facilities. USN835 Guantanamo Bay (a fixed communications facility), US Marine Recruit Depot, Parris Island SC, and Camp Geiger (part of Camp Lejuene). There seems to be a lack of information on who is responsible, and where to find this information. Can you advise. The purpose of this request as I suffer from both Lung Cancer and Interstitial Lung Disease and would like to find the possible source.

Thanks

Description of findings for FOUR listed Federal Brownfield properties in North Las Vegas, Nevada as follows:

Parcel No. 139-23-310-047, 1929 North Las Vegas Boulevard, North Las Vegas NV 89030- EPA Registry ID# 110038726377 (former Gas Station and current State HW Site)

Parcel No. 139-23-310-046, 1919 North Las Vegas Boulevard, North Las Vegas NV 89030- EPA Registry ID# 110038726368

Parcel No. 139-23-310-054, 1909 North Las Vegas Boulevard, North Las Vegas NV 89030- EPA Registry ID# 110038726389

Parcel No. 139-23-310-044, 1901 North Las Vegas Boulevard, North Las Vegas NV 89030- EPA Registry ID# 110038726340

Do these remain open in perpetuity? Is there a final disposition? Do the findings indicate a potential for off-site migration exists. Am performing a Phase I ESA on a parcel of land adjoining four listed Brownfield properties, these show up on my database search, I need to determine a potential for impact (if even available), and could not find enough specific information on the MyProperty portal.

Acme Finishing Company Inc.; 1595 East Oakton Street, Elk Grove Village, IL (Site IS: 0506690 & EPA ID: ILD005087812)

To Whom It May Concern:

I would like to request information under the Freedom of Information Act for a property located at 270 Fall Street, Seneca Falls, New York. The parcel is owned by Margaret C Eno and John E Velte. The Tax Parcel ID is as follows:

? Tax ID: 15-1-15

I have attached a drawing depicting the property. Information of importance that I would like to obtain and/or review at your offices will include, but is not limited to, would include documentation of the following being located on, or associated with the Tax Parcel identified above: underground storage tanks, aboveground storage tanks, fuel oil tanks, groundwater monitoring wells, drinking water wells, irrigation wells, past fires, environmental concerns, environmental liens, hazardous materials storage/spills, petroleum storage/spills, assessor's card information, building permits, current and/or historical building structures, storm water discharge permits (both NPDES and SPDES), historical maps, utility maps, and tax maps.

If there are charges for copies, please contact me at (585) 295-7707 prior to making copies so that I may understand what the costs are. Please do not hesitate to contact me with any questions or concerns.

Could you provide me with any information or reports on the following facility please?

Commander Mills / Commander Finishing Facility
226 South Adams Road
Sand Springs, Oklahoma

This site was formerly a large clothing mill facility that processed large amounts of cotton. The facility may have also been previously used as some type of finishing facility. The site was identified as a Federal Insecticide, Fungicide, & Rodenticide Act / Toxic Substances Control Act (FIFRA)/TSCA Tracking System (FTTS). The facility had a FIFRA inspection in 2005 (inspection # 2005100525313 1). The facility address was also identified in my environmental database as a CERC-NFRAP (delisted superfund) facility. This facility has since been removed and the site is vacant.

Dear Sir or Madam: This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. We seek copies of any and all documents, including but not limited to correspondence, internal memoranda, reports, notes, records or other materials in the Environmental Protection Agency's ("EPA's") pesticide registration files for the following Albaugh, LLC pesticide product: 42750-135 ("Oxyfluorfen TGA1"). We would appreciate it if EPA would give priority to the following documents and provide them to us under separate cover as soon as they have cleared EPA's Confidential Business Information review: 1. any submission/application correspondence with EPA; 2. any EPA Form 8570-1 (Application for Pesticide – Section 1); 3. any EPA Form 8579-34 (Certification with Respect to Citation of Data); 4. any EPA Form 8570-35 (Data Matrix); and 5. any EPA Form 8570-27 (Formulator's Exemption Statement). This request does not apply to any documents or portions thereof contained in these files that are Confidential Business Information. Further, this FOIA request does not seek test data, manufacturing processes, or the confidential statement of formula for this or any other pesticide product. We would be pleased to pay reasonable costs related to duplicating and shipping the requested information. Please contact me should it appear that the costs will exceed \$100. If I may be of any assistance with this matter, please do not hesitate to contact me at (703) 242-2506. Thank you in advance for your assistance. Sincerely, Markus Brombacher INREX, LLC 2326 Trott Avenue Vienna, VA 22181.

GKN Facility for Environmental Contaminants

To Whom it May Concern,

I am filing this request for all records (if any exist) on file and all information available, including current action files (pending orders), maintained for the property:

Sunoso Service Station
71 Frontage Road, East Haven, CT 06512

My request covers all records maintained by the EPA on RCRA (including but not limited to Corrective Action requests, RCRA Facility Assessments, Solid Waste Management Units, Part B Permit Cells if any), TCSA inspections, Hazardous Waste Corrective Action Requests, permitting, CERCLA, Federal and/or State Superfund, Air Quality, Water Pollution Control, SARA Right to Know (Title III), Emergency Response Notifications (ERNS) Facility Index System Database, and any relevant information for the property from 1970 to the present, including any information on investigations currently in progress. In case any documents pertaining to the above property are withheld from public record, I am requesting that these documents be identified as to the subject, date, author and reason for the claim of privilege.

The purpose of this request is to allow Loureiro Engineering Associates (LEA) to obtain all necessary information to complete an environmental audit of the above property. LEA is a professional corporation conducting studies, reports, and design work in the area of environmental engineering.

Sincerely,

Loureiro Engineering Associates, Inc.

Please provide any information regarding any incident reports, monitoring reports, remedial activity, closure documentation regarding the SUPERFUND case at this site.

I am filing this request for all records on file and all information available, including current action files (pending orders), maintained for the property:

9 Great Falls Ave, Rochester NH

In addition to the information for this property, I am requesting a list of all available information maintained by the US EPA Region 1 for facilities located within a 0.25 mile radius of the property on Eastern Blvd.

My request covers all records maintained by the EPA on RCRA (including but not limited to Corrective Action requests, RCRA Facility Assessments, Solid Waste Management Units, Part B Permit Cells if any), TCSA inspections, Hazardous Waste Corrective Action Requests, permitting, CERCLA, Federal and/or State Superfund, Air Quality, Water Pollution Control, SARA Right to Know (Title III), Emergency Response Notifications (ERNS) Facility Index System Database, and any relevant information for the property or facilities located within a 0.25 mile radius surrounding the property from 1970 to the present, including any information on investigations currently in progress. In case any documents pertaining to the above property or surrounding facilities are withheld from public record, I am requesting that these documents be identified as to the subject, date, author and reason for the claim of privilege.

I am also requesting of listing of available aerial photographs of the site on file with the U.S. EPA Region 1. I do not wish to obtain the aerial photographs, only to obtain a listing of any photographs available.

The purpose of this request is to allow Loureiro Engineering Associates (LEA) to obtain all necessary information to complete an environmental audit of the above property. LEA is a professional corporation conducting studies, reports, and design work in the area of environmental engineering.

Dear Ivry, I am writing to get copies of notifications, applications, permits, any documentation dealing with a C & D demolition which took place between Jan., 2001 and about July, 2001. That was the time span for the "complete knock down & removal of structure with heavy equipment". I have contacted our State of Hawaii Dept. of Health Solid & Hazardous Waste, Clean Water, and the Clean Air agencies and they have no records with one exception: a "Notification of Demolition and Renovations" (NDR) form that was sent in to the Noise, Radiation & the IAO Branches. It was the IAO Branch that told me to contact your EPA Region 9 station.

The Hawaii IAO office received a "NDR" on Jan 17, 2001 as recorded by their official stamp. On that NDR Item XI, which states "Description of work practice and engineering controls to be used to prevent emission of asbestos at the demolition/renovation site:" was answered with a "N/A". The project supervisor's name was Charles Spillner. The Waste Transporter is listed as R.H.S. Lee, Inc. Waste Disposal Site was listed as "Kekaha Landfill. My first question is: 1. Do you have this "NDR" in your files? If so, could you please send me a copy? My other request is to have you send me any other NDR's that would relate to: "Owner's Name: Marriott Ownership Resorts, Inc" Address: 2249 Poipu Road P.O. Box 537 Kauai 96756. "Item IV" which ask the question "Is asbestos present?" states "NO". Question is: 2. Does your office have, or did you ever receive, any other notifications of any knowledge or removal of asbestos or other hazardous waste like red lead, etc, being present on the demolition site and being removed? If so, I would like copies of such documents. Overall, I need any information concerning documents of any hazardous

My name is Jessica Baker and I work at Jetta Operating. You previously processed a FOIA Request for me, and frankly I'm not sure I could rework the path I took to make that request. However, I found your email in the final disposition email sent to me with the requested files and was hoping that you could either direct in the best manner to make an additional request or that you yourself might be able to help me. The request ID number included in the email is as follows, in case it helps with anything: EPA-R4-2015-002205. I'm looking for the same records, annual disposal/injection well monitoring reports for wells located in Leslie County Kentucky, permit number KYA0568, from 1998-2000 as well as 2008.

I appreciate your help in either processing this request or sending me to the right place. Feel free to call me at the number listed below if you have any questions.

I am interested in collecting data about the states with the cleanest air/lowest pollution. I would also like to see data regarding the cities in Nevada and their levels of pollution.

Thank you.

To Whom It May Concern:

This is a request under the Freedom of Information Act (FOIA).

I request all records concerning communications regarding biomass energy and/or biogenic CO2 emissions between Janet McCabe and outside parties, including but not limited to the National Alliance of Forest Owners, the Partnership for Policy Integrity, the Industrial Pellet Association, The American Forest & Paper Association (AF&PA), the Environmental and Energy Study Institute, Drax Power and Drax Biomass and the Clean Air Task Force from January 1, 2014 to December 31, 2014.

Please include any phone calls, call logs, call sheets, Skype calls or videos, emails, letters, hand-written notes, day calendars, memorandums, meeting agenda sheets, text messages, voice and video recordings and other documented forms of communication between Janet McCabe and outside parties regarding biomass energy and/or biogenic CO2 emissions and/or biogenic feedstocks, including but not limited to the above listed parties.

On November 19, 2014, Janet McCabe, Acting Assistant Administrator for EPA’s Office of Air and Radiation released a memorandum entitled “Addressing Biogenic Carbon Dioxide Emissions from Stationary Sources,” which accompanied the Revised Framework for Assessing Biogenic Carbon Dioxide (CO2) Emissions from Stationary Sources. This request is in regards to this memorandum.

AEI has been contracted to conduct an environmental assessment for a property located at 2100 Roswell Road in Marietta, Cobb County, Georgia. The ID is GAD984279406. During our review of records, it was noted that the facility was formerly listed as a CERCLIS-NFRAP site. The information online (<http://cumulis.epa.gov/supercpad/cursites/csitinfo.cfm?id=0405415>) indicates that the facility is archived, however the information that is provided is not specific enough and I find myself in need of reviewing the file to be able to provide guidance to our client. If you could please assist to determine if it would be possible to schedule a time to come by and review the file that would be of great help.

Specifically, I would like to obtain:

- Status and description of any reported petroleum spills or tanks;
- Copies of any record of decision regarding investigation or clean up of the site;
- Notification of the lead agency that is primarily responsible for investigating and cleaning up the site;
- Notification of any legal action involving the site;
- Detailed reports, monitoring data, regulatory non-compliance notices, documents or studies regarding any pollution problems at this site, and how I may obtain copies of them or review them in person.

According to news reports the EPA requires that all reservoirs be covered. Is there such a recent EPA regulation? I came across a regulation from 2005 Long Term 2 Enhanced Surface Water Treatment Rule (LT2) that states that all finished reservoirs have to be covered if the water from them is not treated afterwards. Have the rules changed since then?
I read that LA is covering their reservoirs with black plastic balls. Doesn't that contradict EPA goals of trying to minimize the dumping of plastic in water? Isn't it more cost effective to simply treat water than to cover it up? There is solar technology for boiling water and killing bacteria that way. Is the EPA considering that for water purification?

I would like any documents regarding this to also be included in EPA's response. I did find the 5/12 Draft PDRC Laurel Hill Site Summary in a FOIA search. That document does not have to be included, but if EPA is in possession of a Final version of this report, I would like a copy of that as well. If you have questions about this request, I would appreciate notification so that I may clarify any issues before this request is closed without any way for me to modify it to EPA's satisfaction.</p>

To Whom it May Concern,

Under the Freedom of Information Act, I would like to request EPA's response to the following congressional correspondence:

AL-14-0005420; from the Office of Sen. David Vitter regarding Foster Farms poultry operations polluting creeks and land.

I have attached the letter for reference. To clarify, I am not looking for the item cited above, but EPA's response to it.

This request is made as part of news-gathering activity and is not for commercial use. The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large.

If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.

Thank you for your consideration,

This is a FOIA request under which I am seeking all information in the USEPA's (Headquarters, Region 2, OAQPS or other) possession regarding domestic incineration units in operation in New York City at any point during the period 1965 to 1995. Domestic incineration units are building level incineration units not municipal incineration units receiving trash from around the city.

I have particular interest in the following information elements:
Incinerator addresses/locations
Incinerator capacities
Incinerator operating characteristics

At minimum, a responsive search must include:
All databases and documents that may contain information related to NY State Implementation Plan submissions and assessments;
All documents and databases related to development of incinerator emission standards and determination of source contributions to air quality problems and non-attainment determinations.

Thank you so much for your assistance.

Best regards,

To Whom It May Concern:

Pursuant to the Freedom of Information Act, 5 U.S.C. §552 et seq. ("FOIA"), I request copies of all correspondence outlined in detail below:

• Any direct correspondence, including electronic correspondence, between your agency and U.S. Senator Roy Blunt (R-MO) or the staff of U.S. Senator Roy Blunt between January 2011-present.

☐

Direct correspondence should include letters, emails, reports, and other relevant material. I am not seeking any secondary material such as phone logs, notations of conversation, etc.

If any records are withheld or redacted, I request that you state the specific legal and factual grounds for withholding any documents or portions of documents. Please identify each document that falls with scope of this request but is withheld from release.

If requested documents are located in another installation or bureau, I request that you please refer this request or any relevant portion of this request to the appropriate installation or bureau.

To the extent that the respondent records are available in electronic format, I would prefer to receive the information via email or CD, particularly if providing the information reduces the time or expense involved. Otherwise, I will expect to receive the information in paper form.

To help assess my status for copying and mailing fees, please note that I am gathering information for research purposes and not for commercial activities. I am willing to pay all reasonable costs incurred in locating and duplicating these materials. But please contact me prior to processing to approve any fees or charges incurred in excess of \$150.

Please see attached request. On May 30, 2012, DMB Redwood City Saltworks (Saltworks) submitted a request for a formal, legally binding, and final jurisdictional determination (JD) under the Rivers and Harbors Act (RHA) and the Clean Water Act (CWA) for the 1,365-acre Redwood City Salt Plant (Salt Plant) in San Mateo County, California. According to a March 19, 2015, memorandum from Major General John W. Peabody, transmitting the U.S. Army Corps of Engineers (Corps) RHA Section 10 approved JD for Redwood City Saltworks to Mr. David Smith, Corps Headquarters also prepared a CWA JD for the Redwood City Saltworks. On or about March 18, 2015, after being informed that Major General John Peabody intended to sign and issue the Corps' CWA JD, the U.S. Environmental Protection Agency (EPA) intervened, asserting special case authority to issue its own CWA JD for the site.

EPA-R9-2015-005491	Kerry L. McGrath	Hunton & Williams LLP	3/23/2015 19:03	This is a request pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and EPA's FOIA regulations, 40 C.F.R. Part 2, for the Corps' "final" CWA JD (with attachments) and/or "final" combined RHA and CWA JD (with attachments) for Redwood City Saltworks. By "final," we mean the version of this document that was prepared for signature by Major General Peabody (whether or not the document was ever actually signed), and sent to EPA. This FOIA request for this specific document is not intended to narrow or change the scope of prior FOIA requests we have submitted. This specific request stands on its own without any implication for previous FOIA requests.

Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the above property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have. The subject property is located at 4 Hamilton Street (Tax Block 0023, Lot 00100) in New Haven, Connecticut

Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, and the U.S. Environmental Protection Agency's ("EPA's") implementing regulations set forth at 40 C.F.R. § 2.100 et seq., on behalf of Climax Molybdenum Company, I hereby request copies of any and all records related to the above-referenced jurisdictional determination ("JD"). This request includes, but is not limited to, the following:

(1) any and all reports, analyses, studies, maps, charts, tables, spreadsheets, drawings, surveys, data compilations, research materials, inter-office memoranda, telephone conversation logs, emails, written correspondence and other documents produced or considered by the EPA in reviewing the JD in draft or final form as prepared by the U.S. Army Corps of Engineers ("Corps");

(2) any and all correspondence between the EPA and the Corps related to the JD, including letters, memoranda, electronic correspondence, facsimiles, records of conversation and other communications; and

(3) any and all correspondence related to the JD between the EPA and any other governmental agency or any consultant, contractor or third party, including letters, memoranda, electronic correspondence, facsimiles, records of conversation and other communications.

If EPA takes the position that any of the requested record(s) are classified or exempt from disclosure, I request that you declassify or produce the records in redacted form. To the extent that any requested records subject to a claim of exemption are not produced, please provide a log identifying any and all such records by date, type of document, author, recipient(s), unclassified subject matter, and type of exemption claimed. If any records are produced in redacted form, please specify the exemptions claimed for each redacted page or passage. In addition, if any requested records have been destroyed, please identify and provide the date of and authority for such destruction.

Hello - I am trying to understand how many facilities/companies/vehicles in the United States are licensed to handle or transport medical waste, and how those numbers have grown over the past year.

Specifically, we are looking for the following 3 questions:

- How many facility permits for handling medical waste are currently active in the United States? What was this number 1 year ago?
- How many vehicle permits for handling medical waste are currently active in the United States? What was this number 1 year ago?
- How many individual companies hold these permits (facilities and vehicles)

Please let me know if you have any questions or if I can clarify in any way.

Thank you for your time.

Hello -

I'm working with the owner of the property at 300 8th Street NE in Washington, DC. I am trying to purchase the property. As I understand it, the property was at one point a gas station and preliminary environmental review has found a survey with tanks on it from the 1950s. I am trying to figure out if these tanks have been removed/remedied. Please give me a call if you have any questions.

Thanks,

I request an opportunity to review documents related to adoption as a SIP revision of RULE §101.304 Mobile Emission Reduction Credit Generation and Certification. I am specifically looking for the narrative documents presented by TCEQ to EPA to justify incorporating Rule 101.304 into the EPA-approved SIP. At this time I am not requesting any lengthy technical appendices that may have been included in the complete submission for SIP approval. I also request copies of correspondence from EPA to TCEQ concerning the SIP revision approval by EPA. EPA-HQ-2015-005626	Catherine Rice	LLP	3/27/2015 13:03	Requesting copies of 13 cleared science reviews which are identified in attached request.

Our office represents the Karen Huffman, survivor of Daniel Huffman, Deceased, in a case before the Common Pleas Court of Morgan County, Ohio (CV 13 0009). Mr. Huffman was a victim of an asbestos related cancer and Ms. Huffman has been receiving Workman's Compensation Benefits. The employer was self insured and has asked the court to terminate her benefits.

Mr. Huffman worked as an electrical technician on mechanical equipment at the mine locations in and about Morgan County, Ohio for many years. Among the pieces of equipment he serviced was the "Big Muskie", a large dragline built between 1967 to 1969 and remaining in service until 1999. That machine was powered by eighteen 1000 hp (750)kW and ten 625 hp (466kW) DC electric motors. Several trailing cable supplied 13,000 volts of power to the motors.

Our investigation indicates that the cables contained asbestos and well as the motors. Mr. Huffman serviced both.

We would like to make a public records request to obtain any information which may have been contained in the company's operating or remediation plans for the disposal of asbestos.

American Electric Power's Central Ohio Coal Co. announced the dismantling in the attached press release in January 1999. Please note a contractor was hired for the demolition.

We understand that much of the reclamation work had to do with land and wildlife divisions of the government.

In order to properly request information from your office we have filled out a copy of the Ohio EPA File Review Request Checklist. Please let me know if we can provide any further information which may be of value. We requested a date range of 1999-2001 for the remediation because that is the most likely time when the "disposal" may have occurred, however there may have been prior permits to dispose of Cable material as it was taken out of service. The cables were probably manufactured by "Anaconda", which I believe is an EPA superfund site in New York.

Requesting any information regarding storage of toxic or hazardous materials, permits, inspections, violations, environmental sampling performed on the property, etc. for the property located at 80 Commerce Way, Hackensack, NJ 07601 (Section 223; Block 504.02; Lot 14.05).

EPA-HQ-2015-005725	Omid Moghadam	ERS	4/1/2015 13:04	<p>Under FOIA... I request electronic copies of the "EPA WATCH LIST". The "WATCH LIST" is maintained by the EPA to facilitate dialogue between EPA, State and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that facility has actually violated the law only that an investigation by the EPA or a state or local environmental agency has led those organizations to allege that unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that we detected, but instead indicates causes requiring additional dialogue between EPA, State and local agencies - primarily because of the length of time the alleged violations has gone unaddressed or unresolved.</p> <p>Pursuant to the Freedom of Information Act, U.S.C. 552, I hereby request copies of records pertaining to the premises with a street address 8-12 Preston Court, Tax Block 7949, Lot 273, located in Brooklyn, New York. 400 Mains Street, East Hartford, CT

My request covers all records maintained by the EPA on RCRA (including but not limited to Corrective Action requests, RCRA Facility Assessments, Solid Waste Management Units, Part B Permit Cells if any), TCSA inspections, Hazardous Waste Corrective Action Requests, permitting, CERCLA, Federal and/or State Superfund, Air Quality, Water Pollution Control, SARA Right to Know (Title III), Emergency Response Notifications (ERNS) Facility Index System Database, and any relevant information for the property or facilities located within a 0.25 mile radius surrounding the property from 1970 to the present, including any information on investigations currently in progress. In case any documents pertaining to the above property or surrounding facilities are withheld from public record, I am requesting that these documents be identified as to the subject, date, author and reason for the claim of privilege.

I am also requesting of listing of available aerial photographs of the site on file with the U.S. EPA Region 1. I do not wish to obtain the aerial photographs, only to obtain a listing of any photographs available.

The purpose of this request is to allow Loureiro Engineering Associates (LEA) to obtain all necessary information to complete an environmental audit of the above property. LEA is a professional corporation conducting studies, reports, and design work in the area of environmental engineering.

Sincerely,

Loureiro Engineering Associates, Inc.

Request copies of all documents maintained by EPA regarding its monitoring and enforcement of the consent decree entered against DeKalb County on December 20, 2011.

Sirs, I live in Idaho and have applied for an NPDES permit and have found that 97% of Idaho waterways are shutdown from recreational gold dredging and an NPDES permit will be denied . When I contact the EPA agent invalved in this permitting process she told me that " do to possible environmental issues and conserns from differant Federal agencies most of Idaho waterways are closed and denied NPDES permits " After doing some research in Federal agencies and there discision making I have learneded that they are required to ' back up ' these closures and policies desision with Scientific proof and Studies to qualify the closures of Idaho Water ways to recreational gold dredging . I am requesting a copy (by email) pertaining to each closed river segment in Idaho under the EPA's NPDES permit..... I want the documents to be ' Site Spacific ' and the Science Study of each segment , Current ,.....please note the word 'Site Spacific ' the Scientic studies , Facts (not conserns) Fish Studies ,and all other pertnant info and tests that were used by EPA to determan the requiernment for an NPDES permit for each of these water way segments . I am also requesting a Fee Waiver under the guidlines of FOIA ..Thank You Alan Trees

Reference: Documents related to the DEIS for Application No. SWT-0-14659, on the Lower Bois d'Arc Creek Reservoir, filed with the U.S. Army Corps of Engineers, Tulsa district

This request is directed to the custodian of public records for the U.S. Environmental Protection Agency, Region VI. This request is made pursuant to the Freedom of Information Act ("FOIA") on behalf of Texas Conservation Alliance and Ward Timber, Ltd.

I request that a copy of the following documents be provided to me:

Records pertaining to the development of the Draft Environmental Impact Statement (but not the DEIS itself), for the above referenced reservoir project, and in particular:

1) all comments submitted by EPA Region VI, formal or informal, on the pre-draft version of the DEIS and its appendices

2) all responses to any such comments by the U.S. Army Corps of Engineers,

This request includes any of those documents delivered in electronic format.

Please contact me when these documents are available. If any of these documents can be provided electronically, please provide them to me in electronic format, instead of producing a hard-copy. If this can be done through email(s), I would appreciate obtaining the documents in that fashion.

This request does not include any information determined to be confidential by your office under FOIA.

Dear Mr. Gottesman,

The following link lists manufacturers that have submitted manufacturer's combustion control device test results to the EPA for review based on 40 CFR 60.5413(d):

<http://www.epa.gov/airquality/oilandgas/pdfs/mantesteddevices.pdf>. Included in this list are control devices that have either been approved "Yes" or are still "Under Review." I have attached a copy of the mantesteddevices.pdf along with the EPA NSPS Quad O/MACT HH/HHH Stack Testing and Report Preparation Guidance draft.

I am requesting the following information regarding all tested control devices that have been reviewed and the EPA has determined that the control device(s) have demonstrated performance requirements and have received a "Yes" on the mantesteddevices.pdf. Specifically, I would like the following:

- A copy of each manufacturer test report and test data provided to the EPA for each control device that has received a "Yes" and thereby included on the EPA mantesteddevices.pdf.
- A copy of any review sheet used by the EPA during the review process for each control device that has received a "Yes," all follow up questions and all communication regarding any deviations from 40 CFR 60.5413(d) and all appeal decisions, if any, that lead to the final determination of "Yes."

It is our desire to understand the approval process to assist organizations who are wishing to test their respective control devices in order to successfully achieve a "Yes" determination by the EPA. Right now there is a general feeling that there are control device listed as compliant that do not meet 40 CFR 60.5413(d). The following page has two examples of test results that have raised enough question to warrant this Freedom of Information Act request.

Good afternoon, I was inquiring about the Spectron Superfund cleanup in Cecil County Maryland in 2003. My brothers and sisters lived then visited that area in the 60's and 70's. Our grandparents remained there for a bit. Living right across the road from the creek in Povidence, we would sit and watch the water pour from the pipe into the creek. It would always leave a frothy yellowish tint to the water, but no one knew of any danger present. Some of our family members<young ones> living across from the creek developed Leukemia type symptoms that went away when we moved away from the creek. Many of us have ongoing medical issues, cancer and myself with birth defects that have since been corrected. As a family we were wondering what kind of chemicals and what effects they could have had on our family. My mother was pregnant with me while living there, fished from the creek, watered her gardens, and drank from the well. I know there were no studies in the 60's and 70's for chemicals and effects of them to humans. I would like to know if you would be able to tell where I could find out what kind of chemicals were present, just so there would be some sort of validation for our illnesses. Currently I'm undergoing genetic testing for cancer to determine it it's genetic or could be environmental factors causing cancer. My mother used to receive phone calls from someone every year about our health regarding living across from the creek, but the calls stopped suddenly a 5 years ago or so. It would be very good to know if any of these chemicals could cause a mutated gene that would pass to our children in future generations. Thank you for taking the time to read this. Any information would be greatly appreciated.

Requesting copies of all agency records created from January 1, 2014 to present regarding efforts by officials within EPA to contact members of the Senate and Congress to explain its position, or influence the Freedom of Information Act reform legislation in any way.

I am interested in records associated with the wastewater treatment plant located at the Lucky Eagle Casino located at 12888 188th Ave SW, Rochester, WA. I am also interested in any inspection records, notices of violations (NOV), permits, reports of use/storage/release of hazardous materials. This site is located on tribal land for the Chehalis Tribe.

In addition to the information on the wastewater treatment plant, I am also interested in sampling results and other information associated with a monitoring well located on the southern side of the Lucky Eagle Casino property. I was told it is monitored by EPA in relation to another site to the south of Lucky Eagle Casino (i.e., the Briarwood Chicken Farm).

If the volume of documentation is large, I am most interested in activity

from the last three years unless there is a NOV or inspection with significant findings prior to 2012. Please do not make copies without my approval if a fee will be incurred. Please call or email if you need additional

To whom it may concern,

I wish to make a FOIA request for data on all companies which applied for SBIR grants at the EPA for the period from 1990 to 2003. The main information I am looking for is the companies' names and the SBIR solicitation (solicitation topic code) they applied for. Most importantly, I am not only looking for companies which eventually received the SBIR grant, but I am most interested in the companies which applied and did not receive the grant.

If available, I would also be interested in obtaining information on the ranking of the companies' research proposals (i.e., the ranking based on which the SBIR grant decision is made).

If possible, I would prefer to obtain this data in a machine readable form (e.g. Excel list).

In order to help to determine my status to assess fees, you should know that I am affiliated with an educational institution (New York University), and this request is made for a scholarly purpose.

Best,

Good morning/afternoon,

I am requesting information regarding the current and past activities and assessments for EPA site# CAD980498562 (GBF, INC., Dump). I am especially interested in the following topics, but I would appreciate any/all information available.

Topics I am interested in:

- Any test results (ground water, soil, air, etc.)
- What is the current status of this site?
- Lawsuits, legal action.
- Responsible Party(ies)
- Any mention of actions/activities in the past 5 years
- If EPA is no longer monitoring, any documents assigning responsibility to the State of California.

I am not sure if I am asking the questions correctly, and I am not trying to request any research to be done. I am just trying to find out as much information about this site as possible. This site is located about 200 yards from my house, and there is a lot of activity going on right now at the site, mostly multiple helicopters flying in and out of the site.

I am submitting this document request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 et seq. This request concerns the United States Environmental Protection Agency's ("EPA") files concerning the Lower Passaic River Study Area portion of the Diamond Alkali Superfund Site, Administrative Order on Consent, CERCLA Docket No.: 02-2004-2011. The Lower Passaic River Study Area is defined as the 17-mile stretch of the Lower Passaic River and its tributaries from the Dundee Dam to Newark Bay ("LPRSA"), located in and about Essex, Hudson, Bergen, and Passaic Counties, New Jersey.

By way of background, the EPA and thirty-one parties ("Settling Parties") entered into an Agreement, Index No.: 02-2004-2011, as amended under Section 122(h) of the Comprehensive Environmental Response, Compensation, and Liability of 1980, as amended ("122(h) Agreement") which became effective on June 22, 2004. Under this 122 (h) Agreement Settling Parties provided funding to cover EPA's past and future costs ("Response Costs") to conduct the Remedial Investigation/Feasibility Study ("RI/FS") of the LPRSA. Pursuant to Paragraph 11 of the 122(h) Agreement, the Settling Parties deposited \$10,000,000.00 between June 22, 2004 and April 1, 2006 into an escrow account for payment of EPA's Response Costs in connection with the LPRSA. In addition, pursuant to paragraph 14 of the 122(h) Agreement, the EPA, once every calendar year on the anniversary of the effective date of the 122(h) Agreement was to provide the Settling Parties with a Superfund Cost Recovery Package Image and On-line System ("SCORPIOS") Report which includes direct and indirect costs incurred b

Any information regarding the environmental quality of the sites including but not limited to information regarding the storage of hazardous or toxic materials, inspections, violations, permits, and sampling performed on property.

I am requesting an opportunity to obtain copies of public records that concern asbestos abatement at the Orlando International Airport. I am looking for any and all asbestos abatement or initial asbestos assessments. I am willing to pay for research and copying these records.

I would like the earliest asbestos abatement records on file for this property and if possible an initial asbestos survey or assessment,... if you have one. If my request is too broad and I need to be more specific, please just focus on records associated with the old McCoy AFB training facilities and barracks.

If you have any questions please feel free to call me so we can discuss what you might have and how I can get copies.

Thank you for your time and consideration.

Sincerely,

Jed Mahoney

I am requesting the 2014 Groundwater Monitoring Report as well as the 2nd 5year review as soon as it becomes available. There is possibly 1 other thing. I have noticed that in the testing I have of the groundwater/aquifers no MCL's or any drinking water standards were checked even though the aquifers were potentially used for drinking water in cities several miles away. I know technically the EPA only has to test if the the site is a source of drinking water but I would think that, knowing there was contamination of the aquifers and those aquifers had been and are currently being used for small communities, you did that testing. If that is the case, would you please send that report to me as well? I do not know what the name of the document is, and I would be happy to clarify if needed, but I want the document shows the drinking level contamination if the contaminates

I would like to know if Luminore Cooper Touch has submitted their product for approval and if their approval is pending?

I am interested in finding if the company, LuminOre CooperTouch, has applied for EPA registration and if their approval is pending. If so, is there a date for their approval? Their address is 6060 Corte del Cedro, Carlsbad, CA 92011. Their phone number is 760-431-7705. The product is supposed to be registering with the EPA as an antimicrobial surface product. LuminOre CooperTouch is a technology that applies a thin layer of real metal quickly and with precision over almost any core material or substrate at a fraction of the cost of the solid metal. Please let me know if you need more information in order to process my request. Thank you for your time.

Dear Ms. or Sir,

Please consider this a request under provisions of the Freedom of Information Act and the Electronic Freedom of Information Act, 5 U.S.C § 552.

I am seeking copies of all correspondence between Senator Marco Rubio's office and the Environmental Protection Agency, from 2011 to present.

Please release any information pursuant to my requests as it is received and/or reviewed by your office, rather than waiting to send me all the material I have requested. If you have questions or need to contact me, I can be reached at (303) 729-3593 and my email address is nriccardi@ap.org.

If all or any part of this request is denied, please cite the specific exemption(s) that you think justifies your refusal to release the information and inform me of your agency's administrative appeal procedures available to me under the law.

To the extent that you affirm, in whole or in part, the denial of disclosure, we ask that you provide us with a list describing with specificity the categories of documents that have been withheld and explaining the grounds for the withholding (see Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973)).

I would appreciate your handling this request as quickly as possible, and I look forward to hearing from you.

Best,

They can be found in the registration jacket for Apivar Strips, EPA Registration Number 87243-1.

We're working as a contractor to EPA on the E-Enterprise project. We've been working on a pilot project that will assess how similar data fields, data field definitions, and data values are across several direct chemical reporting programs (including TRI, GHG, CDR, OTAQ Fuels, and FIFRA Section 7 Reporting).

In order to complete that assessment, we were hoping to request an extract of the ESSTS "Establishment" data (are not looking for the chemical/pesticide data associated with any given year). If available, an excel or SQL export would be fantastic. We do not want any data that is considered enforcement sensitive.

This request should be directed to the MAMPD Branch within OECA, and should be brought to the attention of Michelle Stevenson (Stevenson.michelle@Epa.gov).

This is a request under the Freedom of Information Act. I hereby request the following records:

All communications between the EPA and the office of the Milwaukee County Executive (or any representative thereof) between 2002-2010.

I also request that, if appropriate, fees be waived as I believe this request is in the public interest. I am a reporter covering national politics for BuzzFeed News, requesting these records for news gathering purposes in the public interest, and not for profit.

In the event that fees cannot be waived, I would be grateful if you would inform me of the total charges in advance of fulfilling my request, if such charges will exceed \$100. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Furthermore, I request that my request be expedited, if possible.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

If you need any additional information please let me know. Thank you.

Professional Service Industries, Inc. (PSI) has been contracted to perform a Phase I ESA of the property located adjacent to the Park Plaza Phillips 66 located at 202 Angela Street in Paola, Kansas. Under the Freedom of Information Act, we are requesting any information, complaints, permits or environmental concerns (e.g., asbestos-containing materials, polychlorinated biphenyls, hazardous materials, waste uses, or release, solid waste disposal, underground storage tanks, leaking underground storage tanks, air emissions, water emissions, industrial activities, etc.), as well as general historical information of the property uses your agency may have regarding this site and surrounding properties.

Specifically we are seeking any information on the USTs located at the property. Any records of leaks, tank inspections, or soil and groundwater condition, or contaminants which may be present will be very helpful.

Thank you for your prompt attention to this matter. If you have any questions, please do not hesitate to contact me at the address or phone number below, or by e-mail at shawn.daviou@psiusa.com

I hereby include the same FOIA request sent on April 1, 2015 to the e-mail address included in the regulation (40 CFR § 2.101(2)), which e-mail address I just confirmed that is not effective anymore; however, the effective regulation still makes reference to it. In view of this, I appreciate your kind assistance in addressing the request that follows as soon as possible.

By this present, we hereby request copy of a list including all reports, evaluations, analyses, and data prepared by the U.S. Environmental Protection Agency (EPA), or its consultants, or contractors, or subcontractors in connection with the investigation of the Puerto Rico Olefins facility in order to identify the specific documents that we would like to obtain from EPA. The Puerto Rico Olefins facility is located at a 10-acre parcel on Road 385, Km 5.4, Tallaboa Ward, Penuelas, Puerto Rico. Please note that we already obtained such documents available in the webpage of the Puerto Rico Olefins Superfund site <http://www.epa.gov/region02/superfund/npl/olefins>.

Do not hesitate to contact the undersigned, should you have any questions.

To Whom It May Concern:

I'm a reporter with Reuters News in New York.

We would like to request via the Freedom of Information Act any and all communications between the U.S. Environmental Protection Agency and members of industry, representatives from the White House, or members of Congress regarding the Renewable Fuel Standards program since May 1, 2014.

I expect the fee to be waived as I am a member of the press, employed full-time by Reuters, the world's largest news organization. The disclosure of these documents will inform the public record and contribute to public understanding of the issue. Neither I nor my employer have any commercial interest in the disclosure of the information sought.

Additionally, please provide the responsive records on a rolling basis and in an electronic format by email instead of paper records, where possible.

A copy of this description is also included in an attached formal letter:

The purpose of this sletter is to make a formal request pursuant to the federal Freedom of Information Act for documents, both hard copies and electronic in form (including emails) pertaining to the decision of the U.S. Environmental Protection Agency in 2003 that greenhouse gases were not pollutants within the meaning of the federal Clean Air Act. More specifically, I am interested in documents relevant to the Agency's decision making between January 1, 2001, and August 28, 2003, when EPA formally denied a petition seeking regulation of greenhouse gas emissions from new motor vehicles under the Clean Air Act, extending to the Agency's defense of that decision before the U.S. Court of Appeals for the D.C. Circuit and the U.S. Supreme Court.

I am seeking access to these documents in support of my research on the history of a Supreme Court case, Massachusetts v. EPA, decided by the Court in April 2007. For this same reason, I would like to request a fee waiver for the associated costs. The exclusive purpose of my research is in support of an academic publication, most likely a book for a general audience, that I believe will be of significant interest and value to the public. The Massachusetts case is one of the most significant environmental law decisions handed down by the U.S. Supreme Court. And my aim is to tell the story of that case in a manner that highlights for the public the challenges of both environmental lawmaking and Supreme Court advocacy. I have published significant scholarship on similar topics. See <http://www.law.harvard.edu/faculty/rlazarus/index.html>,

Please also know that I would be pleased to speak with anyone in your office or any relevant office at EPA about possible ways to make the processing of my request easier and more convenient for those involved. I can certainly travel to DC to review documents in person if that would be helpful and expedite matters.

Dear Region 2 FOIA Administrator,

I am requesting a report titled Five-Year Review Report dated August 1, 2014 for the above referenced Site. If you could please let me know if you have this report and a quote for how much it would cost to have this document copied and shipped to my office in Syracuse NY. Please feel free to contact me with questions or comments.

Some additional information that I have on the property from the NJwebmap.state.nj.us website includes:

NJDEP Site ID 13086

Attached is a screengrab of the relevant documents. We request copies of the documents in electronic format.

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all emails, memos, text messages, voice mails, documents and correspondence in possession of EPA or its contractors including but not limited to EPA's Office of Public Affairs, EPA's Office of Air and Radiation, and EPA's Office of Radiation Programs regarding media requests, questions and inquiries including but not limited to those submitted by NBC4 News, NBC News, NBC News Southern California and Matthew Glasser in regards to the EPA Las Vegas-based Mobile Environmental Laboratory (MERL).

If any portion is subject to being withheld, I ask that any material withheld be identified and the basis of the withholding set forth and for the remaining records to be released. I request a mandatory declassification review if any material is alleged to be classified.

I would like to receive the information in in digital format via email, thumb drive or CD if files are available in digital format otherwise photo copies of the requested documents.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

I would appreciate your communicating with me by email or telephone, rather than by mail.

I look forward to your determination regarding my request for expedited processing within 10 calendar days, as the statute

KRATON/Shell Oil RCRA 05-2003-0007

Can you advise as to

- 1) Whether the Respondents under AOC RCRA 05-2003-0007 have fully complied with the remediation or other actions that were part of the Order or
- 2) If there is ongoing work under the AOC, what document would best summarize the current status of the Respondents compliance with the AOC.

Could I get a pdf copy of the one document which either verifies that that AOC has been terminated or that briefly summarizes the current status of the corrective actions required under the AOC? I do not need attachments with testing data, etc..

I truly appreciate your help.

EPA-R2-2015-007098	Under Agency Review		5/14/2015 14:05	<p>Thanks,</p> <p>This is a request for processing of a Freedom of Information Act ("FOIA") request, made pursuant to 28 CFR 16.5(d)(1). I am seeking any e-mails or other written communications since Jan. 1, 2013 between EPA headquarters officials and employees and any of the following members of the government relations department of ConocoPhillips: Melissa Shute, Riley Nelson, Kari Smith (aka Kari Gibson), Kjersten Drager, and Kevin Avery. I am most interested in communications between EPA and any of these individuals regarding the subject of the exemption that hydraulic fracturing currently enjoys from the Safe Drinking Water Act: http://water.epa.gov/type/groundwater/uic/class2/hydraulicfracturing/wells_hydroreg.cfm. That exemption, which is embedded in the Energy Policy Act of 2005, is the subject of a long-running EPA study: http://www2.epa.gov/hfstudy. The exemption has also come up in the past couple years in the context of revelations that drilling companies have been violating the industry's longstanding agreement with the EPA that, despite the overall fracking exemption from the Safe Drinking Water Act, diesel fuel would not be used in fracking injections: http://www.propublica.org/article/drillers-illegally-using-diesel-fuel-to-frack.</p> <p>It is not clear to me which EPA officials would most likely have been in a position to communicate with the above-mentioned ConocoPhillips employees on this subject. But any assistance you can lend in focusing my request around this topic so that the request is fruitful would be appreciated. Please let me know if you need any more information from me.</p> <p>I should note, to the extent that it assists you in your search, that this request follows another one I recently made for emails and other written communications on the same subject between EPA headquarters and two other ConocoPhillips employees: Andrew Lundquist and Jim Ford. That request, EPA-HQ-2015-006360, recently came back with a disposition of no records found.</p>

EPA-R2-2015-007224	Brian Tortorete	Kleinfelder	5/19/2015 15:05	Office of Solid Waste Management Programs (task order 68-01-3187)

We are interested in health and safety data about consumer products containing permethrin, used as biocidal products against ticks or mites.

As an example, the two products with the EPA Registration Numbers: EPA 56783-1 ("Damminix") and 56783-2 ("Mite Arrest") are of interest.

Also, the use of permethrin spray to treat outdoor gear, and the use of permethrin-treated battle dress uniforms (BDUs) must have been accompanied by a significant amount of health and safety studies.

Especially to avoid duplicate vertebrate testing, we would like to know whether there are any releasable data about

- leaching of permethrin from cotton upon rain or skin contact (wash-off tests)
- dermal absorption and resulting bioavailability
- consumer exposure levels
- skin sensitization hazard

for EPA 56783-1 and 56783-2

? exposure levels of mice

? hazard to cats

? any incident reports regarding the use of these products

? risk of intoxication and skin sensitization, esp. for children

? the efficacy of these products

(We are aware of the "Cleared Science Reviews" for permethrin and have not found answers to these questions therein.)

Thank you very much in advance for your help!

This is a Freedom of Information Act request for documents concerning several different landfill events limited by some of constraints:

- * I only want documents concerning facilities in the following counties: Cass, Champaign, DeWitt, Ford, Iroquois, Logan, Macon, Mason, McLean, Menard, Piatt, Tazwell, Vermillion, and Woodford all in Illinois.
 - * I only want documents concerning landfills or closed landfills.
 - * I only want documents generated by US EPA or received by US EPA in the calendar month previous to the month this FOIA request is received by the US EPA.
 - * If the previous constraint does not eliminate any duplicates I do not want duplicates of any documents.
 - * I want only the first document generated or received on each event below which indicates to the general character of the event, the location, and the time frame.
 - * Also I want the entire document or if the document is over 25 pages the first 25 pages of the document.
- I would like documents that fall into the following categories:
- * Documents indicating that a new landfill facility or waste stream is being considered, inquired about or proposed.
 - * Any application for a new facility or waste stream.
 - * Any new facility or waste stream permit granted.
 - * One document concerning the initial reporting of any violation, suspected violation, investigation of any violation, or explanation of any violation.
 - * Any unacceptable test result.
 - * One document concerning the conclusion of any such allegation, unacceptable test result, or investigation which includes the results and penalties for the incident.
 - * One concerning the closing of any facility or part of a facility.
 - * One document indicating any modification to any landfill handling hazardous waste.

Good afternoon-

I had submitted a request approximately a month ago however, have additional information that would aid in the search. My boss John Carrow had been communicating with Samantha Harvey (harvey.samantha@epa.gov) because I was out of the office.

I am looking for reports submitted for the below site. These may include groundwater monitoring reports, remediation status reports, permit applications and other correspondence. I am only interested in the years 2011, 2012, 2013, 2014, and documents submitted thus far this year.

This request is made in furtherance of our client, Station Managers of Puerto Rico, Inc.'s (former owner of the Former Shell Guayanilla Fuel Terminal, "SMPRI"), February 3, 2015 letter requesting a copy of the document titled Environmental Impact Study Investigation for the Modular Incineration System, Weston, 1989 (the "Weston Report"), Reference No. EPA-R2-2015-004230. SMPRI requested the Weston Report pursuant to FOIA as a follow up to the multiple documents and reports provided by the EPA on November 13, 2014, in response to a prior FOIA request.

On May 7, 2015, EPA provided SMPRI with a copy of the Weston Report. However, the copy of the Weston Report provided did not include the appendices and tables which are part of the report. Consequently, SMPRI formally requests, pursuant to FOIA, a copy of the appendices and tables of the Weston Report. We understand that, pursuant to 40 C.F.R. Section 2.104, SMPRI ought to receive a copy of the Weston Report within twenty (20) days of receipt of this request. See, also, NLRB v. Sear, Roebuck & Co., 421 U.S. 132 (1975).

We are performing an environmental assessment for the Marble Cliff Quarry/ Quarries / Landfill / Dump north of Dublin and Trabue Roads in Columbus. I have attached a map showing the property location. The following addresses are associated with the property: 2650, 2691, 2993, 3078, 3080, 3084 and 3520 Dublin Road. Additionally, road names of Mill Road, Robinson Pike, Mudsock Pike, Mudsock Road, Trabue Road, Mill Road, Scioto Darby Creek Road, Hilliard Cemetery Road, and Roberts Road are associated with parcels at the property.

We are reviewing regulatory databases as a part of this assessment, focusing on potential releases of hazardous substances and/or petroleum. We are requesting a search of relevant files under your supervision, to determine if potential releases have or may have occurred.

Preliminary EDR investigation shows the following US EPA listings. We request records related to these listings, as well as any additional records that are identified relevant to the property.

Any and all filings related to Section 505 of the Clean Water Act since April 12, 2015.

We request the narrative responses and supporting documents the following PRPs provided in response to EPA CERCLA Section 104(e) requests at the LDW Superfund Site:

1. James D. Gilmur, Duwamish Marine Center, et al., relating to activities at several parcels of property located at the 6300 block of 1st Ave. S and 16 S. Michigan St. Records indicate the entities submitted a response on July 28, 2008. Records indicate these entities may have submitted a supplemental response on December 2, 2011.

2. United States Army Corps of Engineers (USACE) relating to activities at the Formerly Used Defense Site F10WA041600 it called the "Seattle Army Chemical Plant." Records indicate USACE submitted a response on May 5, 2010. It does not appear EPA issued a supplemental request, but if it did, we request the response and all supporting documents USACE provided in response to such request.

3. CertainTeed Gypsum Manufacturing, Inc. relating to activities at the property located at 5931 E. Marginal Way. Records indicate CertainTeed submitted a response on September 26, 2008. It does not appear EPA issued a supplemental request, but if it did, we request the response and all supporting documents CertainTeed provided in response to such request.

4. MRC Holdings, Inc., for itself and for MRI Corporation (MRC), relating to activities at the property located at 6000 W. Marginal Way SW. Records indicate MRC submitted a response on April 27, 2012. It does not appear EPA issued a supplemental request to MRC, but if EPA did, we request the response and all supporting documents MRC provided in response to such request.

Please send the narrative responses and all supporting documents the above parties sent in response to any original or supplemental request at the LDW Site. Please do so in electronic format.

I would like to request the most current listing of all EPA-registered domestic pesticide producing and device producing establishments and the pesticide produced based on data in the Section Seven Tracking System (STS). I would like the data for region 4 only. I would like two reports for this data. The reports are the 0900 Active establishment report with company headquarters address and establishment address and the 0700 pesticide production and distribution report per solicitation year for the most current year available. I would like all the columns available for each report.
Thank you for your help.

FOIA REQUEST

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all case file materials AND correspondence between the Monsanto Company and the Environmental Protection Agency (EPA) regarding the following Superfund sites:

1. Monsanto Chemical Co. (Soda Springs Plant) (EPA ID: IDD081830994)
2. Monsanto Co. Inc. (Columbia, Tennessee) (EPA ID: TND004048104)
3. Sauget Area I – Sauget Monsanto Illinois Landfill (EPA ID: ILD980614176)
4. Monsanto Co W. G. Krummrich (EPA ID: ILD000722074)

I am aware that some data regarding these Superfund sites are available online, but I am requesting access to and copies of all EPA communication regarding these sites.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

I would appreciate your communicating with me by email or telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. A copy of this correspondence is

6/4/2015 20:06 A copy of this correspondence is attached as a word document for your convenience.

Dear Sir/Madam:

Avocet Environmental, Inc. (Avocet) is conducting a Phase I environmental site assessment for the approximately 3.6 acre property at 18301 Arenth Avenue in City of Industry, California. Pursuant to the provisions of the Freedom of Information Act (FOIA), Avocet respectfully requests access to environmental records on file in your office for this property.

By way of background, the property is currently occupied by The Monadnock Company but was previously occupied by TRW, Inc. (TRW). The property has been investigated by the Los Angeles Regional Water Quality Control Board (File No. 105.0181) and was the subject of Cleanup and Abatement Order No. 88 057. As a result of its past operations at the property, TRW is or was a "potentially responsible party" in the Puente Valley Operable Unit. The property is identified in the GeoTracker database as SL0603701526. For the purpose of this request, environmental records would include underground storage tank, aboveground storage tank, "tiered" and/or other environmental permits; enforcement orders; and reports and correspondence related to site investigation/assessment, soil sampling, monitoring, cleanup/remediation, removal actions, risk assessment, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.

Thank you for your prompt response to this FOIA request.

FOIA REQUEST

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all case file materials AND correspondence between the Monsanto Company and the Environmental Protection Agency (EPA) regarding the following Superfund sites:

1. Monsanto Co. Inc. (Columbia, Tennessee) (EPA ID: TND004048104)

I am aware that some data regarding these Superfund sites are available online, but I am requesting access to and copies of all EPA communication regarding these sites.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

I would appreciate your communicating with me by email or telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires.

Hello.

Under the FOIA, I am requesting a copy of all pertinent documents related to the demolition of the old Nicolet/CertainTeed/Keasbey and Mattison Asbestos Factory facilities located in Ambler Pennsylvania. The parcels of land are now known and often referred to as the Bast and Frumin Parcels. These parcels are documented by PaDEP and EPA as an inactive asbestos waste disposal site but should not be confused with the Ambler Asbestos Piles Superfund site nor the BoRit Asbestos Superfund site. The relevant parcel ID # are PA Tax Parcel 01-00-02944-00-7 and PATax Parcel 01-00-011577-30-9. The old buildings were taken down in 2009 and 2010. I have performed an informal review of the relevant files at the Southeast office of the PaDEP in Norristown in the fall on 2014. I was not able to find any information on the demolition of the old factory buildings. It is my understanding the EPA is not the lead agency on this project but is certainly involved.

Thank you for your time and attention to this matter
Respectfully,

EPA-R3-2015-007710 Sharon McCormick

Dear EPA Staff Person:

Would you please, with this FOIA request, provide a copy of all correspondence between the EPA and the State of Vermont Department of Environmental Conservation, Drinking Water and Groundwater Protection Division ("Water Division") and associated documents related to and subsequent to the July 12, 1993 letter (attached) to Mr. Mark Sceery, EPA Water Supply Section, Boston, MA by the Water Division requesting a "susceptibility" waiver for the testing of the herbicide glyphosate in the State of Vermont.

Please confirm if a waiver was granted, that according to http://water.epa.gov/lawsregs/guidance/sdwa/upload/wsg_66.pdf, the waiver needed to be renewed every three years. Please supply all correspondence between the aforementioned parties and documents, including rules, related to glyphosate testing waiver renewals.

Requested Data Details For 2014

Please separate the data into the following three tables (or combine them as you see fit). Please include only 2014 data from Community Water Systems (as defined by EPA). If more tables are required in order to make your job easier for data collection, please feel free to create as many as you wish. NOTE: the fields I've identified in each of the tables below represent the minimum information requested; I welcome additional fields if you think it would help. Any electronic-file type is fine as long as they're in a delimited format. Please contact me with any questions at mikek@gemgrp.com or at 800-254-9761 x213.

Conn & Smith, Inc. is representing Kaken Pharmaceutical Co., Ltd. in this FOIA request. For your information, we have uploaded here a copy of the letter Kaken signed October 20, 2009 in which Kaken appointed Conn & Smith, Inc. to be its Agent for all matters before the Office of Pesticide Programs of EPA. Please note that Kaken's EPA company number is 68173.

For this FOIA request we are requesting a full copy of the EPA science review (Data Evaluation Record or comparable document) for each of the following MRIDs that were submitted to EPA by Kaken:

49045801

49362101

Both of those MRIDs pertain to 12-month storage stability/corrosion characteristics studies owned by and submitted to EPA by Kaken. This FOIA request was prompted by the fact that EPA has never to date provided to Kaken its review of those two studies.

The City of Oxnard submits this FOIA request pursuant to 5 U.S.C. § 552 for certain documents maintained by the Environmental Protection Agency – Region 9 (EPA) with respect to the Puente Power Project at 393 North Harbor Blvd, Oxnard, CA proposed by NRG Oxnard Energy Center, LLC (NRG).

We request the following categories of documents from the files of the EPA be produced. For the purpose of this request, “Project” refers to the Puente Power Project; “consultant” includes, but is not limited to, AECOM and any other the consultants working on behalf of NRG or EPA, and “record” means any tangible record of information, including electronic documents.

A. Any application submitted by NRG or its consultants to EPA for PSD or other air emissions permits that NRG seeks for the Project during the period from January 1, 2013 to the present.

B. All records, including records of communication, between EPA and NRG or any consultant on the Project, relating to any item requested in section A above.

In the event that this request is denied, in full or in part, we request that you justify all deletions or withheld documents by reference to specific exemptions to FOIA (5. U.S.C § 552). We also request that you release all segregable portions of otherwise exempt material and that you provide an index, description, and page count of any records that are withheld. We reserve the right to appeal your decision to withhold any information.

We request that you waive all fees for the search and copying of documents for the City of Oxnard. In the event that the EPA denies this request for waiver of fees, we request that the search and copying of the requested records move forward immediately.

Should you have any questions regarding this FOIA request, please contact me by telephone at the number listed above or by email at schexnayder@smwlaw.com. We appreciate your expeditious handling of this request.

Hi

I was online at you website and I was looking under the "CERCLIS Reports and Data Files". I noticed that this data has not been updated since October 25, 2013. I wanted to request an update of this data. I was last told last time that the data was being migrated to a new system. I was hoping that the migration had been accomplished and that new data files would be available. Thanks for your help.

Pursuant to the Freedom of Information Act, 5 U.S.C. 552, I would like to request any records that refer to the cartoon strip "Doonesbury," including copies of individual strips as well as any discussion of the contents, subject matter, or parodying of individual government employees or policies, from October 1970, when Doonesbury first debuted as a cartoon strip, to the present. I am interested in records that were compiled or created by any agency public affairs offices, including any subsequent further dissemination of such records within the agency. As a result, I am asking for such searches for all public affairs offices for all department components, including both retired and current records. This includes both retired and current records. I would like to have an electronic records search. I am also particularly interested in any non-exempt records relating to the cartoonist Garry Trudeau in his professional capacity as the writer/creator of "Doonesbury." To the extent any records exist referencing Trudeau that are not contained in a Privacy Act system of records, I would be interested in obtaining such records as well.

This request relates to a book project on Trudeau and should be considered made in my capacity as a representative of the news media. However, if you believe there will be either search or duplication fees incurred in processing the request, please contact me before proceeding. I would like to get any records in electronic format if possible and am willing to accept records

The New York State DEC website states:

"In 1988, EPA passed federal UST regulations (40 CFR 280 and 281) laying out a comprehensive program for the monitoring and upgrading of USTs in the Nation. Because the regulations were developed after the New York regulations, they differ from New York's in five major ways:

1. The federal regulations cover crude oil and any fraction thereof and provide an exemption for tanks storing heating oil used consumptively on premises and tanks less than 1,100 gallons storing motor fuels at farms and residences.
2. The regulations cover underground tanks over 110 gallons.
3. Tanks must have some form of leak detection such as annual tightness testing.
4. Tanks were required to be upgraded by December 22, 1998 to satisfy leak detection and corrosion protection requirements.
5. Site assessments must be performed when a tank is permanently taken out of service.

The New York State Department of Environmental Conservation implements all aspects of the program with the exception of enforcement. Violations are reported by the State to EPA for enforcement."

I am requesting any and all documentation the EPA has relating to the following 4 spills in NY which may have required EPA enforcement:

1. NYS DEC Region: 3, Spill #0909513, Location: 41 Barker Ave., White Plains, Westchester Co., Spill Date: 11/25/2009
2. NYS DEC Region: 3, Spill #0911530, Location: 39 North Broadway, White Plains, Westchester Co., Spill Date: 1/27/2010
3. NYS DEC Region: 3, Spill #0912623, Location: 40 Rockledge Ave., White Plains, Westchester Co., Spill Date: 3/4/2010
4. NYS DEC Region: 3, Spill #1106390, Location: 40 Rockledge Ave. (G.E. Recovery System), White Plains, Westchester Co., Spill Date: 8/30/2011

Please do not hesitate to contact me should you require any further information to execute my request. I tried to attach the NYS DEC spill reports for each matter to this request as PDFs but was unable to do so.

It was also commonly known as the Keystone Coke Co. property, as a portion of the former Alan Wood Steel Co. site, and as a secondary site associated with the Crater Resources Inc. Superfund site.

We have attached a site boundary plan for your assistance.

We would like to respectfully request that your staff review the EPA Region 3's files for any information related to this property which might pose an environmental concern for future development of the property in accordance with Federal CERCLA and state PADEP regulations, and ASTM Standard Practice for Environmental Site Assessments (E 1527-13). These, for example, could include any information about previous fires or spills of hazardous materials on, or in the vicinity of the property; or zoning and building permit applications suggesting changes in use of these properties. We are also contacting the PADEP, Philadelphia Fire Department, Planning Commission, and other code enforcement officials. Please notify us only if there is an UPDATE on the information above since OCTOBER 2014.

6/9/2015 17:06 (Parcel numbers 4085, 4086, and 4092). Thank you.

I'm requesting an electronic copy of (1) the Clean Air Act Watch List for each of the months from January 2004 to December 2009, (2) the Clean Water Act Watch List for all available months, and (3) the RCRA Watch List for all available months. I understand that some of the information contained in these data are sensitive. However, previously released watch lists include the following information for each watch list entry:

Facility_ID

Facility_Name

Facility_Street

Facility_City

Facility_State

Facility_ZIP_Code

This information is sufficient for my purposes. I am conducting a research project that requires the requested information. The watch list files will be used for research purposes only and will only be reported in summary form (i.e., the identities of facilities on the lists will not be publicly posted or shared). I previously submitted a FOIA request for similar information. Thank you.

Dear Environmental Protection Agency,

I am a PhD student at the Ross School of Business, University of Michigan and I am co-authoring a paper with my adviser, Professor Thomas Lyon, on Safe Drinking Water Act (SDWA) violations of water systems. We have obtained access to the data from 2010 through 2013, but need a longer panel of data in order to complete our study. Hence, this FOIA request. We thank you in advance for your assistance.

The main data set we are using is “zipped summary inventory, violations, and GPRA MS Excel PivotTables” found in the section of “Annual Trends data, including summary inventory, violations and GPRA” on the “SDWISFED Drinking Water Data” web page on your website (File downloading link: http://water.epa.gov/scitech/datait/databases/drink/sdwisfed/upload/sdwis_fed-gpra_fy2014.xlsx Webpage: <http://water.epa.gov/scitech/datait/databases/drink/sdwisfed/pivottables.cfm>). We realize this data set is updated annually. The data set currently available on the website only covers violations that are open in 2013 and 2014. However, when we first started this project we downloaded an earlier version of it with violations open between 2010 and 2013 (please see the attached file), which has now been replaced by the updated one as shown by the downloading link above.

In order to complete our research, we are requesting access to the archived data sets, going back as far as possible historically. Please let us know if you require further clarification of our request.

Thank you so much for your time. We really appreciate your help on this!

Yours sincerely,
Dan

I am looking for a letter and a number of petitions or complaints from environmental groups. The documents concern implementation of the NPDES state programs of the Clean Water Act:

Gary Hudiburgh, Chief, EPA Regulatory Implementation Section, letter and memorandum to Jessica Landman, NRDC (Feb 3, 1993).

As of 1993, environmental groups raised concerns about Kansas, Michigan, Virginia, West Virginia, Montana, and Washington. I am looking for the petitions or complaint documents that were submitted to the EPA for those states. If EPA issues responses to those concerns, I would like those as well.
