

DRAFT

**UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 5**

RESOURCE CONSERVATION AND RECOVERY ACT PERMIT

Facility Name and Location: **Lafarge North America – Paulding Plant**
11435 County Road 176
Paulding, Ohio 45879

Owner: **Lafarge North America**
12950 Worldgate Drive
Herndon, Virginia 20170

Operator: **Lafarge North America**
12950 Worldgate Drive
Herndon, Virginia 20170

EPA Identification Number: **OHD 987 048 733**

Effective Date: **30 Days from Issuance Date of the Final Permit**

Expiration Date: **October 2, 2017**

Authorized Activities:

The United States Environmental Protection Agency (EPA) hereby issues a Resource Conservation and Recovery Act permit (hereinafter referred to as the “permit”) to Lafarge North America-Paulding Plant (hereinafter referred to as the “Permittee” or addressed in the second person as “you”) in connection with your hazardous waste management operations at your facility in Paulding, Ohio.

This permit is issued under the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, and the Hazardous and Solid Waste Amendments (HSWA) of 1984 (42 U.S.C. § 6901 *et seq.*) (collectively referred to as “RCRA”) and EPA’s regulations promulgated thereunder (codified, and to be codified, in Title 40 of the Code of Federal Regulations.

Specifically, this permit addresses air emission standards for equipment leaks. See 40 CFR Part 264, Subpart BB.

The RCRA permit consists of both this permit, which contains the effective federal RCRA permit conditions issued by EPA, and the effective state RCRA permit conditions issued by the state of Ohio’s RCRA program, authorized under 40 CFR Part 271 (state RCRA permit).

The state RCRA permit was issued on October 2, 2007. (The effective and expiration dates of the state RCRA permit are October 2, 2007 and October 2, 2017, respectively.) Any hazardous waste activity which requires a RCRA permit, but is not included in the provisions of the RCRA permit, is prohibited.

Permit Approval:

On June 28, 1989, the state of Ohio received final authorization to administer the pre-HSWA RCRA hazardous waste program in accordance with Section 3006 of RCRA, 42 USC § 6926, and 40 CFR Part 271. The state of Ohio has also received final authorization to administer certain additional RCRA requirements on several occasions since that time.

EPA has not yet authorized the state of Ohio to administer certain regulations, however, including the air emission standards for equipment leaks (40 CFR Part 264 Subpart BB) handling hazardous wastes, and changes to other sections of applicable regulations. Therefore, EPA Region 5 is issuing the RCRA permit requirements for operations at your facility which fall under these regulations.

You must comply with all terms and conditions contained in this permit. This permit consists of all the conditions contained herein, the documents attached hereto, all documents cross-referenced in these documents, approved submittals (including plans, schedules and other documents), the applicable regulations in 40 CFR Parts 124, 260, 261, 262, 264, 270, and applicable provisions of RCRA.

This permit is based on the assumption that the information submitted in your RCRA Part B Permit Application on February 3, 2010, including the Part A Application, and all other modifications to that application (hereinafter referred to as the “Part B Permit Application”), is accurate, and the facility is configured, operated and maintained as specified in the Part B Permit Application and other relevant documents.

Any inaccuracies in the submitted information may be grounds for EPA to terminate, revoke and reissue, or modify this permit in accordance with 40 CFR §§ 270.41, 270.42 and 270.43, and for enforcement action. You must inform EPA of any deviation from, or changes in, the information in the Part B Permit Application and other pertinent documents that might affect your ability to comply with the applicable regulations or conditions of this permit.

Opportunity to Appeal:

Petitions for review must be submitted within 30 days after EPA serves notice of the final permit decision. Any person who files comments on the draft permit or participates in the public hearing may later petition the Environmental Appeals Board to review any

condition of the permit decision. Any person who fails to file comments or fail to participate in the public hearing on the draft permit may file a petition for review, but only to contest changes from the draft to the final permit decision. The procedures for permit appeals are found in 40 CFR § 124.19.

Effective Date:

This permit is effective as of **(30 Days from Issuance Date of the Final Permit)** and will remain in effect until **October 2, 2017**, unless revoked and reissued under 40 CFR § 270.41, terminated under 40 CFR § 270.43, or continued in accordance with 40 CFR § 270.51(a).
