The Environmental Protection Agency hereby issues a Resource Conservation and Recovery Act permit (permit) to the Heritage Environmental Services, LLC (you) in connection with the hazardous waste treatment operations at the Heritage Environmental Services, LLC located in Roachdale, Indiana.

This permit is issued under the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, and the Hazardous and Solid Waste Amendments (HSWA) of 1984 (42 USC § 6901 *et seq.*) (collectively referred to as "RCRA") and EPA's regulations promulgated thereunder (codified, and to be codified, in Title 40 of the Code of Federal Regulations (40 C.F.R.)).

The RCRA permit consists of both this permit, which contains the effective federal RCRA permit conditions, and the effective state RCRA permit conditions issued by the State of Indiana's RCRA program authorized under 40 C.F.R. Part 271 (State RCRA permit). Any hazardous waste activity which requires a RCRA permit and is not included in the RCRA permit is prohibited.

Specifically, this permit addresses a hazardous waste code in 40 C.F.R. 261 Subpart D that the Indiana Department of Environmental Management is not authorized to implement.

**Draft April 2009**      **Heritage Environmental Services, LLC**      **IND 980 503 890**

**Permit Approval:**

On January 31, 1986, the State of Indiana received final authorization pursuant to Section 3006 of RCRA, 42 USC § 6926, and 40 C.F.R. Part 271, to administer the pre-HSWA RCRA hazardous waste program. The State of Indiana also received final authorization to administer certain additional RCRA requirements on several occasions since then.

However, because EPA has not yet authorized the State of Indiana to administer some hazardous wastes listed in 40 C.F.R. Part 261, Subpart D, EPA Region 5 is issuing this portion of the RCRA permit to cover operations at the facility which manage wastes for which the State of Indiana is not authorized.

You must comply with all terms and conditions contained in this permit. This permit consists of all the conditions contained herein, the documents attached hereto, all documents cross-referenced in these documents, approved submittals (including plans, schedules and other documents), the applicable regulations in 40 C.F.R. Parts 124, 260, 261, 262, 264, 266, 268, 270, and applicable provisions of RCRA.

This permit is based on the assumption that the information submitted (1) in your RCRA Part B Permit Renewal Application dated September 5, 2008 and subsequent responses and modifications (hereinafter referred to as the “Part B Permit Application”) is accurate, and the facility is configured, operated and maintained as specified in the permit and as described in the Part B Permit Application and other relevant documents.

Any inaccuracies in the submitted information may be grounds for EPA to terminate, revoke and reissue, or modify this permit in accordance with 40 C.F.R. §§ 270.41, 270.42 and 270.43; and for enforcement action. You must inform EPA of any deviation from, or changes in, the information in the Part B Permit Application and other pertinent documents that might affect your ability to comply with the applicable regulations or conditions of this permit.

**Opportunity to Appeal:**

Petitions for review must be submitted within 30 days after EPA serves notice of the final permit decision. Any person who filed comments on the draft permit or participated in the public hearing may petition the Environmental Appeals Board to review any condition of the permit decision. Any person who failed to file comments or failed to participate in the public hearing on the draft permit may file a petition for review only to the extent of the changes from the draft to the final permit decision. The procedures for permit appeals are found in 40 C.F.R. § 124.19.
