CONSENT AGREEMENT

A. PRELIMINARY STATEMENT

1. This is a Class II civil administrative penalty proceeding pursuant to Section 311(b)(6)(B)(ii) of the Clean Water Act (“CWA”), 33 U.S.C. § 1321(b)(6)(B)(ii), as amended by the Oil Pollution Act of 1990, and the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties and the Revocation/Termination or Suspension of Permits (“Consolidated Rules”), 40 C.F.R. Part 22.

2. Pursuant to Section 311(b)(6) of the CWA, 33 U.S.C. § 1321(b)(6), the Administrator of the United States Environmental Protection Agency (“EPA”) is authorized to assess administrative penalties against persons who violate Section 311 of the CWA, 33 U.S.C. § 1321. The Administrator has delegated this authority to the Regional Administrator of EPA Region 9, who in turn has delegated this authority to the Director of the Enforcement Division, hereinafter “Complainant.”

3. Respondent is Paul Oil Company, Inc., a California corporation (“Respondent”).

4. Pursuant to 40 C.F.R. § 22.13(a), this penalty proceeding commenced on April 7, 2016 by the filing of a complaint with the Regional Hearing Clerk (Docket No. OPA-09-2016-0003), wherein EPA alleged that Respondent violated Section 311(j)(1)(C) of the CWA, 33 U.S.C. § 1321(j)(1)(C), and its implementing regulations.

5. This Consent Agreement and Final Order issued pursuant to 40 C.F.R. § 22.18(b)(2) (“CA/FO”) concludes this penalty proceeding.

NOW THEREFORE, before the taking of any testimony, without adjudication of any issue of fact or law, and upon consent and agreement of the Parties to this Stipulation and Order, it is hereby AGREED, STIPULATED, and ORDERED:

B. STATUTORY AND REGULATORY FRAMEWORK

6. Section 311(j)(1)(C) of the CWA, 33 U.S.C. § 1321(j)(1)(C), provides that the President shall issue regulations “establishing procedures, methods, and equipment and other requirements for equipment to prevent discharges of oil . . . from onshore facilities and offshore facilities, and to contain such discharges”

7. Initially by Executive Order 11548 (July 20, 1970), 35 Fed. Reg. 11,677 (Jul. 22, 1970), and most recently by Section 2(b)(1) of Executive Order 12777 (Oct. 18, 1991), 56 Fed. Reg. 54,757 (Oct. 22, 1991), the President delegated to EPA the authority under Section 311(j)(1)(C) of the CWA, 33 U.S.C. § 1321(j)(1)(C), to issue the regulations referred to in the preceding Paragraph for non-transportation-related onshore facilities.

8. EPA subsequently promulgated regulations codified at 40 C.F.R. Part 112, as amended by 67 Fed. Reg. 47,042 *et seq.* (Jul. 17, 2002) (“Oil Pollution Prevention Regulations”), pursuant to its delegated statutory authorities, and pursuant to its authorities under the CWA, 33

U.S.C. §§ 1251 *et seq.* The Oil Pollution Prevention Regulations establish certain procedures, methods, and requirements, applicable to every owner and operator of a non-transportation related onshore facility, where the facility, due to its location, could reasonably be expected to discharge oil into or on navigable waters or their adjoining shorelines in such quantities as may be harmful to the public health or welfare or the environment of the United States. *See* 40 C.F.R. § 112.1(b). The Oil Pollution Prevention Regulations include requirements for Spill Prevention, Countermeasure, and Control (“SPCC”) planning.

9. In promulgating 40 C.F.R. § 110.3, which implements Section 311(b)(4) of the CWA, 33 U.S.C. § 1321(b)(4), EPA determined that an oil discharge is of a harmful quantity if it either “(a) violate[s] applicable water quality standards, or (b) cause[s] a film or sheen upon, or discoloration of the surface of the water or adjoining shorelines, or a sludge or emulsion to be deposited beneath the surface of the water or on adjoining shorelines.”

10. Pursuant to CWA Section 311(b)(6)(A) and (B)(ii), 33 U.S.C. § 1321(b)(6)(A) and (B)(ii), and 40 C.F.R. § 19.4, EPA may assess a Class II civil administrative penalty of up to \$18,107 per day of violation, not to exceed \$226,338 in total, against a person who fails or refuses to comply with an applicable regulation under Section 311(j) of the CWA, 33 U.S.C. § 1321(j).

C. GENERAL ALLEGATIONS

11. Respondent Paul Oil Company, Inc. is a California corporation with a place of business at 524 North Sierra Avenue in Oakdale, California. Respondent owns and operates a bulk oil storage and distribution facility located at 511 South Second Street in Patterson, California (the “Facility”). The Facility’s aggregate above-ground storage capacity is greater

than 1,320 gallons of oil, with oil stored in aboveground storage tanks ranging in size up to 12,000 gallons and in several 55-gallon mobile drums.

12. Respondent is a “person” within the meaning of Section 311(a)(7) of the CWA, 33 U.S.C. §§ 1321(a)(7) (“‘person’ includes an individual, firm, corporation, association, and a partnership”) and 40 C.F.R. § 112.2.

13. The Facility is an onshore facility within the meaning of Section 311(a)(10) of the CWA, 33 U.S.C. § 1321(a)(10) (“‘onshore facility’ means any facility . . . of any kind located in, on, or under, any land within the United States other than submerged land”), and 40 C.F.R. § 112.2.

14. Respondent is an “owner or operator” of the Facility within the meaning of Section 311(a)(6) of the CWA, 33 U.S.C. § 1321(a)(6) (“‘owner or operator’ means . . . any person owning or operating [an] onshore facility”), and 40 C.F.R. § 112.2.

15. Drainage from the Facility runs through a storm drain that discharges into the San Joaquin River three miles to the northeast. The San Joaquin River is a “navigable water” of the United States as defined in Section 502(7) of the CWA, 33 U.S.C. § 1362(7) and 40 C.F.R. § 110.1.

16. The Facility is therefore a non-transportation-related onshore facility that, due to its location, could reasonably be expected to discharge oil to a navigable water of the United States or its adjoining shorelines in a harmful quantity (an “SPCC-regulated facility”).

17. Pursuant to the CWA, Executive Order 12777, and 40 C.F.R. § 112.1, Respondent, as the owner or operator of an SPCC-regulated facility, is subject to the Oil Pollution Prevention Regulations.

18. On November 4, 2014, EPA conducted an inspection of the Facility to determine Respondent's compliance with the Oil Pollution Prevention Regulations and the requirements for SPCC planning.

D. ALLEGED VIOLATIONS

19. Paragraphs 1-18 above are incorporated herein by reference.

20. EPA alleges that, as of November 4, 2014, Respondent failed to comply with applicable SPCC requirements of the Oil Pollution Prevention Regulations, specifically by: (1) failing to prepare and implement an SPCC Plan, as required by 40 C.F.R. § 112.3; (2) failing to have management approval of an SPCC plan at a level of authority to commit the necessary resources to fully implement the plan, as required by 40 C.F.R. § 112.7; (3) failing to have an SPCC plan that addresses the type of oil in each fixed container and its storage capacity, as required by 40 C.F.R. § 112.7(a)(3)(i); (4) failing to have an SPCC plan that includes, where experience indicates a reasonable potential for equipment failure, a prediction of the direction, rate of flow, and total quantity of oil that could be discharged as a result of each type of major equipment failure, as required by 40 C.F.R. § 112.7(b); (5) failing to provide appropriate containment and/or diversionary structures or equipment to prevent a discharge in a harmful quantity, as required by 40 C.F.R. § 112.7(c); (6) failing to conduct inspections and tests in accordance with written procedures and keep a record of inspections and tests, as required by 40 C.F.R. § 112.7(e); (7) failing to conduct discharge prevention training, as required by 40 C.F.R. § 112.7(f); (8) failing to have an SPCC plan reviewed and certified by a licensed Professional Engineer, as required by 40 C.F.R. § 112.3(d); (9) failing to restrict drainage from diked areas by valves to prevent a discharge into the drainage system, as required by 40 C.F.R. § 112.8(b)(1); (10) failing to equip undiked areas with a potential for discharge with a diversion system to

retain oil in the facility, as required by 40 C.F.R. § 112.8(b)(4); (11) failing to use containers for oil storage that have material and construction that are compatible with the material stored and conditions of storage, as required by 40 C.F.R. § 112.8(c)(1); (12) failing to construct bulk storage tank installations to have a secondary means of containment for the entire capacity of the largest single container and sufficient freeboard to contain precipitation, as required by 40 C.F.R. § 112.8(c)(2); (13) failing to promptly correct visible discharges which result in a loss of oil from a container and promptly remove any accumulations of oil in diked areas, as required by 40 C.F.R. § 112.8(c)(10); and (14) failing to provide secondary containment for mobile or portable containers, as required by 40 C.F.R. § 112.8(c)(11).

E. CIVIL ADMINISTRATIVE PENALTY

21. The Complainant proposes that the Respondent be assessed, and Respondent agrees to pay SIXTY-TWO THOUSAND FIVE HUNDRED DOLLARS (\$62,500) as the civil administrative penalty for the violations alleged herein.

22. The proposed penalty was calculated in accordance with the Civil Penalty Policy for Section 311(b)(3) and Section 311(j) of the Clean Water Act, dated August 1998, and was adjusted for inflation in accordance with the Debt Collection Improvement Act of 1993, *see* 40 C.F.R. § 19.4, and the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (“2015 Act”), *see* 28 U.S.C. § 2461, note.

At such time as those matters are concluded, this CA/FO shall terminate and constitute full settlement of the violations alleged herein.

This CA/FO shall not be construed as a covenant not to sue, a release, waiver, or limitation of any rights, remedies, powers, or authorities, civil or criminal, which EPA has under the CWA, or any other statutory, regulatory, or common law enforcement authority of the United States, except as otherwise set forth herein.

38. Compliance by Respondent with the terms of this CA/FO shall not relieve Respondent of its obligations to comply with any applicable local, state, or federal laws and regulations.

39. The entry of this CA/FO and Respondent's consent to comply shall not limit or otherwise preclude EPA from taking, nor limit or otherwise preclude Respondent from asserting rights and defenses in additional enforcement actions should EPA determine that such actions are warranted except as they relate to Respondent's liability for federal civil penalties for the specific alleged violations and facts as set forth in Section D of this CA/FO. Full payment of the penalty proposed herein shall resolve Respondent's liability for federal civil penalties for the violations and facts alleged herein.

40. Except in an action to enforce this CA/FO, Respondent expressly reserves all rights to assert that neither this CA/FO nor anything in this CA/FO shall be admissible in any proceeding as evidence of an admission by, or to prove the liability of Respondent for the allegations stated herein.
