In most cases buildings of less than 5,000 sf in size are not eligible to receive the EPA's ENERGY STAR building score. The EPA's documents which describe the technical methodology for these building types state this restriction, but provide no evidence or justification to back it up. This is the case for the following models: office/finance/courthouse, hotel, K-12 school, medical office, retail, supermarket/grocery, and warehouse.  In technical documents for these buildings the only justification offered is the statement "analytic filter -- analysis could not model behavior for buildings smaller than 5,000 sf."  I am requesting to receive copies of any documents, memos, reports, and/or emails that address this issue and provide any evidence to support this claim for each of the building models that include this restriction.

			I request copies of any and all emails concerning official EPA business that were sent to or from EPA Administrator Scott Pruitt's personal email account(s) from Feb. 17, 2017 to the date that this FOIA request is processed. Other past senior administration officials, such as former Secretary of State Hillary Clinton, former Defense Secretary Ash Carter and former EPA Administrator Gina McCarthy, have been found to have used a personal email account for government business. In the cases of former Secretary Clinton and former Secretary Carter, some of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of personal email for government business &not;--and also litigation in former Secretary Clinton's case &not;--both former Secretary Clinton and former Secretary Carter released thousands of pages of their personal emails that were used for government business. EPA has also released former Administrator McCarthy's personal emails that were used for government business. Further, a recent court ruling found that agency officials should expect that work-related emails in their personal email accounts to be subject to the Freedom of Information Act. In Competitive Enterprise Institute vs. Office of Science and Technology Policy, D.C. Circuit Senior Judge David Sentelle wrote in the U.S. Court of Appeals for the District of Columbia Circuit's opinion that &quot;an agency cannot shield its records from search or disclosure under FOIA by the expedient of storing them in a private email account controlled by the agency head.&quot; Administrator Pruitt should follow the example

			I would like to request an updated copy of the PDF file titled: National PCB Notifications - Semi-Colon Delimited (PDF), that is available online as part of the Notifications for Polychlorinated Biphenyl (PCB) Activities program. The last published update is from 3/2017. If an updated PDF has not been produced yet, a CSV flat file with the same database structure would be excellent as well. I am specifically looking for records in TX, but a national listing is fine too. I have previously worked with Amy Hensley when requesting this data.

EPA-R3-2017-008427	Abrahm Lustgarten	ProPublica	6/14/2017 18:06		In May, 2011 the EPA conducted a multi-media inspection at the Radford Army Ammunition Plant in Radford VA. EPA RCRA ID No. VA1210020730 ; CWA NPDES Permit No. VA A0000248 ; CAA Title V Permit Nos. 5112100006 and 5112100082. For EPA Region III. In December, 2014 EPA conducted a compliance investigation of the same facility, NEIC Project No.: VP1068. For EPA Region III. Pursuant to FOIA I'd like to request copies of all correspondence, memos, reports or presentations regarding the findings or the conduct of both of these inspections and investigations, including what to do about them. I'd also like to request copies of any and all enforcement actions taken as a result of these inspections, including notices of violation or formal citations or warnings issued to the U.S. Army or its tenants at the Radford facility over the violations identified in these reports, as well as all records documenting the remedy of identified violations and return to compliance with the applicable laws and facility permits.
EPA-HQ-2017-008423	Abrahm Lustgarten	ProPublica	6/14/2017 18:06		I'd like to request copies of all correspondence between the office of the Administrator, Scott Pruitt, and any entity outside of the USEPA concerning the management, modernization or prioritization of the Superfund program between Feb 16, 2017 and the present.
EPA-HQ-2017-004816	Abrahm Lustgarten	ProPublica	3/13/2017 13:03		Pursuant to FOIA I'd like to request copies of all correspondence originating from or involving member of the EPA press office mentioning &quot;Abrahm Lustgarten&quot;, &quot;ProPublica&quot; or regarding a press inquiry made by either entity since Sept. 1, 2016.
EPA-HQ-2017-003625	Abrahm Lustgarten	ProPublica	2/6/2017 19:02		The following is a re-filing of a FOIA request previously submitted to EPA Region 4, but which seems to be more appropriately handled by EPA HQ: The original FOIA # is EPA-R5-2017-003467 I am requesting copies of all releasable files relating to the permitting of, conduct of, or investigations into, the company U.S. Technology, based in Canton OH, and its handling of hazardous materials, between the years 2000 and 2017. It is my understanding that U.S. Technology is the subject of investigations or enforcement actions in both EPA Region 4, and in EPA Region 6, and perhaps elsewhere. It is information regarding the company's conduct and operations in these specific regions which I am requesting information about. In addition I request copies of all correspondence, including emails and letters received from or addressed to parties outside of the U.S. EPA concerning U.S. Technology, as well as any releasable intra-agency correspondence. I understand that my original request was forwarded to EPA Region 5 because the company in question is based there, but to reiterate, this request specifically concerns actions in R4 and R6. Also, I was advised previously that Region staff did not know or have enough information to know where to begin their search. To clarify my request, because this concerns a hazardous waste handling issue and an enforcement issue, I would suggest beginning with the RCRA enforcement offices and the criminal investigations divisions of these regional offices. However I do not know that responsive records would be limited to those offices, and therefore would like the request considered more broadly.
EPA-HQ-2017-003148	Abrahm Lustgarten	ProPublica	1/25/2017 14:01		Pursuant to FOIA I request copies the list and contact information of all registrants for all public meetings held by the EPA concerning its IRIS review of RDX between Jan 1, 2013 and Jan 20, 2017, as well as any presentation materials or prepared comments also collected from these registrants, per the EPA's guidelines for these meetings referenced below. In addition, I'd like to request copies of any meeting minutes, digitally recorded webinar, or other audio or visual recordings made of these public sessions. According to the notice at Regulations.gov, &quot;III. Meeting Registration and Presentations Registrants will be required to provide their name, title, affiliation, sponsor (if different from affiliation), and contact information. If you intend to request time on the agenda to make a specific presentation, please register no later than 30 days before the meeting to attend in person or via webinar/teleconference. All other participants should register no later than 7 days before the meeting. Participants that want to make a specific presentation should indicate such in their registration and provide the length of time required. In general, presentations should be no more than 30 minutes. Please submit any written materials to the appropriate docket number for the subject chemical, as specified in Section III of this notice, no later than 7 days before the meeting. If there are more requests for presentations than time allows, the time limit for each presentation will be adjusted. During the meeting, remote attendees and individuals attending the meeting in person are welcome to make comments, ask questions, and participate in the dialogue. Details regarding registration procedures (in person, via webinar, or teleconference) will be posted on the IRIS Web site (http://www.epa.gov/iris/publicmeeting/).
EPA-HQ-2017-003411	Abrahm Lustgarten	ProPublica	1/30/2017 21:01		I request a copy of the following technical report currently being cited in the EPA's IRIS review of RDX, and with the EPA HERO ID# 2919533: Determination of the chronic mammalian toxicological effects of RDX: Twenty-four month chronic toxicity/carcinogenicity study of hexahydro-1,3,5-trinitro-1,3,5-triazine (RDX) in the B6C3F1 hybrid mouse (Volumes 1-3) The report was originally produced by the U.S. Army Medical Research and Development Command, but is a central document in the EPA's current toxicological review. The report is not classified but is is not made available through a hyperlink the way most other citations relied on for the IRIS review are on the IRIS website. Thus I am requesting a copy of the EPA's version of this technical report.

			This is a request or files cited by EPA in its draft human health risk assessment for malathion, or for study data evaluation records that have we have submitted to EPA in support of the registration of malathion in the United States. The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. Since the Agency has established regulatory deadlines for commenting on these risk assessments, time is of the essence for the EPA to comply with our request to provide the requested documents. Based on this, we request a fee waiver. And, we request expedited processing because of the urgency to inform stakeholders and the public about the reasons for the conclusions of the EPA's draft human health risk assessment. This is especially important given that malathion is an important tool used to control mosquitoes that spread diseases like the Zika virus.

EPA-R4-2018-004368	Nick Schwellenbach	Project On Government Oversight	<p>I've been working with EPA employee Gayla Mendez on a previous request. This is a follow-up based on one of the emails provided, which states that Dionne Delli-Gatti and Region 4 Superfund Director Franklin Hill had a meeting on July 7, 2016, with Senator Sessions' office. Heather McTeer Toney participated via the phone. I am seeking any notes made during that meeting, other records prepared for that meeting, or other records produced as a result of that meeting. I believe only Mr. Franklin Hill, Ms. Heather McTeer Toney and Ms. Dionne Delli-Gatti's records need to be searched. Here's the text of that email: From: Middleton, Brandon (Sessions) [mailto:Brandon_Middleton@sessions.senate.gov] Sent: Tuesday, June 07, 2016 11:43 AM To: Delli-Gatti, Dionne Cc: Carr, Kerrie (Sessions) Subject: Confirming: Thursday July 7, 4PM Hi Dionne, Thanks for the chat earlier this morning. These were the only two buildings that survived the Pullman fire of '73. Both buildings have since been demolished (the office building was demolished in 2007.) I have attached photos of the 2 buildings, along with a satellite image of where the buildings used to stand. I am not sure what street address they would be in your system under. I believe the address for the office building was 601 Wabash St. Before the buildings were demolished, they were part of "a manufacturers outlet shopping mall called Lighthouse Place, with The Works containing shops and restaurants, including the Pullman Cafe, in the only surviving Pullman buildings." 			To Whom it May Concern: I would like to request any and all documents that were sent from the White House to the EPA regarding a change to the Renewable Fuel Standard Point of Obligation. As the media has widely reported, discussions between Carl Icahn and outside private parties in the oil and renewable fuels industry occurred in late Feb/early March regarding the White House's consideration of moving the Point of Obligation from refiners/importers to some point further down the fuel distribution chain. In addition to any point of obligation package or memo, I would also request any other documents that were sent that pertained to other changes that might be considered as part of a package to move point of obligation: this list may include things like the E15 Reid Vapor Pressure waiver, or review of MOVES and other models, but my request list is not limited to these. I believe this package was likely sent from the White House to the EPA the week of Feb 27-March 5, but those dates are not exact. This package may include documents from other White House officials to Administrator Pruitt including Gary Cohn. Thank you.

Correspondence between EPA Administrator Pruitt and Senator James Inhofe sent between &#amp;#201; including the dates of 2-17-2017 and 3-13-2017. Correspondence between EPA Administrator Pruitt and Justin Savage or any other attorneys at Hogan Lovells US LLP (located at 555 Thirteenth Street, NW, Washington, DC 20004) sent between &#amp;#201; including the dates of 2-17-2017 and 3-13-2017. Correspondence between EPA Administrator Pruitt and the RMP Coalition, consisting of the American Chemistry Council, The American Forest &#amp;#201; Paper Association, the American Petrochemical &#amp;#201; Fuels Manufacturers, the American Petroleum Institute, the Chamber of Commerce of the United States of America, the National Association of Manufacturers, and the Utility Air Regulatory Group – and/or between EPA Administrator Pruitt and any of these individual organizations – sent between &#amp;#201; including the dates of 2-17-2017 and 3-13-2017. — These documents are of public interest as they will contribute to public understanding of the decision to reopen a previously concluded EPA rule-making process, thus delaying the effective date of a public safety regulation designed to prevent catastrophic industrial accidents and to protect communities and emergency first responders. The rule applies to approximately 12,500 facilities in the U.S. that, according to the EPA, have had on average one serious safety &#quot;incident&#quot;; every other day for the past 10 years. Understanding the decision to delay implementing this safety, measure previously approved by the EPA is a matter of urgent public interest.
EPA-R2-2018-003873	Roxana Firouzi	Gordon Rees	1/30/2018 15:01	Under Agency Review Please provide the following records in a digital format:  1. All records related to agency travel requests submitted to the White House for designation as “White House Support Missions” (or “White House Mission Designations”) from January 1, 2016 to the present. This request includes, but is not limited to:  a. Records pertaining to the dates and itinerary of trips that were submitted. b. The formal request sent to the White House (usually to the Assistant to the President for Cabinet Affairs). c. Records related to the justification(s) for each request, such as the estimated cost of a requested flight and the estimated costs of alternatives. d. Records of response(s) to each request. e. Records indicating whether the trip was in fact taken, and the make/model of aircraft it was taken in. (As this may differ from the make/model of the aircraft requested.)  I certify to be true and correct to the best of my knowledge and belief, that there is widespread and exceptional media interest and there exist possible questions about the government’s integrity, which affect public confidence. As travel costs from various federal agencies come to light, there is growing public concern about the government’s integrity as it spends taxpayer dollars. This subject has already led to the resignation of a cabinet secretary, which has further undermined public confidence in the ability of the government to wisely spend the taxpayers’ money. As the use of military planes for travel follows different procedures and has different implications than the use of chartered planes, it is important that such travel be differentiated from other trips as quickly as possible. 3/22/2017 13:03 Requesting a copy of all the documents and data used by Administrator Pruitt when he made his statement on 9 March 2017 that he does not agree that carbon dioxide is a primary contributor to global warming. 3/17/2017 17:03 See attachment Please provide all documents, records, correspondence, files, and data in connection to the petition filed by Permeate Refining (“Permeate”) under 40 C.F.R. 80.1416 and the Renewable Fuel Standard (“RFS2”), and the Office of Air and Radiation’s letter determination (dated April 7, 2014) regarding Permeate’s petition. 3/16/2017 13:03 Under Agency Review

I request records of communications between EPA employees/affiliates and employees/affiliates of the Oklahoma Bar Association regarding the grievance against Administrator Scott Pruitt known as "Grievance against Edward Scott Pruitt, DC-17-708" (&quot;the Records&quot;). Please consider any e-mails, attached documents, voice mail logs or transcriptions, letters, memorandums, text messages, voice/video recordings and other documented forms of communications as responsive Records to my request. This request is ongoing, and I am requesting that the records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. FOIA requires that your agency respond to my request for expedited treatment within 10 business days. In the event your agency denies my request for expedited treatment, whether through your agency's affirmative denial of the request for expedited treatment or through your agency's failure to respond to the request for expedited treatment, then FOIA requires that your agency nonetheless respond to the underlying request for information within 20 business days of receipt of this letter. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist in your office's response to this request. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request.

I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding that EPA may not have identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank you.

			This letter is a request in accordance with the Freedom of Information Act ("FOIA"), 5 U.S.C. 552. And the corresponding department/agency. The request is made by myself, Mr. Michaelangelo C. Hamilton, behalf of the public domain and for noncommercial purposes. In summation, this request seeks all records relevant to current U.S. strategy to combat anthropogenic climate change and all Executive Orders made by President Donald J. Trump in this regard. Background The media has reported extensively on the policy rollbacks and Executive Orders President Donald J. Trump made days after Inauguration. As the Washington Post reported on February 20th, 2017, "President Trump is preparing executive orders aimed at curtailing Obama-era policies on climate and water pollution, according to individuals briefed on the measures." The American people have the right to know more about the United States' strategy to handle climate change and the official scientific and logical rationale for these decisions being made by the Trump administration. Pursuant to FOIA, 5 U.S.C. &sect; 552 et seq., I hereby request that the Environmental Protection Agency produce the following within twenty (20) business days: Requested Records For the purposes of this request, the term "record" shall apply to all information qualified under 5 U.S.C. 522, including but not limited to, any unedited scientific findings, charts, logs, memorandums notes, writing of any kind, policies, procedures, guidelines, agendas, handouts, reports, transcripts, video, audio recordings, photos, or other material. The term also includes all related information formed, stored, received, or delivered in any digital or electronic form, including but not limited to, electronic mail, instant messaging, or Facebook messaging, iMessages, text messages, or any other form of communication in relation to U.S. strategy on climate change under the Trump Administration. Thank you for your consideration

EPA-R2-2017-011633	Ali Flake	Tetra Tech	9/19/2017 18:09 Any records associated with petroleum bulk storage tanks, chemical bulk storage tanks, spills, remediation, permits, or other documents pertaining to the environmental integrity for 11447 State Route 40, Schaghticoke, NY would be appreciated. Unfortunately we do not have any other information besides this address to help specify your record search. On September 14, 2017, a joint ProPublica-Texas Tribune publication noted that the U.S. Environmental Protection Agency (EPA) took air samples around a Valero Energy refinery, after Hurricane Harvey came through and residents complained of rotten stenchs. The EPA did not release any specifics to the public, but said "concentrations of several toxic chemicals, including the carcinogen benzene, met Texas health guidelines." Thus, pursuant to the Freedom of Information Act (5 U.S.C.&sect; 552), I hereby request all records related to EPA's benzene air sampling conducted in the atmosphere surrounding the Valero Energy refinery following Hurricane Harvey. There is only one Valero Refinery in Houston, and the address for it is: 9701 Manchester St, Houston, TX 77012. I also request a copy of the benzene air sample test results. The date range I am interested in is August 26, 2017 to the present. I would like these records in a searchable and analyzable electronic PDF format, if that is feasible.

In particular, we would like to review records related to the landfills within OU-3, Site 4, and any remaining impacts to soils and groundwater within or surrounding the landfills. Therefore, documents that may be of particular interest would be any IC's/deed notices; Landfill Cap O&M Plans; Final Groundwater Monitoring or Investigation Reports, and the Remedial Investigation for OU-3, Site 4. If possible, electronic documents would be preferred over a review of hard copy files, but if necessary, we can do a file review in Dallas. EPA-HQ-2018-002245	Scott H. Daniska		12/1/2017 19:12	Hi, My name is Scott Daniska and I was exposed to an extremely toxic substance called hydrazine via inhalation while working in an academic lab at Yale University (no longer employed there). Exposure occurred on August 10th and I have still been suffering symptoms on a daily basis. Symptoms include shortness of breath, extreme fatigue, mental fog, tingling in hands, abdominal tightness, dizziness, etc. I have seen dozens of doctors and have had all sorts of tests including blood work, urine analysis, neurotransmitter testing, EEG, brain MRI, chest xrays, EKG, cardiosonigram, abdominal ultrasound, chest CT and sleep studs. So far all of the tests are coming back normal, with the exception of postural orthostatic tachycardia reported. I have tried different medications such as pyridoxine supplements which initially helped but now just make me more tired, modafinil to decrease GABA which just made me more tired, and dexamethasone to stimulate the production of monoamine oxidase which has caused extreme fatigue. My symptoms are ongoing and I have been suffering with no end in sight. I have contacted reporters, doctors, hospitals, the CDC, poison control, professors, etc and no one is able to do anything to help me. While I can speculate some level of mechanism of the toxin via online publications, nothing has helped me. All I want to do is to get better so that I can get back to work in my doctorate program in biology. Because hydrazine is a controlled and limited substance, there are hardly any reports of hydrazine exposure in the past decade. The only recent reports I can find are twelve airmen exposed in May of 2016 at the Homestead Air Reserve Base, six members of the national guard exposed at the 177th Fighter Wing treated at AtlantiCare Regional Medical Center in August of 2016, and 7 workers at the N.J. nuclear reactor building in April of 2017. I have tried to get in contact with anyone and everyone involved and no one will speak to me in the matter.

EPA-HQ-2018-003643	Alex Prochaska	Jones Walker LLP	1/23/2018 16:01	Dear FOIA Officer, This Freedom of Information Act ("FOIA") request is directed to Environmental Protection Agency. Unearthed is interested in obtaining the below information relating to the Volkswagen fix. I hereby request copies of all records containing the following information: Data on all Volkswagen vehicles tested on the road (PEMS data) for NOx emissions before and after the fix information in regard to how the tests were done: for example, the engine temperature at the start of the test any details regarding the route, composition (urban, rural, motorway split) and the ambient conditions on the day of the test. Details about the vehicles themselves: engine size, model year, mileage, body type and emissions technology Any other documents such as keys or guides that are necessary to interpret the data appropriately I would like the data in xls format if possible. Disclosure of this information is demonstrably in the public interest – Volkswagen were caught rigging emissions tests and breaking the law. This fix has been promoted as one of the key solutions to the problem. The public has a right to know what impact it is having on emissions. It will also allow the global public to understand how the fix affects emissions in different countries. If you deny all or any part of this request, please cite each specific exemption that you believe justifies your withholding of information. Please be sure to notify me of appeal procedures available under the law in the event of any denial. If you deny my request for a fee waiver, please inform me before processing my request. I look forward to receiving your response within the twenty day statutory time period. Thank you for your consideration of this request.

I am looking to get, without obtaining any PII, a list of every job within the EPA. By job, I mean position, as in someone goes to work every day and has a title. I want that title, and what that position title is supposed to do. Starting with Scott Pruitt, all the way down to each individual staffer. I want each job, its description and any jobs that fall directly below it. By description I ask for exactly what each position is tasked with doing, and what tasks fall to the jobs below them. I am doing a study to attempt to find a more efficient task delegation method for later implementation. By getting the hierarchy of the EPA, I can analyze how this structure works, its benefits, its flaws, everything. To restate, I am asking for a list of each and every individual job; What each job is supposed to be doing, in every branch of the EPA. Thank you.

EPA-R5-2018-004492	Amy Webster	ERM	2/15/2018 20:02	By way of introduction, my name is Amy Webster, and I am performing an Environmental Site Assessment of the Property located at 222 Mound Ave 45342 Technicote. I would like to obtain any information you may have regarding fires, chemical spills, complaints, septic systems, water wells, underground storage tank issues or other potential environmental concerns for the aforementioned address. Any information you may be able to provide would be greatly appreciated. Information can be sent via fax or e-mail utilizing the information below. Should you have any questions please feel free to contact me to discuss this further. I'm working on project to reuse an archived Superfund site in Red Lion, PA and I'm trying to locate any available notes / reports. • Red Lion Municipal Incinerator (EPA ID: PAD981042328, EPA inspection date 4/17/1987) • Red Lion Landfill (EPA ID: PAD981042385, EPA inspection date 6/23/1986) I've searched the online library resources, and contacted the EPA Library, but have had no luck in finding any documentation. The EPA Library suggested that I contact the Superfund division, who suggested that I contact your Region 3 division. According to a 1971 EPA report, "Municipal Incineration, a Review of Literature", the incinerator was constructed in 1954. Apparently use was discontinued in the 70's. The landfill and incinerator were investigated by EPA in 1986 and 1987 respectively and it was concluded that no further action was required. But I can't find the reports? Is there any documentation available? It is my hope that any notes or diagrams of the site would help us avoid problem areas or direct further testing if necessary.

			<p>Larry Gottesman U.S. Environmental Protection Agency 1200 Pennsylvania Avenue, NW (2822T) Washington, DC 20460 (202) 566-1667 Dear Larry Gottesman, This is a request under the Freedom of Information Act. I am making this request to find out more information on one use-straw bans and the effect they have on the environment. I am a student at Stetson University College of Law and I am trying to get a one-use straw ban in my city for my environmental advocacy course. The information given to me will be presented at local counsel meetings. Over the past few years there has been a large movement to ban one-use straws. I would like to know which states or counties have one-use straw bans in place. I would also like to know if there is a compiled list or documentaries of animals that have been found to be harmed by straws. For example, there are accounts of turtles with straws lodged into their nose. How many accounts like this have been reported? If not, is there a way that this information could start being compiled to show the harm that these types of plastic straws can have. Besides animal harm is there any database on how many one-use straws are thrown away each year and what percentage of those are recycled or end up in the ocean. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. This information will be shared not only with my class and local counsel but will hopefully spread awareness to the harm that one-use straws have to more cities across the nation. Thank you for your consideration of this request. Sincerely, Jennifer Winn 1401 61st St. S. Gulfport, Florida, 33707 I request a copy of the memo written by EPA Acting Special Agent in Charge Pasquale &amp;quot;Nino"; Perrotta, Protective Service Detail, that recommended EPA Administrator Scott Pruitt fly business or first class for security purposes.
