EPA-HQ-2018-004619	Jennifer N. Winn	Stetson College of Law	2/20/2018 21:02	Larry Gottesman U.S. Environmental Protection Agency 1200 Pennsylvania Avenue, NW (2822) Washington, DC 20460 (202) 566-1667 Dear Larry Gottesman, This is a request under the Freedom of Information Act. I am making this request to find out more information on one-use-straw bans and the effect they have on the environment. I am a student at Stetson University College of Law and I am trying to get a one-use straw ban in my city for my environmental advocacy course. The information given to me will be presented at local counsel meetings. Over the past few years there has been a large movement to ban one-use straws. I would like to know which states or counties have one-use straw bans in place. I would also like to know if there is a compiled list or documentaries of animals that have been found to be harmed by straws. For example, there are accounts of turtles with straws lodged into their nose. How many accounts like this have been reported? If not, is there a way that this information could start being compiled to show the harm that these types of plastic straws can have. Besides animal harm is there any database on how many one-use straws are thrown away each year and what percentage of those are recycled or end up in the ocean. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. This information will be shared not only with my class and local counsel but will hopefully spread awareness to the harm that one-use straws have to more cities across the nation. Thank you for your consideration of this request. Sincerely, Jennifer Winn 1401 61st St. S. Gulfport, Florida, 33707

EPA-R3-2018-004485	Kathryn Friel	Whitestone Associates, Inc.	2/15/2018 18:02	I'm working on project to reuse an archived Superfund site in Red Lion, PA and I'm trying to locate any available notes / reports. • Red Lion Municipal Incinerator (EPA ID: PAD981042328, EPA inspection date 4/17/1987) • Red Lion Landfill (EPA ID: PAD981042385, EPA inspection date 6/23/1986) I've searched the online library resources, and contacted the EPA Library, but have had no luck in finding any documentation. The EPA Library suggested that I contact the Superfund division, who suggested that I contact your Region 3 division. According to a 1971 EPA report, "Municipal Incineration, a Review of Literature", the incinerator was constructed in 1954. Apparently use was discontinued in the 70's. The landfill and incinerator were investigated by EPA in 1986 and 1987 respectively and it was concluded that no further action was required. But I can't find the reports? Is there any documentation available? It is my hope that any notes or diagrams of the site would help us avoid problem areas or direct further testing if necessary.
