

Notice of Request to modify the City of Roswell Sewerage System Pretreatment Program.

P.O. Box 1838
Roswell, NM 88202

The EPA previously approved a Pretreatment Program that was required by the General Pretreatment Regulations (40 CFR 403) for City of Roswell. Requirements to implement the approved Pretreatment Program have been incorporated in NPDES Permit No. NM0020311 issued to the City of Roswell.

The applicant has submitted a request for approval to modify its Pretreatment Program as follows:

redevelopment of technically based local limits for pollutant discharges to the City of Roswell Sewerage System.

A determination by the EPA to approve the request to modify the Pretreatment Program will result in the EPA modifying the applicant's NPDES Permit as appropriate to ensure compliance with the changes.

Copies of the Program Modification Submittal are available for inspection at the following locations:

Director	City of Roswell
Water Quality Division (6WQ)	Utility Department
U.S. Environmental Protection Agency	425 N. Richardson
Region 6	Roswell, NM 88201
1445 Ross Avenue	
Dallas, Texas 75202-2733	

Public comments on the proposed program should be submitted, in writing, within thirty (30) days, either in person or by mail, to the above EPA address. All written comments will be considered in the decision to approve the program modification. If no substantive comments to this notice are received, the proposed Pretreatment Program modification will be approved as set forth herein and shall be incorporated in the City of Roswell NPDES permit without changes and without further public notice.

In such event, this notice shall constitute the "notice of approval required by 403.11(e) and notice of incorporation in the NPDES permit in accordance with 40 CFR 122.63(g)." No additional notice shall be provided. Anyone who wishes to be sent notification of the approval of the modifications should send a request for such notice to Ms. Evelyn Rosborough at the above EPA address. A copy of the final permit decision will be transmitted to the permittee following the thirty (30) day comment period.
