

Dubuque Metropolitan Area Solid Waste Agency is Seeking RFQ/P for the Development of a Renewable Natural Gas Project

As a service to our Partners and stakeholders, EPA's Landfill Methane Outreach Program (LMOP) is pleased to share information about a Request for Qualifications/Proposals (RFQ/P) issued by the Dubuque Metropolitan Area Solid Waste Agency (DMASWA), located outside Dubuque, Iowa. **Please note, EPA is not affiliated or associated in any way with the RFQ/P, including the selection process.**

DMASWA is soliciting proposals from experienced developers to invest, install and maintain equipment to clean the DMASWA's landfill gas to pipeline grade standards and market the gas as a renewable natural gas (RNG) product, including its environmental attributes. Qualified vendors are invited to submit a proposal in the format outlined in the RFQ/P.

The full RFQ/P and supporting documents are available at: <https://tinyurl.com/RNG-RFP>. Addendums will be posted at [www.DMASWA.org](http://www.DMASWA.org) and emailed to the addresses provided when downloading the RFQ/P files from the FTP site. A pre-proposal meeting is not mandatory; but interested parties may request a facility tour and request further data if required. **RFQ/Ps must be received no later than 3:00 P.M. on May 25, 2018 at:**

DMASWA RFQ/P - RNG Project Attn: Agency Administrator  
925 Kerper Court  
Dubuque, IA 52001

Questions concerning the RFQ/P or scheduling a site visit may be addressed to John Foster via e-mail at [jfoster@cityofdubuque.org](mailto:jfoster@cityofdubuque.org) until 12:00 P.M. on May 18, 2018.
