## What Are Management Challenges?

According to the Government Performance and Results Act Modernization Act of 2010, major management challenges are programs or management functions, within or across agencies, that have greater vulnerability to waste, fraud, abuse and mismanagement, where a failure to perform well could seriously affect the ability of an agency or the federal government to achieve its mission or goals.

As required by the Reports Consolidation Act of 2000, we are providing issues we consider as the U.S. Environmental Protection Agency's (EPA's) major management challenges for fiscal year 2018.
