EPA-HQ-2018-006058	Valerie M. Volcovici	Reuters	4/2/2018 13:04	Reuters is seeking any information pertaining to EPA Administrator Scott Pruitt's plans to launch a multi-agency effort to put forward new regulations, programs or incentives to combat lead poisoning in the water supply in major population centers. In January 2018, Administrator Pruitt said he is launching a "War on Lead." He has also discussed the President's Task Force on Environmental Health Risks and Safety Risks to Children, which convened in January. Reuters is seeking all communications between Pruitt, EPA officials and other relevant federal agency officials, and state lawmakers or officials to discuss this lead effort. Reuters is also seeking a list of participants in the president's task force on Environmental Health Risks, as well as any visitor logs, email communications, phone call logs, external memos, etc related to the EPA's plans to address lead in water. Reuters is requesting these documents between September 2017 to the present.

EPA-R2-2018-006094	Kelly A. Rankin	Impact Environmental Closures	4/2/2018 15:04	This is a request under the Freedom of Information Act, 5 U.S.C. &sect; 552, for access to and copies of all records and travel vouchers concerning costs associated with Environmental Protection Agency Administrator Scott Pruitt's security detail during his international trip to Morocco between Dec 9 to Dec 13. The records or travel vouchers should include all relevant costs including travel, class of travel on flights and housing for the security detail during the duration of the trip starting in Washington, D.C. and ending in Washington, D.C. The information I seek is regardless of format. The public has an urgent need for information about the Administrator's security detail during the trip because it sheds light on how the administration is operating. I am making this request on behalf of The Hill and the records disclosed pursuant to this request will be used in the preparation of news articles for dissemination to the public. Please waive all fees in connection with this request because the disclosure of the requested information is in the public interest and is likely to contribute significantly to public understanding of the operations and activities of the government. I would appreciate your communicating with me by telephone or email, rather than mail, if you have any questions about this request. I declare under penalty of perjury that the foregoing is true and correct. Executed on April 2, 2018. Sincerely, Miranda Green, Reporter, The Hill

Advanced Economic Solutions has 3 specific FOIA requests: 1. Advanced Economic Solutions wishes to identify the number of "small refineries" that, as of March 31, 2018, have been granted an annual exemption from its annual RVOs for calendar years 2016, 2017 and 2018. 2. Advanced Economic Solutions wishes to identify the volume represented by the "small refineries" that, as of March 31, 2018, have been granted an annual exemption from its annual RVOs for calendar years 2016, 2017 and 2018. 3. Advanced Economic Solutions would like to identify the number of "small refineries" that, as of April 1, have petitioned for an exemption from its annual RVOs for calendar year 2018. Under EPA's Renewable Fuel Standard (RFS) program, a small refinery may be granted a temporary exemption from its annual Renewable Volume Obligations (RVOs) if it can demonstrate that compliance with the RVOs would cause the refinery to suffer disproportionate economic hardship. The RFS regulations define a small refinery as one with an average crude oil input no greater than 75,000 barrels per day (bpd) crude in 2006. Additionally, the small refinery may not have an average aggregate daily crude oil throughput greater than 75,000 bpd in the most recent full calendar year prior to submitting a petition, and cannot be projected to exceed the 75,000 bpd threshold in the year or years for which it is seeking an exemption. I have requested the information below from both Tricia Lynn and Robert Daguillard but have not had a response. 1. On page 9 of the report it says, &quot;Upon completion of the analytical results, the results and their interpretation will be provided in an additional report.&quot; I would like this additional report. If it was never written, I would like to see any correspondence, including emails, explaining why. 2. I would also like the technical documentation related to the fish sampling protocols performed during the fish kill investigation and fish tissue toxicity analytical results. 3. On the top of page 11 there are a few sentences in bold about Malathion. I would like to know if the Malathion's analytical results were subsequently shared with the EPA, and if so I would like those results, as well as EPA's technical opinion on this case. If the results were never provided, I would like to see documentation explaining why. Thank you and please let me know if you require additional information from me.

EPA-HQ-2018-006411	Divya Sadana	Auburn University	4/9/2018 21:04	I am currently working on a project (with my advisor) as a graduate student in Auburn University. Following is my project's description: Previous research suggested that in-utero exposure to pollution causes adverse birth outcomes, such as low birth weight. In addition, weight at birth predicts adult outcomes. For example, individuals who had low birth weights have worse outcomes in the labor market as adults (greater risk of unemployment and lower earnings), and they ultimately complete fewer years of schooling. Because individuals whose prospects in the labor markets are worse have a lower cost of committing crimes, we expect that individuals whose mothers were exposed to high pollution during their pregnancies are more likely to commit crimes in the future. In this project, we aim at identifying the impact of in-utero exposure to pollution (past pollution) on criminal activity in the future. I have attached the Freedom of Information Act Request Letter including the details of the data I am requesting from you for our above mentioned analysis.

This is a request for the legal analysis of whether EPA could issue a Clean Air Act waiver to allow year-round sales of 15 percent ethanol blends (or greater, if applicable). The analysis may be a memo or report or other document. It was undertaken at the request of Administrator Scott Pruitt and completed in 2017. I am a member of the news media and this information will be disseminated to the public.
EPA-R6-2018-006499	Nick Surgey		4/11/2018 21:04	To Whom It May Concern: This is a request under the Freedom of Information Act. I hereby request the following records: It is the requestors understanding that EPA regions have been instructed to handle FOIA requests that include records involving EPA political appointees, by routing such requests to EPA HQ for processing. I therefore request any guidance or other instructions provided to an EPA region by EPA HQ about the processing of FOIA requests that include political appointees, or any other records which outline this approach. A search may be limited to records created or transmitted between January 20, 2017 and February 21, 2018. The requester is entitled to a fee waiver because he is a member of the news media, and because this request for records concerns activities or operations of the government. Disclosure of the requested records will likely increase public understanding of government operations since the requester has the ability and the intention, through the means described below, to effectively convey information contained within the requested records to a broad public audience. Requester is an investigative journalist and the director of Documented, an investigative watchdog and reporting group that explores the relationship between industry and government. Nick Surgey is a Senior Fellow at the Center for Media and Democracy and writes for the Intercept. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Nick Surgey

EPA-HQ-2018-006500	Richard L. Dear Freedom of Information Act Officer: I request that copies of the data about the gas emission from New York City Department of Sanitation (DSNY) vehicles from the year 2014 to 2017 to be sent to me electronically to my email address (ys2801@nyu.edu) as .pdf, Word or Excel files. In order to help to determine my status to assess fees, you should know that I am a graduate student at New York University Journalism School working on an investigative story. The story is about whether DSNY has added more vehicles to collect and transport trash from 2014 to 2017. This request is made as part of news gathering and not for a commercial use. The FOIA requires a response time of 20 business days for federal agencies. If access to the records I am requesting will take longer than this amount of time, please contact me with information about when I might expect copies or the ability to inspect the requested records. Thank you for your consideration of this request. I look forward to hearing from you. - Jessie Shi

I request these records in their native digital format, and not printed out, or converted to PDF files, or otherwise processed in a manner that would decrease the quality, quantity, or accessibility of the original information the records represent. Acceptable native formats typical of digital calendar output would include, but are not limited to, CSV, ICS and XLSX. If you determine that any fields in the requested data are exempt from disclosure, please redact those fields, specify the statutes that exempt them, and release all other segregable parts. I am comfortable working with very large databases in many standard formats, including SQL, CSV, XML, and Access. Upon request, I would be happy to provide a USB thumbdrive or external hard drive to facilitate the release of these records. Under the FOIA Improvement Act of 2016, agencies may withhold information "only if . . . disclosure would harm an interest protected by an exemption" or if "disclosure is prohibited by law." If you withhold any of these records, I request as required by the FOIA that you identify the reasonably foreseeable harm that would result from the release of the records. I am a journalist at BuzzFeed News. The requested records will inform my reporting, and I intend to use these records to inform the general public. Accordingly, I request to be categorized as a representative of the news media, per 5 U.S.C. &sect; 552(a)(4)(A)(ii).

I am studying Emergency Management with a minor in Homeland Security. For my Disaster Recovery class, with Dr. Robert Swartz, we are tasked with a final paper of our topic choice in relation to the recovery aspects of emergency management. For my project I have chosen to write about the recovery aspects of the EPA after the Waco, TX fertilizer plant explosion in 2014. My topic focuses on the environmental remediation efforts or tasks associated with the EPA following the explosion. If you would be able to email me an after action report or any other information on the event that would be great. The assignment is due at the beginning of next month, so the sooner the better! Thank you!</p>

EPA-R5-2018-006711	Lenore West	Baron & Budd, P.C.	4/17/2018 2:04	Hello, I am trying to help a gentleman who worked at the Amtrak railroad shops in Beech Grove, Indiana, for over 30 years. He was diagnosed with terminal cancer due to his exposure to asbestos material. The Amtrak Beech Grove maintenance facility's address is either 202 Garstang Street, Beech Grove, Indiana 46107, or 202 Walter A. Barricade Way, Beech Grove, Indiana 46107. The shops are known as the "Beech Grove Shops" or the "Amtrak Beech Grove Maintenance Facility" or a similar variation. The maintenance facility used to be known as New York Central ('22-'68) and Penn Central ('68-'75), but asbestos abatement didn't occur until after Amtrak bought the railroad in 1975. This is a formal request for all documents involving asbestos from 1975 to the present. Due to our client's poor health, can you expedite this request for information? Respectfully, Lenore West Baron & Budd, P.C. 214-475-4370

				We respectfully request copies of all filed and unfiled materials, records, reports, e-mails and other electronic documents, calendars, hand written memos, phone notes, routing and transmittal slips, other memoranda, data, notes, inter-agency and intra-agency correspondence and other documents created or held by the US Department of Environmental Protection personnel or attorneys pertaining to: • The Consent Decree Civil Action NO. 1:15-cv-16018 between United States of America and the State of West Virginia, by and through the West Virginia Department of Environmental Protection (Plaintiffs) v. James C. Justice Companies, Inc., James C. Justice, II, and High Mountain Living, LLC (Defendants). • All enforcement actions concerning the Defendant's actions at Turkey Creek in Monroe County, WV previous or subsequent to the Consent Decree. These requests include but are not limited to all information relating to compliance with the terms of the Consent Decree including payment of civil penalties and plans and restoration of Turkey Creek to the pre-disturbance original conditions, stabilization to avoid erosion, sedimentation, landslides, slips, etc. and status reports as required by the Decree. We already have a copy of the Consent Decree itself as attached to this FOIA request, so it is not necessary to provide us with an additional copy of that document). The time period for the materials covered in this request is from January 1, 2013 through April 16, 2018. In the event that any of the requested information is exempt from disclosure, please list and describe the exempt documents along with the reasons they are allegedly exempt. Also, please segregate and provide all non-exempt portions of any exempt documents.

In connection with a project that studies consumption expenditure at a regional level in the U.S., I am seeking the following Municipal Solid Waste generation data: (1) Paper and paperboard, (2) Glass, (3) Metals, (4) Plastic, (5) Rubber and Leather, (6) Textiles, (7) Woods, (8) Other Materials, (9) Other Waste (i.e. food, yard trimming, inorganic waste, etc). Please provide the time-series data going back to 1960, first year on record for which the EPA is tracking such data. If such data is available at a yearly frequency only, please provide such data. If such data is available at a higher frequency, please provide such data at the highest frequency available. Such data should be provided at the national level, as well as by the most granular geographic area possible, in order to allow my research team to study consumption pattern by zip-code, MSA, county, or whatever regional aggregation the EPA will be able to produce. Many thanks in advance, I am available via email to answer any question you may have.

If possible, I would prefer to receive the largest number of records or documents in electronic form. The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net, which has more than 40,000 unique visitors a day. We expect the information that is produced through this and other FOIA requests to serve as the basis for several articles that explain the government's actions and operations to the public. For more information about Environment & Energy Publishing, please refer to www.eenews.net. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. The request comes amidst reports that the administrator attended the 2018 Rose Bowl game in Pasadena, California. Reports came from a letter that Democratic Sen. Sheldon Whitehouse sent to EPA's inspector general on April 3. Link: <a href="https://www.cnn.com/2018/03/30/politics/epa-pruitt-travel-whitehouse-rose-bowl-disneyland/index.html">https://www.cnn.com/2018/03/30/politics/epa-pruitt-travel-whitehouse-rose-bowl-disneyland/index.html</a> I'm seeking all correspondence regardless of format. The public has an urgent need for information about the Administrator attendance at the game because tax payer provided security detail attended the event with him, and it sheds light on how the administration is operating. I am making this request on behalf of The Hill and the records disclosed pursuant to this request will be used in the preparation of news articles for dissemination to the public. Please waive all fees in connection with this request because the disclosure of the requested information is in the public interest and is likely to contribute significantly to public understanding of the operations and activities of the government. I would appreciate your communicating with me by telephone or email, rather than mail, if you have any questions about this request. I

An investor is looking to improve the indicated property and was given a "Disturbance Restriction" letter from the Clark Count Community Development department that was written in June 1984. (Attached PDF file) -EPA 40 CFR 265.117(c) Could we, please, get details regarding the contents and restrictions described that has been placed upon the property? What exact location on the identified property is restricted that will help the Clark County Community Development department to identify and determine an unrestricted, buildable area? What can be done to remove the property "Disturbance Restriction"? Who are all the key contacts and aid that we may be able to refer to? Is there any other information and/or assistance that you can provide that will help expedite the remedial process? We have contacted the Department of Ecology and found this event to include "Pacific Wood Treating Corporation", and "Ridgefield Brick & Tile". The only other information we have is a reference to site ID# WAD009036906 regarding the securing of a specific, capped spot on this property that was previously used as a very small dump site. Thank you very much for your valuable time and help. Call log records for incoming and outgoing phone calls made to or from third parties for the phone line associated with the Sensitive Compartmental Information Facility (SCIF) installed in the office of EPA Administrator Pruitt. Where such information is available, we request the name of the caller, the number from which the call was made, the date and time the call was placed or received, and the length of the call. It may be known as "Tudor's Biscuit World" or "Former Capitol Cleaners." The owner swears he has a vapor mitigation system, and that U.S. EPA assisted in the installation. However, we have no record of this, and when asked, he has not been forthcoming in any evidence of this. It is unclear from the outside of the building that he has a vapor mitigation system. Additionally, PCE vapor concentrations in nearby soil gas are above chronic response action levels for a commercial/industrial worker. Contact me if you have any questions. Thank you.

EPA-R6-2018-007148	Lenore West	Baron & Budd, P.C.	4/30/2018 14:04	I am looking for documents that relate to asbestos at the IMC facility in Sterlington, LA, from 1971 to 1995. It may not be important within the scope of this request, but there were several IMC plants involving the production of ammonia, methanol and nitroparaffin (NP). Below is the history of the Sterlington Plants: * 1930s The original ammonia plant and the methanol plant were built by the government. Eventually, Commercial Solvents Corporation (CSC) took ownership and operation of these two plants. * 1955 The nitroparaffin plant (NP) was built. There was also a nitroparaffin derivative by-product plant. * 1975 Int'l Minerals and Chemical Corp. (IMC) acquired the plants from CSC. * Mid-'70s 1st new ammonia plant was built and the original ammonia plant was closed. * 1980s 2nd new ammonia plant was built in the location of the closed methanol plant. * 1982 The Angus Chemical Company purchased the NP portion of the facility from IMC and contracted with IMC to operate the plant. * 1991 There was an explosion at the NP plant that killed 8 people. * 1991/92 Angus took control of the NP plants post-explosion and erected a fence between NP and the ammonia plants. * 1992 Koch Industries purchased the two ammonia plants from IMC. The ammonia plants closed in the 2000s. I tried to attach NIOSH report from March 1992, but it would not load. Maybe I can email it to you directly. I need to know if there are more documents on file re: investigations, inspections, reports of infractions, recommendations, etc. Thank you!
