

## Top 30 K-12 Schools (as of April 25, 2018)

The Top 30 K-12 Schools list represents the largest green power users among K-12 school partners within the Green Power Partnership. The combined green power use of these organizations amounts to more than 120 million kilowatt-hours of green power annually, which is equivalent to the electricity use of more than 11,000 average American homes each year.

| Partner Name                                  | Annual Green Power Usage (kWh) | GP % of Total Electricity Use* | Providers (listed in descending order by kWh supplied to Partner) | Green Power Resources | State |
|---|--------------------------------|--------------------------------|---|-----------------------|-------|
| 1. Tucson Unified School District             | 22,056,172                     | 25%                            | On-site Generation  | Solar                 | AZ    |
| 2. Austin (TX) Independent School District    | 19,860,000                     | 14%                            | Austin Energy°  | Wind                  | TX    |
| 3. Harmony Public Schools                     | 17,363,410                     | 100%                           | Green Mountain Energy   | Wind                  | TX    |
