Stipulated Order Modifying Consent Judgment

At a session of said Court, City of Lansing, County of Ingham, State of Michigan, on the 21st day of May, 2010

Present: Honorable Joyce Draganchuk, Circuit Judge

This Stipulated Order is made with reference to the following:

- A. On or about the 30th day of October, 1979, this Court entered a Consent Judgment in this cause and retained jurisdiction thereof.
- B. The Plaintiffs and Defendant are the lawful successors to the parties to the 1979 Consent Judgment.

Plaintiffs and Defendant, by and through their counsel and authorized representatives, hereby stipulate and agree to modify the Consent Judgment as follows:

1. The Restrictive Covenants previously recorded with the Register of Deeds, Muskegon County, Michigan at Liber 1183, Pages 45 through 48, pursuant to Section IV, Paragraph I of the Consent Judgment, shall be discharged and decreed of no further force and effect. Within thirty (30) days after the entry of this Order Modifying Consent Judgment, Defendant shall record with the Muskegon County Register of Deeds the Declaration of Restrictive Covenant set forth in Attachment 1. The Parties recognize that the formatting of Attachment 1 may change based on the requirements of the Muskegon County Register of Deeds.

2. Section IV, Paragraph I of the Consent Judgment shall be replaced with the following:

The following applies to the property containing the vaults, including a 300 foot buffer, as legally described in Attachment 2 to this Stipulated Order:

1. No vehicles, except vehicles needed and actually used for maintenance and inspection, shall be allowed within the areas which are enclosed by a sound and secure fence pursuant to Paragraph IV I 4.

2. No excavation or construction, except as necessary to maintain the integrity of the vault, shall be allowed after completion of the vault(s) in the areas which are enclosed by a sound and secure fence, pursuant to Paragraph IV I 4.

3. No uses of the property shall be made which may or will impair the integrity of the vault.

4. Hooker shall erect and it and its successors in interest shall thereafter continuously maintain until further order of the Court: (a) a secure and sound fence enclosing the area containing the vault at least fifty (50) feet measured from all edges of the vault; (b) one (1) granite marker for each gate which accurately identifies the material in the vault, states that it is toxic, and identifies the boundaries of the vault(s); and (c) a sign stating: "Warning Toxic Material Burial Area, KEEP OUT" inside the fence, visible from each side.

5. No conveyance of title, easement, or other interest in the property shall be consummated by Hooker without adequate and complete provision for continued maintenance of the vault and the vault monitoring system.

6. Until further Order of this Court, Hooker and its successors in interest will operate, maintain, and monitor the vault, the vault groundwater monitoring system, and the groundwater purge treatment system. Hooker shall file as Appendix D of this Judgment, an executed guaranty by Occidental Petroleum Corporation in the amount of Two Million Dollars (\$2,000,000.00) to secure the cost of Hooker's obligations to maintain, monitor and operate the vault, the vault groundwater monitoring system, and the groundwater purge treatment system. This guaranty shall continue for a period of fifty (50) years from the date of entry of this Judgment. Should Hooker fail to maintain, monitor or operate the vault, the vault groundwater monitoring system or the groundwater purge treatment system at any time during such period, the guarantor shall pay over to the State of Michigan a sufficient portion of such Two Million Dollars (\$2,000,000.00) necessary to procure substitute performance of such obligations.

7. Any governmental agency of the State of Michigan or its political subdivisions adversely affected by any violations of these restrictions may seek to enforce them by legal actions in the Circuit Court.

3. The second sentence of Section XV, Paragraph B, shall be modified to read: "Subject to the provisions of Paragraph XV H, such system shall be continuously operated and maintained to completely halt the flow of groundwater to White Lake that contains chlorinated hydrocarbons in concentrations that exceed the criteria established under Rules 299.5716, 299.5728, and 299.5730 of Part 201, Environmental Remediation, of Michigan's Natural Resources and Environmental Protection Act, MCL 324.20101 et seq."

4. Paragraph XV.G. shall be replaced with the following:

On July 15, 2002 MDNRE approved a Groundwater Monitoring Plan submitted by Occidental on May 31, 2002 (approved Groundwater Monitoring Plan). The Groundwater Monitoring Plan included, in part, a plan for the monitoring of the purge wells. Occidental shall comply with the monitoring requirements set forth in the approved Groundwater Monitoring Plan, unless another plan is approved, in writing, by MDNRE.

5. The first sentence in Paragraph XV.H. is deleted.

6. All other terms of the Consent Decree remain in effect.

Honorable Joyce Draganchuk

These restricted portions of the property are hereinafter referenced collectively as the "Restricted Properties".

The following exhibit is incorporated into this Restrictive Covenant:

Exhibit 1 -- Survey of the Restricted Properties that are subject to the land use or resource use restrictions specified herein.

The Restricted Properties are associated with the Occidental Chemical Corporation, Montague, Michigan RCRA Corrective Action Facility, USEPA Facility Identification Number MID006014906, (hereafter the "Facility") for which a Corrective Action is being conducted consistent with the Corrective Measures Implementation Plan dated August 21, 2001(CMIP), approved by the United States Environmental Protection Agency ("USEPA") on September 20, 2001. The CMIP was submitted to USEPA pursuant to a RCRA Section 3008(h) Administrative Order, USEPA Docket Number V-W-009-93 ("Administrative Order"). The Corrective Action is being implemented to address environmental contamination fully described in the RCRA Facility Investigation ("RFI") reports dated October 15, 1996 and April 30, 1999, and approved by USEPA on September 11, 1997 and February 7, 2000, respectively. The Restricted Properties are also associated with certain duties and obligations imposed upon Occidental Chemical

Corporation as the legal successor to Hooker Chemicals and Plastics Corporation under a Consent Judgment ("Consent Judgment") entered on October 30, 1979 in the matter of *Frank J. Kelly et al. v Hooker Chemicals and Plastics Corp.*, Circuit Court for Ingham County, Michigan, Case No. 79-22378-CE.

The CMIP submitted by Occidental Chemical Corporation to USEPA required the recording of this Restrictive Covenant with the Muskegon County Register of Deeds to: 1) restrict unacceptable exposures to hazardous substances and hazardous constituents located within the Restricted Properties; 2) assure that any future use of the Restricted Properties are protective of human health and consistent with the exposure assumptions utilized in the development of cleanup criteria established for the Facility and relied upon in the CMIP; and 3) prevent damage or disturbance of any element of the Corrective Measures implemented at the Facility. The restrictions contained in this Restrictive Covenant are based upon information available at the time of USEPA's September 20, 2001 decision. The September 20, 2001 decision relies upon the Limited Industrial/Commercial cleanup criteria developed under MCL 324.20120a(1)(g) and (i) to protect human health and the environment. Failure of the Corrective Measures to achieve and maintain the cleanup criteria, exposure controls, and requirements specified in the CMIP; future changes in the environmental condition of the Restricted Properties or changes in the cleanup criteria developed under MCL 324.20120a(1); the discovery of environmental conditions at the Facility that were not accounted for in the CMIP; or use of the Restricted Properties in a manner inconsistent with the restrictions described herein, may result in this Restrictive Covenant not being protective of public health, safety, and welfare, and the environment.

Summary of Corrective Measures/Response Activities

Hazardous substances and hazardous constituents including dioxins and furans, hexachlorobenzene, hexachlorocyclopentadiene, hexachlorobutadiene, octachlorocyclopentene, hexachloroethane, mirex, tetrachloroethylene, carbon tetrachloride, chloroform, and trichloroethylene have been released and/or disposed of on the Restricted Properties. Prior to recording of this Restrictive Covenant, Corrective Measures were undertaken to remove or treat in-place some of the contamination, including removal of contaminated sediment in White Lake, removal of contaminated soils in several areas with placement of a clean soil cap, construction of a containment vault for disposal of hazardous wastes, and operation of a groundwater purge system and groundwater treatment system. Hazardous substances and hazardous constituents, including carbon tetrachloride, chloroform, hexachlorocyclopentadiene, octachlorocyclopentene, hexachlorobutadiene, hexachloroethane, trichloroethene, and tetrachloroethene remain present in soils and groundwater at the Restricted Properties at levels that require controls to prevent unacceptable exposures.

Areas of the Restricted Properties contain hazardous substances and hazardous constituents in excess of the concentrations developed as the unrestricted residential criteria under MCL 324.20120a(1)(a) or (17) of the NREPA. Information pertaining to the environmental conditions at the Facility and response activities undertaken at the Facility is on file with the USEPA and the MDNRE. The MDNRE recommends that prospective purchasers or users of the Restricted Properties undertake appropriate due diligence prior to acquiring or using the Restricted Properties, and undertake appropriate actions to comply with the requirements of MCL 324.20107a of the NREPA.

Definitions

"MDNRE" means the Michigan Department of Natural Resources and Environment, its successor entities, and those persons or entities acting on its behalf.

"NREPA" shall mean the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, MCL 324.101 *et seq.*

"Owner" means at any given time the then current title holder of the Property or any portion thereof.

"USEPA" means the United States Environmental Protection Agency, its successor entities, and those persons or entities acting on its behalf.

All other terms used in this document which are defined in Part 111, MCL 324.11101 *et seq.*, Part 201 of the NREPA, MCL 324.20101 *et seq.*; the Resource Conservation and Recovery Act, 42 U.S.C 6901 *et seq.*; or the administrative rules promulgated there under shall have the same meaning in this document.

NOW THEREFORE,

Pursuant to this Restrictive Covenant, Occidental Chemical Corporation, the legal successor to Hooker Chemical & Plastics Corporation, a New York corporation, whose address is Occidental Tower, 5005 LBJ Freeway, Dallas, TX, 75244-6119, as Owner and fee title holder of the Property, hereby declares and covenants that Area A, Area B, and Area C shall be subject to the restrictions and conditions set forth below:

1. Restrictions on Land Use

A. **Area A.** The containment vault, including a 300 foot buffer as required by the Consent Judgment, is located within Area A.

(i) **Consent Judgment.** The Owner shall maintain and monitor the containment vault and the containment vault groundwater monitoring system, including groundwater monitoring wells, the groundwater purge system, and the groundwater purge treatment system (collectively referred to as the "groundwater systems") as set forth in the Consent Judgment and the plans submitted and approved pursuant to the Consent Judgment.

(ii) **Soil Disturbance, Movement and Management.** The Owner shall prohibit all activities within Area A except for those that are necessary to maintain the integrity of the containment vault.

(iii) **Prohibited Activities.** The Owner shall prohibit those activities in Area A that could impair the integrity of the groundwater transmission lines, electrical lines or other portions of the groundwater systems.

(iv) **Groundwater Use.** The Owner shall prohibit any and all groundwater use within Area A except for groundwater monitoring and operation of the groundwater purge system, as approved by the MDNRE.

(v) **Building Restrictions.** The Owner shall prohibit all buildings or other structures within Area A except those that are necessary to support the integrity of the containment vault.

(vi) **Fencing and Marking.** The Owner shall construct and maintain a secure and sound fence perimeter, measuring at least fifty (50) feet from the edge of the landfill, and shall construct and continuously maintain granite marker(s) at all gates identifying the boundaries of the containment vault and the toxic nature of the material contained in the containment vault in Area A, together with signage inside the fence, visible from each side, stating: "Warning, Toxic Material Burial Area, Keep Out." The Owner shall prohibit all vehicular traffic within the fenced perimeter of Area A, except that which is necessary for support of site remediation, maintenance and inspection.

B. **Area B.** Area B encompasses areas of the property where soil may be impacted at depth, and where additional restrictions will assure the safety and proper management of soils. The monitoring wells for the groundwater system are present in Area B.

(i) **Soil Disturbance, Movement and Management.** The Owner shall ensure that any soil movement in Area B must be performed under a site-specific health and safety plan that addresses potential exposure of hazardous constituents to workers. All moved soils must stay within Area B, or must be characterized and managed appropriately if moved outside of Area B. The Owner shall prohibit any subsurface activity that could damage the monitoring wells for the groundwater system.

(ii) **Groundwater Use.** The Owner shall prohibit any and all groundwater use within Area B except for groundwater monitoring and operation of the groundwater purge system, as approved by the US EPA and MDNRE.

(iii) **Building Restrictions.** The Owner shall address the volatilization of volatile organic compounds to indoor air from groundwater when constructing or renovating buildings in Area B by directly analyzing the shallow groundwater under any such building or structure, and if necessary, using vapor barriers or other mechanisms to control vapor intrusion into the building or structure.

C. **Area C.** Area C encompasses the portion of the property over the groundwater plume that has, historically, not been developed for industrial use. The groundwater system is located in this area, including the groundwater purge treatment system, purge lines, purge wells, and monitoring wells.

(i) **Soil Disturbance, Movement and Management.** The Owner shall prohibit any subsurface activity in Area C that could damage the groundwater transmission lines, electrical lines or other portions of the groundwater systems.

(ii) **Building Restrictions.** The Owner shall prohibit the construction of all buildings or other structures within Area C that would inhibit or restrict access to the purge wells or transmission lines.

(iii) **Groundwater Use.** The Owner shall prohibit any and all groundwater use within Area C except for groundwater monitoring and operation of the groundwater purge system, as approved by the US EPA and MDNRE.

D. **All Restricted Areas (Area A, Area B, and Area C).**

(i) **No Interference with Corrective Measures.** The Owner shall prohibit activities within any and all of the restricted areas, also referred to as the Restricted Properties, that may interfere with any element of the Corrective Measures, the containment vault, and the groundwater systems implemented at the Restricted Properties, including the performance of operation and maintenance activities, monitoring, or other measures necessary to assure the effectiveness and integrity of the Corrective Measures, the containment vault, and the groundwater systems.

(ii) **Contaminated Soil Management.** The Owner shall manage all soils, media and/or debris located on the Restricted Properties in accordance with any applicable requirements of MCL 324.20120c, MCL 324.11101 et seq.; Subtitle C of the Resource Conservation and Recovery Act, 42 U.S.C. Section 6901 et seq.; the administrative rules promulgated thereunder; and all other relevant state and federal laws.

2. **Restrictive Covenant Runs with the Land**

This Restrictive Covenant shall run with the land and shall be binding on the Owner; future owners; and all current and future successors, lessees, easement holders, their assigns, and their authorized agents, employees, or persons acting under their direction and control. This restrictive covenant may only be modified or rescinded with the prior written approval of MDNRE and USEPA. A copy of this Restrictive Covenant shall be provided to all future owners, heirs, successors, lessees, easement holders, assigns, and transferees by the person transferring the interest.

3. **Access**

The Owner shall grant to the USEPA, the MDNRE, and their designated representatives and delegates the right to enter the Restricted Properties at reasonable times for the purpose of determining and monitoring compliance with the Administrative Order, the Consent Judgment, and this Restrictive Covenant, including the right to take samples, inspect the conduct of the Corrective Measures, and inspect any records relating thereto, and to perform any actions necessary to maintain compliance with the Administrative Order or the Consent Judgment.

4. **Modification**

The Owner may request in writing to the USEPA and the MDNRE, at the addresses provided below, modifications to this Restrictive Covenant. This Restrictive Covenant may be modified only with the written approval of the U.S. EPA and the MDNRE. Any approved modification to this Restrictive Covenant shall be filed with the appropriate Registrar of Deeds by the then Owner and a certified copy shall be returned to the MDNRE and the USEPA at the addresses provided below.

5. **Transfer of Interest**

The Owner shall provide notice to the USEPA and MDNRE at the addresses provided below of the Owner's intent to transfer any interest in the Restricted Properties, or any portion thereof, at least ninety (90) days prior to consummating the conveyance in accordance with R 299.9522 of Part 111 of the NREPA. A conveyance of title, easement, or other interest in the Restricted Properties shall not be consummated by the Owner without adequate and complete provision for compliance with then applicable terms and conditions of this Restrictive Covenant, the Consent Judgment, the Administrative Order, and the NREPA. The Owner shall include in

any instrument conveying any interest in any portion of the Restricted Properties, including but not limited to deeds, leases and mortgages, a notice which is in substantially the form as follows:

NOTICE: THE INTEREST CONVEYED HEREBY IS SUBJECT TO A DECLARATION OF RESTRICTIVE COVENANT, DATED [Insert Date], AND RECORDED WITH THE MUSKEGON COUNTY REGISTER OF DEEDS, LIBER NUMBER [Insert Number], PAGE [Insert Page Number]

A copy of this Restrictive Covenant shall be provided to all future owners, heirs, successors, lessees, easement holders, assigns, and transferees by the person transferring the interest.

6. **Notices**

Any notice, demand, request, consent, approval, or communication that is required to be made or obtained under this Restrictive Covenant shall be made in writing and include a statement that the notice is being made pursuant to the requirements of this Restrictive Covenant and reference USEPA ID No. MID 006 014 906, and shall be served either personally or sent via first class United States mail, postage prepaid, or by private courier, next day delivery as follows:
