2. Establish standards and procedures necessary to protect the public from incompetent, dishonest, deceptive and fraudulent practices in the inspection, reinspection and certification of motor vehicles, including emission control systems, and to eliminate or exclude from licensing those persons who engage in such practices or who otherwise demonstrate unfitness.

(b) The Motor Vehicle Commission finds that in order to ensure that motor vehicles that are inspected, reinspected and certified by a private inspection facility are satisfactorily inspected, reinspected and certified and are in proper condition to be operated on the highways of this State and to ensure that inspections, reinspections and certifications are performed in accordance with the standards established by the Motor Vehicle Commission at N.J.A.C. 13:20-33 and 43 and the Department of Environmental Protection at N.J.A.C. 7:27-15 and 7:27B-5 or 7:27-14 and 7:27B-4, whichever are applicable, a licensed private inspection facility must possess certain equipment used in the inspection, reinspection and certification of motor vehicles, including emission control systems.

The following words and terms, when used in this subchapter, shall have the following meanings unless the context clearly indicates otherwise.

"Advertising" means any printed or published materials including, but not limited to, direct mail, circulars, leaflets, pamphlets, newspapers, magazines, billboards, yellow pages of any telephone directory, radio and/or television broadcasts, and any other advertising medium of communication used to

induce the public to seek the services of the private inspection facility. The term "advertising" shall not include printed or published materials appearing in the white pages of any telephone directory.

"Applicant" means any person applying under the provisions of this subchapter for an initial license to engage in the business of a private inspection facility or to renew an existing license. "Bi-fueled" means powered by gasoline and by an alternative fuel, but not on a mixture of the two fuels. Each fuel is stored in a separate tank. For example, a vehicle may operate on either propane or gasoline, but it cannot operate on both at the same time. Typically, these vehicles will consume the alternative fuel until the supply is exhausted, then switch over, often automatically, to use the traditional fuel. This term shall not include vehicles powered by electric motors.

"Chief Administrator" means the Chief Administrator of the New Jersey Motor Vehicle Commission.

The Chief Administrator will presume that control in fact exists if any person or entity directly or indirectly owns, controls, holds the power to vote, or holds proxies representing 10 percent or more of the voting securities of any private inspection facility. This presumption may be rebutted by showing that control does not in fact exist. If the manufacturer establishes an annual production period, designation of the year shall be based on the annual production period during which the manufacturer begins production of the motor vehicle. When such annual production period falls within one calendar year, the model year attributed to the motor vehicle shall be that calendar year. When such annual production period continues from one calendar year into the next, the model year attributed to the motor vehicle shall be the latter calendar year (for example, a motor vehicle produced in an annual production period that continues from 1994 to 1995 shall be considered as being produced in the 1995 model year).
