

Appendix A
USDA Forest Service Region 5
Large Capacity Cesspool Closure Status
Pacific Southwest Region - Pit Toilet Inventory

July 2018

Status Code	Status Description
I - Inaccessible	Forest Service owned Pit Toilets which, based on Forest data meet EPA definition of LCC. Forest Service reported that these systems have been locked and made inaccessible; these toilets require proper closure.
C - Closed	Forest Service owned Pit Toilets which, based on Forest data meet EPA definition of LCC. Forest Service reported that systems have been permanently closed.
R - Reduced Capacity	Forest Service owned Pit Toilets which, based on Forest initial data met EPA definition of LCC. The Forest Service reported that it has since closed several camp spots associated with the toilets to bring them below the LCC threshold.

"BOLD PRINT"	Items in "bold" print are corrections from the Forest Service's December 2016 submittal.
