RE: City of Salmon PM Advance Path Forward

Dear Ms. Bunte:

The City of Salmon and the Idaho Department of Environmental Quality (DEQ) are committed to improving air quality for residents of Salmon. The measures and strategies outlined in the PM Advance Path Forward are critical for improving air quality by reducing fine particulate pollution to meet the National Ambient Air Quality Standards established in the Clean Air Act.

The Path Forward focuses mainly on expanding outreach and education efforts to increase knowledge of local air quality as well as clean and efficient woodstove use. The City of Salmon, the Salmon Clean Air Committee, and DEQ all strongly support this document and will assist with implementing the programs and projects outlined therein.

Thank you for allowing the Salmon Airshed to participate in the PM Advance Program. Should you need further information or have questions regarding the Path Forward, please contact Rensay Owen at (208) 528-2650 and rensay.owen@deq.idaho.gov or Mayor Leo Marshall at (208) 756-3214.

Sincerely,

A handwritten signature in cursive script that reads "Leo Marshall".

Leo Marshall, Mayor
City of Salmon

A handwritten signature in cursive script that reads "Tiffany Floyd".

Tiffany Floyd, Air Quality Division Administrator
Idaho Department of Environmental Quality
