

The Water Infrastructure Finance and Innovation Act (WIFIA) program accelerates investment in our nation's water infrastructure by providing long-term, low-cost supplemental loans for regionally and nationally significant projects.

## LOUISVILLE AND JEFFERSON COUNTY METROPOLITAN SEWER DISTRICT

**PROJECT NAME:** Morris Forman Biosolids Processing Solution

**LOCATION:** Louisville, KY

**INVITED WIFIA LOAN AMOUNT:** \$88 million

**POPULATION SERVED BY THE PROJECT:** 751,000

**PROJECT TYPE:** Wastewater

**PROJECT DESCRIPTION:** The Morris Forman Water Quality Treatment Center, which processes all solids generated by the Metropolitan Sewer District in Jefferson County, Kentucky, is at the end of its useful life. This project will consist of new construction and replacement and refurbishment of existing equipment to provide sustainable Class A biosolids, allow for energy recovery and production for on-site use, and reduce the amount of dewatered solids sent to the landfill. The purpose of the project is to have a more reliable biosolids management program.

## FY 2018 SELECTION ROUND

**NUMBER OF PROJECTS SELECTED:** 39

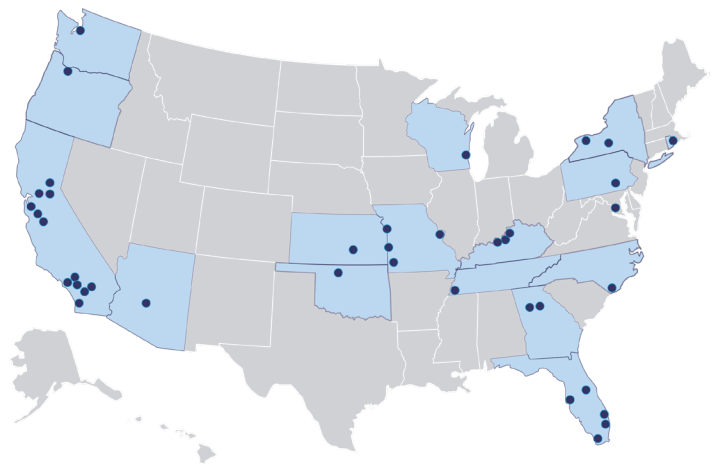

**TOTAL LOAN AMOUNT:** \$5 billion to public and private entities

**TOTAL WATER INFRASTRUCTURE INVESTMENT SUPPORTED:**

Over \$10 billion

**NUMBER OF PEOPLE IMPACTED:**

22 million in 16 states and Washington, D.C.

Selected borrowers must apply for a WIFIA loan, pass a final creditworthiness assessment, negotiate a mutually agreeable term sheet, and execute a credit agreement to receive WIFIA financing. An invitation to apply indicates that EPA believes the selected projects will be able to attain WIFIA loans.
