

**For Clean Energy Projects**

**ZynergyCapital**

# OUR MISSION

Use **advanced information technologies** to move \$100B of institutional capital (equity, tax equity and debt capital) into clean energy projects –

**and fight climate change.**

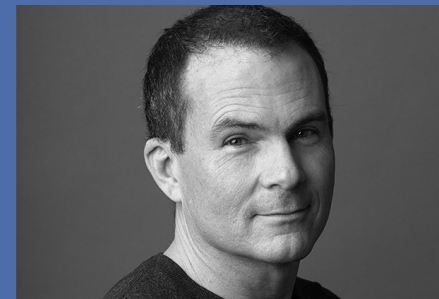

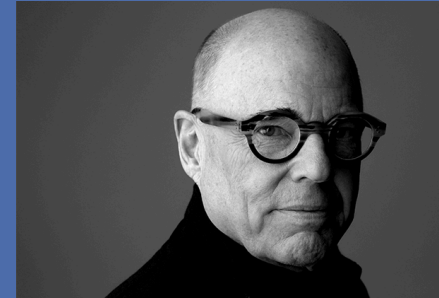

# Why Investors Don't Say Yes!

- Inability to speak an investors language
  - Risk ownership
  - Incomplete story
    - Pitching an idea rather than a project
- Greed and stupidity factor
  - Expectations between both parties
- Importance of the data/information
- Matching the project to investors investment criteria
- Going down rabbit holes with fake investors and unlicensed brokers

# LEADERSHIP TEAM

- Wayne Van Dyck CEO
- Derek Gauger President Technology / CSO
- Andy Lutz VP Project Operations
- Kenton Guilbert VP Financial Analysis
- Chris Coldwell CTO
- Marisa McArthur Chief of Staff
