

Building Resilience in Partnership with Vulnerable Communities

Thursday, November 8, 2018

90-Minute Audio Web Broadcast

Eastern: 1:00p.m.-2:30p.m.

Central: 12:00p.m.-1:30p.m.

Mountain: 11:00a.m.-12:30p.m.

Pacific: 10:00a.m.-11:30a.m.

A Watershed Academy Webcast

While many communities are dealing with increased risk of extreme weather and natural disasters, the ability of a community to respond, recover and bounce back is not distributed. When an environmental justice lens is applied recognize that some communities experience higher exposure to local water pollution, degraded local waterways and higher impervious surface area on top of other social factors that increase vulnerability. A challenge watershed managers is to develop strategies which support resilience and integrate an environmental justice that effectively targets the most vulnerable communities.

Heavy rain and catastrophic flooding in Colorado, 2013

This webinar will look at the environmental justice factors that contribute to vulnerability and provide examples of how EPA and its partner programs have effectively worked to help build resilience with vulnerable communities. We will also explore how the Urban Waters Partnership model can build networks of resilience and introduce other user-friendly tools and resources that help support resilience.

Webcast participants are eligible to receive a certificate for their attendance. The Webcast presentations are posted in advance at <http://www.epa.gov/watershedacademy/watershed-academy-webcast-seminars> and participants are encouraged to download them prior to the Webcast.

Speakers:

Jeanine Finley, Program Analyst in the Office of Environmental Justice, EPA HQ

Brenda Torres, Executive Director of the San Juan Bay National Estuary Program

Tom Herder, Watershed Protection Coordinator with the Mobile Bay National Estuary Program

Melissa Deas, Climate Program Analyst, Urban Sustainability Administration; DC Department of Energy and Environment

Registration:

You must register in advance to attend this Webcast. Register at the Watershed Academy Webcast Website at: <http://www.epa.gov/watershedacademy/watershed-academy-webcast-seminars>.

The Watershed Academy: The Watershed Academy is a focal point in EPA's Office of Water for providing training and information on implementing watershed approaches. The Academy self-paced training modules and webcast seminars provide current information from national experts across a broad range of watershed topics. For more information, please visit www.epa.gov/watershedacademy.
