Your message to Andrew.Wheeler@FaegreBD.com couldn't be delivered.

When Office 365 tried to send your message, the receiving email server outside Office 365 reported an error.

wagner.kenneth

Office 365

Andrew.Wheeler

Sender

Action Required

Policy violation or system error

How to Fix It

Check the "Reported Error" from the "Error Details" section shown below for more information about the problem. The error might tell you what went wrong and how to fix it. For example, if the error states that the message was blocked due to a potential virus or because the message was too large, try sending the message again without attachments.

If you're not able to fix the problem, it's likely that only the recipient's email admin can fix it. Contact the recipient by some other means (by phone, for example) and ask them to tell their email admin about the problem. Give them the "Reported Error" from the "Error Details" section below.

Was this helpful? [Send feedback to Microsoft.](#)

More Info for Email Admins

Status code: 550 5.0.350

The error reported by the receiving server wasn't specific enough to determine the exact nature of the problem. These errors often indicate the message violates a security or policy setting configured on the recipient's email servers.

If the sender is unable to fix the problem by modifying their message, then it's likely a problem that only the recipient's email admin can fix. Try the following:

Check the error for information about the problem - The "Reported Error" returned by the external email server can be found in the "Error Details" section below. This error might tell you what went wrong and provide clues for how to fix it. For example, if the error states the message was rejected due a Sender Policy Framework (SPF) issue, then you'll have to work with your domain registrar to correctly configure your domain's SPF records.

Check the error for information about where the problem is happening - For example, look for a domain name like contoso.com. A domain name in the error might suggest who is responsible for the error. It could be the recipient's email server, or it could be a third-party service that your organization or the recipient's organization is using to process or filter email messages.

If you can't fix the problem, contact the responsible party's email admin - Give them the error code and error message from this non-delivery report (NDR) to help them troubleshoot the issue. For security or policy violation issues, it might be sufficient for them to just add your sending IP addresses or domain to their allowed senders list.

It's likely that only the recipient's email admin can fix the problem. Unfortunately, it's unlikely Office 365 Support will be able to help with these kinds of externally reported errors.

Subject: Meeting in Arizona - June 13, 2018

All:

This email is in anticipation of our June 13, 2018 meeting between Arizona Department of Environmental Quality (ADEQ), US Department of Justice (DOJ), and US Environmental Protection Agency (EPA) to be held from 12:00pm to 4:00pm in the Phoenix office of the ADEQ. We will plan on eating lunch together (menu to be circulated) to visit as we set the tone for what, we all hope, will be a productive meeting around the issues and potential solutions for the International Outfall Interceptor (IOI). Ex. 7(A)

Ex. 7(A)

1.

2.

3.

4.

Ex. 7(A)

5. Please circulate a list of attendees from your respective agency.

Again, we are looking forward to a positive and productive meeting with parties who all have a significant stake in seeing the success of the water treatment for Arizona through the IOI. Please review the forgoing and let us know if there are additional points for agreement and, if agreeable, indicate your concurrence with these points for the meeting.

Let me know if you have any further questions.

Ken

Kenneth E. Wagner

Subject: RE: Meeting in Arizona - June 13, 2018

Good morning,

Thank you so much for the email confirming our upcoming meeting on Wednesday, June 13, 2018, 12:00 – 4:00 p.m., that includes a working lunch. Below is a list of participants that will be attending the meeting from WIFA and ADEQ, please reply back with your list of attendees, titles, and email addresses for our logistical conference room planning. I have attached a list of hotels near our office and I am happy to work with your assistants to help them with your travel arrangements. Attached is the lunch menu, please reply back to me with your lunch choice by 6/11/18. We are looking forward to the meeting and please feel free to reach out to me for any assistance. Thank you, Tara Ousley

- Trish Incognito, Executive Director, Water Infrastructure Finance Authority of Arizona (WIFA)
 - Misael Cabrera, Director, ADEQ
 - Bret Parke, Deputy Director of Operations, ADEQ
 - Trevor Baggione, Water Quality Division Director, ADEQ
 - Amanda Stone, Chief Policy and Legislative Affairs Officer, ADEQ
 - Edna Mendoza, Border Environmental Manager, ADEQ
 - Hans Huth, Environmental Associate Hydrogeologist, ADEQ
-
- **Date:** Wednesday, June 13, 2018
 - **Time:** 12:00-4:00 pm (Includes Working Lunch)
 - **Topic:** Issues and Potential Solutions for the International Outfall Interceptor (IOI)
 - **Location:** ADEQ, 1110 West Washington Street, 6th Floor, Conf. Room #6100B, Phoenix, AZ 85007
 - **Parking:** Free visitor parking in the first floor of the parking garage (entrance on north side of Washington Street, west of 10th Avenue). ADEQ building is directly behind the Evans Historical House.
 - **Sign-In:** Sign in at the ADEQ receptionist's office on the 1st floor and obtain a visitor's badge. Have receptionist call Tara Ousley at 602-771-4406 to escort you to the conference room.

All:

This email is in anticipation of our June 13, 2018 meeting between Arizona Department of Environmental Quality (ADEQ), US Department of Justice (DOJ), and US Environmental Protection Agency (EPA) to be held from 12:00pm to 4:00pm in the Phoenix office of the ADEQ. We will plan on eating lunch together (menu to be circulated) to visit as we set the tone for what, we all hope, will be a productive meeting around the issues and potential solutions for the International Outfall Interceptor (IOI).

Ex. 7(A)

Ex. 7(A)

1.

2.

3.

4.

Ex. 7(A)

5. Please circulate a list of attendees from your respective agency.

Again, we are looking forward to a positive and productive meeting with parties who all have a significant stake in seeing the success of the water treatment for Arizona through the IOI. Please review the forgoing and let us know if there are additional points for agreement and, if agreeable, indicate your concurrence with these points for the meeting.

Let me know if you have any further questions.

Ken

Your message

To: Traylor, Patrick; Andrew.Wheeler@FaegreBD.com
Subject: Fwd: Creston Water
Sent: 6/8/2018 4:30:32 PM

Your message to Andrew.Wheeler@FaegreBD.com couldn't be delivered.

When Office 365 tried to send your message, the receiving email server outside Office 365 reported an error.

wagner.kenneth	Office 365	Andrew.Wheeler
Sender		Action Required
		Policy violation or system error

How to Fix It

Check the "Reported Error" from the "Error Details" section shown below for more information about the problem. The error might tell you what went wrong and how to fix it. For example, if the error states that the message was blocked due to a potential virus or because the message was too large, try sending the message again without attachments.

If you're not able to fix the problem, it's likely that only the recipient's email admin can fix it. Contact the recipient by some other means (by phone, for example) and ask them to tell their email admin about the problem. Give them the "Reported Error" from the "Error Details" section below.

Was this helpful? [Send feedback to Microsoft.](#)

More Info for Email Admins

Status code: 550 5.0.350

The error reported by the receiving server wasn't specific enough to determine the exact nature of the problem. These errors often indicate the message violates a security or policy setting configured on the recipient's email servers.

If the sender is unable to fix the problem by modifying their message, then it's likely a problem that only the recipient's email admin can fix. Try the following:

Check the error for information about the problem - The "Reported Error" returned by the external email server can be found in the "Error Details" section below. This error might tell you what went wrong and provide clues for how to fix it. For example, if the error states the message was rejected due a Sender Policy Framework (SPF) issue, then you'll have to work with your domain registrar to correctly configure your domain's SPF records.

Check the error for information about where the problem is happening - For example, look for a domain name like contoso.com. A domain name in the error might suggest who is responsible for the error. It could be the recipient's email server, or it could be a third-party service that your organization or the recipient's organization is using to process or filter email messages.

If you can't fix the problem, contact the responsible party's email admin - Give them the error code and error message from this non-delivery report (NDR) to help them troubleshoot the issue. For security or policy violation issues, it might be sufficient for them to just add your sending IP addresses or domain to their allowed senders list.

It's likely that only the recipient's email admin can fix the problem. Unfortunately, it's unlikely Office 365 Support will be able to help with these kinds of externally reported errors.

Ken,

I have sent you a note in the mail, but multiple thanks never hurt in a situation such as this. Within hours of my call to you, the membranes were cleared and allowed to move into the United States. This prompt action restored potable drinking water to Creston and the surrounding six counties two days sooner than the water works staff had projected. This is a model of our state/federal partnership.

In addition, I have suggested and I believe that, some of the damaged membranes will be headed to the ORD facility in Cincinnati to assist in determining what went wrong so quickly.

Again, thank you for your assistance.

Bill

Subject: May 9 & 10 Tri-State Conference in Cincinnati, OH

Ken,

The 11th annual Tri-State Electric Utility Environmental Conference would be honored to have you keynote this year's event at 10:00 on May 10th, directly prior to the Indiana, Kentucky, and Ohio environmental agency leads at the Marriott Cincinnati North hotel. The event is free to regional utility representatives and we typically have 80 subject matter experts and management from large and small, investor owned, municipal, and cooperative electric utilities. The state environmental agency leaders have been a constant on our agenda and this year's theme is "stakeholder engagement" – when to do it, how to do it well, and why do it. On May 9th, we will hear from the Sierra Club and Kentucky Resource Council, as well as the utility perspective on stakeholder engagement supporting CCR compliance.

I heard you speak at the Kentucky Governor's Conference on Energy and the Environment on Cooperative Federalism in 2017 and understand you are speaking at the MEC Sustainability and Environmental Health & Safety Symposium in Cincinnati in March (I am also on that event planning team). I hope your schedule will allow you to consider our event. Thanks and feel free to contact me with questions.

Subject: Speakers' Reminders for the ' Spring'Sustainability & EHS Symposium in Cincinnati on March 27-28
Attachments: EHS Speaker Guidelines.pdf

Sustainability & EHS Symposium Speakers,

Many, many thanks for your willingness to speak next month at the 27th Annual Sustainability & EHS Symposium in Cincinnati on **Tuesday & Wednesday, March 27-28** in Cincinnati at the Duke Energy Center (*except for the closing luncheon at host Hilton Netherlands.*) Attendance looks fantastic!! As speakers, remember **you are already registered** for the entire Symposium complimentary and can attend any session you wish. Attached again are our speakers guidelines. A couple reminders:

1. **Speaker presentations, bios and other written materials** are due on **Friday, March 2** ... you can either e-mail me or, if the files are very large, upload to our FTP site noted in our guidelines. Please use the **4:3 ratio in developing PowerPoints** as it literally impossible to

combine with the widescreen format (16:9) default PPTs for a seamless workshop or general session presentation. Please pay particular attention to page 3 when submitting **your updated bio including all of your contact information**. You'd be surprised how many bios we get without basic contact information – *why speak if attendees don't know how to contact you afterwards?*

2. Any special a/v needs ... such an **audio patch for a video embedded** in the PowerPoint ... should be also e-mailed me by Friday, March 2

3. Before the cut of date of **March 5**, if you **need lodging** at the Hilton Netherland Plaza for the evenings of Monday, March 26 and/or Tuesday, March 27, please reserve your hotel rooms at the special \$133 rate via this online Symposium link to the hotel:

<https://aws.passkey.com/gt/lodging/214004204?gtid=e623416e8378d8218e79f1de05c49cd6>

Finally, as I just did a broadcast e-mail to folks who haven't registered yet in our database, in the subject I used the word '**Spring' Sustainability & EHS Symposium** as spring here in Columbus a welcomed thought, on a day when most schools are closed due to winter snow storms. Thanks again for speaking at next month's "Spring" Symposium in Cincinnati!!

Speaker Guidelines -- Manufacturers' Education Council

The Manufacturers' Education Council is dedicated to providing quality conferences and seminars. It is our only business. The quality of our sponsored events – however – depends on speakers who successfully share and communicate their expertise and insights on a given topic. From our experience serving over **81,000** attendees over the last 27 years, the highest-rated and most successful speakers follow these few speaker guidelines. Our 4 suggestions for a successful presentation are:

Provide a Well-Organized, Dynamic & Entertaining Presentation

Know your audience ... their knowledge level and expectations. **Provide practical and useful information** – how-to guidance, use of case studies and solution-oriented examples are always successful. Use practical terms and terminology. Address current developments, issues and trends and their impact on the audience. When you receive the conference/seminar brochure, review the entire program to **avoid duplicating other speakers'** presentations and to help you focus on your topic. Read your audience and be flexible to their needs

Submit Materials for Handouts/Website by March 2, 2018

Provide us with an organized and concise set of written materials for publication in a manual that reflects the scope, content and format of your presentation. **Send electronically via e-mail your PowerPoint** – we will print it out two slides per page for insertion into the handouts. Refer the audience to your written materials with specific pages – (*our handouts will have page numbers*) – consistently during your presentation. Include supporting materials that the attendees can use as a reference back on the job. Provide us with as much written material as possible ... **the more the better**. In addition, we will **convert all presentations into PDFs & post on our website for an entire year**.

Use the Mics, Involve Your Audience & Repeat Questions Asked

Always remember to **use the microphones** even for workshop sessions!!!! Ask for a "show of hands" on various issues, use audience quizzes, maybe use a small group exercise, ask various individuals questions, and leave time for questions/answers (*we recommend about 15% of your allotted time*). During questions/answers, **repeat the question into the microphone ... always!!!**

Pace Your Presentation and WATCH THE CLOCK!

Keep the program on schedule and stay within your allotted time. Practice your presentation to make sure you cover the subject matter, summarize, and allow time for questions within your time allocation. If you are involved in a workshop, coordinate your presentations with the other speakers.

All speakers are our complimentary **guests for the entire conference & we've already registered you**. We suggest that you **arrive at least 45 minutes before** your scheduled presentation so you can get a feel for the conference/attendees, review the list of attendees, and receive any information on the A/V equipment and head table arrangements.

Finally, if there's anything the Council staff can do to enhance your presentation, please let us know by contacting either **Mark Uher** at (Mark@MECseminars.com) or **Jana Lilly** (Jana@MECseminars.com) **Let us help you make a successful presentation!!**

AUDIO / VISUAL GUIDELINES AND REQUEST FORM

You are encouraged to use quality visual aids to enhance your presentations. PowerPoint presentations are very popular. Please send us your **PowerPoint presentation (electronically)** so we can print it out (*two per page*) and insert in the manual. Attendees will request copies, and if copies are included in the manual, it is much easier for them to listen, take notes and learn.

We will also **advance load your submitted PowerPoint onto seminar laptops** with a remote for you to use. They will be loaded on the laptop's desktop by Panel Name for ease in locating. **All panel presentations will be combined for a seamless Panel PowerPoint presentation. All general session PowerPoint presentations will also be combined for a seamless presentation.**

The screens being utilized for the conference are 4:3 ratio. Please develop your PowerPoint presentations in **4:3 and not 16:9 (widescreen)**. Otherwise they will have black bars at the top and bottom of their presentation when it is projected at the conference.

Please submit your **final** PowerPoint presentation by **Friday, March 2, 2018**. Please arrive a few minutes early to familiarize yourself with the data projector and laptop loaded with your PowerPoint presentation.

SPECIAL AUDIO / VISUAL REQUEST FORM

Please Complete and Return By Friday, March 2, 2018

Speaker Name _____

Program Date _____

Please note all submitted PowerPoint presentations will automatically be loaded conference laptops and each conference room will have a data projector. *Please do not make changes in your presentation after it is submitted!!*

The following special audio / visual equipment is needed for my presentation:

_____ Video Embedded/Audio for Video _____ Flip Chart with Markers

_____ Internet _____ Other - please specify: _____

_____ I will not need any audio / visual equipment.

For PowerPoint presentations & overheads, **screens** will be set up automatically. We will always have a **podium mic**. When an **overhead or data projector** is requested, we will always have an additional lavalier (lapel) microphone and a laser pointer.

**Please Send Your Special A/V Needs & Your Written Materials
By Friday, March 2, 2018 to:**

Electronically via E-Mail: Mark@MECseminars.com

If the presentation is over 10 MBs, please feel free to upload it to our new FTP site on our website, at the bottom there is a UPLOAD feature.

Biographical Information

Following **name, title, organization, address, phone, fax and e-mail address**, please provide a couple of paragraphs that highlight your **work**, accomplishments and awards, **professional memberships** and **education** as it relates to the subject of your presentation. This information will be used to introduce you to the audience and **it will be reproduced, exactly as you type it, in the conference manual provided to all attendees**. The format for the sketches should be similar to this sample biographical sketch:

Subject: RE: Regional Emergency Motor Fuel Waiver

Importance: High

Hi Ken,

I am contacting you about the **Regional Emergency Motor Fuel Waiver** discussion that we are having at the Southern States Energy Board's Associate Members Midwinter Meeting in Washington at the American Petroleum Institute on February 26. I asked for your participation and you indicated that you have an EPA Oil and Gas Roundtable to attend. I asked if you please could send someone from EPA to speak with us about the potential for a regional motor fuel waiver and you said that you would check (see below). At this time I have not heard from you and the meeting is next Monday. Can you please let me know something?

Last week I saw Trey Glenn and Brandi Jenkins from Region IV at an Alabama Energy Day event and we discussed the SSEB meeting. Perhaps they can attend or send a Region IV representative. They are copied here.

We are so close to my meeting. I would really appreciate your help in closing the loop on this. We have many oil companies who are interested in this because it will save lives, businesses, industries, vehicles, property, livestock and agricultural necessities. Thanks and please let me know something? Ken

Hi Ken,

This meeting of the Southern States Energy Board Associate Members is extremely important because we are planning to adopt a codicil to our Interstate Compact that provides for a Regional Emergency Motor Fuel Waiver in the event of hurricanes or natural disasters that contribute to catastrophic events in our Southern states. Last year our state and territory members were severely impacted by the wrath of Harvey, Irma and Maria. As you are aware, Puerto Rico still has not even recovered from the loss of its electricity distribution and transmission systems. Harvey made a disaster area out of Houston with loss of lives, flooding that devastated homes and businesses, and thousands of cars totaled in the flood. We desperately want to move this forward before the impending hurricane season. If you cannot attend, can you Please send us an EPA staff person who is familiar with the waiver process and can speak with us about working with EPA on this Regional Waiver? We will miss you at this meeting, but our member companies in interest (Phillips 66, ExxonMobil, Shell, Chevron, Marathon, etc) deserve to have an EPA representative talk to us about how to proceed. Can you send an EPA staff member to represent you? Ken

On Jan 25, 2018, at 4:42 PM, Kenneth Nemeth <Nemeth@sseb.org> wrote:

Hi Ken,

On behalf of our Chairman, Governor Phil Bryant of Mississippi, I am delighted to invite you to attend and provide a *KEYNOTE presentation* to the Winter Meeting of the Southern States Energy Board Associate Members Group. Our Associate Members comprise energy industries from the South and across the nation. The meeting will be held at the American Petroleum Institute, located at 1220 L Street, in Washington, D.C., on Monday, February 26, beginning at 9:00 a.m.

As discussed when I spoke with you at the Southern States Energy Board and Interstate Oil and Gas Compact Commission meetings last Fall, the energy industries that make up our Associate Members Group have requested that we discuss with EPA the potential for a Regional Emergency Motor Fuel Waiver in the event of hurricanes or natural disasters that contribute to catastrophic events in our Southern states. Too often, states delay a request to EPA for a motor fuel waiver (or EPA delays a response from a state) prior to an impending critical weather incident resulting in motor fuel supply shortages before major events when evacuations are taking place; during events when fuel is critical for first responders; and following major events when evacuees are returning to their cities and homes. This was especially evident during hurricanes Harvey, Irma and Maria in 2017.

A Regional Emergency Motor Fuel Waiver, sanctioned by EPA and SSEB member state governors through a codicil to the Southern States Energy Compact, will provide an early warning system for a looming or imminent threat in advance requiring a single (regional) waiver, enable states to better and earlier prepare for the disaster, and mobilize energy industries to provide motor fuels earlier, prior to, during and after the danger has passed and mitigation and remediation have begun. EPA could establish a pre-determined emergency fuel standard that would include a relaxation of the RVP requirements and would suspend the requirement to blend ethanol. We would suggest an RVP of 11.5 (this is what is usually granted). It would also be helpful if EPA could allow implementation of the emergency fuel standard in advance of a hurricane's landfall, rather than the current practice to wait until a shortage exists before considering the waivers. When a major hurricane is going to make landfall, a major motor fuel supply disruption is very predictable. The authority to convert to the emergency fuel standard could be triggered by an evacuation order, rather than a state of emergency declared by a governor or the President. It is the evacuation order itself, and the panic buying that immediately follows, that creates the shortage.

As an initial measure, the Southern States Energy Board will adhere to the following eligibility requirements for requesting that EPA invoke a Regional Motor Fuel Waiver:

- 1) Upon determination of the trajectory of a major weather event or natural disaster by the National Weather Service or declaration of an evacuation order or state of emergency by the governor of a member state, SSEB immediately will contact the governor (or his designee) in states in the pathway of the impending disaster to determine if the state will OPT IN or OPT OUT of the Regional Emergency Motor Fuel Waiver protocol. If states OPT IN, SSEB immediately will contact the designated EPA official and apply for the Regional Emergency Motor Fuel Waiver.
- 2) EPA will take this action under advisement and grant or deny the Regional Emergency Motor Fuel Waiver. When granted by the EPA Administrator on the request, SSEB immediately will notify the states that the waiver has been granted and contact a

(annually updated) predetermined list of motor fuel providers to advise them that EPA has granted the Regional Waiver so that they can begin to put emergency motor fuels and stockpiles in place well in advance of the impending event.

3) The same protocol will apply in the event of a fuel supply interruption due to a breach of energy infrastructure in the region.

The hurricanes of 2017 resulted in billions of dollars of damage to homes, commercial businesses, manufacturing industries, agriculture and vehicles in the path of these events. Lives and livelihoods were seriously affected from Texas and other Gulf Coast states and from Florida to Virginia on the Atlantic seaboard. While injuries and harm always will occur during these events, we can mitigate the damage by an early emergency response to approaching and imminent threats that provides an early warning and enables our motor fuel industries to mobilize to provide fuels that enable an orderly transition and evacuation taking people out of harm's way.

Please plan to attend this very important meeting, to be held at the American Petroleum Institute in Washington, D.C. on Monday, February 26, and bring other EPA officials with you who can work with us in the development of a Regional Emergency Motor Fuel Waiver. I look forward to seeing you again. Best Always, Ken

Hi Ken-

I handle federal regulatory affairs for Duke Energy, and I wanted to reach out and introduce myself. I heard you speak at a recent ECOS conference, and was excited to hear about your role resetting the appropriate balance to the federal-state partnership as well as ensuring consistency amongst the EPA Regions.

If you haven't already had the opportunity, we would love to have you out to some of our facilities in Region 4 and 5 and talk about some opportunities to streamline the permitting process with EPA.

Thanks and regards, Venu

Subject: Florida Waiver request
Attachments: 9.5.17_Florida Fuel Waiver Request_Extension.pdf

Ken

I am a very close personal friend of Mike Joyner here in Tallahassee. I have been with API and the FPC for 32 years and endured many hurricane seasons. I really appreciate USEPA and the Administrations tremendous response with this year's hurricanes especially with regards to Florida. I absolutely know that the quick action by Secretary Pruitt significantly improved logistical considerations for my industry that has directly improved our efforts to get motor fuel to Florida. Please pass along my thanks to all.

As we continue through the disaster with Irma looming a direct hit on Florida an additional waiver request to USEPA from Florida (see attached)and other states is pending Secretary Pruitt's action that would extend the waiver for blendstock requirements of fuels. I write to ask your assistance in trying to make this happen as soon as possible as I know logistics among our member companies and throughout our industry are being planned at refineries and throughout the transportation sector. Anything you can do to speed this along would be great.

Thanks

Re: State of Florida Request for Extension of Waiver of Blendstock Requirements

Dear Mr. Pruitt and Mr. Starfield:

On August 30, 2017, the U.S. Environmental Protection Agency (EPA) issued a multi-state fuel waiver concerning conventional and reformulated gasoline. This waiver addressed supply shortages, in part, by waiving the provisions at 40 C.F.R. § 80.78(a)(7) that prohibit the combining of any reformulated blendstock for oxygenate blending (RBOB) with any other gasoline, blendstock, or oxygenate, except for the oxygenate or the type and amount specified by the refiner that produced the RBOB. This fuel waiver was effective through September 15, 2017. This letter shall serve as the State of Florida's and Florida Department of Environmental Protection's (Department) written request for extension of the relief from the prohibitions on blending various blendstocks for the entire State of Florida through September 30, 2017. This waiver is needed due to fuel supply interruptions caused by Hurricane Harvey and projected to occur as a result of the potential landfall of Hurricane Irma in Florida.

Extension of the waiver of the requirements of 40 C.F.R. 80.78(a)(7), which prohibits the combining of reformulated gasoline blendstock for oxygenate blending with any other

September 5, 2017

Page 2

gasoline, blendstock or oxygenate, will allow for more types of fuels to be imported into Florida, improving the ability of the state to receive shipments from a diverse set of suppliers and diminishing the likelihood of fuel shortages.

This request meets the waiver requirements of Clean Air Act section 211(c)(3)(C)(ii) as an extreme and unusual fuel supply circumstance exists and the expected fuel supply interruptions are the result of natural disasters that could not reasonably have been foreseen or prevented and not the result of the lack of prudent planning. The granting of this waiver is in the public interest as an adequate supply of transportation fuels, including fuels for emergency response and disaster recovery operations, is of the utmost concern to the general public. The State of Florida intends to be on the best possible footing with regard to addressing potential storm damage, emergency response, and recovery needs resulting from Hurricane Irma, and any shortage of compliant transportation fuel in the state would unnecessarily complicate those efforts.

The Department respectfully requests that the U.S. Environmental Protection Agency extend the existing waiver through September 30, 2017. Pursuant to this waiver, reformulated blendstocks blended with conventional blendstocks will be able to be imported to Florida. Any gasoline meeting the conditions of this waiver that is stored in terminal storage tanks for distribution to retail outlets and wholesale purchasers and consumers in the State of Florida after September 30, 2017, could be distributed and sold until the supply is depleted. Likewise, retailers and wholesale purchasers and consumers in the state could continue selling or dispensing gasoline that meets the conditions of this waiver after September 30, 2017, until their supplies are depleted.

If you have any questions about this fuel waiver request, please contact me at (850) 717-9000 or by email at Jeff.Koerner@dep.state.fl.us.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jeffery F. Koerner". The signature is fluid and cursive, with the first name "Jeffery" being more prominent than the last name "Koerner".

Jeffery F. Koerner, Director
Division of Air Resource Management

Subject: Meeting in Arizona - June 13, 2018

All:

This email is in anticipation of our June 13, 2018 meeting between Arizona Department of Environmental Quality (ADEQ), US Department of Justice (DOJ), and US Environmental Protection Agency (EPA) to be held from 12:00pm to 4:00pm in the Phoenix office of the ADEQ. We will plan on eating lunch together (menu to be circulated) to visit as we set the tone for what, we all hope, will be a productive meeting around the issues and potential solutions for the International Outfall Interceptor (IOI). Ex. 7(A)

Ex. 7(A)

1.

2.

3.

4.

Ex. 7(A)

5. Please circulate a list of attendees from your respective agency.

Again, we are looking forward to a positive and productive meeting with parties who all have a significant stake in seeing the success of the water treatment for Arizona through the IOI. Please review the forgoing and let us know if there are additional points for agreement and, if agreeable, indicate your concurrence with these points for the meeting.

Let me know if you have any further questions.

Ken,

I have sent you a note in the mail, but multiple thanks never hurt in a situation such as this. Within hours of my call to you, the membranes were cleared and allowed to move into the United States. This prompt action restored potable drinking water to Creston and the surrounding six counties two days sooner than the water works staff had projected. This is a model of our state/federal partnership.

In addition, I have suggested and I believe that, some of the damaged membranes will be headed to the ORD facility in Cincinnati to assist in determining what went wrong so quickly.

Again, thank you for your assistance.

Bill

Mr Wagner:

As a follow up to our phone call, I was surprised to learn the Colorado Petroleum Council was not invited to participate in the important discussion. I, on behalf of my members, sent a letter early last year expressing our concerns and the need for a meeting. I received a letter back letting me know that EPA was aware of the issue and we would hear more and be involved in future conversations. I understand many would like to attend this meeting and space is limited but I also think it's imperative that we be included, as one of the first trade groups to weigh in strongly on this issue. I can be reached on my cell phone at anytime. Thank you for your time.
