Instructions for the Certificate of Representation

NOTE: The Certificate of Representation information can be submitted online through the CAMD Business System (CBS), which can be accessed at <https://camd.epa.gov/CBS/login/auth>. See the Certificate of Representation section of the Help File in CBS for assistance. If you have questions about CBS, send an email to cbs-support@camdsupport.com.

You must have a user name and password to access CBS. You can obtain a user name and password if: (1) you are currently listed in the CAMD database as a designated representative or an agent for a designated representative, **AND** (2) CAMD has received and processed a hard copy of the Electronic Signature Agreement at <https://www.epa.gov/airmarkets/electronic-signature-agreement-form>. Once a person meets these criteria, he/she may contact one of the following persons to obtain a user name and password: Karen VanSickle at (202) 343-9220, or Paula Branch at (202) 343-9168.

Please type or print. Submit a separate page 2 for each unit at the plant (source) subject to the Acid Rain Program (ARP), a Cross-State Air Pollution Rule (CSAPR) trading program, or the Texas SO₂ Trading Program (TXSO₂). Include units for which a Retired Unit Exemption notice has been submitted. Indicate the page order and total number of pages (e.g., 1 of 4, 2 of 4, etc.) in the upper right-hand corner of page 2. **A Certificate of Representation amending an earlier submission supersedes the earlier submission in its entirety and must therefore always be complete.** Submit one Certificate of Representation form with original signature(s). NO FIELDS SHOULD BE LEFT BLANK. For assistance, send an email to: cbs-support@camdsupport.com.

Note that because all emissions and monitoring plan data submitted (or resubmitted) through to EPA's Emissions Collection and Monitoring Plan System (ECMPS) for a unit for a given time period must be contained in one internally consistent datafile, the designated representative identified on this form is also the certifying official responsible for making submissions concerning the identified unit(s) where required by additional programs, including the Greenhouse Gas New Source Performance Standards program under 40 CFR part 60, subpart TTTT (NSPS4T), the Mercury and Air Toxics Standards program under 40 CFR part 63, subpart UUUUU (MATS), and state programs implementing the NO_x SIP Call under 40 CFR 51.121 (SIPNOX).

STEP 1

- (i) A plant code is a number assigned by the Department of Energy's (DOE) Energy Information Administration (EIA) to plants that generate electricity. For older plants, "plant code" is synonymous with "ORISPL" and "facility" codes. If the plant generates electricity but no plant code has been assigned, or if there is uncertainty regarding what the plant code is, send an email to the EIA at EIA-860@eia.gov. For plants that do not produce electricity, use the plant identifier assigned by EPA (beginning with "88"). If the plant does not produce electricity and has not been assigned a plant identifier, contact Craig Hillock at hillock.craig@epa.gov.
- (ii) Enter the latitude and longitude representing the location of the plant. Note that coordinates **MUST** be submitted in decimal degree format; in this format minutes and seconds are represented as a decimal fraction of one degree. Therefore, coordinates containing degrees, minutes, and seconds must first be converted using the formula:

$$\text{decimal degrees} = \text{degrees} + (\text{minutes} / 60) + (\text{seconds} / 3600)$$

Example: 39 degrees, 15 minutes, 25 seconds = 39 + (15 / 60) + (25 / 3600) = 39.2569 degrees

STEPS 2 & 3

The designated representative and the alternate designated representative must be individuals (i.e., natural persons). Enter the associated company name and address of the representative as it should appear on all correspondence. Most correspondence will be emailed. **Although not required, EPA strongly encourages owners and operators to designate an alternate designated representative to act on behalf of the designated representative.**

There may be only one designated representative and one alternate designated representative for a plant.

STEP 4

- (i) Complete one page for each unit subject to the ARP, CSAPR, or TXSO₂ programs, and indicate the program(s) that the unit is subject to. Also indicate if the unit is subject to the MATS, NSPS4T, and/or SIPNOX programs. Identify each unit at the plant by providing the appropriate unit identification number, consistent with the identifiers used in previously submitted Certificates of Representation (if applicable) and with submissions made to DOE and/or EIA. Do not list duct burners. For new units without identification numbers, owners and operators must assign identifiers consistent with EIA and DOE requirements. Each submission to EPA that includes the unit identification number(s) (e.g., monitoring plans and quarterly reports) should reference those unit identification numbers in exactly the same way that they are referenced on the Certificate of Representation. Do not identify units that are not subject to the above-listed programs but are part of a common monitoring configuration with a unit that is subject to any of these programs. To identify units in a common monitoring configuration that are not subject to any of these programs, call the CAMD Hotline at (202) 343-9620, and leave a message under the “Continuous Emissions Monitoring” submenu.
- (ii) Identify the type of unit using one of the following abbreviations:

<u>Boilers</u>		<u>Boilers</u>	<u>Turbines</u>
AF	Arch-fired boiler	OB	Other boiler
BFB	Bubbling fluidized bed boiler	PFB	Pressurized fluidized bed boiler
C	Cyclone boiler	S	Stoker boiler
CB	Cell burner boiler	T	Tangentially-fired boiler
CFB	Circulating fluidized bed boiler	WBF	Wet bottom wall-fired boiler
DB	Dry bottom wall-fired boiler	WBT	Wet bottom turbo-fired boiler
DTF	Dry bottom turbo-fired boiler	WVF	Wet bottom vertically-fired boiler
DVF	Dry bottom vertically-fired boiler		
			<u>Other</u>
			CC
			Combined cycle combustion turbine
			CT
			Simple cycle combustion turbine
			IGC
			Integrated gasification combined cycle
			ICE
			Internal combustion engine
			KLN
			Cement kiln
			PRH
			Process heater

If there is uncertainty about how a unit should be characterized, contact Craig Hillock at hillock.craig@epa.gov or (202) 343-9105.

- (iii) Indicate the source category description that most accurately describes the purpose for which the unit is operated by entering one of the following terms. If none of these descriptions applies to your unit, contact Craig Hillock at hillock.craig@epa.gov or (202) 343-9105.
- Electricity generation
 - Useful thermal energy production (i.e., production of process heat and/or steam for uses other than electricity production)
 - Cogeneration (i.e., both electricity generation and useful thermal energy production through the sequential use of energy)
- (iv) Provide the primary North American Industrial Classification System (NAICS) code that most accurately describes the business type for which the unit is operated. If unknown, go to <https://www.census.gov/eos/www/naics> for guidance on how to determine the proper NAICS code for the unit.

(v) Enter the date the unit began (or will begin) serving any generator producing electricity for sale, including test generation. Enter this date and check the "actual" box for any unit that has begun to serve a generator producing electricity for sale as of the date of submission of this form. (This information should be provided even if the unit does not currently serve a generator producing electricity for sale.) For any unit that will begin, but has not begun as of the date of submission of this form, to serve a generator producing electricity for sale, estimate the future date on which the unit will begin to produce electricity for sale and check the "projected" box. When the actual date is established, revise the form accordingly by entering the actual date and checking the "actual" box. Enter "NA" if the unit has not ever served, is not currently serving, and is not projected to serve, a generator that produces electricity for sale. If you have questions regarding this portion of the form, contact Craig Hillock at hillock.craig@epa.gov or (202) 343-9105.

(vi) For a unit that, as of the date of submission of this form, serves one or more generators (whether or not the generator produces electricity for sale), enter the generator ID number(s) and the nameplate capacity (in MWe, rounded to the nearest tenth) of each generator served by the unit. A unit serves a generator if the unit produces, or is able to produce, steam, gas, or other heated medium for generating electricity at that generator. For combined cycle units, report separately the nameplate capacities of the generators associated with the combustion turbine and the steam turbine. Please ensure that the generator ID numbers entered are consistent with those reported to the EIA.

A nameplate capacity should be entered in the "Acid Rain" column for each generator served by a unit subject to the ARP, and a nameplate capacity should be entered in the "CSAPR / Texas SO₂ / Other" column for each generator served by a unit subject to any of the other programs indicated on the form (including units that are also subject to the ARP). The nameplate capacity entered in the "Acid Rain" column where a unit is listed in the National Allowance Database (NADB) should be the nameplate capacity as shown in the NADB. The nameplate capacity entered in the "Acid Rain" column where a unit is not listed in the NADB, and the nameplate capacity entered in the "CSAPR / Texas SO₂ / Other" column where a unit is subject to any programs other than the ARP, generally should be the higher of (i) the nameplate capacity as of the generator's initial installation or (ii) the nameplate capacity following physical changes that result in an increase in the maximum electrical generating output that the generator can produce on a steady-state basis when not restricted by seasonal or other deratings. To the extent consistent with the preceding sentences, use the nameplate capacity reported to EIA for each generator on Form EIA-860. Enter "NA" if, as of the date of submission of this form, the unit does not serve a generator.

For the full definitions of "nameplate capacity", see 40 CFR 72.2, 97.402, 97.502, 97.602, 97.702, 97.802, and 97.902, as applicable. The NADB is available at <https://www.epa.gov/airmarkets/clean-air-markets-allowance-markets#Allocated>. If you have questions regarding nameplate capacity or the NADB, contact Craig Hillock at hillock.craig@epa.gov or (202) 343-9105.

(vii) Enter the company name of each owner and operator in the "Company Name" field. Indicate whether the company is the owner, operator, or both. For new units, if the operator of a unit has not yet been chosen, indicate that the owner is both the owner and operator and submit a revised form when the operator has been selected within 30 days of the effective date of the selection. EPA must be notified of changes to owners and operators within 30 days of the effective date of the change. You are strongly encouraged to use the CAMD Business System to provide updated information on owners and operators. See the Certificate of Representation tutorial on the CBS homepage for assistance.

(viii) Indicate whether or not the unit is located in Indian country. "Indian country" generally includes all lands within any federal Indian reservation, all dependent Indian communities, and all Indian allotments for which the Indian titles have not been extinguished. For the full definition of "Indian country", see 18 U.S.C. § 1151.

(ix) When identifying a unit at a plant for the first time, indicate whether or not the unit ever operated at another location. If the answer is "yes", EPA will contact the owners/operator for more information.

Paperwork Burden Estimate

The public reporting and record keeping burden for this collection of information is estimated to average 15 hours per response annually. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Regulatory Support Division, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave. NW, Washington, DC 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
