

Draft U.S. GHG Inventory Available for Public Review

The U.S. EPA Landfill Methane Outreach Program (LMOP) is pleased to inform program stakeholders about **EPA's Inventory of U.S. Greenhouse Gas Emissions and Sinks (Inventory)**, an annual report that tracks U.S. greenhouse gas emissions and sinks by source category and economic sector, going back to 1990. The **municipal solid waste landfill sector** is one of the covered sources and **methane** is one of the gases included in the report.

Per a recent announcement in the Federal Register [[FRL-9988-96-OAR](#)], the **draft 1990-2017 Inventory is available for review and public comment**. Information about the Inventory and draft report files are available at epa.gov/ghgemissions/inventory-us-greenhouse-gas-emissions-and-sinks.

To **ensure your comments are considered for the final version of this Inventory** (to be released in April 2019), they must be submitted by **March 14, 2019**. Comments can be submitted electronically at regulations.gov/document?D=EPA-HQ-OAR-2018-0853-0001 or by email to GHGInventory@epa.gov.

More information about submitting comments is available online at epa.gov/ghgemissions/how-submit-comment-draft-us-greenhouse-gas-inventory-report-1990-2017. Comments received after the deadline are still welcome and will be considered for the next edition of the Inventory.

To request removal from this email list, please reply to this message. For further information or questions about LMOP, please do not reply to this email message, but rather visit the [LMOP website](#). Thank you.
