

AQUARIUS

# DWSRF AQUARIUS Program

## 2019 Nomination Form

# AQUARIUS 2019 Nomination Form

## Program Description

The Drinking Water State Revolving Fund (DWSRF) is a \$38 billion federal-state partnership dedicated to protecting America's public health. The program finances the construction and rehabilitation of critical drinking water infrastructure, along with public health-focused programs and activities across our nation. The DWSRF AQUARIUS program nationally recognizes DWSRF-funded projects for exceptional focus on sustainability and protection of public health. These projects are examples of the high level of innovation possible with the DWSRF.

## Nomination Process

States may nominate one project and send the nomination form to their EPA Regional Office Coordinator. After review from the EPA Regional Office, the Region will send nominations to EPA Headquarters (HQ). A panel at EPA HQ will review submitted projects. Of the projects nominated, the panel will select one particularly noteworthy project from each Region to be designated as "Exceptional Projects" to receive further recognition.

The "Exceptional Projects" will be announced by EPA Headquarters at the fall 2019 CIFA SRF Workshop.

The materials will also be shared with all EPA Regional Offices to highlight excellent projects in their Region and across the country.

## 2019 AQUARIUS Program Timeline

**April 24-26**

2019 AQUARIUS Program kickoff and call for nominations. The project nomination form will be available on the [EPA DWSRF website](#).

**June 7**

Project nominations from states are due to their respective EPA Regional Office Coordinator. States fill out the attached form to nominate a project. Each state may nominate only one project.

**July 1**

After review, Regions send the nominations to AQUARIUS@epa.gov at EPA Headquarters by this date.

**November 18**

All recognized projects will be showcased in the *2019 AQUARIUS Compendium* to be made available online. One "Exceptional Project" from each EPA Region will receive a plaque from the Director of the Office of Ground Water and Drinking Water.

## AQUARIUS Evaluation Criteria

States participating in this voluntary recognition program may nominate **one** DWSRF project during the 2019 round. All DWSRF projects are eligible for nomination if they have completed construction **within the last two years**. The project must meet three criteria:

 Safe Drinking Water Act compliance

 Financial integrity

 Public health benefits

Additionally, each project must demonstrate leadership in at least one or more of the following areas:

- Emerging contaminants;
- Aging infrastructure;
- Innovative financing;
- Affordability;
- Water loss control;
- Efficient water and/or energy use;
- Creative approach to project planning and implementation; or
- Water system partnerships
