

Volunteer/Unpaid, DENVER, CO – EPA Region 8, Superfund Remedial Team Intern

(CLOSING DATE: 04/08/2019)

Background: Sites listed on the National Priority List are some of the most complex sites requiring remediation in the country. Successful site work is a combination of technical expertise, communication and regulatory compliance.

Job Description: The intern will float among the Superfund Remedial Unit and will learn about working on a National Priorities List Site. The intern will become familiar with the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) requirements and will develop an understanding of federal, state and local agency cooperation required to address these sites. The intern will assist with the following potential tasks:

- Data table manipulation and formatting
- Assistance with preparation of outreach materials
- Assistance with conducting outreach events
- Review story boards and interactive websites with data displays
- Attendance at Site team meetings
- Journal article searches for information on pertinent clean up technologies
- Other site work related tasks
- Final project (TBD)

Required Skills: Excellent written and verbal communication; experience with Microsoft Office Suite programs; ability to work independently as well as in a team setting; and skills in processing large data sets and analyzing critical elements.

Knowledge/Experience: Coursework/knowledge in science, statistics and/or math fields or similar areas of study will be viewed favorably, as well as expertise in excel spreadsheets.

Timeline: 3-4 months

Desired Hours: 15-20 (negotiable)

Desired Start Date: flexible

How to Apply: Email your transcripts, resume and cover sheet to: Stanley Christensen, Christensen.Stanley@EPA.gov, 303-312-6694 by Friday, April 5, 2019.
