NOV 1 2011

The Honorable Richard Luarkie
Governor of the Pueblo of Laguna
Post Office Box 194
Laguna, New Mexico 87026

Dear Governor Luarkie:

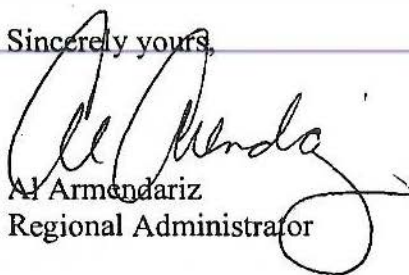

The U.S. Environmental Protection Agency (EPA) Region 6 is pleased to provide you with a corrected copy of our Decision Document approving the Pueblo of Laguna's application for treatment in the same manner as a state (TAS) under Section 301(d) of the Clean Air Act (CAA).

The enclosed Decision Document was corrected to clarify the areas covered by this TAS approval and to include the map and Federal Register notices in Appendix A that were inadvertently left out. As previously stated, the EPA's decision entitles the Pueblo of Laguna to receive notice of certain permit actions as an "affected state" under Section 505(a)(2) of the CAA. Additionally, the decision allows the Pueblo of Laguna to apply for reduced match grants under Section 105 of the CAA.

If you have any questions regarding the official decision, please contact Mr. Ben Harrison, Deputy Regional Counsel, at (214) 665-2139. For questions related to the Air Program, please contact Mr. Thomas Diggs, Associate Director for the Air Program, at (214) 665-3102.

We look forward to working with the Pueblo of Laguna as it continues to develop environmental programs.

Sincerely yours,

Al Armendariz
Regional Administrator

I. INTRODUCTION AND ADMINISTRATIVE RECORD

A. Introduction

The Pueblo of Laguna ("Pueblo") submitted an application to the United States Environmental Protection Agency ("EPA") for treatment in the same manner as a state ("TAS") under section 301(d) of the Clean Air Act ("Act" or "CAA") (42 U.S.C. § 7601(d)), for purposes of grant funding at a reduced matching share under section 105 (42 U.S.C. § 7405) and notice, and an opportunity to comment on proposed major source air operating permits as an "affected state" under section 505(a)(2) (42 U.S.C. § 7661d(a)(2)) of the Act. The EPA has reviewed this application, its supporting materials, and the EPA files (noting no comments were submitted during the public comment period) and has determined that the Pueblo is eligible for TAS status for purposes of these non-regulatory CAA provisions under section 301(d) of the Act and the EPA's implementing regulations at 40 C.F.R. Part 49 (known as the Tribal Authority Rule, which specifies the provisions of the Act for which tribes may seek TAS status and the TAS eligibility requirements and application process).

B. Administrative Record

The Pueblo of Laguna submitted an initial application letter on March 24, 2010. (See Tab 1.) The EPA worked closely with the Pueblo on further developing the application, including the submission of additional materials describing the geographic boundaries of the area covered by the application and information regarding capability to perform duties related to CAA § 505(a)(2). On May 2, 2011, the EPA notified the Pueblo that its application was complete. (See Tab 30.)

On April 14, 2011, the EPA sent letters to notify appropriate governmental entities and the public of the application and provided an opportunity to comment on the geographic boundaries of the land covered by the application in accordance with 40 C.F.R. § 49.9(b). (See Tabs 11 through 29.) Consistent with the EPA regulations, the comment period closed on June 14, 2011. At the conclusion of the comment period, the EPA held an additional public comment period which closed on August 2, 2011.

II. REQUIREMENTS FOR TAS APPROVAL

A. Introduction

Under CAA § 301(d) and the EPA's implementing regulations, to be eligible for TAS an Indian tribe must meet the following criteria:

- (1) The applicant is an Indian tribe recognized by the Secretary of the Interior;
- (2) The Indian tribe has a governing body carrying out substantial governmental duties and functions;
- (3) The functions to be exercised by the Indian tribe pertain to the management and protection of air resources within the exterior boundaries of the reservation or other areas within the tribe's jurisdiction; and

- (4) The Indian tribe is reasonably expected to be capable, in the EPA Regional Administrator's judgment, of carrying out the functions to be exercised in a manner consistent with the terms and purposes of the Clean Air Act and all applicable regulations.

40 C.F.R. § 49.6. The Tribal Authority Rule requires an applicant tribe to concisely describe how it meets each of these eligibility requirements. *Id.* at § 49.7.

B. Recognition

The Pueblo asserts in its application that "[by] approving the Pueblo's CWA § 106 TAS Application, the EPA necessarily found that the Pueblo of Laguna is recognized by the Secretary of the Interior." (See Tab 1.) The Pueblo is listed as a federally recognized Indian tribe in the Interior Department's most recent list of "Indian Entities Recognized and Eligible To Receive Services From the United States Bureau of Indian Affairs." 74 Fed. Reg. 40,218, 40,221 (August 11, 2009). The Pueblo satisfies the requirement that it be federally-recognized. 40 C.F.R. §§ 49.6(a) and 49.7(a)(1); *see also* 42 U.S.C. § 7602(r) (defining the term "Indian tribe").

C. Governmental Duties and Powers

In the EPA's previous CWA § 106 TAS approval for the Pueblo of Laguna (July 2, 2002), the EPA found that the Pueblo sufficiently demonstrated that it has a governing body carrying out substantial governmental duties and powers. The Pueblo's current application included the Pueblo's most recent organizational chart as an update to the information previously submitted. Accordingly, the Pueblo's current application and this Decision Document reaffirm those earlier findings. The Pueblo satisfies the requirement for a governing body that carries out substantial governmental duties and functions. 40 C.F.R. §§ 49.6(b) and 49.7(a)(2).

D. Functions To Be Exercised

The CAA and the EPA's implementing regulations require that the functions to be exercised by the Pueblo "pertain to the management and protection of air resources within the exterior boundaries of the reservation or other areas within the tribe's jurisdiction[.]" 42 U.S.C. § 7601(d)(2)(B) and 40 C.F.R. § 49.6(c). The term "reservation" as used in the Act and the EPA's regulations, and as defined in 18 U.S.C. § 1151, includes formal reservations, as the term is commonly understood, as well as "informal reservations" such as "trust lands that have been validly set apart for the use of a tribe even though the land has not been formally designated as a reservation." Preamble to the Tribal Authority Rule, 63 Fed. Reg. 7254, 7257-58 (February 12, 1998); *Arizona Public Service Co. v. EPA*, 211 F.3d 1280, 1292-94 (D.C. Cir. 2000) (upholding EPA's interpretation of the term "reservation"), *cert. den.*, 532 U.S. 970 (2001).

For applications covering areas within the exterior boundaries of an Indian tribe's reservation, the EPA's regulations require the applicant tribe to submit a statement identifying "with clarity and precision the exterior boundaries of the reservation

including, for example, a map and a legal description of the area.” 40 C.F.R. § 49.7(a)(3). (See Tab 1, Tab 4, Tab 10, and Tab 36.)

The Pueblo of Laguna’s TAS application and supplements thereto regarding the boundaries of lands covered by its TAS application have clearly delineated the formal Laguna Indian Reservation (“Reservation”) and specific parcels of tribal land outside the formal Reservation boundaries which are held in trust for the Pueblo by the United States. (See Tab 1, Tab 4, Tab 10, and Tab 36.) As discussed above, these trust lands are reservation areas for CAA TAS purposes.

The Pueblo’s application provides a map and legal description for the Reservation¹ and for each of the trust land parcels, including the warranty deeds demonstrating the trust status of the land. This documentation clearly provides the precise location and extent of the Reservation and the trust land parcels in accordance with 40 C.F.R. § 49.7(a)(3); and the Pueblo has, therefore, satisfied the requirements of 40 C.F.R. § 49.6(c) with respect to the Reservation and these parcels. The EPA makes no finding regarding any area other than the Reservation and the following trust land parcels for purposes of this TAS approval:²

1. Speedway property, described as four parcels of land situated in Section 5, Township 9 North, Range 1 West, and Sections 30, 32, and 33, Township 10 North, Range 1 West, New Mexico Principal Meridian, Bernalillo County, New Mexico, totaling approximately 1,270.6038 acres (see Appendix A, deed dated 03/15/2011); and
2. Silver Dollar Ranch property, described as two parcels situated in projected Sections 2, 3, 10, 11, 14, 15, and 23, Township 11 North, Range 6 West, projected Sections 13-16, 21-27, 34, and 35, Township 12 North, Range 6 West, and projected Sections 10 and 15, Township 11 North, Range 6 West, New Mexico Principal Meridian, Cibola County, New Mexico, totaling approximately 7,810.3659 acres (deed dated 10/5/2010), and an additional parcel situated in projected Sections 16 and 21, Township 12 North, Range 6 West, New Mexico

¹ For purposes of this application, the EPA relied on the description of the formal Reservation from the Pueblo’s prior application for CWA § 106 TAS approval. Since that time, the following tracts were added to the Reservation: Grady Day parcel, described at 72 Fed. Reg. 16816 (April 5, 2007); Bowlin South parcel, described at 72 Fed. Reg. 16816 (April 5, 2007); Mount Taylor Ranch parcel, described at 73 Fed. Reg. 7582 (February 8, 2008); and Shalit parcel, described at 74 Fed. Reg. 13454 (March 27, 2009). Also, at the time of this TAS application, the Pueblo sought TAS approval for the Bowlin North property, which was then trust land, but has subsequently been added to the Reservation. See 76 Fed. Reg. 41513 (July 14, 2011). For purposes of this application, the EPA considers all of these parcels to be part of the formal Reservation. Copies of the Federal Register notices are included in Appendix A.

² The EPA notes that the Pueblo has not at this time applied for TAS status to administer any CAA regulatory program, and the EPA’s decision, therefore, does not address any aspect of the Pueblo’s regulatory authority for CAA purposes.

Principal Meridian, Cibola County, New Mexico, containing approximately 542.7024 acres (deed dated 9/24/2011) (see Appendix A).

E. Capability

The Pueblo of Laguna maintains the Laguna Pueblo Environmental Program (LPEP). The LPEP staff who would be working on air quality issues includes an environmental manager, environmental specialist, and environmental technician with experience in program administration, environmental management, and a commitment to build capacity in permit reviewing. For purposes of this application, the Pueblo will be managing grant funds and reviewing permits from adjacent jurisdictions. The EPA has previously recognized the Pueblo's capability to administer grant funds in its CWA § 106 TAS determination of July 2, 2002. The current materials coupled with EPA's prior findings show that the Pueblo meets the capability requirements. 40 C.F.R. §§ 49.6(d) and 49.7(a)(4). (See Tab 1.)

III. NO COMMENTS RECEIVED

The EPA received no comments from appropriate governmental entities nor during the public comment period; therefore, there are no comments to address.

IV. CONCLUSION

The Pueblo of Laguna has met the eligibility requirements for TAS status for purposes of CAA sections 105 and 505(a)(2). Accordingly, the EPA grants the Pueblo of Laguna's request for TAS under CAA section 301(d) for purposes of sections 105 and 505(a)(2) as related to the formal Laguna Indian Reservation and two tribal trust lands discussed above and identified in the attached map and legal descriptions. The EPA makes no determination today on any parcels other than those discussed and described herein.

The above-described Parcels 1, 2, 3, and 4, contain a combined total area of 1,270.6038 acres, more or less.

The following supplemental clarification statements are herein added to and made a part of this legal description:

For said Parcel 1:

Said Parcel 1, described above as Tract A-1 of Midway Ranch, is the same tract of land that is designated as Parcel 1 on the plat certified by Mitchell W. Reynolds, New Mexico Professional Surveyor No. 11224, on August 31, 2006, and filed in the office of the County Clerk of Bernalillo County, New Mexico, on June 18, 2007, in Book 2007S, page 0043, as Document No. 2007088527.

For said Parcel 3:

The property description listed on the above-referenced plat showing said Parcel 3 states that this parcel is situated within the Bernabe M. Montano Grant. In fact, said Parcel 3 is situated within the preliminary boundaries of the Bernabe M. Montano Grant as surveyed in 1877 and approved by the U.S. Surveyor General's Office on March 6, 1878, but is not situated within the final boundaries of the Bernabe M. Montano Grant as surveyed in 1894 and approved by the U.S. Surveyor General's Office on April 16, 1897, and finally approved by the Clerk of the U.S. Court of Private Land Claims on May 10, 1897.

For said Parcel 4:

The east boundary of said Parcel 4 is intended to run along the medial line of the Rio Puerco, which is identical with the actual, true west boundary of the Town of Atrisco Grant.

conditions of the ITP (50 CFR 13.25). The Service anticipates publishing a Notice of Intent to issue an ITP with transfer authorities in the **Federal Register** and take public comments on the application for 30 days. Issuance of each ITP may take up to 90 days to process. The holder of the initial ITP would be responsible for the coordination of all activities among the transferees. Each company holding an ITP would be responsible for implementation of their minimization and mitigation measures, compliance monitoring and biological monitoring, annual reporting, adaptive management procedures, participation in annual meetings, and coordination with the initial ITP holder. The Service would be responsible in processing the transfers and reviewing annual reports. This ITP administrative structure would have some continued Service involvement during the implementation of the HCP, but it would be less than under the Umbrella HCP and more than under the Programmatic HCP.

The fourth ITP structure, referred to as the Co-Permitted HCP, also involves a single HCP that supports an ITP, but all parties are named as co-permittees on the ITP. A single HCP would be developed and all NEPA and ESA compliance would be completed on the HCP prior to issuance of the initial ITP. Current members of WEWAG (or those who join prior to permit application) would be named as permittee in the incidental take permit application. Assuming the Service found that the HCP met the ESA's permit issuance criteria, the Service would issue a single or master incidental take permit naming each of the WEWAG members as a participating permittee (co-permittee). Similar to the programmatic approach, the incidental take permit would authorize each co-permittee's projects located within the permit area. Prior to undertaking any new project, a co-permittee would submit to the Service a prescribed form indicating how its project complies with the incidental take permit and that any required mitigation has been paid to the appropriate entity. The Service would have the authority to review each project and would stay engaged during the implementation of the HCP. Each company named as a co-permittee would be responsible for implementation of their minimization and mitigation measures, compliance monitoring and biological monitoring, annual reporting, adaptive management procedures, and participation in annual coordination meetings. Additional NEPA and ESA section 7 would not be

necessary, as each permittee would be fully authorized under the permit.

Please note that submissions merely stating support for, or opposition to, the action under consideration without providing supporting information, although noted, will not provide information useful in determining the issues and the impacts to the human environment in the draft EIS. The public will also have a chance to review and comment on the draft EIS when it is available (a notice of availability will be published in the **Federal Register**).

You may submit your comments and materials by one of the methods described above under the **ADDRESSES** section at the beginning of this notice. Written comments will also be accepted at the public meetings, although these public meetings are primarily intended to provide additional information and provide a chance for the public to ask specific questions concerning the proposed HCP and EIS.

Public Availability of Comments

Written comments we receive become part of the public record associated with this action. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that the entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
