Ms. Jana McDonald  
Northwest Region Environmental Manager  
CPM Development Corporation  
P.O. Box 3366  
Spokane, Washington 99220

Dear Ms. McDonald:

This letter approves the Request for Coverage under the General Air Quality Permit for New or Modified Minor Source Stone Quarrying, Crushing and Screening Facilities in Indian Country (SQCS General Permit) submitted by CPM Development Corporation, dba Central Washington Concrete on March 11, 2019, pursuant to the Clean Air Act Tribal Minor New Source Review Program. Central Washington Concrete is seeking SQCS General Permit coverage for the construction and operation of a portable SQCS at the Wapato Quarry within the exterior boundaries of the Yakama Reservation (the Project).

**Permittee:** CPM Development Corporation, dba  
Central Washington Concrete  
P.O. Box 3366  
Spokane, Washington 99220

**Location:** Wapato Quarry  
2131 Lateral 1 Road, Wapato, Washington  
Yakima County  
Yakama Reservation  
Latitude: 46.477744° N; Longitude: 120.493859° W

**Permit #:** R10TNSR02200

**Determination**

The U.S. Environmental Protection Agency, Region 10 has carefully reviewed Central Washington Concrete's Request for Coverage and other relevant information to determine whether the Project meets all the criteria to qualify for coverage under the SQCS General Permit. Based on our review of, and in reliance on, all of the information and representations provided in the Request for Coverage and other information submitted by Central Washington Concrete, as well as other relevant information, Region 10 has determined that the Project meets all such criteria and is eligible for coverage under the SQCS

General Permit.<sup>1</sup> Accordingly, pursuant to 40 CFR 49.156(e), Region 10 is approving the Request for Coverage for the Project.

This approval and the SQCS General Permit authorize the Permittee to construct and operate the Project at the Wapato Quarry location listed above. The Permittee is subject to Version 1.0 of the aforementioned SQCS General Permit, a copy of which is enclosed.<sup>2</sup> The analysis and basis for Region 10's determination is discussed in more detail in the enclosed Technical Support Document for this action.

All notifications and reports required by the SQCS General Permit shall be sent to the address below:

### **Applicable Permit Conditions**

Your permitted source is subject to all terms and conditions in the SQCS General Permit as specified in the permit. Because your application requested the elective synthetic minor limit for co-located sources, your source must comply with Conditions 16 and 19.e in the SQCS General Permit.

### **Additional Information**

You are reminded that you must construct and/or modify and operate the affected emissions units, and any associated air pollution control technologies, in compliance with the SQCS General Permit and all other applicable federal air quality regulations and in a manner consistent with all the representations made in your Request for Coverage. You must comply with all applicable provisions of the SQCS General Permit, including those set forth in the attachments and emission limitations that apply to the affected emissions units at the permitted source. Noncompliance with any permit provision is a violation of the permit; may constitute a violation of the CAA; is grounds for an enforcement action; and is grounds for Region 10 to revoke the approval and terminate your source's coverage under the SQCS General Permit. You may be subject to enforcement action for failure to obtain a preconstruction permit if you construct your source under this approval and your source is later determined not to qualify for the conditions and terms of the SQCS General Permit.

Pursuant to 40 CFR 49.156(e)(8), this approval will become invalid if you do not commence construction within 18 months after the date when this approval becomes effective, if you discontinue construction for a period of 18 months or more, or if you do not complete construction within a reasonable time. Region 10 may extend the 18-month period upon a satisfactory showing that an extension is justified.

Region 10's approval of your request for coverage under the SQCS General Permit is effective immediately as of the date this letter is signed and is a final agency action for purposes of judicial review. The only issue subject to review is whether the Project is eligible for coverage under the SQCS

General Permit (see 40 CFR 49.156(e)(6)). Any petition for review of this approval action must be filed in the United States Court of Appeals for the appropriate circuit pursuant to CAA section 307(b).
