Under the Standard Industrial Classification (SIC) Code No. 1321, the applicant is a gas processing plant that intends to purify well water, drawn on-site, via reverse osmosis for facility use. This will generate "RO Reject" wastewater, containing impurities removed during the reverse osmosis process. The wastewater will not come in contact with gas processing and will not be chemically treated before discharge in Panola County, Texas.

This is a first-time permit.

A statement of basis is available.
