

# INNOVATIVE FINANCING STRATEGIES FOR REDUCING NUTRIENTS WORKSHOP

**August 14, 2019 | Washington, D.C.**

You are invited to participate in an EPA/USDA co-hosted in-person all-day workshop spotlighting creative and innovative approaches to financing strategies to help reduce nutrient pollutants in our Nation's waters. A limited number of spots are available for invited experts to attend this joint convening. For more information, please contact [waterfinancecenter@epa.gov](mailto:waterfinancecenter@epa.gov).

During the workshop, we will:

- Highlight innovative approaches for financing nutrient reduction across the country;
- Identify ways private sector and public sector funds can be leveraged for nutrient reduction projects; and,
- Scope ways EPA and USDA can help increase funding opportunities and awareness of innovative funding approaches.
