Hi Kevin -

Thank you for your email. I am looping in Hayley Ford, as she handles the Administrator's internal meetings.

Hayley - would you mind letting Kevin know if the Administrator has availability on June 21st?

Thank you,

Kelly

The Honorable Donald J. Trump
President of the United States
The White House
1600 Pennsylvania Avenue, NW
Washington, DC 20500

Dear Mr. President,

The appliance manufacturing industry is being negatively impacted by the EPA's management of the ENERGY STAR® program. Under President Obama's administration, management of this program for home appliances was transferred to the EPA. For the following reasons, innovation and consumer choice would be best served by transferring management of this program for home appliances back to the Department of Energy.

Appliance manufacturers support an improved and modernized ENERGY STAR® program. The administration of the ENERGY STAR program for home appliances should return to the Department of Energy (DOE) where the program originated. Returning home appliances to DOE would reduce financial burdens on both EPA and DOE by streamlining government oversight through the existing DOE Appliance Standards Program. This move would also reduce appliance manufacturers' cumulative regulatory burden from dual agency activities, such as responding to multiple agency analyses, reporting and disclosure requests. Ending dual-agency management of this program would help reduce unnecessary bureaucracy, enhance manufacturers productivity and, ultimately, refocus the program. DOE oversight would also ensure a continued focus on core efficiency attributes and avoid performance requirements that should be left to market forces to determine.

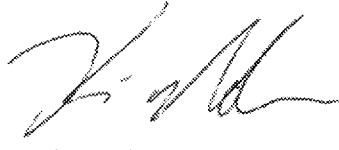

Home appliances enhance consumer convenience, safety and flexibility. During the past 25 years alone, domestic chores have been reduced more than 14 hours per week, which enables greater household time for more productive activities. Further, through its technology, employees and economic productivity, the industry contributes significantly to U.S. jobs and economic security. In the U.S., the Association of Home Appliance Manufacturers (AHAM) member companies employ tens of thousands of people with an annual shipment value of more than \$40 billion. Home appliances also are a success story in terms of energy efficiency and environmental protection. New appliances often represent the most effective choice a consumer can make to reduce home energy consumption and costs.

The undersigned senior executives from the home appliance industry urge your Administration to address this issue to help create a more efficient home appliance sector. Thank you for your consideration of these views and we look forward to discussing these issues in more detail.

**External Meeting Request Form for
Administrator E. Scott Pruitt**

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: August 11, 2017

Meeting Date: August 16, 2017

Meeting Time: any time

Requested Location (if offsite, please list address, parking instructions, etc.): Administrator Pruitt's DC office

Requestor: Honeywell

Purpose of the Meeting:

- Discuss implications of decision reached by U.S. Court of Appeals for the District of Columbia in *Mexichem Fluor v. EPA* (August 8, 2017)
- Discuss potential EPA responses to court decision

Background on the Meeting:

- Honeywell believes that the Court wrongly vacated EPA's rule establishing restrictions on the use of hydrofluorocarbons (HFCs) through the Significant New Alternatives Policy (SNAP).

Role of the Administrator:

- To discuss his views on the case

Attendees:

1. Darius Adamczyk, President and Chief Executive Officer; Honeywell;
2. Jim Carroll, Senior Vice President, Global Government Relations; Honeywell
3. Amy Chiang, Vice President, Government Relations; Honeywell

Point of Contact:

The Honorable Scott Pruitt
Administrator
United States Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Re: Meeting request; Mexichem Fluor v. EPA

Dear Administrator Pruitt:

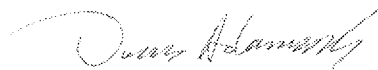

We are writing to request meetings to discuss the implications of the decision reached by the United States Court of Appeals for the District of Columbia Circuit in *Mexichem Fluor Inc. v. Environmental Protection Agency* on August 8. We believe that the Court wrongly vacated EPA's rule establishing restrictions on the use of hydrofluorocarbons (HFCs) through the Significant New Alternatives Program (SNAP), and hope to discuss potential EPA responses to support U.S. industry and innovation and reduce industry uncertainty.

As you know, Honeywell and Chemours intervened in this case because we believe that the argument presented by the petitioners would have a significant negative economic impact on the global hydrofluoro-olefins (HFO) business. U.S. companies have invested well over \$1 billion in the development and manufacture of HFOs to meet U.S. and global demand. However, foreign competitors Mexichem Fluor and Arkema, who have not invested in the R&D to create these alternatives and who do not manufacture these alternatives, used the U.S. courts to hurt American companies. At stake are thousands of U.S.-based jobs supporting local economies, including manufacturing plants in Louisiana and Texas, and R&D sites in New York and Delaware.

The impacted rules are essential to economic growth and job creation in the U.S., and to enable American competitiveness in this industry. The decisions made by the EPA in this area have global implications as other countries will follow the U.S. lead. HFOs and products utilizing them such as air conditioning and refrigeration equipment, foam insulation, aerosols, and solvents are exported from the U.S. to meet country commitments in phasing out less environmentally sustainable chemicals. If this ruling stands, it will likely create a chilling effect on American businesses which won't risk making the necessary investments in both workers and technology. American companies lead the world in innovation and this ruling, instigated by two foreign competitors, undermines that fundamental tenet.

Darius Adamczyk, Honeywell's President and CEO is available to meet at your offices on August 16. Mark Vergnano, Chemours' President and CEO is available August 25 or 28. We appreciate your interest in this issue, and we look forward to working with you.

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Ave., N.W.
Washington, DC 20460

Dear Administrator Pruitt,

On behalf of the Aluminum Association, I would like to invite you to be a key note speaker at our 2017 Annual Meeting in Washington, D.C., October 2-4th at the Loews Madison hotel (15th and M St. NW). Specifically we wonder if you are available to speak at 10 a.m. on Wednesday, October 4.

The Aluminum Association represents the United States aluminum value chain – from primary producers, to recyclers, to fabricators, and their suppliers – as well as the vast majority of U.S. aluminum production and 161,000 direct U.S. aluminum jobs at facilities in 35 states. Aluminum is a key element of the nation’s manufacturing base, supporting 713,000 total jobs, and \$186 billion in economic output -- approximately 1% of GDP. Our industry is seeing historic domestic demand for aluminum-- particularly in the transportation sector, and investing in manufacturing jobs to meet the demand.

Your unique perspective on the Administration's approach to strategic policies that both ensure environmental protection and promote economic growth will provide great insight to our industry leadership. At our meeting, we anticipate an audience of approximately 125 senior executives of the aluminum industry.

In addition, in the months leading up to the Annual Meeting in October, we respectfully request a meeting with you so that we may bring in some of our industry leaders to discuss the industry, and how we can work together on policy priorities of mutual interest. For instance, we share your priorities for economic growth and environmental regulatory reform and have an interest in the automotive emissions regulations under review.

We would be honored if you would consider our invitation to speak. Please let me know if you would be willing to consider this invitation. If so, we can discuss logistics and other particulars with your team and identify a date for an industry leadership briefing in advance. Again, thank you for your consideration.

Kind Regards,

Heidi Brock

**External Meeting Request Form for
Administrator E. Scott Pruitt**

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: July 14, 2017

Meeting Date:

August/September 2017

Preferable dates:

- Tuesday, August 1
- Tuesday, August 8
- Wednesday, August 8
- Thursday, August 10

Meeting Time: Flexible depending on Administrator Pruitt's schedule. We will be respectful of his time (and that of any senior staff who may also attend) and therefore propose to limit our meeting to one hour.

Requested Location (if offsite, please list address, parking instructions, etc.):

EPA offices

Requestor: The Aluminum Association

Purpose of the Meeting: Meeting with C-level aluminum industry executives to discuss EPA activity, particularly in the area of the midterm review of vehicle fuel economy and regulatory reform.

Background on the Meeting:

Aluminum is a critical element of the nation's manufacturing base, supporting 713,000 jobs and \$186 billion in economic output, approximately 1% of GDP. Since 2013, the aluminum industry has invested or committed to invest more than \$2.3 billion in U.S. manufacturing, largely to capture historic demand growth for aluminum in the passenger vehicle and light truck market as OEMs strive for improved vehicle fuel economy. Under the right environmental and economic conditions, the industry has the opportunity to grow and further contribute to the nation's manufacturing base. In addition, our industry continues to be heavily involved with EPA staff, NHTSA staff and the California Air Resources Board in providing input both as part of the auto and light truck mid-term review process as well as the recent heavy truck phase 2 emissions rule. Our

Tempering this growth and growth potential is a difficult international trade environment, as well as a challenging domestic environmental regulatory structure and we would like to further share the industry's thoughts on environmental regulatory reform in an open dialogue with the administrator. This will supplement our recent public comment written submittal to EPA regarding opportunities for environmental regulatory reform.

Role of the Administrator:

We would first like to introduce the industry and its key issues at the EPA with the Administrator. We also welcome the administrator's view on these topics, along with any additional areas of focus related to his priorities and how we might support those efforts.

Attendees:

Heidi Brock, President & CEO of the Aluminum Association, along with approximately 5 senior level executives representing major domestic aluminum producing companies with particular emphasis on the automotive sector.

Point of Contact:

Joe Quinn
VP, Public Affairs
The Aluminum Association

Ex. 6

jquinn@aluminum.org

**External Meeting Request Form for
Administrator E. Scott Pruitt**

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: July 14, 2017

Meeting Date: Preferably Wednesday, October 4, 2017, or Tuesday, October 3, 2017

Meeting Time: 10 a.m. – 11 a.m. on Wed, Oct 4, or 12:30 p.m. – 1:30 p.m. on Tues, Oct 3

Requested Location (if offsite, please list address, parking instructions, etc.):

Lowe's Madison
1177 15th St NW
Washington, D.C. 20005

Requestor: The Aluminum Association

Purpose of the Meeting: Annual meeting of Aluminum Association membership

Background on the Meeting:

The Aluminum Association represents U.S. and foreign-based companies and their suppliers throughout the value chain, from primary production to value added products to recycling. The Association is the industry's leading voice, providing global standards, business intelligence, sustainability research and industry expertise to member companies, policymakers and the general public. The aluminum industry helps manufacturers produce sustainable and innovative products, including more fuel efficient vehicles, recyclable packaging, greener buildings and modern electronics. In the U.S., the aluminum industry creates \$186 billion in economic activity.

The association hosts two annual membership meetings, one in the spring and one in the fall. The meetings provide an opportunity to conduct association business, network as an industry, hold breakout committee meetings, share information and best practices and hear from prominent speakers.

Role of the Administrator:

We would welcome a speaking role from the administrator during one of our general session meetings. Given prevailing industry trends, the group has a particular interest in the midterm review of vehicle fuel economy as well as regulatory reform issues, so would be especially interested in an update on those topics.

Attendees:

100+ senior level executives representing domestic aluminum producers, fabricators, recyclers and their suppliers

Point of Contact:

Joe Quinn

VP, Public Affairs

The Aluminum Association

Sorry for the delay on this.

I am going to suggest the week of September 11 or the week of October 16. We need to avoid September 21-22, which is Rosh Hashana. We should also avoid September 26.

Let me know what you think.

On Jun 9, 2017, at 7:51 AM, Woodward, Cheryl <Woodward.Cheryl@epa.gov> wrote:

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, June 28th at 10:30 am. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building**.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process

Hi Amy,

Thank you so much for following up! My apologies for the delay, I somehow missed Ryan's email about this. So it looks like the 11:30 time slot you suggested on June 28th we actually have a meeting over at the White House that we can't reschedule. Could we potentially look at the afternoon? Maybe around 3PM?

Thank you!

Subject: Meeting with Administrator Pruitt June 28th

Ryan and Mandy,

Hope all is well. I'm sure things are busy over there given yesterday's announcement.

We were hoping Administrator Pruitt might have some time to meet Honeywell's Performance Materials and Technologies CEO, Rajeev Gautam, and Honeywell's General Counsel, Kate Adams, on June 28th? We are eager to give him an overview on our business and specifically talk about the Significant New Alternatives Policy (SNAP) program and SNAP rules, Montreal Protocol and greenhouse gas emissions and fuel economy standards for light-duty vehicles.

Please let me know if timing works and if you need anything more from my end.

Best,
Amy

Honeywell (www.honeywell.com) is a Fortune 100 diversified technology and manufacturing leader, serving customers worldwide with aerospace products and services; control technologies for buildings, homes, and industry; turbochargers; and performance materials. For more news and information on Honeywell, please visit www.honeywell.com/newsroom.

Honeywell Performance Materials and Technologies (PMT) is a global leader in helping industrial customers become more connected in order to improve efficiency, reliability, optimization and security. PMT's Advanced Materials business manufactures a wide variety of high-performance products, including Solstice® an environmentally preferable refrigerant, and Spectra®, a lightweight but incredibly strong fiber used in bullet-resistant armor, helmets and other performance fabrics. Honeywell UOP (www.uop.com) helped create the modern refining industry, and its process technologies and catalysts form the foundation for most of the world's refineries, petrochemical manufacturers and natural gas processors. Honeywell Process Solutions (www.honeywellprocess.com) is a pioneer in automation control, instrumentation and services for industries such as oil and gas, refining, pulp and paper, industrial power generation, chemicals and petrochemicals, biofuels, life sciences, and metals, minerals and mining.

Hi Liz,

Thanks for being patient with me! It looks like we can do 3:45pm on Tuesday. Would that work on your end? Please let me know who all will be attending and the best day of contact.

I have also cc'ed Cheryl who will help out with logistics.

Have a great weekend!

Best,
Maddy

Hi Sydney,
I understand from Troy that he has shared our request with you for a meeting w/the Administrator on June 27th. My CEO and some of our global business division CEO's will be in town and are anxious to meet with the Administrator to discuss where our innovative energy technologies can match up with the Administrators priority to reset the EPA agenda. Let me know what you else you may need? I am hoping there will be time that afternoon.
Best,
Liz

Subject: Meeting with Administrator Pruitt

Good afternoon Mona,

Thank you so much for reaching out on behalf of the Medial Society Consortium! So unfortunately with 3 international trips coming up we aren't adding much to the schedule right now. Might be better if you could loop back at the beginning 2018. So sorry to delay, we are just gearing up for a very packed 6 months. Hope you have a wonderful week!

Best,
Sydney

Hi Maddy. Attached are two meeting requests from the Aluminum Association:

- 1) The "CEO Fly-in" request is for a meeting the second week of August at your office with the Administrator and C-level aluminum industry executives to discuss the midterm review of vehicle fuel economy and regulatory reform.
- 2) The "Fall 2017 Meeting" request is for Wed, Oct 4 at 10 a.m. at the Lowes Madison downtown as a general session speaker before 100+ senior level executives from across the industry at our Annual Meeting.

Thank you for considering our requests. Please let us know if you need any more information from us.

Have a good weekend.

Joe

Subject: Invitation to speak at the Aluminum Association annual meeting on October 4, 2017 in Washington, DC

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Ave., N.W.
Washington, DC 20460

Dear Administrator Pruitt,

On behalf of the Aluminum Association, I would like to invite you to be a key note speaker at our 2017 Annual Meeting in Washington, D.C., October 2-4th at the Loews Madison hotel (15th and M St. NW). Specifically we wonder if you are available to speak at 10 a.m. on Wednesday, October 4.

The Aluminum Association represents the United States aluminum value chain – from primary producers, to recyclers, to fabricators, and their suppliers – as well as the vast majority of U.S. aluminum production and 161,000 direct U.S. aluminum jobs at facilities in 35 states. Aluminum is a key element of the nation’s manufacturing

base, supporting 713,000 total jobs, and \$186 billion in economic output -- approximately 1% of GDP. Our industry is seeing historic domestic demand for aluminum-- particularly in the transportation sector, and investing in manufacturing jobs to meet the demand.

Your unique perspective on the Administration's approach to strategic policies that both ensure environmental protection and promote economic growth will provide great insight to our industry leadership. At our meeting, we anticipate an audience of approximately 125 senior executives of the aluminum industry.

In addition, in the months leading up to the Annual Meeting in October, we respectfully request a meeting with you so that we may bring in some of our industry leaders to discuss the industry, and how we can work together on policy priorities of mutual interest. For instance, we share your priorities for economic growth and environmental regulatory reform and have an interest in the automotive emissions regulations under review.

We would be honored if you would consider our invitation to speak. Please let me know if you would be willing to consider this invitation. If so, we can discuss logistics and other particulars with your team and identify a date for an industry leadership briefing in advance. Again, thank you for your consideration.

Kind Regards,

Heidi Brock

JOIN THE CONVERSATION:     

[Safety is coming to Detroit! Register now.](#)

**External Meeting Request Form for
Administrator E. Scott Pruitt**

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: July 14, 2017

Meeting Date:

August/September 2017

Preferable dates:

- Tuesday, August 1
- Tuesday, August 8
- Wednesday, August 8
- Thursday, August 10

Meeting Time: Flexible depending on Administrator Pruitt's schedule. We will be respectful of his time (and that of any senior staff who may also attend) and therefore propose to limit our meeting to one hour.

Requested Location (if offsite, please list address, parking instructions, etc.):

EPA offices

Requestor: The Aluminum Association

Purpose of the Meeting: Meeting with C-level aluminum industry executives to discuss EPA activity, particularly in the area of the midterm review of vehicle fuel economy and regulatory reform.

Background on the Meeting:

Aluminum is a critical element of the nation's manufacturing base, supporting 713,000 jobs and \$186 billion in economic output, approximately 1% of GDP. Since 2013, the aluminum industry has invested or committed to invest more than \$2.3 billion in U.S. manufacturing, largely to capture historic demand growth for aluminum in the passenger vehicle and light truck market as OEMs strive for improved vehicle fuel economy. Under the right environmental and economic conditions, the industry has the opportunity to grow and further contribute to the nation's manufacturing base. In addition, our industry continues to be heavily involved with EPA staff, NHTSA staff and the California Air Resources Board in providing input both as part of the auto and light truck mid-term review process as well as the recent heavy truck phase 2 emissions rule. Our

Tempering this growth and growth potential is a difficult international trade environment, as well as a challenging domestic environmental regulatory structure and we would like to further share the industry's thoughts on environmental regulatory reform in an open dialogue with the administrator. This will supplement our recent public comment written submittal to EPA regarding opportunities for environmental regulatory reform.

Role of the Administrator:

We would first like to introduce the industry and its key issues at the EPA with the Administrator. We also welcome the administrator's view on these topics, along with any additional areas of focus related to his priorities and how we might support those efforts.

Attendees:

Heidi Brock, President & CEO of the Aluminum Association, along with approximately 5 senior level executives representing major domestic aluminum producing companies with particular emphasis on the automotive sector.

Point of Contact:

Joe Quinn
VP, Public Affairs
The Aluminum Association

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: July 14, 2017

Meeting Date: Preferably Wednesday, October 4, 2017, or Tuesday, October 3, 2017

Meeting Time: 10 a.m. – 11 a.m. on Wed, Oct 4, or 12:30 p.m. – 1:30 p.m. on Tues, Oct 3

Requested Location (if offsite, please list address, parking instructions, etc.):

Lowe's Madison
1177 15th St NW
Washington, D.C. 20005

Requestor: The Aluminum Association

Purpose of the Meeting: Annual meeting of Aluminum Association membership

Background on the Meeting:

The Aluminum Association represents U.S. and foreign-based companies and their suppliers throughout the value chain, from primary production to value added products to recycling. The Association is the industry's leading voice, providing global standards, business intelligence, sustainability research and industry expertise to member companies, policymakers and the general public. The aluminum industry helps manufacturers produce sustainable and innovative products, including more fuel efficient vehicles, recyclable packaging, greener buildings and modern electronics. In the U.S., the aluminum industry creates \$186 billion in economic activity.

The association hosts two annual membership meetings, one in the spring and one in the fall. The meetings provide an opportunity to conduct association business, network as an industry, hold breakout committee meetings, share information and best practices and hear from prominent speakers.

Role of the Administrator:

We would welcome a speaking role from the administrator during one of our general session meetings. Given prevailing industry trends, the group has a particular interest in the midterm review of vehicle fuel economy as well as regulatory reform issues, so would be especially interested in an update on those topics.

Attendees:

100+ senior level executives representing domestic aluminum producers, fabricators, recyclers and their suppliers

Point of Contact:

Joe Quinn

VP, Public Affairs

The Aluminum Association

Morning Rashid,

Administrator Pruitt would be happy to come the ACCCE board meeting and speak at 10:00am on Thursday next week. Sorry to be a pain, since the Administrator is coming at 10:00am, could you update the attachment reflecting the new schedule? Appreciate your help.

Please let me know if you have any more questions for me. Also the Administrator's Advance team should be in contact with you soon to work out all logistics.

Best,
Maddy

Hey Rashid,

Thanks for the email, and nice to virtually meet you! I don't have the original request. Were you all planning on coming over to the EPA or having him stop by your board meeting?

Appreciate your help in trying to make this work!

Best,
Maddy

No worries! Thrilled you were able to help us get the meeting. Do I need any special instructions to enter? And we will have one security person with us – sorry the board always travels with security. He won't go into the meeting but would like to just stand outside the room. Is that ok?

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Ave., N.W.
Washington, DC 20460

Dear Administrator Pruitt,

On behalf of the Aluminum Association, I would like to invite you to be a key note speaker at our 2017 Annual Meeting in Washington, D.C., October 2-4th at the Loews Madison hotel (15th and M St. NW). Specifically we wonder if you are available to speak at 10 a.m. on Wednesday, October 4.

The Aluminum Association represents the United States aluminum value chain – from primary producers, to recyclers, to fabricators, and their suppliers – as well as the vast majority of U.S. aluminum production and 161,000 direct U.S. aluminum jobs at facilities in 35 states. Aluminum is a key element of the nation’s manufacturing base, supporting 713,000 total jobs, and \$186 billion in economic output -- approximately 1% of GDP. Our industry is seeing historic domestic demand for aluminum-- particularly in the transportation sector, and investing in manufacturing jobs to meet the demand.

Your unique perspective on the Administration's approach to strategic policies that both ensure environmental protection and promote economic growth will provide great insight to our industry leadership. At our meeting, we anticipate an audience of approximately 125 senior executives of the aluminum industry.

In addition, in the months leading up to the Annual Meeting in October, we respectfully request a meeting with you so that we may bring in some of our industry leaders to discuss the industry, and how we can work together on policy priorities of mutual interest. For instance, we share your priorities for economic growth and environmental regulatory reform and have an interest in the automotive emissions regulations under review.

We would be honored if you would consider our invitation to speak. Please let me know if you would be willing to consider this invitation. If so, we can discuss logistics and other particulars with your team and identify a date for an industry leadership briefing in advance. Again, thank you for your consideration.

Kind Regards,

Heidi Brock

Hi Liz,

Thanks for being patient with me! It looks like we can do 3:45pm on Tuesday. Would that work on your end? Please let me know who all will be attending and the best day of contact.

I have also cc'ed Cheryl who will help out with logistics.

Have a great weekend!

Best,
Maddy

Hey Liz,

Yes he did! So as of right now it looks like we might be testifying and then traveling on the 27th. Is there any chance you all might be in town again soon?

Thank you!

Hey Rob,

We have actually met before on the Denny Rehberg 2012 Senate run. I was Denny's scheduler back in the day. Anyways! SO sorry for the delay. The 25th is tough, because there is an all-day White House event that we don't have the details on quiet yet. Do you mind filling out the attached form, that way all the information we need is included?

Will be in touch soon.

Best,
Maddy

Administrator

Maddy & Ryan: Monsanto CEO Hugh Grant (bio below) will be in DC meeting with Congressional Members on Tuesday July 25th. I would love the opportunity to have Hugh meet with Administrator Pruitt during this visit if it works for his schedule. He is available from 10:30-5:30 on the 25th.

Please let me know if something can work. Thanks for your consideration and hope both had a great July 4th.

Rob

Hugh Grant; Chairman and Chief Executive Officer

<image001.jpg>

Hugh Grant is the Chairman and Chief Executive Officer of Monsanto Company, where he leads more than 20,000 employees in 67 countries who work to provide a broad range of solutions to help farmers nourish a growing world. Under his leadership, the company is focused on developing and advancing sustainable agricultural practices to help conserve the planet's natural resources.

Hugh has worked in agriculture his entire career, beginning with a part-time job in college picking lettuce and tomatoes in the countryside of Scotland, to leading Monsanto Company as chairman and CEO since 2003. Over his 35-year tenure with the company, he has worked for Monsanto on three continents, managing key elements of the global business and helping to diversify the company's products and technology solutions.

Under Hugh's leadership, Monsanto has been named to Fortune's World's Most Admired Companies multiple

times, and the company is routinely recognized by national and global organizations for employee innovation and workplace satisfaction. He has also been recognized on Barron's list of Most Respected CEOs, Harvard Business Review's Top 50 Best Performing CEOs, and as "CEO of the Year" by Chief Executive Magazine. In 2011, Hugh was inducted as a member of the American Academy of Arts and Sciences.

Hugh discovered a passion for science while studying agricultural zoology and molecular biology at Glasgow University. He recognized the potential for innovation to transform agriculture and went on to earn an advanced degree in agriculture at Edinburgh University and an MBA at the International Management Center in Buckingham.

Hugh and his family have made St. Louis their home, and he is deeply committed to the progress and prosperity of the regional community. He is an active member of Civic Progress in St. Louis and serves on the board of trustees for Washington University in St. Louis. In addition to his role as Chairman, Hugh chairs the Executive Committee of Monsanto Company's board of directors. He also serves on the board of PPG Industries, Inc., where he is chair of the Nominating and Governance Committee and a member of the Officers-Directors Compensation Committee.

Hey Rob,

We have actually met before on the Denny Rehberg 2012 Senate run. I was Denny's scheduler back in the day. Anyways! SO sorry for the delay. The 25th is tough, because there is an all-day White House event that we don't have the details on quiet yet. Do you mind filling out the attached form, that way all the information we need is included?

Will be in touch soon.

Best,
Maddy

Maddy: I hope you had a great July 4th. I wanted to just check back with you on this meeting request – as well as let you know Hugh wanted to discuss and provide an update on Dicamba.

Thanks
Rob

Subject: Monsanto CEO Meeting Request with Administrator

Maddy & Ryan: Monsanto CEO Hugh Grant (bio below) will be in DC meeting with Congressional Members on Tuesday July 25th. I would love the opportunity to have Hugh meet with Administrator Pruitt during this visit if it works for his schedule. He is available from 10:30-5:30 on the 25th.

Please let me know if something can work. Thanks for your consideration and hope both had a great July 4th.

Rob

Hugh Grant; Chairman and Chief Executive Officer

Hugh Grant is the Chairman and Chief Executive Officer of Monsanto Company, where he leads more than 20,000 employees in 67 countries who work to provide a broad range of solutions to help farmers nourish a growing world. Under his leadership, the company is focused on developing and advancing sustainable agricultural practices to help conserve the planet's natural resources.

Hugh has worked in agriculture his entire career, beginning with a part-time job in college picking lettuce and tomatoes in the countryside of Scotland, to leading Monsanto Company as chairman and CEO since 2003.
