Subject: AC Info

Thanks for taking the time to listen today. I thought you'd be interested in the Atlantic article that came out late last year, entitled "[How Air-Conditioning Invented the Modern World.](#)" It is about a new book by the economist Tim Harford on history's greatest breakthroughs explains why barbed wire was a revolution, paper money was an accident, and HVACs were a productivity booster. One sentence of the article states, "Air-conditioning went on to change far more than modern printing—it shaped global productivity, migration, and even politics."

On refrigeration, below are some interesting pieces. I also have asked a refrigeration engineer I know and has been around a while if he has another books or suggestions, which I will send if he does.

- [World Health Org -- The vaccine cold chain](#)
- [Smithsonian – Your Fridge Is the Most Important Invention in the History of Food](#), The Royal Society has decided that of all the things we've invented surrounding food, the refrigerator is the most important

Below are two books, but I have not read them so cannot vouch for them one way or another:

- [Refrigeration Nation: A History of Ice, Appliances, and Enterprise in America](#)
- [Cool: How Air Conditioning Changed Everything](#)

Subject: RE: Invitation for Mr. Schwab to Speak at Nuclear Energy Institute Legal Advisory Committee NOVEMBER 14th at 1:45 pm

Thank you for this message.

I plan to discuss EPA's current legal and regulatory priorities/landscape at a general level, but I will also be prepared to discuss (again, in general terms) our regulations and regulatory activity particularly with regard to radiation.

I do not plan to bring slides.

Is 145-215 for my presentation only, or should I include time for Q&A? (I'd much rather do that than simply talk for half an hour, of course!)

For a biography (please tailor to appropriate format/level of detail depending on what the other speakers provide, and please let me know if you would like more information)—

Justin Schwab has served as Deputy General Counsel of the United States Environmental Protection Agency since March of this year. He joined the Agency as legal advisor to the new administration's transition team in

January. Before joining the Agency, he practiced law at BakerHostetler in D.C., focusing his practice on environmental and related administrative law. He has clerked for the Second Circuit Court of Appeals and the Utah Supreme Court.

INVITATION FOR MR. SCHWAB TO SPEAK AT THE NOVEMBER 14, 2017 NEI LEGAL ADVISORY COMMITTEE MEETING

Dear Mr. Schwab:

On behalf of NEI's General Counsel Ellen Ginsberg and the entire Nuclear Energy Institute Legal division, thank you for agreeing to speak to the NEI Legal Advisory Committee (LAC) at the upcoming fall 2017 meeting on **Tuesday, November 14, 2017**. The meeting will be held at NEI's office at 1201 F Street, NW, Suite 1100, Washington, DC (across the street from the Metro Center metro station.)

The meeting is scheduled to run from 9 a.m. through approximately 4 p.m. A copy of the current draft agenda is attached for convenience.

NEI is the organization responsible for establishing unified policies on matters affecting the nuclear energy industry. NEI's members include all entities licensed to operate commercial nuclear power plants in the United States, nuclear plant designers, major architect/engineering firms, fuel cycle facilities, nuclear materials licensees, and other organizations and entities involved in the nuclear energy industry.

The Legal Advisory Committee is comprised of in-house counsel from member companies and attorneys from member law firms with a nuclear energy practice, thus representing a substantial part of the U.S. "nuclear bar." LAC meetings typically draw around 50 lawyers and often others who are interested in a particular topic. We like to cover an array of timely legal, regulatory, legislative, policy, and litigation issues, and we customarily invite an array of speakers from diverse backgrounds. In addition to hearing from NEI experts, we regularly feature NRC speakers (Commissioners, NRC General Counsel, NRC Solicitor, NRC Regional Administrators, directors of the Office of New Reactors, the Office of Nuclear Reactor Regulation, the Office of Enforcement, and the Office of Congressional Affairs). We also like to go further afield and hear from other Administration and federal agency officials whose policies affect the nuclear industry, *e.g.*, the DOE General Counsel, the Federal Aviation Administration OGC, the Council on Environmental Quality, the National Security Council, Congressional staff, and other federal and state officials. We are pleased that this upcoming meeting will feature leadership from the NRC, the DOE, and (with your presence on the agenda) the EPA.

We have scheduled your presentation to run from 1:45 p.m. until 2:15 p.m.

We would be interested in hearing your perspectives on whatever EPA topic(s) you care to address. As we discussed, a general overview of current EPA legal and regulatory priorities (in whatever level of detail you choose to provide) would be very useful. While NEI members are keenly interested in those federal policies that directly affect their companies, you need not limit yourself to those topics.

Before the meeting:

Please send us a short bio, which will be used to introduce you.

Do let us know if you plan to use slides. If so, we would appreciate having them before the meeting (preferably by noon on Monday, November 13) to add to the master slide deck.

We know you have many demands on your time and truly appreciate your acceptance of NEI's invitation.

Feel free to contact our division assistant Gia Montserrat (gam@nei.org) or me with any questions.

Cordially,

Anne Cottingham

To: ELMORE, Baker <mbe@nei.org>; Gunasekara, Mandy <Gunasekara.Mandy@epa.gov>; Dominguez, Alexander <dominguez.alexander@epa.gov>
Subject: RE: NEI speaking engagement

Hello everyone—

I echo Baker's email and thank Mandy for offering to find another speaker for the NEI Legal Advisory Committee (LAC) meeting on November 14. To provide a bit of background, NEI's LAC is comprised of in-house legal counsel from NEI member companies, including several general counsel, and attorneys from NEI member law firms with a nuclear energy practice. Collectively, these lawyers form a substantial part of the U.S. "nuclear bar." NEI's Legal Division hosts 3 annual LAC meetings, which typically draw around 50 lawyers or more, and often others who are interested in a particular topic. The meetings are not open to the public. I believe we can promise you a collegial, informed, and engaged audience of nuclear lawyers.

We customarily invite an array of speakers from diverse backgrounds. In addition to hearing from NEI subject matter experts, we regularly feature speakers from the NRC (Commissioners, NRC General Counsel, NRC Solicitor, NRC Regional Administrators, officials from the Office of New Reactors, the Office of Nuclear Reactor Regulation, the Office of Enforcement and Office of Congressional Affairs). We also like to go further afield from purely nuclear matters and hear from officials from the Administration and other federal agencies, *e.g.*, the DOE General Counsel, the Federal Aviation Administration OGC, Council on Environmental Quality, the National Security Council, Congressional staff, and other federal and state officials.

The meeting will be held at NEI's office, located at 1201 F Street NW, Suite 1100. (We are directly across the street from Metro Center station.) The speaker time slot we have in mind would be from about 1:45 pm – 2:15 or 2:30 pm, including both time for speaker remarks and audience questions.

We look forward to hearing from EPA and do hope you can join us – and in any event thank you for considering our invitation.

As Baker mentioned, feel free to contact either Ellen Ginsberg or me.

Cordially,

Anne Cottingham

Subject: NEI speaking engagement

Hey Alex-

I hope this finds you well. I'm a friend of Surya's and I wanted to reach out on behalf of NEI. I've been meaning to try to come in and chat but it's been crazy times in the nuclear industry of late. The reason

I'm reaching out is that my general counsel is hosting our Legal Advisory Committee (LAC) meeting at our office (1201 F Street NW) on Tuesday, November 14th, and we would love to have Mandy as a guest speaker to update our member companies on all things happening on the EPA front.

The LAC is comprised of in-house legal counsel from NEI member companies and attorneys from law firms with a nuclear energy practice. Collectively, these lawyers form a substantial part of the U.S. "nuclear bar."

The timeslot we would propose would be from 1:45-2:15 on Tuesday, November 14th, but we are flexible any time after 1:45 if it fits Mandy's schedule.

Thanks for considering and I'm happy to chat further and answer any questions you may have.

Best regards,

Baker

Anne,

Justin Schwab believes he will be able to attend on Nov. 14th. I'm connecting you with Justin and his assistant, Monique Patrick, to confirm and so you can answer any questions they may have. Additionally, if there are particular areas of interest your members would like for him to speak on please let him know to ensure he is briefed up on everything beforehand.

Best,
Alex

Subject: RE: NEI speaking engagement

Hello everyone—

I echo Baker's email and thank Mandy for offering to find another speaker for the NEI Legal Advisory Committee (LAC) meeting on November 14. To provide a bit of background, NEI's LAC is comprised of in-house legal counsel from NEI member companies, including several general counsel, and attorneys from NEI member law firms with a nuclear energy practice. Collectively, these lawyers form a substantial part of the U.S. "nuclear bar." NEI's Legal Division hosts 3 annual LAC meetings, which typically draw around 50 lawyers or more, and often others who are interested in a particular topic. The meetings are not open to the public. I believe we can promise you a collegial, informed, and engaged audience of nuclear lawyers.

We customarily invite an array of speakers from diverse backgrounds. In addition to hearing from NEI subject matter experts, we regularly feature speakers from the NRC (Commissioners, NRC General Counsel, NRC Solicitor, NRC Regional Administrators, officials from the Office of New Reactors, the Office of Nuclear Reactor Regulation, the Office of Enforcement and Office of Congressional Affairs). We also like to go further afield from purely nuclear matters and hear from officials from the Administration and other federal agencies, *e.g.*, the DOE General Counsel, the Federal Aviation Administration OGC, Council on Environmental Quality, the National Security Council, Congressional staff, and other federal and state officials.

The meeting will be held at NEI's office, located at 1201 F Street NW, Suite 1100. (We are directly across the street from Metro Center station.) The speaker time slot we have in mind would be from about 1:45 pm – 2:15 or 2:30 pm, including both time for speaker remarks and audience questions.

We look forward to hearing from EPA and do hope you can join us – and in any event thank you for considering our invitation.

As Baker mentioned, feel free to contact either Ellen Ginsberg or me.

Cordially,

Anne Cottingham

Mandy- we would really appreciate the offer for one of your deputy general counsels to come speak to our group. An overview of the key items that EPA is focusing on would be much appreciated by this group.

I'm going to link y'all with our associate general counsel, Anne Cottingham, who is heading up this meeting and our general counsel, Ellen Ginsberg, for next steps. Also, Ellen said to feel free and call her at Ex. 6 with any questions.

Thanks again!

Hey Baker,

Thank you very much for extending Mandy the invitation. Unfortunately she is going to be on work-related travel November 11th through the 17th and will be unable to attend. Happy to set up a meeting between you and Mandy but we are currently looking at December due to travel. If you want to touch base and send me a reminder mid-November, that would be appreciated. Anything else just let me know.

Best,
Alex

INVITATION FOR MR. SCHWAB TO SPEAK AT THE NOVEMBER 14, 2017 NEI LEGAL ADVISORY COMMITTEE MEETING

Dear Mr. Schwab:

On behalf of NEI's General Counsel Ellen Ginsberg and the entire Nuclear Energy Institute Legal division, thank you for agreeing to speak to the NEI Legal Advisory Committee (LAC) at the upcoming fall 2017 meeting on **Tuesday, November 14, 2017**. The meeting will be held at NEI's office at 1201 F Street, NW, Suite 1100, Washington, DC (across the street from the Metro Center metro station.)

The meeting is scheduled to run from 9 a.m. through approximately 4 p.m. A copy of the current draft agenda is attached for convenience.

NEI is the organization responsible for establishing unified policies on matters affecting the nuclear energy industry. NEI's members include all entities licensed to operate commercial nuclear power plants in the United States, nuclear plant designers, major architect/engineering firms, fuel cycle facilities, nuclear materials licensees, and other organizations and entities involved in the nuclear energy industry.

The Legal Advisory Committee is comprised of in-house counsel from member companies and attorneys from member law firms with a nuclear energy practice, thus representing a substantial part of the U.S. "nuclear bar." LAC meetings typically draw around 50 lawyers and often others who are interested in a particular topic. We like to cover an array of timely legal, regulatory,

legislative, policy, and litigation issues, and we customarily invite an array of speakers from diverse backgrounds. In addition to hearing from NEI experts, we regularly feature NRC speakers (Commissioners, NRC General Counsel, NRC Solicitor, NRC Regional Administrators, directors of the Office of New Reactors, the Office of Nuclear Reactor Regulation, the Office of Enforcement, and the Office of Congressional Affairs). We also like to go further afield and hear from other Administration and federal agency officials whose policies affect the nuclear industry, e.g., the DOE General Counsel, the Federal Aviation Administration OGC, the Council on Environmental Quality, the National Security Council, Congressional staff, and other federal and state officials. We are pleased that this upcoming meeting will feature leadership from the NRC, the DOE, and (with your presence on the agenda) the EPA.

We have scheduled your presentation to run from 1:45 p.m. until 2:15 p.m.

We would be interested in hearing your perspectives on whatever EPA topic(s) you care to address. As we discussed, a general overview of current EPA legal and regulatory priorities (in whatever level of detail you choose to provide) would be very useful. While NEI members are keenly interested in those federal policies that directly affect their companies, you need not limit yourself to those topics.

Before the meeting:

Please send us a short bio, which will be used to introduce you.

Do let us know if you plan to use slides. If so, we would appreciate having them before the meeting (preferably by noon on Monday, November 13) to add to the master slide deck.

We know you have many demands on your time and truly appreciate your acceptance of NEI's invitation.

Feel free to contact our division assistant Gia Montserrat (gam@nei.org) or me with any questions.

Cordially,

Anne Cottingham

Hi Mr. Schwab—I don't think this has ever happened before, but today but the lawyers' meeting is "running early."

Lunch is 12:15 – 1:pm. There is one speaker immediately after lunch (NRC commissioner Baran), and then your presentation.

If possible, could you join us closer to 1:30 pm (rather than 1:45 pm)?

If this is not feasible, I completely understand.

thanks, Anne Cottingham

Subject: RE: Invitation for Mr. Schwab to Speak at Nuclear Energy Institute Legal Advisory Committee NOVEMBER 14th at 1:45 pm

Thank you for this message.

I plan to discuss EPA's current legal and regulatory priorities/landscape at a general level, but I will also be prepared to discuss (again, in general terms) our regulations and regulatory activity particularly with regard to radiation.

I do not plan to bring slides.

Is 145-215 for my presentation only, or should I include time for Q&A? (I'd much rather do that than simply talk for half an hour, of course!)

For a biography (please tailor to appropriate format/level of detail depending on what the other speakers provide, and please let me know if you would like more information)—

Justin Schwab has served as Deputy General Counsel of the United States Environmental Protection Agency since March of this year. He joined the Agency as legal advisor to the new administration's transition team in January. Before joining the Agency, he practiced law at BakerHostetler in D.C., focusing his practice on environmental and related administrative law. He has clerked for the Second Circuit Court of Appeals and the Utah Supreme Court.

INVITATION FOR MR. SCHWAB TO SPEAK AT THE NOVEMBER 14, 2017 NEI LEGAL ADVISORY COMMITTEE MEETING

Dear Mr. Schwab:

On behalf of NEI's General Counsel Ellen Ginsberg and the entire Nuclear Energy Institute Legal division, thank you for agreeing to speak to the NEI Legal Advisory Committee (LAC) at the upcoming fall 2017 meeting on **Tuesday, November 14, 2017**. The meeting will be held at NEI's office at 1201 F Street, NW, Suite 1100, Washington, DC (across the street from the Metro Center metro station.)

The meeting is scheduled to run from 9 a.m. through approximately 4 p.m. A copy of the current draft agenda is attached for convenience.

NEI is the organization responsible for establishing unified policies on matters affecting the nuclear energy industry. NEI's members include all entities licensed to operate commercial nuclear power plants in the

United States, nuclear plant designers, major architect/engineering firms, fuel cycle facilities, nuclear materials licensees, and other organizations and entities involved in the nuclear energy industry.

The Legal Advisory Committee is comprised of in-house counsel from member companies and attorneys from member law firms with a nuclear energy practice, thus representing a substantial part of the U.S. “nuclear bar.” LAC meetings typically draw around 50 lawyers and often others who are interested in a particular topic. We like to cover an array of timely legal, regulatory, legislative, policy, and litigation issues, and we customarily invite an array of speakers from diverse backgrounds. In addition to hearing from NEI experts, we regularly feature NRC speakers (Commissioners, NRC General Counsel, NRC Solicitor, NRC Regional Administrators, directors of the Office of New Reactors, the Office of Nuclear Reactor Regulation, the Office of Enforcement, and the Office of Congressional Affairs). We also like to go further afield and hear from other Administration and federal agency officials whose policies affect the nuclear industry, *e.g.*, the DOE General Counsel, the Federal Aviation Administration OGC, the Council on Environmental Quality, the National Security Council, Congressional staff, and other federal and state officials. We are pleased that this upcoming meeting will feature leadership from the NRC, the DOE, and (with your presence on the agenda) the EPA.

We have scheduled your presentation to run from 1:45 p.m. until 2:15 p.m.

We would be interested in hearing your perspectives on whatever EPA topic(s) you care to address. As we discussed, a general overview of current EPA legal and regulatory priorities (in whatever level of detail you choose to provide) would be very useful. While NEI members are keenly interested in those federal policies that directly affect their companies, you need not limit yourself to those topics.

Before the meeting:

Please send us a short bio, which will be used to introduce you.

Do let us know if you plan to use slides. If so, we would appreciate having them before the meeting (preferably by noon on Monday, November 13) to add to the master slide deck.

We know you have many demands on your time and truly appreciate your acceptance of NEI’s invitation.

Feel free to contact our division assistant Gia Montserrat (gam@nei.org) or me with any questions.

Cordially,

Anne Cottingham

Anne,

Justin Schwab believes he will be able to attend on Nov. 14th. I'm connecting you with Justin and his assistant, Monique Patrick, to confirm and so you can answer any questions they may have. Additionally, if there are particular areas of interest your members would like for him to speak on please let him know to ensure he is briefed up on everything beforehand.

Best,
Alex

Subject: RE: NEI speaking engagement

Hello everyone—

I echo Baker's email and thank Mandy for offering to find another speaker for the NEI Legal Advisory Committee (LAC) meeting on November 14. To provide a bit of background, NEI's LAC is comprised of in-house legal counsel from NEI member companies, including several general counsel, and attorneys from NEI member law firms with a nuclear energy practice. Collectively, these lawyers form a substantial part of the U.S. "nuclear bar." NEI's Legal Division hosts 3 annual LAC meetings, which typically draw around 50 lawyers or more, and often others who are interested in a particular topic. The meetings are not open to the public. I believe we can promise you a collegial, informed, and engaged audience of nuclear lawyers.

We customarily invite an array of speakers from diverse backgrounds. In addition to hearing from NEI subject matter experts, we regularly feature speakers from the NRC (Commissioners, NRC General Counsel, NRC Solicitor, NRC Regional Administrators, officials from the Office of New Reactors, the Office of Nuclear Reactor Regulation, the Office of Enforcement and Office of Congressional Affairs). We also like to go further afield from purely nuclear matters and hear from officials from the Administration and other federal agencies, *e.g.*, the DOE General Counsel, the Federal Aviation Administration OGC, Council on Environmental Quality, the National Security Council, Congressional staff, and other federal and state officials.

The meeting will be held at NEI's office, located at 1201 F Street NW, Suite 1100. (We are directly across the street from Metro Center station.) The speaker time slot we have in mind would be from about 1:45 pm – 2:15 or 2:30 pm, including both time for speaker remarks and audience questions.

We look forward to hearing from EPA and do hope you can join us – and in any event thank you for considering our invitation.

As Baker mentioned, feel free to contact either Ellen Ginsberg or me.

Cordially,

Anne Cottingham

Mandy- we would really appreciate the offer for one of your deputy general counsels to come speak to our group. An overview of the key items that EPA is focusing on would be much appreciated by this group.

I'm going to link y'all with our associate general counsel, Anne Cottingham, who is heading up this meeting and our general counsel, Ellen Ginsberg, for next steps. Also, Ellen said to feel free and call her at Ex. 6 with any questions.

Thanks again!

Hey Baker, Following up to Alex's note- would you be interested in hearing from one of our deputy general counsels? They may be a good fit considering the audience. We are happy to help make the connection us know.

Please do keep me in mind for future opportunities.

Best,
Mandy

Hey Baker,

Thank you very much for extending Mandy the invitation. Unfortunately she is going to be on work-related travel November 11th through the 17th and will be unable to attend. Happy to set up a meeting between you and Mandy but we are currently looking at December due to travel. If you want to touch base and send me a reminder mid-November, that would be appreciated. Anything else just let me know.

Best,
Alex

Subject: NEI speaking engagement

Hey Alex-

I hope this finds you well. I'm a friend of Surya's and I wanted to reach out on behalf of NEI. I've been meaning to try to come in and chat but it's been crazy times in the nuclear industry of late. The reason I'm reaching out is that my general counsel is hosting our Legal Advisory Committee (LAC) meeting at our office (1201 F Street NW) on Tuesday, November 14th, and we would love to have Mandy as a guest speaker to update our member companies on all things happening on the EPA front.

The LAC is comprised of in-house legal counsel from NEI member companies and attorneys from law firms with a nuclear energy practice. Collectively, these lawyers form a substantial part of the U.S. "nuclear bar."

The timeslot we would propose would be from 1:45-2:15 on Tuesday, November 14th, but we are flexible any time after 1:45 if it fits Mandy's schedule.

Thanks for considering and I'm happy to chat further and answer any questions you may have.

Best regards,

Baker
