

ACRES 6: Training for the EPA Project Officer

October 3, 2019

Agenda

- ◆ **Introduction to ACRES**
- ◆ **Quality Assurance Process**
- ◆ **Getting into ACRES**
- ◆ **CA Home Screen**
- ◆ **Property Home Screen – Reviewing work packages**
- ◆ **Report Tools**

What is ACRES?

◆ **Assessment, Cleanup and Redevelopment Exchange System (ACRES)**

- The system of record for calculating GPRA measures
- Electronic version of Property Profile Form
- Continuously incorporates feedback received from each user group
- Team ACRES is working on making ACRES a beneficial tool for project management

What is my role in ACRES as a Project Officer?

Project Officers:

- ◆ **Review the data your grantee submits**
- ◆ **Ensure accuracy in reporting**
 - Data is consistent with the workplan
 - Data is accurate
 - Data is consistent with the quarterly reports
- ◆ **DISCUSSION:**
 - What do you see as your role in ACRES?
 - What are the challenges you encounter that keep you from having a successful PO review?

Once a grantee enters their data into ACRES, the work package comes to the Project Officer (PO) for review. As the PO, you are responsible for checking that accuracy and consistency of the data being reported. The data entered by the grantee should match what is being reported in the workplan and quarterly report.

Why is my role important to ACRES?

Whose job is it anyway?

- ◆ **Grantees: Responsible for entering the data**
 - Enhances credibility of the data
 - Streamlines the data collection and management processes
 - Reduces lag time in data appearing in reports and performance measure calculations
- ◆ **Project Officers (POs):** Responsibility and accountability for data quality are with the Regions. POs are responsible for ensuring that the data meets our data quality standards.
- ◆ **Headquarters:** Responsible for overall data quality and system maintenance, enhancements, and improvements.

Grantee entered data can be entered by the grantee themselves or contractors. Data entry done directly by the grantee (or grantee contractor) ensure the credibility of the data being entered, allows for better management of data, and the simplifies the review process.

As a project officer, it is your job to meet the quality standards of the Brownfields' program within your region. This can be done by overseeing grantees to ensure all data is timely and accurate.

Why is my role so important for ACRES?

- ◆ Accurate & complete grantee data is very important
- ◆ Data is publically available via Cleanups in My Community
- ◆ Data entered into ACRES is available to any requesting party through FOIA
- ◆ Results are frequently reported to Congress
- ◆ Senior management relies on the data to measure the success of the program
- ◆ Incomplete or inaccurate data negatively skews the data set
- ◆ Critical PO review will improve data quality
- ◆ Audit trail

Your role as an EPA Project Officer is important because ACRES is the official system of record for the Brownfields' data. Any requested information or statistics for the Brownfields' comes directly from ACRES. This includes congressional inquiries, FOIA requests, and Data quality metrics. ACRES data is also available publically on Cleanups in My Community at www.epa.gov/CIMC.

Definitions

◆ **Work Package**

- Any set of related data that need to be entered, edited and/or approved together. For example, all data from the PPF constitute a single work package

◆ **Workflow**

- The series of actions and states that a work package must pass through before being completed/approved

◆ **Status**

- The condition of the work package at a given point within the workflow
- Indicates where the work package is in the process of being entered, reviewed, edited, and/or approved

◆ **Property Record**

- Permanent record in ACRES containing all property data in a format based on the hard-copy Property Profile Form
- Updated when a property work package is approved

These are definition that will be useful to you when using the ACRES system. An easier way to look at this is like a letter being delivered through the post office. The letter represents the property record and the envelop represents the work package. The work package moves from one location to another, in what we call the workflow. The status represents where the envelop is as it travels to its final destination. The letter itself is permanent as the envelop it's being housed is temporary. Just like the property record and work package, respectively.

What is the Q/A process?

- ◆ The ACRES workflow is a series of actions and states that a work package must pass through before being completed
- ◆ The status of a work package indicates where it is in the workflow

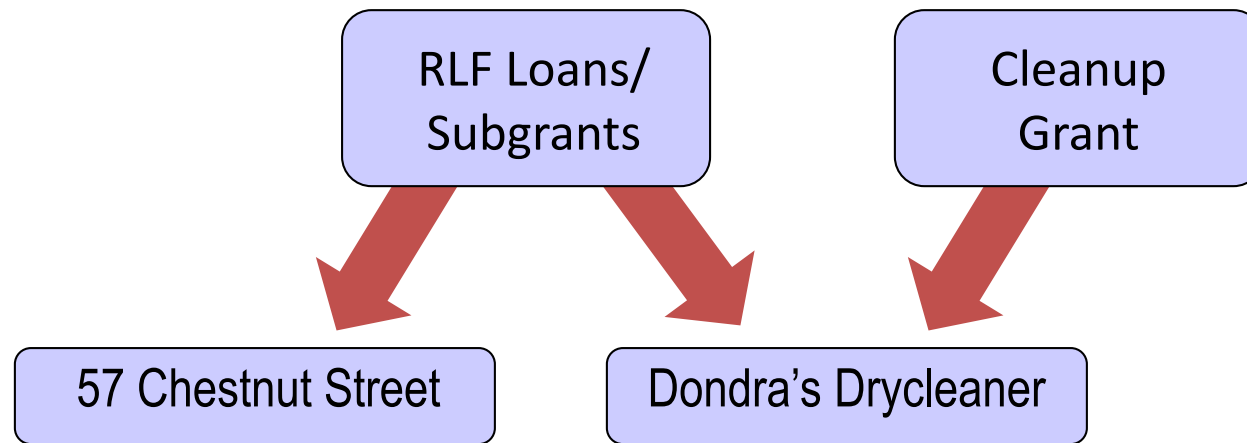

The ACRES workflow is the term for linear process of entering, reviewing, and approving data in a work package. The CAR starts a work package for a property. The work package comes to you as the Project Officer for review. The PO approves the work package and it goes to EPA Headquarters for review. When a work package is approved by Headquarters, the property record in ACRES is updated and the work package is discarded.

Data Organization in ACRES

- ◆ Each Cooperative Agreement is one record in ACRES
- ◆ A single property may be associated with more than one grant

ACRES allows a property to be associated to multiple cooperative agreements. This is done so that duplicate properties are not created in ACRES when a property has been addressed by more than one cooperative agreement. There is no limit to how many cooperative agreements can be associated to a property.

What is the PO role in the Q/A process?

- ◆ The PO reviews CAR data for accuracy and completeness.
- ◆ Any data that is inadequate or incorrect should be updated.
- ◆ Once all data is verified as correct, accept the work package & send it to HQ for final review.

When a work package comes to your queue for review, Project Officers should be looking for accurate and complete property data. If you review data that needs to be updated, a PO has two options. The first option is to send the work package back to the CAR for updates. The second option is for you is to update the information yourself. Once the work package is accepted in Regional Review, it is sent to Headquarters for National Program Review.

What happens after the data is approved by the PO?

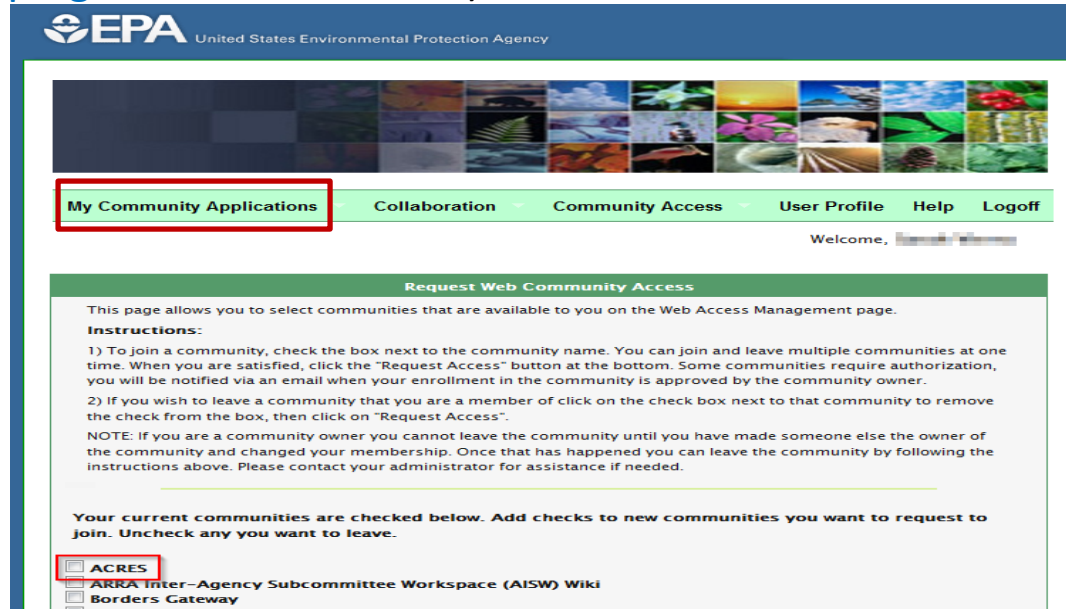

- ◆ Final data is reported via Cleanups in My Community (CIMC). This is available to the public.
- ◆ Note that CIMC is updated with ACRES information once a month.

ACRES information is publically available through Cleanups in my Community at www.epa.gov/cimc. As a Project Officer, when information is approved in ACRES it is made available through CIMC. Updated ACRES information is passed to CIMC once a month. The new data is available on CIMC around the 18th of the month.

Getting into ACRES

- ◆ EPA users request ACRES access by adding ACRES to 'My Communities' via the EPA Portal.
- ◆ Each EPA user should login into ACRES using their EPA LAN credentials (<https://cfext.epa.gov/acres/index.cfm>).

To register for ACRES, go to portal.epa.gov and login with your EPA LAN credentials. Once you are logged into the EPA Portal, click the My Community Applications tab and click the ACRES checkbox. Once you have added ACRES to your community, the ACRES Help Desk will receive your request. You will receive an email once your request has been accepted. To login to ACRES, go to <https://cfext.epa.gov/acres/> and enter your EPA LAN credentials.

As a PO, helpful links on this page include the links to the Compass Financial data warehouse and the Grant Fact Sheet tool.

What to look for when reviewing work packages

Property Activity Information

- ◆ **Assessment or Cleanup activity**
- ◆ **Is there correct funding level for each activity? Does it match the quarterly reports?**
- ◆ **Assessment activity**
 - Was any contamination found requiring further investigation/cleanup?
 - Are the assessment completion dates entered ?
 - Is cleanup required (or necessary)?
- ◆ **Cleanup activity**
 - Start date, completion date, Cleanup Completion Documentation, ICs/ECS required/in place?
- ◆ **Redevelopment activity**
 - Start date, funding levels/jobs recorded, basis to support data submitted?

Work packages To Review- Regional Review

- ◆ Any work packages to review will appear under the 'Work Packages to Review' card on you Home Screen.

When on the ACRES home screen, any work packages you need to review will be under your 'Open Work Packages' tab. The name of the property, ACRES Property ID, link to the property home page, cooperative agreement number, who submitted the work package, and other property information will be listed. To review a work package, click the 'Review data' link; You will be directed to the property profile form. 18

Work packages To Review

- ◆ Once the work package is opened for review, modified data requiring review and advisory notes will be listed.
- ◆ Any data entered by the grantee can also be updated during your review by clicking the 'Edit' link.

The screenshot displays the ACRES review interface. At the top, a progress bar with six numbered steps is shown. Step 4, 'Property Profile Form Part II: Environmental Activities', is highlighted with a red circle and an arrow pointing to it from the text 'Any data entered by the grantee can also be updated during your review by clicking the 'Edit' link.' Below the progress bar, a yellow box contains the instruction: 'Please review the changes highlighted in yellow and then SUBMIT. Data listed under "DATA IN ACRES" column is the current information that is stored in ACRES. Data listed under the "DATA FOR REVIEW" column is only that data that has been modified and is to be examined by a Quality Assurance reviewer. (Property is not submitted until the "Submit Data Now" button is clicked: [Jump to Submit Button](#))'. To the right of this box, a red box titled 'POSSIBLE ISSUES' contains the text: 'If cleanup is requested or recommended, and it is the end of Phase I or II, don't forget to enter the REC and Found information in the Contaminants & Media Affected Information section.' Below this, a white box titled 'Submission Notes' is visible. The main section of the form is titled 'PPF PART I: PROPERTY INFORMATION' and 'Cooperative Agreement (CA) Information'. It contains a table with three columns: 'DESCRIPTION', 'DATA FOR REVIEW', and 'APPROVED DATA IN ACRES'. The table has five rows of data. An 'Edit' button is located at the top right of the table. Below the table, the text 'Property Information' is visible.

1 Select CA 2 3 Property Profile Form Part I: Property Information 4 Property Profile Form Part II: Environmental Activities 5 Property Profile Form Part III: Additional Property Information 6 Review & Submit

Please review the changes highlighted in yellow and then SUBMIT.
Data listed under "DATA IN ACRES" column is the current information that is stored in ACRES. Data listed under the "DATA FOR REVIEW" column is only that data that has been modified and is to be examined by a Quality Assurance reviewer.
(Property is not submitted until the "Submit Data Now" button is clicked: [Jump to Submit Button](#))

POSSIBLE ISSUES
If cleanup is requested or recommended, and it is the end of Phase I or II, don't forget to enter the REC and Found information in the Contaminants & Media Affected Information section.

Submission Notes

PPF PART I: PROPERTY INFORMATION
Cooperative Agreement (CA) Information

DESCRIPTION	DATA FOR REVIEW	APPROVED DATA IN ACRES
CA Name:	Boise, City of TST	[No Approved Data]
CA Type:	Cleanup	[No Approved Data]
CA ID:	BF 00TST125	[No Approved Data]
Announcement Year:	2008	[No Approved Data]
Funding types (Assessment, Cleanup, and RLF CAs only):	Petroleum	[No Approved Data]

Property Information

When you are reviewing a work package, the top section will identify the data the CAR entered requiring review. Also, ACRES will remind you when you need to watch out for additional fields based on what the CAR reported to EPA. If there is any data that needs to be updated, you can use the Edit function at the top of each section in ACRES. Any Submission notes entered by the CAR will be shown at the top of the screen above Part I of the Property Profile Form.

Updating property data during Regional Review

- ◆ Once the 'Edit' link is opened, the Property Profile Form will appear to allow for any property updates.

PPF PART I: PROPERTY INFORMATION
Cooperative Agreement (CA) Information

DESCRIPTION	DATA FOR REVIEW	APPROVED DATA IN ACRES
CA Name:	Boise, City of TST	[No Approved Data]
CA Type:	Cleanup	[No Approved Data]
CA ID:	BF 00TST125	[No Approved Data]
Announcement Year:	2008	[No Approved Data]
Funding types (Assessment, Cleanup, and RLF CAs only):	Petroleum	[No Approved Data]

Property Information

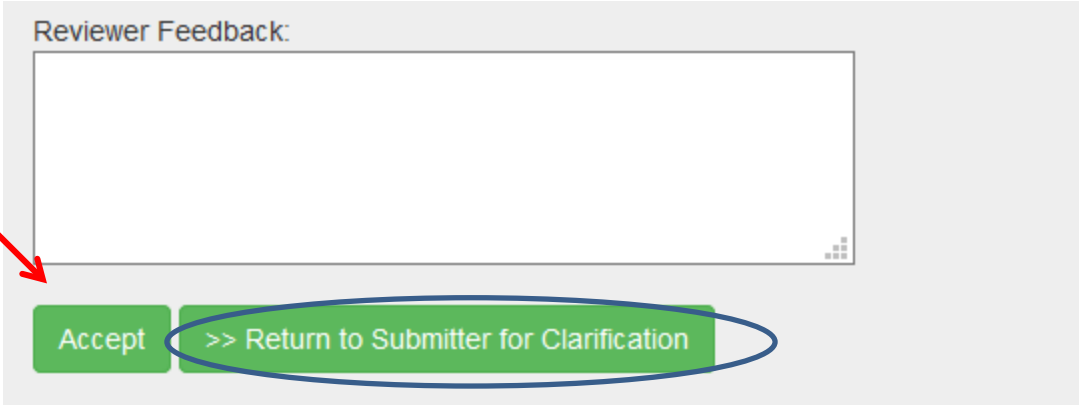

DESCRIPTION	DATA FOR REVIEW	APPROVED DATA IN ACRES
Name:	Test	[No Approved Data]
Alias:		[No Approved Data]
Property Owner:	Government	
Street Address:	3434 washington blvd	[No Approved Data]
Street Address Line 2:		[No Approved Data]
City:	ARLINGTON	[No Approved Data]
County:	ARLINGTON	[No Approved Data]
State:	VA	[No Approved Data]
Zip Code:	22201	[No Approved Data]
Size (in acres):	1.5	[No Approved Data]

As a PO, you can update any property information in the Property Profile Form while the property is in regional review.

Property Home screen – Data to review

- ◆ To approve the work package and send to National Program Review, click the Accept button.
- ◆ To send the work package back to the grantee for clarification, click the 'Return to Submitter for Clarification' button.

****Reviewer Feedback is required when a work package is sent back for clarification.**

The screenshot shows a 'Reviewer Feedback' section with a large text input area. Below the input area are two green buttons: 'Accept' and '>> Return to Submitter for Clarification'. A red arrow points to the bottom-left corner of the text input area. The button '>> Return to Submitter for Clarification' is circled in blue.

If you have any questions for the CAR before you submit the data as final, enter the questions under 'Reviewer Feedback' and click the 'Return to Submitter for Clarification' button to return the property to the CAR to revise. If you have updated any information, it is VERY important that the data is accurate. You are the only one reviewing it! It is ok to seek clarification from the CAR if you are unsure about any information entered. If all the data is accurate and complete, accept the information and this work package is complete!

Common Data Quality Issues

- ✓ Duplicate property records
- ✓ Importance of dollars and jobs leveraged
- ✓ Using consistent dates when a property is funded under multiple CAs
- ✓ Cleanup completion date definition
- ✓ Reporting the same leveraging information under multiple grants can result in double-reporting of funding information

Here is a list of common data quality issues you will come across as a Project Officer. When reviewing work packages, please check for these issues. One of the most common issues in ACRES is duplicate property records. ACRES allows properties to be associated to multiple cooperative agreements without creating duplicates. If leveraged funding is entered under properties multiple cooperatives, it is possible for leveraged funding to be double-counted. As a PO, it is your responsibility to ensure leveraged funding is not double-counted.

Report Tools (Program Accomplishment Report)

The PAR report allows users to create reports in order to view GPRA accomplishments. Users can sort by accomplishment type, grant type, cooperative agreement, etc.

The screenshot shows the ACRES Program Accomplishment Report (PAR) interface. The header includes the ACRES logo and navigation links for 'Work Packages' and 'Quarterly Reports'. A search bar is located at the top right. The main content area is titled 'Program Accomplishment Report (PAR)' and includes instructions: 'To view instructions, click ⓘ Note that selecting 'ALL' options in all 3 columns will result in a high volume of database retrieval and a slower response time.'

The interface is divided into four main sections for filtering:

- 1. Select Accomplishment Type:** Includes checkboxes for 'All', 'Assessments Completed', 'Cleanups Completed', 'Dollars Leveraged', 'Jobs Leveraged', and 'Acres and Properties Ready for Anticipated Use (RAU)'.
- 2. Select Year(s) to report:** A dropdown menu labeled 'Select Year(s)'.
- 3. Select by Region and/or State:** Includes dropdown menus for 'Select Region(s)' and 'Select State(s)', with a note '(Not needed for TBAs)'.
- 4. Optional Selections:** Includes checkboxes for 'Include Pilot Accomplishments OR Draft Data Only (awaiting approval) (not included on PAT report/GPRA totals)', 'ARRA Cooperative Agreements (awarded in FY09 only)', 'Note: this grant type is not included in annual GPRA targets ⓘ', 'ARRA grants ONLY', and 'Include ARRA grants with other Accomplishment Grant Types selected'.

Below these sections, there is a section for 'OR Select an Alternate Cooperative Agreement Type' with a note: 'Note: these grant types are not included in annual GPRA targets'. It includes checkboxes for 'Job Training Cooperative Agreements By Grant FY ⓘ', 'Area Wide Planning Cooperative Agreements', and 'Showcase Community Cooperative Agreements'.

At the bottom, there is a section for 'OR Enter a Cooperative Agreement Number:' with a text input field and a note 'No prefix - 8 digits only'. To the right of the input field are buttons for 'Run Report', 'Reset Filters', and 'Cancel'.

The PAR has been redesigned to better meet the reporting needs of Project Officers. This report is a very useful tool in tracking GPRA accomplishments for your region. This feature allows EPA users to export this data to Excel, sort the data, and view detailed property accomplishment information.

New ACRES Features/Enhancements

◆ Quarterly Reporting utility

- ACRES now allows CARs to use ACRES data to help build quarterly reports that can be electronically filed. The utility contains space to add paragraphs of text as well as display auto-calculated financial data including costs incurred to date and total remaining funding.
- This feature is now available for cleanup and assessment grants.

◆ ACRES Web Services

- ACRES allows for interaction with the Brownfields Inventory Tool (BIT), an external system. Web services provides the ability to programmatically submit and receive data from ACRES

Along with all the new features, the ACRES team is constantly working on new enhancements. Some of the future enhancements include the quarterly report utility for all grant types. Web services will allow ACRES to interact with other external systems so that CARs do have to enter their information into multiple systems.

Common Acronyms

- ◆ **ACRES** – Assessment, Cleanup, Redevelopment Exchange System
- ◆ **AWP**- Area-wide planning
- ◆ **BF** – Brownfields
- ◆ **CA** – Cooperative Agreement
- ◆ **CIMC** – Cleanups in my Community
- ◆ **CAR** – Cooperative Agreement Recipient

Frequently Asked Questions

Answers to some frequently asked questions:

Q: My grantee asks me how to submit a work package. What instructions do I give?

A: After the grantee has completed entering data, scroll to the bottom of the form and click the 'Go to Review & Submit' button. ACRES will display the work package information for review (they can correct data at this time) and prompt the grantee to confirm the information by clicking the 'Submit Data Now' button at the bottom of the page. The grantee will be able to reopen the work package and edit the package until their Project Officer reviews the work package, at which point it is Locked for Review.

Q: What resources are available to help my grantee?

A: There are online training courses monthly (2nd Tuesday of each month) and training materials available on the ACRES Information web page. <https://www.epa.gov/brownfields>

Q: How can I see if a grantee is entering data on a grant/property?

A: You can use the reports discussed in this presentation. You can also use the Find Property/CA tab to locate a specific property or CA, click the link for the property or CA, and review the information that has been entered for the property to date.

Q: Can I enter data on Closed grants?

A: Yes, but there are reporting limitations for pre-2003 grants. Some information you want to report such as jobs leveraged may not become available until after the grant is closed.

Frequently Asked Questions

Answers to some frequently asked questions:

Q: How do I make myself the primary contact/data reviewer for a cooperative agreement?

A: Contact your data coordinator or contact the Help Desk and you can be made the primary contact/reviewer.

Q: I have received a work package to review and I need the grantee to make additional edits. How do I inform the grantee of the requested changes?

A: At the bottom of the QA page, enter the note to the grantee in the Reviewer Feedback box and click the Return to Submitter for Clarification button. This sends the work package back to the CAR with your feedback.

Q: I would like to update the information for a property and I cannot contact the grantee, how do I update property information?

A: POs do not have access to initiate data entry. To update property information, contact the ACRES Help Desk to have the work package moved to regional review so the property can be updated.

What if I Have Questions?

◆ ACRES Help Desk

acres_help@usepa.onmicrosoft.com or (703)-284-8212
