Tribal Nonpoint Source Pollution Control Grants

Water Division
Tribal Water Section • October 2019

75 Hawthorne Street, San Francisco, CA 94105
866-EPA-WEST • www.epa.gov/region9

The **Tribal Nonpoint Source Pollution Control Program** helps federally-recognized Indian tribes develop and implement polluted runoff control programs and watershed-based plans that address critical water quality concerns and achieve positive environmental results.

Funding Availability

Approximately \$8 million is anticipated to be allocated for Clean Water Act §319 tribal programs nationwide. This will allow awards of \$30,000 (for tribes with land area less than 1,000 sq. miles) or \$50,000 (for tribes with land area more than 1,000 sq. miles) in base funding to eligible tribes. The remaining funds will be awarded to eligible tribes through a national competition to support the implementation of priority “on-the-ground” watershed projects that will lead to water quality improvements (up to \$100,000 per project).

Examples of Eligible Activities

- Implementing the tribe’s approved Nonpoint Source (NPS) management program
- Implementing best management practices (BMPs) that will reduce or eliminate NPS pollution in receiving water bodies, resulting in water quality benefits
- Implementing “on-the-ground” watershed projects (stream restoration, revegetation, buffer strips, installing gabions, tree planting, removal of invasive/non-native species, or others)
- Developing and implementing a watershed-based plan
- Conducting NPS education programs
- Hiring qualified staff
- Training and travel

The Hualapai tribe installed a brush barrier to reduce the effects of erosion after rain events. Brush barriers are a temporary sediment barrier constructed at the perimeter of a disturbed area to trap and retain sediment. These types of management measures will control or direct the flow of water and prevent erosion.

Eligible Applicants

Federally-Recognized Indian Tribes

CWA §319 Grant Program Eligibility Requirements

Tribes must have an approved NPS Assessment Report and Management Plan and have met the following Financial Assistance Eligibility (FAE) requirements by **October 11, 2019**:

1. Federal recognition
2. Substantial governmental duties and powers
3. Legal authority and jurisdiction over tribal lands or reservation
4. Capability to carry out functions to be exercised in a manner consistent with the terms and purposes of the Clean Water Act and all applicable regulations

For more information, please refer to EPA Region 9’s FAE Handbook for Indian Tribes at

www.epa.gov/tribal/clean-water-act-water-quality-planning-and-protection-programs-financial-assistance

FY2020 Submission Schedule

COMPETITIVE FUNDING:

Eligible applicants submit proposal and required supplemental documents through www.grants.gov.

For more information on the Tribal NPS Competitive Program, including proposal content information and submission instructions, refer to the FY2020 Request for Proposals anticipated to be posted online in November 2019 at www.epa.gov/nps/tribal-319-grant-program.

***Proposals Are
Anticipated to Be Due
November 2019***

BASE FUNDING:

Eligible applicants submit a proposed work plan and budget to assigned Clean Water Act Grants Project Officer.

***Proposals Due
February 28, 2020***

All applicants must submit their final grant application (i.e., SF-424, work plan, budget, and required forms/certifications) through www.grants.gov.

***Application Due
Spring 2020***

For more information on the Tribal NPS Base Program, including submission instructions, refer to the Tribal NPS Base Guidelines available online at www.epa.gov/nps/tribal-319-grant-program.

For more information, including eligibility requirements, funding information and useful resources, please review the Handbook for Developing and Managing Tribal Nonpoint Source Pollution Programs.

This and other resources are available under 'Training and Resources' at www.epa.gov/nps/tribal-319-grant-program.
