

The Water Infrastructure Finance and Innovation Act (WIFIA) program accelerates investment in our nation’s water infrastructure by providing long-term, low-cost supplemental loans for regionally and nationally significant projects.

VALLEJO FLOOD & WASTEWATER DISTRICT

PROJECT NAME: Secondary Effluent Project

LOCATION: Vallejo, CA

INVITED WIFIA LOAN AMOUNT: \$12 million

POPULATION SERVED BY PROJECT: 122,105

PROJECT TYPE: Wastewater

PROJECT DESCRIPTION:

The project will replace Vallejo Wastewater’s primarily utilized and outdated effluent pump station, the Mare Island Pump Station, with a new one. The purpose of the project is to replace critical aging wastewater treatment plant infrastructure that is beyond its useful service life and subject to failure and worker safety issues. The project will increase energy efficiency, operational flexibility and redundancy, improve environmental compliance reporting, and prevent unauthorized raw wastewater discharges to the San Francisco Bay.

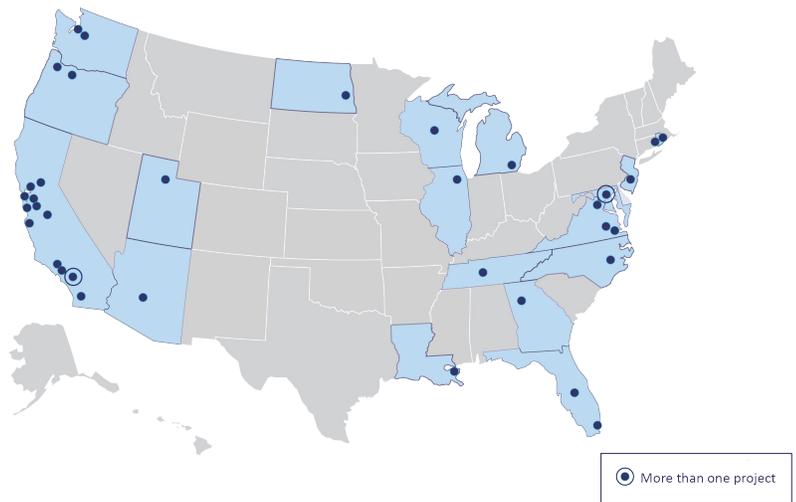

FY 2019 SELECTION ROUND

NUMBER OF PROJECTS SELECTED: 38

TOTAL LOAN AMOUNT: \$6.3 billion to public and private entities

TOTAL WATER INFRASTRUCTURE INVESTMENT SUPPORTED: \$12 billion

NUMBER OF PEOPLE IMPACTED: 24 million in 18 states

Selected projects must submit an application for a WIFIA loan, pass a creditworthiness assessment, negotiate a mutually agreeable term sheet, and execute a credit agreement to receive WIFIA funding. An invitation to apply indicates that EPA believes the selected projects will be able to attain WIFIA loans.
