## HEENEY IS GAME BUT OUTCLASSED

Tunney, Debonair and Cool, Chops Foe to Ribbons; Landing Almost at Will, Until Referee Calls Halt.

By CHET YOUNG  
*Associated Press New York Editor.*  
YANKEE STADIUM, NEW YORK, July 27.—The age-old story of science triumphing over brute force again was told under a canopy of glaring ring lights to 40,000 excited and anxious spectators at Yankee stadium last night.

Once Tunney, debonair products of Greenwich Village, representing the science, had been reduced to a pugilist, snort a final knockout over the hairy-chested and clubfooted Jim Braddock, the boxer from Brooklyn, New York, in the 11th round of a battle that set a new record of the world's title fight.

Truly On to Present.

When the bell rang, Tunney stopped between the horns and waved Braddock to his corner, a hospitably beaten man. He did this, however, only a few seconds before the end of the round. But only seconds, not a minute. Jim Morrison, the tuning referee, gave a vote in favor of Tunney. As for the rest, they were in accord with the decision of the 12 judges.

At the time Tunney was out on his first round, he had been reduced to the powerful onslaughts which the champion was directing against him.

At the time Tunney was out on his first round, he had been reduced to the powerful onslaughts which the champion was directing against him.

Only His Heart Was Strong.

Only His Heart Was Strong.

## HOOVER IS CHEERED IN SAN FRANCISCO

Warmth of Delayed Official Welcome Leads Nominee to Give 900-Word Speech.

By FARNER L. WRIGHT,  
*Associated Correspondent of the  
International News Service.*  
SAN FRANCISCO, Calif., July 27.—  
Dawn streets blared with cheering  
throng, whose arms had outstretched.

River of Fire Engulfs Oil Tanker McColl and It Blows Up

MEN LEAP FOR LIVES  
AS FIREBOAT BURNS

The tanker McColl was practically destroyed when burning oil, floating on the water and hot blasts from the fire, caused the ship to explode. The picture above, the McColl shortly before she was reduced to twisted metal in the Buffalo river.
