

Public Notice: Former BP Oil, Inc. Marcus Hook Refinery - Trainer, PA

DATE OF THIS NOTICE: 2/24/2020

PURPOSE OF THIS NOTICE: The United States Environmental Protection Agency (EPA) is announcing its proposed decision (Statement of Basis) for the Former BP Oil, Inc. Marcus Hook Refinery (Facility) in Trainer, PA, as required by the Resource Conservation and Recovery Act (RCRA). The proposed decision relies on engineering controls as well as land and groundwater use restrictions to ensure protection of human health and the environment. The Facility property will continue to be used solely for non-residential purposes and groundwater beneath the Facility property will not be used for potable, agricultural or commercial purposes.

Summary of Proposed Action:

RCRA Corrective Action - Cleanup Proposal

FACILITY DESCRIPTION: The 350-acre Facility has been operated as a petroleum refinery since the early 1900s and is currently owned/operated by Monroe Energy (2012-Present). The refinery has historically produced gasoline, kerosene, diesel fuel, residual fuel oils, bunker C fuel, aviation fuel, and liquefied petroleum gas and has a current process capacity of approximately 200,000 barrels per day. Although BP Oil, Inc. sold the Facility in 1996, it retained responsibility for certain environmental conditions that existed at the time of the sale.

INFORMATION AVAILABILITY: Information regarding EPA's proposed remedy is available on EPA's website at <https://www.epa.gov/hwcorrectiveactionsites/hazardous-waste-cleanup-monroe-energy-llc-formerly-bp-oil-incorporated>.
