

Q&A

- **U.S. Nuclear Regulatory Commission:** Are you familiar on the Japanese technologies on gamma ray cameras?
 - **Bruce Letellier:** I have not.
 - **U.S. Nuclear Regulatory Commission:** I can pass along more information.
- **New York City Department of Health and Mental Hygiene:** Is there a minimum and maximum of gamma radiation intensity that would be limiting of the detection system or be too high?
 - **Bruce Letellier:** That would be specific to the instrumentation and specified by the manufacturer. Filters and shielding on the instrumentation help to prevent it from getting too high.
- **U.S. EPA:** We lacked data, but we appreciated PHDS Co. working with us and sharing optics the camera uses. We hope to obtain those data, but we will work with KSU to obtain some real data to play with.
